SECURITIES AND EXCHANGE COMMISSION**
Washington, D.C. 20549

**Amendment No. 3
to
Form S-1
REGISTRATION STATEMENT
UNDER
THE SECURITIES ACT OF 1933**

Dynatrace Holdings LLC

(Exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction of
incorporation or organization)

7372
(Primary Standard Industrial
Classification Code Number)

47-2386428
(I.R.S. Employer
Identification No.)

**1601 Trapelo Road, Suite 116
Waltham, MA 02451
(781) 530-1000**

(Address, including zip code, and telephone number, including area code, of registrant's principal executive offices)

**Craig Newfield
General Counsel
Dynatrace LLC
1601 Trapelo Road, Suite 116
Waltham, MA 02451
(781) 530-1000**

(Name, address, including zip code, and telephone number, including area code, of agent for service)

**Kenneth J. Gordon
Joseph C. Theis, Jr.
Seo Salimi
Goodwin Procter LLP
100 Northern Avenue
Boston, MA 02210
(617) 570-1000**

**Copies to:
Bradley C. Reed, P.C.
Michael P. Keeley
Kirkland & Ellis LLP
300 North LaSalle
Chicago, IL 60654
(312) 862-2000**

**Mark G. Borden
David A. Westenberg
Wilmer Cutler Pickering Hale and Dorr LLP
60 State Street
Boston, MA 02019
(617) 526-6000**

**Approximate date of commencement of proposed sale of the securities to the public:
As soon as practicable after the effective date of this Registration Statement.**

If any of the securities being registered on this Form are to be offered on a delayed or continuous basis pursuant to Rule 415 under the Securities Act of 1933, check the following box:

If this Form is filed to register additional securities for an offering pursuant to Rule 462(b) under the Securities Act, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering.

If this Form is a post-effective amendment filed pursuant to Rule 462(c) under the Securities Act, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering.

If this Form is a post-effective amendment filed pursuant to Rule 462(d) under the Securities Act, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 7(a)(2)(B) of the Securities Act.

Title of each Class of Securities to be Registered	Amount to be Registered(1)	Proposed Maximum Offering Price per Share(2)	Proposed Maximum Aggregate Offering Price(2)	Amount of Registration Fee(3)
Common Stock, par value \$0.001 per share	40,951,217	\$15.00	\$614,268,255.00	\$74,450

(1) Includes 5,341,463 shares that the underwriters have an option to purchase.

(2) Estimated solely for the purpose of calculating the registration fee pursuant to Rule 457(a) under the Securities Act of 1933, as amended.

(3) The registrant previously paid \$64,500 of this amount in connection with the initial filing of this registration statement on July 5, 2019.

The registrant hereby amends this registration statement on such date or dates as may be necessary to delay its effective date until the registrant shall file a further amendment that specifically states that this registration statement shall thereafter become effective in accordance with Section 8(a) of the Securities Act of 1933, as amended, or until this registration statement shall become effective on such date as the Securities and Exchange Commission, acting pursuant to said Section 8(a), may determine.

EXPLANATORY NOTE

Dynatrace Holdings LLC, the registrant whose name appears on the cover of this registration statement, is a Delaware limited liability company and indirect equityholder of Dynatrace Holding Corp. Dynatrace LLC is a wholly owned subsidiary of Dynatrace Holding Corp. Immediately prior to the effectiveness of this registration statement, Dynatrace Holdings LLC will (i) through a series of corporate reorganization steps, become the parent company of Dynatrace Holding Corp. and (ii) immediately thereafter, convert into a Delaware corporation with the name Dynatrace, Inc. As a result of those transactions, each of Dynatrace Holding Corp. and Dynatrace LLC will be a wholly owned indirect subsidiary of Dynatrace, Inc., and the unit holders of Dynatrace Holdings LLC will become holders of shares of common stock of Dynatrace, Inc.

Except as disclosed in the prospectus, the consolidated financial statements and selected historical consolidated financial data and other financial information included in this registration statement are those of Dynatrace, Inc. and its subsidiaries after giving effect to the transactions described above. Shares of common stock of Dynatrace, Inc. are being offered by the prospectus included in this registration statement.

Through and including _____, 2019 (the 25th day after the date of this prospectus), all dealers effecting transactions in these securities, whether or not participating in this offering, may be required to deliver a prospectus. This is in addition to a dealer's obligation to deliver a prospectus when acting as an underwriter and with respect to an unsold allotment or subscription.

Neither we, the selling stockholders, nor the underwriters have authorized anyone to provide any information or make any representations other than the information contained in this prospectus or in any free writing prospectus prepared by or on behalf of us or to which we have referred you. We, the selling stockholders and the underwriters take no responsibility for, and can provide no assurance as to the reliability of, any other information that others may give you. If anyone provides you with different or inconsistent information, you should not rely on it.

We and the selling stockholders are offering to sell, and seeking offers to buy, shares of our common stock only in jurisdictions where offers and sales are permitted. The information contained in this prospectus is accurate only as of the date of this prospectus, regardless of the time of delivery of this prospectus or of any sale of our common stock. Our business, financial condition, results of operations and prospects may have changed since that date.

[Table of Contents](#)

For investors outside of the United States: neither we, the selling stockholders, nor the underwriters have done anything that would permit this offering or possession or distribution of this prospectus in any jurisdiction where action for that purpose is required, other than in the United States. You are required to inform yourselves about and to observe any restrictions relating to this offering and the distribution of this prospectus outside of the United States.

Unless the context otherwise requires, the terms “Dynatrace,” the “Company,” “we,” “us” and “our” in this prospectus refer to Dynatrace, Inc. and its consolidated subsidiaries after giving effect to the Spin-Off Transactions described herein. The term “Thoma Bravo Funds” refers to Thoma Bravo Fund X, L.P., Thoma Bravo Fund X-A, L.P., Thoma Bravo Fund XI, L.P., Thoma Bravo Fund XI-A, L.P., Thoma Bravo Executive Fund XI, L.P., Thoma Bravo Special Opportunities Fund I, L.P. and Thoma Bravo Special Opportunities Fund I AIV, L.P., and the term “Thoma Bravo” refers to Thoma Bravo, LLC, the management company and ultimate general partner of the Thoma Bravo Funds, and, unless the context otherwise requires, its affiliated entities. The term “Dynatrace®” refers to our Software Intelligence Platform.

PROSPECTUS SUMMARY

This summary highlights selected information that is presented in greater detail elsewhere in this prospectus. This summary does not contain all of the information you should consider before investing in our common stock. You should read this entire prospectus carefully, including the sections titled "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" and our consolidated financial statements and the related notes included elsewhere in this prospectus, before making an investment decision.

DYNATRACE, INC.

Overview

We offer the market-leading software intelligence platform, purpose-built for the enterprise cloud. As enterprises embrace the cloud to effect their digital transformation, our all-in-one intelligence platform is designed to address the growing complexity faced by technology and digital business teams. Our platform utilizes artificial intelligence at its core and advanced automation to provide answers, not just data, about the performance of applications, the underlying hybrid cloud infrastructure, and the experience of our customers' users. We designed our software intelligence platform to allow our customers to modernize and automate IT operations, develop and release high quality software faster, and improve user experiences for better business outcomes. As a result, as of March 31, 2019, our products are trusted by more than 2,300 customers in over 70 countries in diverse industries such as banking, insurance, retail, manufacturing, travel and software.

Today's leading companies are striving to deliver innovative, high performance digital services that expand market opportunities, to compete more effectively, and to operate with increased agility. Software is increasingly central to how enterprises seek to accomplish these goals. Applications sit at the core of this software revolution and are central to the digital transformation of these enterprises—from the mission critical enterprise applications that power factories, enable trading, manage transportation networks, and run business systems to the applications that consumers use every day to bank, shop, entertain, travel, and more.

Developing and operating software is harder than ever, largely driven by:

- 1) **Cloud Transformation:** Enterprises are building and deploying software across multiple public and on-premise platforms, creating significant visibility challenges across all of an enterprise's hosted environments.
- 2) **Application Complexity:** Applications are increasingly complex and deployed as microservices-based architectures that are written in multiple different programming languages with hundreds of loosely coupled service connections. The scale of this complexity is heightened by the advent of the Internet of Things, which increases the number of potential sources of application failure.
- 3) **DevOps:** Ensuring that software updates work without issues has grown more challenging due to the increased frequency of software releases, reduced testing time, and the use of independent development teams.
- 4) **User Experience:** User expectations for software performance have rapidly increased and enterprises are focused on advancing branded experiences to maximize revenue, differentiate offerings, and retain competitive positions.

Traditional approaches for developing, operating, and monitoring software were not designed for the enterprise cloud environment. Traditional monitoring solutions were developed in an era in which applications were monolithic, updated infrequently, and run in static data center environments. These monitoring solutions, including application performance monitoring, or APM, infrastructure monitoring, incident and alert management, and user experience monitoring, are difficult to deploy, narrow in scope, and were designed to operate in a simpler, siloed environment. Each tool in this approach only collects data about individual components of the computing stack, such as applications, infrastructures, logs, networks, or user experiences. In order to get an end-to-end view using these traditional approaches, IT teams are required to aggregate and correlate data from these disparate monitoring solutions in an attempt to identify actionable answers, including where bottlenecks occur, how best to optimize for performance and scalability, if an issue is impacting service, and if so, where to find the problem and what to do about it.

With the advent of the enterprise cloud, the challenges and limitations of traditional solutions have been exacerbated. What was once a well understood layering of applications running on operating systems on physical servers connected to physical networks has rapidly become virtualized into software at all levels. Environments have become dynamic. Applications are no longer monolithic and are fragmented into dozens to potentially thousands of microservices, written in multiple software languages. These enterprise cloud environments sprawl from traditional backend applications run on relational databases and mainframes to modern IaaS platforms run on Amazon Web Services, or AWS, Microsoft Azure, or Azure, and Google Cloud Platform. All these factors result in an environment that is web-scale, extremely complex, and dynamic at all layers of the new computing stack.

We believe the scale, complexity, and dynamic nature of this emerging enterprise cloud environment, including the applications that run on it, require a comprehensive monitoring strategy that we refer to as "software intelligence." Starting in 2014, we leveraged the knowledge and experience of the same engineering team that founded Dynatrace to develop a solution to address the disruptive shift to the enterprise cloud. These efforts resulted in the creation of a new platform, the Dynatrace Software Intelligence Platform, or Dynatrace®. Dynatrace® leverages an automatic instrumentation technology that we call OneAgent®, a real-time dependency mapping system we call SmartScape®, our transaction-centric code analysis technology that we call PurePath®, and an open artificial intelligence, or AI, engine that we call Davis™ for instant answers to degradations in service, anomalies in behavior, and user impact. Dynatrace® simplifies the complexity of the enterprise cloud for cloud architects, application teams and operations teams, while providing actionable insights that accelerate cloud migrations, cloud adoption, and DevOps success.

Unlike traditional multi-tool approaches, Dynatrace® has been integrated with key components of the enterprise cloud ecosystem to support dynamic cloud orchestration, including for AWS, Azure, Google Cloud Platform, Pivotal Cloud Foundry, Red Hat OpenShift, and Kubernetes. In these environments, Dynatrace® automatically launches and monitors the full cloud stack and all the applications and containers running anywhere in the stack, including applications and workloads that may traverse multiple cloud and hybrid environments. We believe that our ability to integrate Dynatrace® with cloud platforms simplifies development and operational efforts, increases visibility, and improves situational awareness for our customers.

We designed Dynatrace® to maximize flexibility and control of the rich monitoring data captured and analyzed by our platform. We believe that it provides the simplicity of software-as-a-service, or SaaS, with the customer option of either maintaining data in the cloud, or at the edge in customer-provisioned infrastructure, which we refer to as Dynatrace® Managed. In this managed offering, we provide updates and enhancements automatically on a monthly basis while allowing customers the flexibility and control to adhere to their own data security and sovereignty requirements.

We market Dynatrace® through a combination of our global direct sales team and a network of partners, including resellers, system integrators, and managed service providers. We target the largest 15,000 global enterprise accounts, which generally have annual revenues in excess of \$750 million.

The Dynatrace Software Intelligence Platform has been commercially available since 2016 and is now our primary offering. The number of Dynatrace® customers increased to 1,364 as of March 31, 2019 from 574 as of March 31, 2018, representing year-over-year growth of 138%. As of March 31, 2019, approximately 53% of Dynatrace® customers added to the platform since April 1, 2017 were new customers, and the remaining 47% were existing customers that either added or converted to Dynatrace®. Our Dynatrace® dollar-based net expansion rate was 140% as of March 31, 2019. See section titled “Management’s Discussion and Analysis of Financial Condition and Results of Operations—Key Metrics.”

Our subscription revenue for the years ended March 31, 2017, 2018, and 2019 was \$232.8 million, \$257.6 million, and \$349.8 million, respectively, representing 57%, 65%, and 81%, respectively, of total revenue and year-over-year growth of 11% and 36%. Our total revenue for the years ended March 31, 2017, 2018, and 2019 was \$406.4 million, \$398.0 million, and \$431.0 million, respectively, representing a year-over-year decline of 2% and a year-over-year increase of 8%.

We had net income (loss) of \$0.8 million, \$9.2 million, and \$(116.2) million for the years ended March 31, 2017, 2018, and 2019, respectively. Our adjusted EBITDA for the years ended March 31, 2017, 2018, and 2019 was \$108.3 million, \$92.8 million, and \$92.9 million, respectively, representing 26.6%, 23.3%, and 21.5%, respectively, of total revenue. See section titled “Non-GAAP Financial Measures” for information regarding our use of adjusted EBITDA and the reconciliation of this measure to net income (loss) determined in accordance with generally accepted accounting principles in the United States, or GAAP.

Industry Background

Key trends impacting the way enterprises develop, manage, and optimize their software environment include:

Software Applications Are Central to Digital Transformation for Businesses Across All Sectors

Whether it is retailers driving higher customer engagement through mobile apps, industrial companies reducing production downtime with predictive maintenance applications, or automobile manufacturers designing self-driving cars, software is central to how enterprises deliver a differentiated user experience. At the same time, software is increasingly embedded throughout the enterprise, managing business critical systems, such as payments processing, inventory and supply chain management, logistics, and many other front- and back-office operations.

Enterprises now focus more of their budget on software innovation and less on operating and maintaining systems in order to remain competitive. As a result, enterprises are investing in new platforms that are built to automate the development, deployment, and operation of modern software applications and accelerate the transition to the enterprise cloud. Further, maintaining visibility across a broad hybrid cloud environment represents a significant challenge, which we believe is a primary reason why digital transformations are slow, often disrupted by performance issues, and can fail to achieve intended objectives.

Changing Customer Expectations are Requiring Enterprises to Prioritize the User Experience

Enterprises are increasingly seeking to differentiate their products and services based on user experiences, with digital interaction becoming the primary channel of communication between enterprises and their customers, partners, and employees. User experience is closely tied to the performance of software applications. As a result, optimal application performance and exceptional user experiences are important to the entire enterprise, not just to the IT staff that maintain these applications. We believe that the need for an exceptional user experience to engage and retain customers will continue to drive demand for instrumentation that helps enterprises to provide high quality, user-focused outcomes.

Benefits of the Enterprise Cloud Make it Essential for Digital Transformation

Enterprises are increasingly adopting cloud technologies to increase agility and accelerate innovation. The key advantages of an enterprise cloud include:

- ***Ability to build better applications at a faster rate.*** Cloud-based application development technologies such as container and microservices architectures, enable enterprises to focus developer resources more on creating and improving value-add application features and less on managing underlying operating systems and infrastructure. In addition to new cloud-based development technologies, enterprises are adopting new processes such as DevOps and Artificial Intelligence for IT Operations, or AIOps, that help accelerate the software delivery cycle.
- ***Operational efficiency.*** Enterprises are moving to the cloud to be more agile and to reduce spending on expensive and static systems, as well as the IT staff needed to maintain them. Furthermore, cloud services can be purchased dynamically as demand ebbs and flows over time, affording greater flexibility, financial efficiencies, and scale than traditional systems.

Shift to Enterprise Cloud Introduces Fundamentally New Software Delivery Challenges

While the cloud offers enterprises some clear advantages over traditional systems, moving to the cloud also creates fundamental new challenges, such as:

- ***Greater complexity.*** Hybrid cloud strategies require that IT teams manage applications and ensure interoperability of operations between private and multiple public clouds, such as AWS, Azure, Google Cloud Platform, or SAP Cloud platform. In addition, these applications are containerized and increasingly fragmented into microservices that are hosted across multiple cloud platforms, creating interdependencies across heterogeneous environments that increase the risk of incompatibility issues and the number of potential failure points if the applications are not deployed and maintained correctly.
- ***Highly dynamic environments.*** Cloud infrastructure and applications are built to scale up or down in real-time depending upon usage and traffic. The automation required to monitor these highly dynamic environments is beyond what is required for monolithic, on-premise applications.
- ***Massive scale.*** As software becomes more critical to business success, the number and size of applications will continue to grow and encompass more features and greater functionality. At the same time, web-scale architectures are enabling enterprises to build applications that are deployed across thousands of hosts and serve millions of users simultaneously. The breadth of functionality and scale of deployments of enterprise cloud applications regularly exceed even the largest applications built in the pre-cloud era.

- **More frequent changes to software.** The adoption of DevOps practices and cloud architectures have increased the speed at which software updates can be developed and deployed. With the application development lifecycle accelerating, enterprises must adapt their software operations environment and culture to ensure that performance and business outcomes are not adversely affected by frequent changes.

Traditional Monitoring Approaches Were Not Built for the Modern Enterprise Cloud

Traditional application monitoring approaches were built before the enterprise cloud was the driving force in digital transformation, and suffer from significant shortcomings when applied in cloud-based environments. Challenges of traditional monitoring solutions for the enterprise cloud include:

- **Manual configuration processes that do not scale.** Traditional monitoring tools require unique agents for each component of an application and rely on IT personnel to manually pre-configure each agent. The complexity and dynamic nature of enterprise cloud applications, which can include thousands of containers and microservices, makes this multi-agent approach costly, slow, and impractical to install and maintain, especially as these applications are rapidly modified and updated.
- **Not designed to capture data across the full application stack.** Traditional APM solutions were created to view a limited portion of the full software stack and provide visibility only into individual applications, without providing visibility into how the applications are interconnected. In order to get a complete view of all applications, from the underlying infrastructure to the user experience, IT personnel are required to manually implement and manage many disparate tools. We believe this approach has resulted in enterprises overinvesting in operations and underinvesting in development, which slows innovation.
- **Only able to provide data, not answers.** Traditional monitoring tools provide data only about narrow components of the technology stack. As a result, IT teams must manually integrate and correlate the data from disparate systems and apply their own assumptions to identify the underlying cause of performance issues. This process is slow, prone to errors, and is made especially challenging by the complexity of enterprise cloud applications.
- **Collect limited snapshots of data that do not provide real-time visibility.** Traditional APM tools were not designed for the far larger and more complex data sets produced by enterprise cloud applications and can only capture snapshots of application performance or user data. This approach requires these tools to rely on partial data sets, reducing their effectiveness in performing precise root-cause determination, adding risk, and delaying innovation. In addition, traditional monitoring tools do not provide visibility into containers and microservices, which leads to blind spots in software performance monitoring when used in closed-based environments.
- **Lack of flexible deployment options.** Traditional monitoring solutions are either deployed as SaaS-only or on-premise-only. SaaS-only solutions often fail to meet the strict governance, security, and scale requirements of large enterprises, and were not built to monitor on-premise applications, making them incompatible with the needs of customers who manage hybrid-hosted applications. Conversely, traditional on-premise solutions were not built to manage cloud applications and are typically upgraded less frequently and thus innovate more slowly than cloud-based applications.

Our Solution

We offer the market-leading software intelligence platform, purpose-built for the enterprise cloud. We built our Dynatrace Software Intelligence Platform from the ground up to meet the challenges of

running an enterprise cloud. Our AI-powered, full-stack, and completely automated platform provides deep insight into dynamic, web-scale, hybrid cloud ecosystems. Dynatrace® is able to provide real-time actionable insights about the performance of our customers' entire software ecosystem by integrating high fidelity, web-scale data, mapping its dependencies in real-time, and analyzing them with an open, deterministic AI engine. Dynatrace® is brought to market through our global direct sales force and a network of partners. The combination of our market-leading platform and go-to-market strategy has allowed us to achieve the scale, growth, and margins that we believe will provide us the capital to continue investing in driving further product differentiation.

Our platform provides the following key benefits:

- **Single agent, fully automated configuration.** Dynatrace® is installed as a single agent, which we refer to as OneAgent®, that automatically configures itself, discovering all components of the full-stack to enable high fidelity and web-scale data capture. OneAgent® dynamically profiles the performance of all components of the full-stack with code-level precision, even as applications and environments change.
- **Full-stack, all-in-one approach with deep cloud integrations.** Dynatrace® combines APM with Cloud Infrastructure Monitoring, AIOps, and Digital Experience Management, or DEM, in a single full-stack approach. We believe that this all-in-one approach reduces the need for a variety of disparate tools and enables our customers to improve productivity and decision making while reducing operating costs. Dynatrace® provides out-of-the-box configuration for the leading cloud platforms, such as AWS, Azure, Google Cloud Platform, Red Hat OpenShift, Pivotal Cloud Foundry, and SAP Cloud Platform, as well as coverage for traditional on-premise mainframe and monolithic applications in a single, easy-to-use, intelligent platform.
- **AI-powered, answer-centric insights.** Davis™, our deterministic AI engine, dynamically baselines the performance of all components in the full-stack, continually learning normal performance thresholds in order to provide precise answers when performance deviates from expected or desired conditions. Unlike correlation engines that overwhelm IT professionals with dozens of alerts from many different tools, Dynatrace® provides a single problem resolution and precise root cause determination. We believe that the accuracy and precision of the answers delivered by our AI engine enable our customers to program automated remediation actions, taking a significant step towards our vision of autonomous cloud operations and accelerating the DevOps transformation.
- **Web-scale and enterprise grade.** Dynatrace® utilizes big data architecture and enterprise-proven cloud technologies that are engineered for web-scale environments. With role-based access and advanced security functionality, Dynatrace® was purpose-built for enterprise wide adoption.
- **Flexible deployment options.** We deploy our platform as a SaaS solution, with the option of retaining the data in the cloud, or at the edge in customer-provisioned infrastructure, which we refer to as Dynatrace® Managed. The Dynatrace® Managed offering allows customers to maintain control of the environment where their data resides, whether in the cloud or on-premise, combining the simplicity of SaaS with the ability to adhere to their own data security and sovereignty requirements. Our Mission Control center automatically upgrades all Dynatrace® instances and offers on-premise cluster customers auto-deployment options that suit their specific enterprise management processes.

Our Opportunity

We believe that our full-stack, all-in-one, software intelligence platform, Dynatrace®, has the ability to expand our potential market opportunity by allowing us to offer our solutions into adjacent markets beyond APM, replacing traditional monitoring tools, and potentially disrupting various well-established IT spending categories, such as infrastructure monitoring, alert and incident management, and network monitoring as enterprise cloud computing replaces traditional data centers. According to Gartner, the global IT operations software market in 2019 is estimated to be \$29 billion and is expected to grow at a compound annual growth rate of 6.7% to \$37.5 billion in 2023.

We believe a significant portion of our market opportunity remains unpenetrated today. According to Gartner, enterprises will quadruple their APM use due to increasingly digitized business processes from 2018 through 2021, to reach 20% of all business applications. As this trend continues, we believe there is an opportunity to increase our annual recurring revenue as enterprise customers expand the number of applications instrumented.

We estimate that the annual potential market opportunity for our Dynatrace® solution is currently approximately \$18 billion. We calculated this figure using the largest 15,000 global enterprises with greater than \$750 million in annual revenue, as identified by S&P Capital IQ in February 2019. We then banded these companies by revenue scale, and multiplied the total number of companies in each band by our calculated annualized booking per customer for companies in each respective band. The calculated annualized bookings per customer applied for each band is calculated using internal company data of actual customer spend. For each respective band, we calculate the average annualized bookings per customer of the top 10% of customers in the band, which we believe to be representative of having achieved broader implementation of our solutions within their enterprises. We believe our potential market opportunity could expand further as enterprises increasingly instrument, monitor, and optimize more of their applications and underlying infrastructure.

Our Growth Strategy

- **Extend our technology and market leadership position.** We intend to maintain our position as the market-leading software intelligence platform through increased investment in research and development and continued innovation. We expect to focus on expanding the functionality of Dynatrace® and investing in capabilities that address new market opportunities. We believe this strategy will enable new growth opportunities and allow us to continue to deliver differentiated high-value outcomes to our customers.
- **Grow our customer base.** We intend to drive new customer growth by expanding our direct sales force focused on the largest 15,000 global enterprise accounts, which generally have annual revenues in excess of \$750 million. In addition, we expect to leverage our global partner ecosystem to add new customers in geographies where we have direct coverage and work jointly with our partners. In other geographies, we utilize a multi-tier “master reseller” model, such as in Africa, Japan, the Middle East, Russia, and South Korea.
- **Increase penetration within existing customers.** We plan to continue to increase penetration within our existing customers by expanding the breadth of our platform capabilities to provide for continued cross-selling opportunities. In addition, we believe the ease of implementation for Dynatrace® provides us the opportunity to expand adoption within our existing enterprise customers, across new customer applications, and into additional business units or divisions. Once customers are on the Dynatrace® platform, we have seen significant dollar-based net expansion due to the ease of use and power of our new platform.

- **Enhance our strategic partner ecosystem.** Our strategic partners include industry-leading system integrators, software vendors, and cloud and technology providers. We intend to continue to invest in our partner ecosystem, with a particular emphasis on expanding our strategic alliances and cloud-focused partnerships, such as AWS, Azure, Google Cloud Platform, Red Hat OpenShift, and Pivotal Cloud Foundry.

Our Sponsor

Thoma Bravo is a leading investment firm building on a more than 35-year history of providing capital and strategic support to experienced management teams and growing companies. Thoma Bravo has invested in many fragmented, consolidating industry sectors in the past, but has become known particularly for its history of successful investments in the application, infrastructure and security software and technology-enabled services sectors, which have been its investment focus for more than 15 years. Thoma Bravo manages a series of investment funds representing more than \$30 billion of capital commitments.

Risks Affecting Us

We are subject to a number of risks, including risks that may prevent us from achieving our business objectives or that may adversely affect our business, financial condition, results of operations and prospects. You should carefully consider the risks described under the heading "Risk Factors" included elsewhere in this prospectus. These risks include, among others:

- We have experienced rapid subscription revenue growth in recent periods, and our recent growth rates may not be indicative of our future growth.
- Our substantial level of indebtedness could materially and adversely affect our financial condition.
- Market adoption of software intelligence solutions for application performance monitoring, digital experience monitoring, infrastructure monitoring, and AIOps is relatively new and may not grow as we expect, which may harm our business and prospects.
- Our business is dependent on overall demand for software intelligence solutions and therefore reduced spending on software intelligence solutions or overall adverse economic conditions may negatively affect our business, operating results and financial condition.
- If we cannot successfully execute on our strategy and continue to develop and effectively market solutions that anticipate and respond to the needs of our customers, our business, operating results and financial condition may suffer.
- We may experience a loss of customers and annualized recurring revenue as customers convert from our Classic products to our Dynatrace® platform.
- We face significant competition which may adversely affect our ability to add new customers, retain existing customers and grow our business.
- Failure to protect and enforce our proprietary technology and intellectual property rights could substantially harm our business, operating results and financial condition.
- We expect to be a controlled company within the meaning of the New York Stock Exchange rules and, as a result, will qualify for and intend to rely on exemptions from certain corporate governance requirements. Upon the completion of this offering, our executive officers,

directors, and Thoma Bravo will beneficially own approximately 73.5% of our issued and outstanding shares of common stock, assuming the sale by us of 34,000,000 shares of common stock in this offering.

- Thoma Bravo has a controlling influence over matters requiring stockholder approval, which may have the effect of delaying or preventing changes of control, or limiting the ability of other stockholders to approve transactions they deem to be in their best interest.

Recent Operating Results (preliminary and unaudited)

Set forth below are selected preliminary consolidated unaudited financial results for the three months ended June 30, 2019. Our consolidated financial results for the three months ended June 30, 2019 are not yet available. The following information reflects our preliminary estimates with respect to the results for the three months ended June 30, 2019, which are based on currently available information and are subject to change. We have provided ranges, rather than specific amounts, for the preliminary results described below primarily because our financial closing procedures for the three months ended June 30, 2019 are not yet complete and, as a result, our final results upon completion of our closing procedures may vary from the preliminary estimates. These estimates should not be viewed as a substitute for interim financial statements prepared in accordance with GAAP.

This selected preliminary consolidated financial data has been prepared by, and is the responsibility of, our management. BDO USA LLP has not audited, reviewed, compiled or applied agreed-upon procedures with respect to this preliminary consolidated financial data. Accordingly, BDO USA LLP does not express an opinion or any other form of assurance with respect thereto.

The following are the selected preliminary unaudited financial results for the three months ended June 30, 2019, as well as a comparison to our unaudited financial results for the three months ended June 30, 2018:

	Three Months Ended June 30,		
	2018	2019 (estimated)	
		Low	High
(in thousands)			
Revenues:			
Subscriptions	\$ 77,924	\$ 106,500	\$ 107,100
License	11,079	3,550	3,850
Services	9,218	10,450	10,550
Total revenue	98,221	120,500	121,500
Net loss	(23,556)	(50,400)	(53,800)
Adjusted EBITDA	16,012	27,000	28,000

The following table reflects the reconciliation of adjusted EBITDA to net loss calculated in accordance with GAAP:

	Three Months Ended June 30,		
	2018	2019 (estimated)	
		Low	High
	(in thousands)		
Net loss	\$(23,556)	\$(50,400)	\$(53,800)
Income tax benefit	(3,483)	(3,000)	(3,000)
Interest expense, net	10,687	19,000	20,000
Amortization	18,343	15,000	15,200
Depreciation	1,943	1,900	2,100
Restructuring and other	410	—	—
Transaction and sponsor related costs	1,333	3,500	4,500
(Gain) loss on currency translation	(2,863)	—	—
Share-based compensation	13,198	41,000	43,000
Adjusted EBITDA	<u>\$ 16,012</u>	<u>\$ 27,000</u>	<u>\$ 28,000</u>

The following are the preliminary number of Dynatrace® Customers and Total ARR as of June 30, 2019, as well as a comparison to the comparable metric as of June 30, 2018:

	As of June 30,		
	2018	2019 (estimated)	
		Low	High
Number of Dynatrace® Customers	733	1,560	1,570
Total ARR (in thousands)	\$ 306,103	\$ 430,000	\$ 435,000

The increase in revenue from the three months ended June 30, 2018 to the three months ended June 30, 2019 is primarily due to the growing adoption of the Dynatrace® platform by new customers combined with existing customers expanding their use of our solutions.

The increase in net loss from the three months ended June 30, 2018 to the three months ended June 30, 2019 is primarily due to higher share-based compensation and increased personnel and other costs to support the expansion of our product offerings. For the three months ended June 30, 2019, we estimate our share-based compensation expense to be between \$41.0 million and \$43.0 million, based on an estimated fair value of approximately \$7.71 for outstanding equity awards as of June 30, 2019. The estimated fair value as of June 30, 2019, was determined by our board of directors using a combination of the probability-weighted expected return method, or PWERM, and the option-pricing model, or OPM, which we refer to as the hybrid method. In the hybrid method, our board of directors considered the initial public offering as a potential future liquidity event. The relative probability of the initial public offering scenario was determined based on an analysis of market conditions as of June 30, 2019, and our expectations as to the timing and likely prospects of the initial public offering as of June 30, 2019. The difference between the estimated fair value of \$7.71 and the assumed initial public offering price of \$14.00 per share (the midpoint of the estimated offering price range set forth on the cover page of this prospectus) is primarily attributable to the hybrid method providing equal weighting to the PWERM and the OPM representing 50% probability attributed to the initial public offering as of June 30, 2019. See section titled "Management's Discussion and Analysis of Financial Condition and

Results of Operations – Critical Accounting Policies and Estimates – Share-based Compensation” for more information about our share-based compensation methodology.

Assuming an initial public offering price of \$14.00 per share (the midpoint of the estimated offering price range set forth on the cover page of this prospectus), we expect to recognize a one-time incremental share-based compensation expense of \$110.0 million to \$120.0 million during the three months ending September 30, 2019 in connection with the mark-to-market method of accounting for outstanding equity awards at June 30, 2019. This incremental expense is in addition to the regular share-based compensation expense we will recognize for the three months ending September 30, 2019. The remaining unrecognized compensation expense of approximately \$49.0 million for these awards as well as incremental costs associated with awards granted in connection with the 2019 Equity Incentive Plan will be recognized prospectively over the remaining requisite service period.

As of June 30, 2019, our cash and cash equivalents were \$57.5 million and our long term debt, net of current portion, was \$1.017 billion.

The selected preliminary consolidated financial data presented above for the three months ended June 30, 2019 is preliminary, is not a comprehensive statement of our financial results and is subject to completion of our financial closing procedures. While we have not identified any unusual events or trends that occurred during the periods that might materially affect these preliminary estimates, our actual results for the three months ended June 30, 2019 will not be available until after this offering is completed. Accordingly, these results may change, and those changes may be material. Further, our preliminary estimated results are not necessarily indicative of the results to be expected for the remainder of fiscal year 2020 or any future period as a result of various factors, including, but not limited to, those discussed in the sections titled “Risk Factors,” “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and “Special Note Regarding Forward-Looking Statements.” Accordingly, you should not place undue reliance upon these preliminary estimates.

Corporate Information

Our principal executive offices are located at 1601 Trapelo Road, Suite 116, Waltham, MA 02451 and our telephone number at that address is (781) 530-1000. Our website address is www.dynatrace.com. Information contained on, or that can be accessed through, our website does not constitute part of this prospectus, and inclusions of our website address in this prospectus are inactive textual references only.

The Dynatrace design logo and our other registered or common law trademarks, service marks or trade names appearing in this prospectus are the property of Dynatrace LLC. This prospectus includes our trademarks and trade names, including, without limitation, Dynatrace®, OneAgent®, SmartScape®, PurePath® and Davis™, which are our property and are protected under applicable intellectual property laws. Other trademarks and trade names referred to in this prospectus are the property of their respective owners.

Spin-Off Transactions

Prior to this offering, Compuware Parent, LLC, or Parent, through its wholly owned indirect subsidiary Dynatrace Holding Corp., or DHC, owned and operated three separate and distinct businesses through three indirect subsidiaries: (i) Dynatrace LLC, the principal operating company of our business, (ii) Compuware Software Group LLC, or Compuware, and (iii) SIGOS LLC, or SIGOS.

Dynatrace Holdings LLC is a direct and indirect equityholder of Parent that elected to be treated as a corporation for U.S. federal income tax purposes and will, after the completion of the transactions described below, convert into a Delaware corporation with the name Dynatrace, Inc. and be the issuer of the shares offered pursuant to this prospectus.

In June 2019, DHC, through a series of transactions, distributed to Parent, and Parent spun-off and distributed to certain of its equityholders (including the Thoma Bravo Funds), all of the equity interests of SIGOS (this transaction is referred to as the "SIGOS Spin-Off"). In connection with the SIGOS Spin-Off, all outstanding intercompany receivables and payables between SIGOS or its subsidiaries, on the one hand, and Dynatrace, Compuware or its respective subsidiaries, on the other hand, were extinguished.

Prior to the effectiveness of the registration statement of which this prospectus is a part, Parent, DHC, Compuware, we, and the other direct and indirect equityholders of Parent will effect the following transactions which will result in (i) the spin-off of Compuware as a separate company to the equityholders of Parent and (ii) Dynatrace, Inc. becoming the ultimate parent company of Dynatrace LLC:

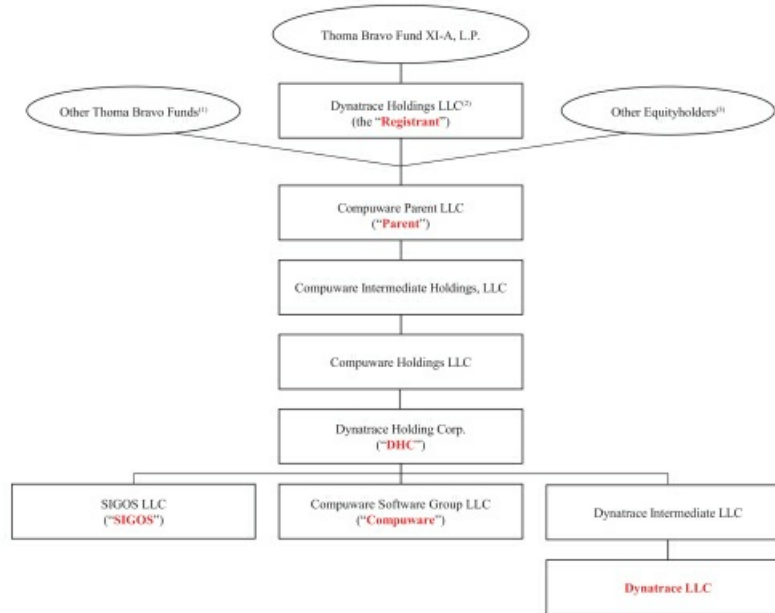

- All of the equityholders of Parent (including the Thoma Bravo Funds) will, through a series of transactions, receive units of Dynatrace Holdings LLC (or, in the case of Dynatrace employees, directors and other service providers who hold equity awards in Parent, the right to receive a new equity award under our 2019 Equity Incentive Plan that is equivalent in value to such equity award in Parent) in exchange for their equity interests and/or incentive equity awards of Parent, after which Parent will merge with and into DHC, with DHC surviving the merger;
- DHC will, through a series of transactions, distribute to Dynatrace Holdings LLC, and Dynatrace Holdings LLC will spin-off and distribute to its equityholders (including the Thoma Bravo Funds), all of the equity interests of Compuware (this transaction is referred to as the "Compuware Spin-Off");
- Compuware will distribute to us an amount equal to \$265.0 million, which represents \$265.0 million of the estimated \$275.0 million tax payable by us in connection with the Compuware Spin-Off, and all outstanding intercompany receivables and payables between Dynatrace or its subsidiaries, on the one hand, or Compuware and its subsidiaries, on the other hand, will be extinguished; and
- Dynatrace Holdings LLC will convert into a Delaware corporation with the name of Dynatrace, Inc., and the unit holders of Dynatrace Holdings LLC will become holders of shares of common stock of Dynatrace, Inc.

The foregoing transactions, together with the SIGOS Spin-Off, are collectively referred to herein as the "Spin-off Transactions."

Estimated corporate-level U.S. federal, state and local taxes of approximately \$275.0 million (based on valuation estimates as of March 31, 2019) will be payable by us in connection with the Compuware Spin-Off. Compuware has agreed to distribute \$265.0 million to us concurrently with the Compuware Spin-Off and prior to the closing of this offering to pay a portion of this liability. Of this estimated tax liability, we expect to pay \$265.0 million to the applicable taxing authorities during the three months ending September 30, 2019, and the balance will be due by no later than March 2020. However, our actual tax liability relating to the Compuware Spin-Off will not be determined until we complete our applicable tax returns with respect to the taxable period that includes the Compuware Spin-Off. We will be solely responsible for any amount of taxes owed in excess of the amount we receive from Compuware prior to this offering. We do not expect to incur any material tax liabilities in

connection with the SIGOS Spin-Off because we estimate that the fair market value of the SIGOS assets as of the date of the SIGOS Spin-Off was materially similar to the adjusted tax basis in such assets. See “Risk Factors—Risks Related to Our Business—The Compuware Spin-Off and the SIGOS Spin-Off are taxable transactions for us, and we will be subject to tax liabilities in connection with such transactions.”

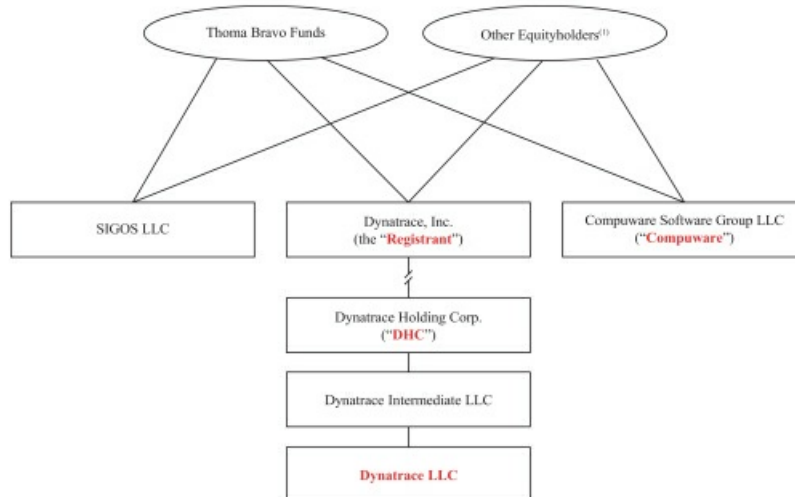

The following diagram shows our organizational structure immediately prior to giving effect to the Spin-Off Transactions.

- (1) Includes special purpose investment entities wholly-owned by certain Thoma Bravo Funds.
- (2) Dynatrace Holdings LLC will convert into a corporation with the name “Dynatrace, Inc.” immediately prior to the effectiveness of the registration statement of which this prospectus is a part.
- (3) Includes employee equityholders and other equityholders who invested alongside the Thoma Bravo Funds.

Following the completion of the Spin-Off Transactions and prior to the closing of this offering, (i) the Thoma Bravo Funds will own approximately 80.7% of Dynatrace, Inc.'s issued and outstanding common stock, (ii) DHC will be a wholly owned indirect subsidiary of Dynatrace, Inc. and (iii) Dynatrace LLC will be a wholly owned indirect subsidiary of DHC. Dynatrace, Inc. will be the ultimate parent company of Dynatrace LLC and will have no material assets or operations other than its direct and indirect ownership interests in its subsidiaries, including Dynatrace LLC. Additionally, Dynatrace, Inc. will have several wholly owned direct subsidiaries that are legacies from the corporate structure that existed prior to this offering. Those entities will have no material assets or operations other than their ownership of a portion of the outstanding shares of DHC. See section titled "Spin-Off Transactions".

The following diagram shows our organizational structure, and the ownership of Compuware and SIGOS, after giving effect to the Spin-Off Transactions.

(1) Includes employee equityholders and other equityholders who invested alongside the Thoma Bravo Funds.

Emerging Growth Company

We are an emerging growth company within the meaning of the Jumpstart Our Business Startups Act of 2012, or the JOBS Act. As an emerging growth company, we may take advantage of certain exemptions from various public reporting requirements, including the requirement that we provide more than two years of audited financial statements and related management's discussion and analysis of financial condition and results of operations, that our internal control over financial reporting be audited by our independent registered public accounting firm pursuant to Section 404 of the Sarbanes-Oxley Act of 2002, or the Sarbanes-Oxley Act, that we provide certain disclosures regarding executive compensation, and that we hold nonbinding stockholder advisory votes on executive compensation and any golden parachute payments not previously approved. We may take advantage of these exemptions until we are no longer an emerging growth company.

In addition, under the JOBS Act, emerging growth companies can delay adopting new or revised accounting standards until such time as those standards apply to private companies. We have elected

to take advantage of the longer phase-in periods for the adoption of new or revised financial accounting standards under the JOBS Act until we are no longer an emerging growth company. Our election to use the phase-in periods permitted by this election may make it difficult to compare our financial statements to those of non-emerging growth companies and other emerging growth companies that have opted out of the longer phase-in periods permitted under the JOBS Act and who will comply with new or revised financial accounting standards. If we were to subsequently elect instead to comply with public company effective dates, such election would be irrevocable pursuant to the JOBS Act.

We will remain an emerging growth company until the earliest to occur of (i) the last day of the fiscal year in which we have more than \$1.07 billion in annual revenue; (ii) the date on which we become a "large accelerated filer" (the fiscal year-end on which more than \$700 million of equity securities are held by non-affiliates as of the last day of our then most recently completed second fiscal quarter (and we have been a public company for at least 12 months and have filed one annual report on Form 10-K)); (iii) the date on which we have issued, in any three-year period, more than \$1.0 billion in non-convertible debt securities; and (iv) the last day of the fiscal year ending after the fifth anniversary of the completion of this offering.

Status as a Controlled Company

Assuming the sale by us of 34,000,000 shares of common stock in this offering, the Thoma Bravo Funds will initially own 199,668,920 shares of our common stock, representing approximately 70.9% of the voting power of our issued and outstanding capital stock following the completion of this offering (or 69.7% of our issued and outstanding shares of common stock if the underwriters' option to purchase additional shares from us is exercised in full), and, as such, we will be a controlled company as of the completion of the offering under the Sarbanes-Oxley Act, and the rules of the New York Stock Exchange, or the NYSE. As a controlled company, a majority of our board of directors is not required to be independent, and we are not required to form independent compensation and nominating and corporate governance committees of our board of directors. As a controlled company, we will remain subject to rules of the Sarbanes-Oxley Act and the NYSE that require us to have an audit committee composed entirely of independent directors. Under these rules, we must have at least one independent director on our audit committee by the date our common stock is listed on the NYSE, at least two independent directors on our audit committee within 90 days of the listing date, and at least three directors, all of whom must be independent, on our audit committee within one year of the listing date. We expect to have six independent directors upon the closing of this offering, of whom two will qualify as independent for audit committee purposes.

If at any time we cease to be a controlled company, we will take all action necessary to comply with the Sarbanes-Oxley Act and rules of the NYSE, including by having a majority of independent directors and ensuring we have a compensation committee and a nominating and corporate governance committee, each composed entirely of independent directors, subject to a permitted "phase-in" period. See the section titled "Management—Status as a Controlled Company."

THE OFFERING

Common stock offered by us	34,000,000 shares.
Common stock offered by the selling stockholders	1,609,754 shares.
Option to purchase additional shares of common stock from us and the selling stockholders	We and certain of the selling stockholders have granted the underwriters an option, exercisable for 30 days after the date of this prospectus, to purchase up to 4,871,138 additional shares of common stock from us and up to 470,325 additional shares of common stock from the selling stockholders.
Common stock to be outstanding after this offering	281,463,124 shares (286,334,262 shares if the underwriters' option to purchase additional shares from us is exercised in full).
Use of proceeds	<p>We estimate that our net proceeds from the sale of shares of our common stock in this offering will be approximately \$445.5 million (or approximately \$510.0 million if the underwriters' option to purchase additional shares from us is exercised in full), assuming an initial public offering price of \$14.00 per share (the midpoint of the estimated price range set forth on the cover page of this prospectus), after deducting estimated underwriting discounts and commissions and estimated offering expenses payable by us.</p> <p>We intend to use our net proceeds from this offering for general corporate purposes, including working capital, operating expenses and capital expenditures, and to repay a portion of the borrowings outstanding under our first and second lien term loan facilities, under which affiliates of certain of the underwriters in this offering are lenders. We will not receive any of the proceeds from the sale of the shares being offered by the selling stockholders. See section titled "Use of Proceeds" for additional information.</p>
Indication of Interest	One or more funds affiliated with Dragoneer Investment Group, LLC have indicated an interest in purchasing an aggregate of up to \$75.0 million in shares of our common stock in this offering at the initial public offering price. Because this indication of interest is not a binding agreement or commitment to purchase, one or more funds affiliated with Dragoneer

Controlled company	Investment Group, LLC could determine to purchase more, less or no shares in this offering or the underwriters could determine to sell more, less or no shares to one or more funds affiliated with Dragoneer Investment Group, LLC. The underwriters will receive the same discount on any of our shares of common stock purchased by one or more funds affiliated with Dragoneer Investment Group, LLC as they will from any other shares of common stock sold to the public in this offering. After this offering, the Thoma Bravo Funds will own approximately 70.9% of our issued and outstanding shares of common stock, assuming the sale by us of 34,000,000 shares of common stock in this offering (or 69.7% of our issued and outstanding shares of common stock if the underwriters' option to purchase additional shares from us is exercised in full). As a result, we expect to be a controlled company within the meaning of the corporate governance standards of the NYSE. See section titled "Management—Status as a Controlled Company."
Risk factors	See section titled "Risk Factors" and other information included in this prospectus for a discussion of factors you should carefully consider before deciding to invest in our common stock.
Proposed New York Stock Exchange symbol	"DT".

The number of shares of our common stock to be outstanding after this offering is based on 247,463,124 shares of common stock outstanding as of June 30, 2019, and includes:

- 16,529,762 shares of our common stock that are issuable upon the exchange of equity awards that are issued, outstanding and vested as of June 30, 2019, which exchange will occur in connection with the Spin-Off Transactions; and
- 2,918,268 shares of restricted stock awards issuable upon the exchange of equity awards that are issued, outstanding and unvested as of June 30, 2019, which exchange will occur in connection with the Spin-Off Transactions.

The number of shares of common stock to be outstanding after this offering excludes:

- 1,236,972 shares of common stock issuable upon the vesting of restricted stock unit awards that are issuable upon the exchange of equity awards that are issued, outstanding and unvested as of June 30, 2019, which exchange will occur in connection with the Spin-Off Transactions;
- 52,000,000 shares of our common stock that will become available for future issuance under our 2019 Equity Incentive Plan, which will become effective prior to the effectiveness of the registration statement of which this prospectus is a part, under which we intend to grant (i) an aggregate of 20,685,002 shares of common stock, restricted stock awards and restricted stock

unit awards, as described above, which are issuable upon conversion of equity grants in connection with the Spin-Off Transactions, as well as (ii) awards to certain of our directors, officers and employees totaling 2,703,486 restricted stock unit awards and 8,201,800 options to purchase shares of common stock at an exercise price equal to the initial public offering price set forth on the cover page of this prospectus, which awards will be effective immediately following the effectiveness of the registration statement of which this prospectus is a part; and

- 6,250,000 shares of our common stock that will become available for future issuance under our 2019 Employee Stock Purchase Plan, which will become effective prior to the effectiveness of the registration statement of which this prospectus is a part.

Except as otherwise indicated, all information contained in this prospectus assumes or gives effect to:

- the filing of our amended and restated certificate of incorporation, or charter, and the effectiveness of our amended and restated bylaws, or bylaws, upon the closing of this offering;
- the completion of the Spin-Off Transactions as if they had occurred on June 30, 2019, at an assumed fair value of \$14.00 per unit of Dynatrace Holdings LLC, as determined by our board of directors, which is the midpoint of the estimated price range set forth on the cover page of this prospectus; and
- no exercise by the underwriters of their option to purchase up to 4,871,138 additional shares of our common stock.

The number of shares of our common stock outstanding following completion of the Spin-Off Transactions will be based on the fair value of a unit of Dynatrace Holdings LLC, as determined by our board of directors (or committee thereof) immediately prior to the Spin-Off Transactions. In the event the fair value as of immediately prior to the completion of the Spin-Off Transactions is determined to be greater than, or less than, the assumed fair value of \$14.00 per unit, the number of shares of our common stock outstanding following completion of the Spin-Off Transactions would decrease or increase, respectively. At a fair value of \$15.00 per unit, which is the high end of the estimated price range set forth on the cover page of this prospectus, the number of shares of our common stock outstanding following completion of the Spin-Off Transactions as if they had occurred on June 30, 2019 would decrease by 3,164,756 shares to 244,298,368. At a fair value of \$13.00 per unit, which is the low end of the estimated price range set forth on the cover page of this prospectus, the number of shares of our common stock outstanding following completion of the Spin-Off Transactions as if they had occurred on June 30, 2019 would increase by 3,651,665 shares to 251,114,789.

SUMMARY CONSOLIDATED FINANCIAL AND OTHER DATA

You should read the following summary consolidated financial data together with our consolidated financial statements and the related notes appearing at the end of this prospectus and the "Selected Consolidated Financial Data" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" sections of this prospectus. We have derived the consolidated statement of operations data for the years ended March 31, 2017, 2018 and 2019 from our audited consolidated financial statements appearing at the end of this prospectus. Our historical results are not necessarily indicative of results that may be expected in the future.

The following tables present selected consolidated financial data for the periods indicated.

	Year Ended March 31,		
	2017	2018	2019
Consolidated Statements of Operations Data:			
Revenue:			
Subscriptions	\$ 232,783	\$ 257,576	\$ 349,830
License	130,738	98,756	40,354
Services	42,856	41,715	40,782
Total revenue	<u>406,377</u>	<u>398,047</u>	<u>430,966</u>
Cost of revenues:			
Cost of subscriptions	52,176	48,270	56,934

Net loss per share, basic and diluted (unaudited) which is subject to change upon final offering price(2)			<u>\$ 0.48</u>
Weighted average shares used in computing net income loss per share, basic and diluted (unaudited) which is subject to change upon final offering price(2)			<u>241,932,041</u>

- (1) The following table summarizes the classification of stock-based compensation expense in our consolidated statements of operations:

	Year Ended March 31,		
	2017	2018	2019
Cost of revenues	\$ 28	\$ 1,720	\$ 5,777
Research and development	71	3,858	12,566
Sales and marketing	122	7,536	24,673
General and administrative	128	9,180	28,135
Total compensation expense	\$ 349	\$ 22,294	\$ 71,151

- (2) Net loss per share has been calculated by giving retroactive effect to the conversion of equity in connection with the Spin-Off Transactions and is derived from the assumed initial public offering price of \$14.00 per share (the midpoint of the estimated offering range set forth on the cover page of this prospectus). This amount is subject to change based on the final offering price.

	As of March 31, 2019		
	Actual	Pro Forma(2)(3)	Pro Forma as Adjusted(2)(4)(5)
Consolidated Balance Sheet Data:			
Cash and cash equivalents	\$ 51,314	51,314	109,892
Working capital, excluding deferred revenue(1)	132,239	132,239	190,817
Total assets	1,811,366	1,811,366	1,869,944
Deferred revenue, current and non-current portion	365,745	365,745	365,745
Long-term debt, net of current portion	1,011,793	1,011,793	628,558
Total liabilities	2,201,624	1,512,427	1,129,192
Total stockholder's equity (deficit)	(390,258)	298,939	740,752

- (1) We define working capital as current assets less current liabilities, excluding related-party payables.
- (2) The pro forma and pro forma as adjusted cash and cash equivalents does not reflect the \$265.0 million that Compuware will distribute to us to partially satisfy the estimated \$275.0 million tax liability incurred by us in connection with the Compuware Spin-Off. We expect to fund the remaining portion of the tax liability with cash flow from operations. Of the total tax liability, we expect to pay approximately \$265.0 million to the applicable taxing authorities during the three months ending September 30, 2019, and the balance will be due by no later than March 2020.
- (3) Gives effect to the completion of the Spin-Off Transactions, as set forth under the section titled "Spin-Off Transactions", including the elimination of the related party payable and the reclassification of our share-based compensation liability to additional paid-in capital, prior to the effectiveness of the registration statement of which this prospectus forms a part.
- (4) Gives effect to the pro forma adjustments set forth above and the sale and issuance by us of 34,000,000 shares of our common stock in this offering, assuming an initial public offering price of \$14.00 per share (the midpoint of the estimated offering price range set forth on the cover page of this prospectus), after deducting estimated underwriting discounts and commissions and estimated offering expenses payable by us, and the application of our net proceeds from this offering, including the repayment of \$386.0 million of borrowings outstanding under our credit facility, as set forth under the section titled "Use of Proceeds."
- (5) Each \$1.00 increase (decrease) in the assumed initial public offering price of \$14.00 per share (the midpoint of the estimated offering price range set forth on the cover page of this prospectus), would increase (decrease) the pro forma as adjusted amount of cash and cash equivalents, working capital excluding deferred revenue, total assets and total stockholders' equity by

\$32.2 million, assuming that the number of shares offered by us, as set forth on the cover page of this prospectus, remains the same and after deducting estimated underwriting discounts and commissions and estimated offering expenses payable by us. We may also increase or decrease the number of shares we are offering. Each increase (decrease) of 1.0 million shares in the number of shares offered by us, as set forth on the cover page of this prospectus, would increase (decrease) the pro forma as adjusted amount of each of cash and cash equivalents, working capital, excluding deferred revenue, total assets and total stockholders' equity by \$13.2 million, assuming no change in the assumed initial public offering price per share and after deducting estimated underwriting discounts and commissions and estimated offering expenses payable by us.

Key Metrics

In addition to our financial information presented in accordance with GAAP, we use a number of operating and financial metrics, including the following key metrics, to clarify and enhance our understanding of past performance and future prospects.

Customers, Annual Recurring Revenue (“ARR”), Dollar-Based Net Expansion Rate and Total ARR

	As of							
	6/30/2017	9/30/2017	12/31/2017	3/31/2018	6/30/2018	9/30/2018	12/31/2018	3/31/2019
Number of Dynatrace® Customers	201	276	399	574	733	899	1,149	1,364
Dynatrace® ARR (in thousands)	\$ 30,739	\$ 45,007	\$ 61,165	\$ 85,306	\$ 118,371	\$ 159,949	\$ 226,976	\$ 282,815
Classic ARR (in thousands)	\$ 201,522	\$ 202,650	\$ 201,927	\$ 195,008	\$ 187,732	\$ 166,490	\$ 145,341	\$ 120,459
Total ARR (in thousands)	\$ 232,261	\$ 247,657	\$ 263,092	\$ 280,314	\$ 306,103	\$ 326,439	\$ 372,317	\$ 403,274
Dynatrace® Dollar-Based Net Expansion Rate	*	*	*	*	122%	120%	129%	140%

* Not meaningful

For an explanation of our key metrics, see section titled “Management’s Discussion and Analysis of Financial Condition and Results of Operations—Key Metrics.”

RISK FACTORS

Investing in our common stock involves a high degree of risk. You should carefully consider the risks and uncertainties described below, together with all of the other information in this prospectus, including the section titled "Management's Discussion and Analysis of Financial Condition and Results of Operations" and our consolidated financial statements and related notes, before making a decision to invest in our common stock. The risks and uncertainties described below may not be the only ones we face. If any of the risks actually occur, our business, operating results, financial condition and prospects could be materially and adversely affected. In that event, the market price of our common stock could decline, and you could lose all or part of your investment.

Risks Related to Our Business

We have experienced rapid subscription revenue growth in recent periods, and our recent growth rates may not be indicative of our future growth.

We have experienced rapid subscription revenue growth in recent periods. From the year ended March 31, 2018 to the year ended March 31, 2019, our subscription revenue grew 35.8% from \$257.6 million to \$349.8 million, respectively. From the year ended March 31, 2018 to the year ended March 31, 2019, subscription revenue as a percentage of total revenue grew from 65% to 81%, respectively. From the year ended March 31, 2017 to the year ended March 31, 2018, our subscription revenue grew 10.7% from \$232.8 million to \$257.6 million, respectively. From the year ended March 31, 2017 to the year ended March 31, 2018, subscription revenue as a percentage of total revenue grew from 57% to 65%, respectively. This subscription revenue growth may not be indicative of our future subscription revenue growth and we may not be able to sustain revenue growth consistent with recent history, or at all. We believe our ability to continue to increase our revenue depends on a number of factors, including, but not limited to:

- our ability to attract new customers and retain and increase sales to existing customers;
- our ability to continue to expand customer adoption of our Dynatrace ® platform, including the conversion of customers from our Classic products;
- our ability to develop our existing platform and introduce new solutions on our platform;
- continued growth of cloud-based services and solutions;
- our ability to continue to develop and offer products and solutions that are superior to those of our competitors;
- our ability to retain customers; and
- our ability to hire and retain sufficient numbers of sales and marketing, research and development and general and administrative personnel, and expand our global operations.

If we are unable to achieve any of these requirements, our subscription revenue growth will be adversely affected.

Our quarterly and annual operating results may be adversely affected due to a variety of factors, which could make our future results difficult to predict.

Our annual and quarterly revenue and operating results have fluctuated significantly in the past and may vary significantly in the future due to a variety of factors, many of which are outside of our control. Our financial results in any one quarter may not be meaningful and should not be relied upon as indicative of future performance. If our revenues, earnings or operating results fall below the

Table of Contents

expectations of investors or securities analysts in a particular quarter, or below any guidance that we may provide, the price of our common stock could decline. We may not be able to accurately predict our future billings, revenues, earnings or operating results. Some of the important factors that may cause our operating results to fluctuate from quarter to quarter or year to year include:

- fluctuations in the demand for our solutions, and the timing of purchases by our customers, particularly larger purchases;
- fluctuations in the rate of utilization by enterprise customers of the cloud to manage their business needs, or a slow-down in the migration of enterprise systems to the cloud;
- our ability to attract new customers and retain existing customers;
- the budgeting cycles and internal purchasing priorities of our customers;
- changes in customer renewal rates, churn and our ability to cross-sell additional solutions to our existing customers and our ability to up-sell additional quantities of previously purchased products to existing customers;
- the seasonal buying patterns of our customers;
- the payment terms and contract term length associated with our product sales and their effect on our billings and free cash flow;
- changes in customer requirements or market needs;
- the emergence of significant privacy, data protection, security or other threats, regulations or requirements applicable to the use of enterprise systems or cloud-based systems that we are not prepared to meet or that require additional investment by us;
- changes in the demand and growth rate of the market for software and systems monitoring and analytics solutions;
- our ability to anticipate or respond to changes in the competitive landscape, or improvements in the functionality of competing solutions that reduce or eliminate one or more of our competitive advantages;
- our ability to timely develop, introduce and gain market acceptance for new solutions and product enhancements;
- our ability to adapt and update our products and solutions on an ongoing and timely basis in order to maintain compatibility and efficacy with the frequently changing and expanding variety of software and systems that our products are designed to monitor;
- our ability to successfully expand our business internationally;
- our ability to maintain and expand our relationships with strategic technology partners, who own, operate and offer the major platforms on which cloud applications operate, with which we must interoperate and remain compatible, and from which we must obtain certifications and endorsements in order to maintain credibility and momentum in the market;
- our ability to control costs, including our operating expenses;
- our ability to efficiently complete and integrate any acquisitions or business combinations that we may undertake in the future;
- general economic, industry and market conditions, both domestically and in our foreign markets;
- the emergence of new technologies or trends in the marketplace;
- foreign currency exchange rate fluctuations;

Table of Contents

- the timing of revenue recognition for our customer transactions, and the effect of the mix of time-based licenses, SaaS subscriptions and perpetual licenses on the timing of revenue recognition;
- extraordinary expenses, such as litigation or other dispute-related settlement payments; and
- future accounting pronouncements or changes in our accounting policies.

Any one of the factors referred to above or the cumulative effect of some of the factors referred to above may result in our operating results being below our expectations and the expectations of securities analysts and investors, or may result in significant fluctuations in our quarterly and annual operating results, including fluctuations in our key performance indicators. This variability and unpredictability could result in our failure to meet our business plan or the expectations of securities analysts or investors for any period. In addition, a significant percentage of our operating expenses are fixed in nature in the short term and based on forecasted revenue trends. Accordingly, in the event of revenue shortfalls, we are generally unable to mitigate the negative impact on margins in the short term.

Our debt obligations contain restrictions that impact our business and expose us to risks that could adversely affect our liquidity and financial condition.

At March 31, 2019, we had approximately \$1.0 billion of aggregate indebtedness, consisting of \$947.6 million outstanding under our first lien term loan facility, \$88.7 million outstanding under our second lien term loan facility, \$0.5 million outstanding under a \$15.0 million letter of credit sub-facility and \$14.3 million in unamortized debt issuance fees. We also have a \$60.0 million revolving credit facility under which we had no outstanding borrowings as of March 31, 2019. Under our first lien term loan facility, we are required to repay approximately \$2.4 million of principal at the end of each quarter (commencing March 31, 2019) and are required to pay accrued interest on the last day of each interest accrual period. Under our second lien term loan facility, we are not required to make any periodic repayments of principal, but are required to pay accrued interest upon the last day of each interest accrual period. Interest accrual periods under each loan facility are typically one month in duration. The actual amounts of our debt servicing payments vary based on the amounts of indebtedness outstanding, the applicable interest accrual periods and the applicable interest rates, which vary based on prescribed formulas. Our cash paid for interest was approximately \$41.0 million during the year ended March 31, 2019.

The credit and guaranty agreement, which we refer to as our Credit Agreement, governing our term loan facility and our revolving credit facility, which we refer to as our Credit Facility, contains various covenants that are operative so long as our Credit Facility remains outstanding. The covenants, among other things, limit our and certain of our subsidiaries' abilities to:

- incur additional indebtedness or guarantee indebtedness of others;
- create additional liens on our assets;
- pay dividends and make other distributions on our capital stock, and redeem and repurchase our capital stock;
- make investments, including acquisitions;
- make capital expenditures;
- enter into mergers or consolidations or sell assets;
- engage in sale and leaseback transactions; or
- enter into transactions with affiliates.

[Table of Contents](#)

Our Credit Facility also contains numerous affirmative covenants, including financial covenants. Even if our Credit Facility is terminated, any additional debt that we incur in the future could subject us to similar or additional covenants. For a more detailed description of our indebtedness, see "Description of Indebtedness."

If we experience a decline in cash flow due to any of the factors described in this "Risk Factors" section or otherwise, we could have difficulty paying interest and the principal amount of our outstanding indebtedness and meeting the financial covenants set forth in our Credit Facility. If we are unable to generate sufficient cash flow or otherwise to obtain the funds necessary to make required payments under our Credit Facility, or if we fail to comply with the various requirements of our indebtedness, we could default under our Credit Facility. Our Credit Facility also contains provisions that trigger repayment obligations or an event of default upon a change of control, as well as various representations and warranties which, if breached, could lead to an event of default. Any such default that is not cured or waived could result in an acceleration of indebtedness then outstanding under our Credit Facility, an increase in the applicable interest rates under our Credit Facility, and a requirement that our subsidiaries that have guaranteed our Credit Facility pay the obligations in full, and would permit the lenders to exercise remedies with respect to all of the collateral that is securing our Credit Facility, including substantially all of our and our subsidiary guarantors' assets. We cannot be certain that our future operating results will be sufficient to ensure compliance with the covenants in our Credit Agreement or to remedy any defaults under our Credit Agreement. In addition, in the event of any default and related acceleration, we may not have or be able to obtain sufficient funds to make any accelerated payments. Any such default could have a material adverse effect on our liquidity, financial condition and results of operations.

Our substantial level of indebtedness could materially and adversely affect our financial condition.

We now have, and expect to continue to have, significant indebtedness that could result in a material and adverse effect on our business by:

- increasing our vulnerability to general adverse economic and industry conditions;
- requiring us to dedicate a substantial portion of our cash flow from operations to payments on our indebtedness, thereby reducing the availability of our cash flow to fund working capital, capital expenditures, acquisitions, research and development efforts and other general corporate purposes;
- limiting our flexibility in planning for, or reacting to, changes in our business and the industry in which we operate; and
- exposing us to the risk of increased interest rates as certain of our borrowings are, and may in the future be, at variable interest rates.

The occurrence of any one of these events could have a material adverse effect on our business, financial condition, results of operations and ability to satisfy our obligations under our Credit Facility.

We may need to refinance all or a portion of our indebtedness, including our Credit Facility, at or before maturity. We may not be able to accomplish any of these alternatives on terms acceptable to us, or at all. In addition, our existing Credit Agreement restricts us, and future credit agreements may restrict us, from adopting any of these alternatives. The failure to generate sufficient cash flow or to achieve any of these alternatives could materially adversely affect our ability to pay the amounts due under our Credit Agreement.

The Compuware Spin-Off and the SIGOS Spin-Off are taxable transactions for us, and we will be subject to tax liabilities in connection with such transactions.

Neither the Compuware Spin-Off nor the SIGOS Spin-Off qualifies as a tax-free spin-off under Section 355 of the Internal Revenue Code, or the Code. Estimated corporate-level U.S. federal, state and local taxes of approximately \$275.0 million, or the Estimated Compuware Spin Tax Liability, will be payable by us in connection with the Compuware Spin-Off and in connection therewith, Compuware will distribute to us \$265.0 million, as described below. These taxes will generally be based upon the gain computed as the difference between the fair market value of the Compuware assets distributed and the adjusted tax basis in such assets. We will not have sufficient losses available to fully offset the gain we expect to realize as a result of the Compuware Spin-Off. We do not expect to incur any material tax liabilities in connection with the SIGOS Spin-Off because we estimate that the fair market value of the SIGOS assets is materially similar to the adjusted tax basis in such assets.

Pursuant to a Master Structuring Agreement, Compuware has agreed to distribute to us an amount equal to \$265.0 million concurrently with the Compuware Spin-Off and prior to the closing of this offering in connection with the estimated tax liability. See “Spin-Off Transactions—Master Structuring Agreement.” However, the actual amount of our tax liability relating to the Compuware Spin-Off will not be determined until we complete our applicable tax returns with respect to the taxable period that includes the Compuware Spin-Off as certain factors within these returns will determine the effective rate at which the gain will be taxed. We will be solely responsible for any amount of taxes owed in excess of the Estimated Compuware Spin Tax Liability, which amount could be material, and Compuware will not pay or reimburse us for such amount. Although the Estimated Compuware Spin Tax Liability has been calculated based on a third-party valuation of Compuware and we believe is a reasonable estimate of the taxes owed by us with respect to the Compuware Spin-Off, we cannot offer any assurances that the final tax liability will not be different. Any tax liabilities in excess of the Estimated Compuware Spin Tax Liability may adversely affect our results of operations.

In addition, if the Internal Revenue Service or other taxing authorities were to successfully challenge in an audit or other tax dispute the amount of taxes owed in connection with the Compuware Spin-Off or the SIGOS Spin-Off, we could be liable for additional taxes, including interest and penalties. We would be responsible for any such additional amounts, which would not be reimbursed to us by Compuware. While we currently expect to obtain an insurance policy that provides coverage if the Internal Revenue Service or other taxing authorities assert that additional taxes are owed in connection with the Compuware Spin-Off, such policy will be subject to certain limitations and exclusions, and we cannot offer any assurances that such policy (if obtained) will be available or that it will fully cover any additional taxes owed by us. We will not obtain a tax insurance policy relating to the SIGOS Spin-Off. Any tax liabilities determined to be owed by us relating to the Compuware Spin-Off or the SIGOS Spin-Off following an audit or other tax dispute may adversely affect our results of operations.

Federal and state fraudulent transfer laws may permit a court to avoid Compuware’s distribution to us to partially satisfy the estimated tax liability incurred by us from the Compuware Spin-Off.

Prior to the effectiveness of the registration statement of which this prospectus is a part, Compuware will distribute \$265.0 million to us to partially satisfy the estimated \$275.0 million tax liability incurred by us in connection with the Compuware Spin-Off. See “Spin-Off Transactions.” Such distribution might be subject to challenge under federal and state fraudulent conveyance laws even if the distribution was completed. Under applicable laws, the distribution could be avoided as a fraudulent transfer or conveyance if, among other things, the transferor received less than reasonably equivalent value or fair consideration in return for, and was insolvent or rendered insolvent by reason of, the

transfer. Alternatively, the distribution could be avoided as a preference if Compuware were to commence a bankruptcy case within 90 days following the distribution (or one year before commencement of a bankruptcy case if we are deemed to be an "insider" with respect to Compuware under the U.S. Bankruptcy Code).

We cannot be certain as to the standards a court would use to determine whether or not Compuware was insolvent at the relevant time. In general, however, a court would look at various facts and circumstances related to the entity in question, including evaluation of whether or not (i) the sum of its debts, including contingent and unliquidated liabilities, was greater than the fair market value of all of its assets; (ii) the present fair market value of its assets was less than the amount that would be required to pay its probable liability on its existing debts, including contingent liabilities, as they become absolute and mature; or (iii) it could pay its debts as they become due.

If a court were to find that the distribution was a fraudulent transfer or conveyance, the court could avoid the distribution. In addition, the distribution could also be avoided if a court were to find that it is not a legal distribution or dividend under applicable corporate law. The resulting complications, costs and expenses of either finding could materially adversely affect our financial condition and results of operations.

Failure to maintain our credit ratings could adversely affect our liquidity, capital position, ability to hedge certain financial risks, borrowing costs and access to capital markets.

Our credit risk is evaluated by the major independent rating agencies, and such agencies have in the past and could in the future downgrade our ratings. We cannot assure you that we will be able to maintain our current credit ratings, and any additional actual or anticipated changes or downgrades in our credit ratings, including any announcement that our ratings are under further review for a downgrade, may have a negative impact on our liquidity, capital position, ability to hedge certain financial risks and access to capital markets. In addition, changes by any rating agency to our outlook or credit rating could increase the interest we pay on outstanding or future debt.

Market adoption of software intelligence solutions for application performance monitoring, digital experience monitoring, infrastructure monitoring, and AIOps is relatively new and may not grow as we expect, which may harm our business and prospects.

The utilization of software intelligence solutions, such as Dynatrace®, for digital experience monitoring, infrastructure monitoring, and AIOps is relatively new. We believe our future success will depend in large part on the growth, if any, in the demand for software intelligence solutions, particularly the demand for enterprise-wide solutions. We currently target the markets for application performance monitoring, or APM, infrastructure monitoring, AIOps and digital experience monitoring. It is difficult to predict customer demand, adoption, churn and renewal rates for our solutions, the rate at which existing customers expand their usage of our solutions, the size and growth rate of the market for our solutions. Expansion in our addressable market depends on a number of factors, including the continued and growing reliance of enterprises on software applications to manage and drive critical business functions and customer interactions, increased use of microservices and containers, as well as the continued proliferation of mobile applications, large data sets, cloud computing and the Internet of Things. If our solutions do not achieve widespread adoption or there is a reduction in demand for software intelligence solutions generally, it could result in reduced customer purchases, reduced renewal rates and decreased revenue, any of which will adversely affect our business, operating results and financial condition.

Our business is dependent on overall demand for software intelligence solutions and therefore reduced spending on software intelligence solutions or overall adverse economic conditions may negatively affect our business, operating results and financial condition.

Our business depends on the overall demand for software intelligence solutions, particularly demand from mid- to large-sized enterprises worldwide, and the purchase of our solutions by such organizations is often discretionary. In an economic downturn, our customers may reduce their operating or IT budgets, which could cause them to defer or forego purchases of software intelligence solutions, including ours. Customers may delay or cancel IT projects or seek to lower their costs by renegotiating vendor contracts or renewals. To the extent purchases of software intelligence solutions are perceived by existing customers and potential customers to be discretionary, our revenue may be disproportionately affected by delays or reductions in general IT spending. Weak global economic conditions or a reduction in software intelligence spending, even if general economic conditions remain unaffected, could adversely impact our business, operating results and financial condition in a number of ways, including longer sales cycles, lower prices for our solutions, reduced subscription renewals and lower revenue. In addition, any negative economic effects or instability resulting from changes in the political environment and international relations in the United States or other key markets as well as resulting regulatory or tax policy changes may adversely affect our business and financial results.

As the market for software intelligence solutions is new and continues to develop, trends in spending remain unpredictable and subject to reductions due to the changing technology environment and customer needs as well as uncertainties about the future.

If we cannot successfully execute on our strategy and continue to develop and effectively market solutions that anticipate and respond to the needs of our customers, our business, operating results and financial condition may suffer.

The market for software intelligence solutions is at an early stage of development and is characterized by constant change and innovation, and we expect it to continue to rapidly evolve. Moreover, many of our customers operate in industries characterized by changing technologies and business models, which require them to develop and manage increasingly complex software application and IT infrastructure environments. Our future success, if any, will be based on our ability to consistently provide our customers with a unified, real-time view into the performance of their software applications and IT infrastructure, provide notification and prioritization of degradations and failures, perform root cause analysis of performance issues, and analyze the quality of their end users' experiences and the resulting impact on their businesses and brands. If we do not respond to the rapidly changing needs of our customers by developing and making available new solutions and solution enhancements that can address evolving customer needs on a timely basis, our competitive position and business prospects will be harmed.

In addition, the process of developing new technology is complex and uncertain, and if we fail to accurately predict customers' changing needs and emerging technological trends, our business could be harmed. We believe that we must continue to dedicate significant resources to our research and development efforts, including significant resources to developing new solutions and solution enhancements before knowing whether the market will accept them. Our new solutions and solution enhancements could fail to attain sufficient market acceptance for many reasons, including:

- delays in releasing new solutions or enhancements to the market;
- delays or failures to provide updates to customers to maintain compatibility between Dynatrace[®] and the various applications and platforms being used in the customers' application and enterprise cloud environment;
- the failure to accurately predict market or customer demands;

Table of Contents

- defects, errors or failures in the design or performance of our new solutions or solution enhancements;
- negative publicity about the performance or effectiveness of our solutions;
- the introduction or anticipated introduction of competing products by our competitors; and
- the perceived value of our solutions or enhancements relative to their cost.

To the extent we are not able to continue to execute on our business model to timely and effectively develop and market applications to address these challenges and attain market acceptance, our business, operating results and financial condition will be adversely affected.

Further, we may make changes to our solutions that our customers do not value or find useful. We may also discontinue certain features, begin to charge for certain features that are currently free or increase fees for any of our features or usage of our solutions. If our new solutions or enhancements do not achieve adequate acceptance in the market, our competitive position will be impaired, our revenue may decline or grow more slowly than expected and the negative impact on our operating results may be particularly acute, and we may not receive a return on our investment in the upfront research and development, sales and marketing and other expenses we incur in connection with new solutions or solution enhancements.

If our platform and solutions do not effectively interoperate with our customers' existing or future IT infrastructures, installations of our solutions could be delayed or cancelled, which would harm our business.

Our success depends on the interoperability of our platform and solutions with third-party operating systems, applications, data and devices that we have not developed and do not control. Any changes in such operating systems, applications, data or devices that degrade the functionality of our platform or solutions or give preferential treatment to competitive software could adversely affect the adoption and usage of our platform. We may not be successful in adapting our platform or solutions to operate effectively with these applications, data or devices. If it is difficult for our customers to access and use our platform or solutions, or if our platform or solutions cannot connect a broadening range of applications, data and devices, then our customer growth and retention may be harmed, and our business and operating results could be adversely affected.

Enterprise cloud deployments utilize multiple third-party platforms and technologies, and these technologies are updated to new versions at a rapid pace. As a result, we deliver frequent updates to our solutions designed to maintain compatibility and support for our customers' changing technology environments and ensure our solutions' ability to continue to monitor the customer's applications. If our solutions fail to work with any one or more of these technologies or applications, or if our customers fail to install the most recent updates and versions of our solutions that we offer, our solutions will be unable to continuously monitor our customer's critical business applications.

Ensuring that our solutions are up-to-date and compatible with the technology and enterprise cloud platforms utilized by our customers is critical to our success. We have formed alliances with many technology and cloud platform providers to provide updates to our solutions to maintain compatibility. We work with technology and cloud platform providers to understand and align updates to their product roadmaps and engage in early access and other programs to ensure compatibility of our solutions with the technology vendor's generally available release. If our relations with our technology partners ceases we may be unable to deliver these updates, or if our customers fail to install the most recent updates and versions of our solutions that we offer, then our customers' ability to benefit from our solution may decrease significantly and, in some instances, may require the customer to de-install our solution due to the incompatibility of our solution with the customer's applications.

Our future revenues and operating results will be harmed if we are unable to acquire new customers, if our customers do not renew their contracts with us, or if we are unable to expand sales to our existing customers or develop new solutions that achieve market acceptance.

To continue to grow our business, it is important that we continue to attract new customers to purchase and use our solutions. Our success in attracting new customers depends on numerous factors, including our ability to:

- offer a compelling software intelligence platform and solutions;
- execute our sales and marketing strategy;
- attract, effectively train and retain new sales, marketing, professional services and support personnel in the markets we pursue;
- develop or expand relationships with technology partners, systems integrators, resellers, online enterprise marketplaces and other partners;
- expand into new geographies and markets;
- deploy our platform and solutions for new customers and;
- provide quality customer support.

Our customers have no obligation to renew their maintenance, SaaS and/or term-license agreements, and our customers may decide not to renew these agreements with a similar contract period, at the same prices and terms or with the same or a greater number of licenses. Although our customer retention rate has historically been strong, some of our customers have elected not to renew their agreements with us, and it is difficult to accurately predict long-term customer retention, churn and expansion rates. Our customer retention and expansion rates may decline or fluctuate as a result of a number of factors, including our customers' satisfaction with our solutions as they convert from our Classic products to our Dynatrace® platform, our customer support and professional services, our prices and pricing plans, the competitiveness of other software products and services, reductions in our customers' spending levels, user adoption of our solutions, deployment success, utilization rates by our customers, new product releases and changes to our product offerings. If our customers do not renew their maintenance, SaaS and/or term-license agreements, or renew on less favorable terms, our business, financial condition and operating results may be adversely affected.

Our ability to increase revenue also depends in part on our ability to increase deployment of our solutions by existing customers. Our ability to increase sales to existing customers depends on several factors, including their experience with implementing and using our platform and the existing solutions they have implemented, their ability to integrate our solutions with existing technologies, and our pricing model. A failure to increase sales to existing customers could adversely affect our business, operating results and financial condition.

Failure to effectively expand our sales and marketing capabilities could harm our ability to increase our customer base and achieve broader market acceptance of our applications.

Our ability to increase our customer base and achieve broader market acceptance of our solutions will depend to a significant extent on the ability of our sales and marketing organizations to work together to drive our sales pipeline and cultivate customer and partner relationships to drive revenue growth. We have invested in and plan to continue expanding our sales and marketing organizations, both domestically and internationally. We also plan to dedicate significant resources to sales and marketing programs, including lead generation activities and brand awareness campaigns, such as our industry events, webinars and user events. If we are unable to hire, develop and retain talented sales personnel or marketing personnel or if our new sales personnel or marketing personnel

are unable to achieve desired productivity levels in a reasonable period of time, our ability to increase our customer base and achieve broader market acceptance of our applications could be harmed.

We may experience a loss of customers and annualized recurring revenue if customers do not convert from our Classic products to our Dynatrace® platform.

A significant portion of our annualized recurring revenue, or ARR, has been generated from our Classic products. As of March 31, 2018 and March 31, 2019, ARR from our Classic products comprised 70% and 30% of our Total ARR, respectively. We have stopped offering the Classic products to new customers and any increase in ARR for our Dynatrace® platform may not offset a reduction in ARR from our Classic products. Furthermore, our competitors could introduce new products that are more competitive than our Classic products which could result in a loss of customers who do not convert to Dynatrace®. An inability to retain customers on the Classic products or convert them to Dynatrace® may harm our business, operating results and financial condition in the future.

We face significant competition, which may adversely affect our ability to add new customers, retain existing customers and grow our business.

The markets in which we compete are highly competitive, fragmented, evolving, complex and defined by rapidly changing technology and customer demands, and we expect competition to continue to increase in the future. A number of companies have developed or are developing products and services that currently, or in the future may, compete with some or all of our solutions. This competition could result in increased pricing pressure, reduced profit margins, increased sales and marketing expenses and our failure to increase, or loss of, market share, any of which could adversely affect our business, operating results and financial condition.

We compete either directly or indirectly with application performance monitoring vendors such as Cisco AppDynamics, Broadcom, and New Relic, infrastructure monitoring vendors such as Datadog and Nagios, Digital Experience Management vendors such as Akamai and Catchpoint, point solutions from cloud providers such as Amazon Web Services, or AWS, Azure and Google Cloud Platform, and other business intelligence and monitoring and analytics providers that provide some portion of the services that we provide. Our competitors may have longer-term and more extensive relationships with our existing and potential customers that provide them with an advantage in competing for business with those customers. Further, to the extent that one of our competitors establishes or strengthens a cooperative relationship with, or acquires one or more software application performance monitoring, data analytics, compliance or network visibility vendors, it could adversely affect our ability to compete.

We may also face competition from companies entering our market, which has a relatively low barrier to entry in some segments, including large technology companies that could expand their platforms or acquire one of our competitors. Many existing and potential competitors enjoy substantial competitive advantages, such as:

- larger sales and marketing budgets and resources;
- access to larger customer bases which often provide incumbency advantages;
- broader global distribution and presence;
- the ability to bundle competitive offerings with other products and services;
- greater brand recognition and longer operating histories;
- lower labor and development costs;
- greater resources to make acquisitions;

Table of Contents

- larger and more mature intellectual property portfolios; and
- substantially greater financial, technical, management and other resources.

Additionally, in certain circumstances, and particularly among large enterprise technology companies that have complex and large software application and IT infrastructure environments, customers may elect to build in-house solutions to address their software intelligence needs. Any such in-house solutions could leverage open source software, and therefore be made generally available at little or no cost.

These competitive pressures in our markets or our failure to compete effectively may result in fewer customers, price reductions, fewer orders, reduced revenue and gross profit, and loss of market share. Any failure to meet and address these factors could materially and adversely affect our business, operating results and financial condition.

If the prices we charge for our solutions and services are unacceptable to our customers, our operating results will be harmed.

As the market for our solutions matures, or as new or existing competitors introduce new products or services that compete with ours, we may experience pricing pressure and be unable to renew our agreements with existing customers or attract new customers at prices that are consistent with our current pricing model and operating budget. If this were to occur, it is possible that we would have to change our pricing model or reduce our prices, which could harm our revenue, gross margin and operating results. Pricing decisions may also impact the mix of adoption among our licensing and subscription models, and negatively impact our overall revenue. Moreover, large enterprises, which we expect will account for a large portion of our business in the future, may demand substantial price concessions. If we are, for any reason, required to reduce our prices, our revenue, gross margin, profitability, financial position and cash flow may be adversely affected.

We expect our billings and revenue mix to vary over time, which could harm our gross margin and operating results.

We expect our billings and revenue mix to vary over time due to a number of factors, including the mix of perpetual licenses, SaaS subscriptions, term licenses, the mix of solutions sold and the contract length of our customer agreements. Due to the differing revenue recognition policies applicable to our term licenses, SaaS subscription, perpetual licenses and professional services, shifts in the mix between subscription, term and perpetual licenses from quarter to quarter could produce substantial variation in revenues recognized even if our billings remain consistent. Further, our gross margins and operating results could be harmed by changes in billings and revenue mix and costs, together with numerous other factors, including: entry into new lower margin markets or growth in lower margin markets; entry into markets with different pricing and cost structures; pricing discounts; and increased price competition. Any one of these factors or the cumulative effects of certain of these factors may result in significant fluctuations in our revenues, billings, gross margin and operating results. This variability and unpredictability could result in our failure to meet internal expectations or those of securities analysts or investors for a particular period. If we fail to meet or exceed such expectations for these or any other reasons, the market price of our common stock could decline.

Because we recognize revenue from our SaaS subscriptions and term licenses over the subscription or license term, downturns or upturns in new sales and renewals may not be immediately reflected in our operating results and may be difficult to discern.

For customers who purchase a SaaS subscription or term license, we generally recognize revenue from customers ratably over the terms of their subscriptions. A portion of the revenue we

report in each quarter is derived from the recognition of revenue relating to subscriptions and term licenses entered into during previous quarters. Consequently, a decline in new or renewed subscriptions or term licenses in any single quarter may have a small impact on our revenue for that quarter. However, such a decline will negatively affect our revenue in future quarters. Accordingly, the effect of significant downturns in sales and market acceptance of our solutions, and potential changes in our rate of renewals, may not be fully reflected in our results of operations until future periods. In addition, a significant majority of our costs are expensed as incurred, while revenue is recognized over the life of the agreement with our customer. As a result, increased growth in the number of our customers could continue to result in our recognition of more costs than revenue in the earlier periods of the terms of our agreements.

Our revenue recognition policy and other factors may distort our financial results in any given period and make them difficult to predict.

Under accounting standards update No. 2014-09 (Topic 606), Revenue from Contracts with Customers, or ASC 606, we recognize revenue when our customer obtains control of goods or services in an amount that reflects the consideration that we expect to receive in exchange for those goods or services. Our subscription revenue consists of (i) SaaS agreements, (ii) term-based licenses for the Dynatrace® platform which are recognized ratably over the contract term, (iii) Dynatrace® perpetual license revenue that is recognized ratably or over the term of the expected optional maintenance renewals, which is generally three years, and (iv) maintenance and support agreements. A significant increase or decline in our subscription contracts in any one quarter may not be fully reflected in the results for that quarter, but will affect our revenue in future quarters. Our license revenue consists of Classic perpetual license fees and Classic term license fees, which are generally recognized on delivery. Because license revenue is recognized upfront, a single, large license in a given period may distort our operating results for that period. These factors make it challenging to forecast our revenue for future periods, as both the mix of solutions and services we will sell in a given period, as well as the size of contracts, is difficult to predict.

Furthermore, the presentation of our financial results requires us to make estimates and assumptions that may affect revenue recognition. In some instances, we could reasonably use different estimates and assumptions, and changes in estimates are likely to occur from period to period. See “Management’s Discussion and Analysis of Financial Condition and Results of Operations—Critical Accounting Policies—Revenue Recognition.”

Given the foregoing factors, our actual results could differ significantly from our estimates, comparing our revenue and operating results on a period-to-period basis may not be meaningful, and our past results may not be indicative of our future performance.

Changes in existing financial accounting standards or practices, or taxation rules or practices, may harm our operating results.

Changes in existing accounting or taxation rules or practices, new accounting pronouncements or taxation rules, or varying interpretations of current accounting pronouncements or taxation practice could harm our operating results or result in changes to the manner in which we conduct our business. Further, such changes could potentially affect our reporting of transactions completed and reported before such changes are effective.

United States Generally Accepted Accounting Principles, or GAAP, are subject to interpretation by the Financial Accounting Standards Board, or FASB, the Securities and Exchange Commission and various bodies formed to promulgate and interpret appropriate accounting principles. A change in these principles or a change in these interpretations could have a significant effect on our reported

[Table of Contents](#)

financial results and could affect the reporting of transactions completed before the announcement of a change. For example, ASC 606 is a newly adopted standard for revenue recognition in which the FASB's Emerging Issues Task Force has taken up certain topics which may result in further guidance which we would need to consider in our related accounting policies.

If we are unable to maintain successful relationships with our partners, or if our partners fail to perform, our ability to market, sell and distribute our applications and services will be limited, and our business, operating results and financial condition could be harmed.

In addition to our sales force, we rely on partners, including our strategic partners to increase our sales and distribution of our software and services. We also have independent software vendor partners whose integrations may increase the breadth of the ecosystem in which our solutions can operate, and the size of the market that our solutions can address. We are dependent on these partner relationships to contribute to our sales growth. We expect that our future growth will be increasingly dependent on the success of our partner relationships, and if those partnerships do not provide such benefits, our ability to grow our business will be harmed. If we are unable to scale our partner relationships effectively, or if our partners are unable to serve our customers effectively, we may need to expand our services organization, which could adversely affect our results of operations.

Our agreements with our partners are generally non-exclusive, meaning our partners may offer products from several different companies to their customers or have their products or technologies also interoperate with products and technologies of other companies, including products that compete with our offerings. Moreover, some of our partners also compete with us. If our partners do not effectively market and sell our offerings, choose to use greater efforts to market and sell their own products or those of our competitors or fail to meet the needs of our customers, our ability to grow our business and sell our offerings will be harmed. Furthermore, our partners may cease marketing our offerings with limited or no notice and with little or no penalty, and new partners could require extensive training and may take several months or more to achieve productivity. The loss of a substantial number of our partners, our possible inability to replace them or the failure to recruit additional partners could harm our results of operations. Our partner structure could also subject us to lawsuits or reputational harm if, for example, a partner misrepresents the functionality of our offerings to customers or violates applicable laws or our corporate policies.

Interruptions with the delivery of our SaaS solutions, or third-party cloud-based systems that we use in our operations, may adversely affect our business, operating results and financial condition.

Our continued growth depends on the ability of our customers to access our platform and solutions, particularly our cloud-based solutions, at any time and within an acceptable amount of time. In addition, our ability to access certain third-party SaaS solutions is important to our operations and the delivery of our customer support and professional services, as well as our sales operations.

We have experienced, and may in the future experience, service disruptions, outages and other performance problems both in the delivery of our SaaS solutions, and in third-party SaaS solutions we use due to a variety of factors, including infrastructure changes, malicious actors, human or software errors or capacity constraints. We utilize a multi-tenant structure, meaning that, generally, our customers are hosted on a shared platform. As such, any interruption in service would affect a significant number of our customers. In some instances, we or our third-party service providers may not be able to identify the cause or causes of these performance problems within an acceptable period of time. It may become increasingly difficult to maintain and improve the performance of our SaaS solutions as they become more complex. If our SaaS solutions are unavailable or if our customers are unable to access features of our SaaS solutions within a reasonable amount of time or at all, our

Table of Contents

business would be negatively affected. In addition, if any of the third-party SaaS solutions that we use were to experience a significant or prolonged outage or security breach, our business could be adversely affected.

We currently host our Dynatrace® solutions primarily using AWS, as well as other providers of cloud infrastructure services including Microsoft Azure, Interoute and Alibaba. Our Dynatrace® solutions reside on hardware operated by these providers. Our operations depend on protecting the virtual cloud infrastructure hosted in AWS by maintaining its configuration, architecture, features and interconnection specifications, as well as the information stored in these virtual data centers and which third-party internet service providers transmit. Although we have disaster recovery plans, including the use of multiple AWS locations, any incident affecting AWS' infrastructure that may be caused by fire, flood, severe storm, earthquake or other natural disasters, cyber-attacks, terrorist or other attacks, and other similar events beyond our control could negatively affect our platform and our ability to deliver our solutions to our customers. A prolonged AWS service disruption affecting our SaaS platform for any of the foregoing reasons would negatively impact our ability to serve our customers and could damage our reputation with current and potential customers, expose us to liability, cause us to lose customers or otherwise harm our business. We may also incur significant costs for using alternative equipment or taking other actions in preparation for, or in reaction to, events that damage the AWS services we use.

AWS has the right to terminate our agreement upon material uncured breach on 30 days' prior written notice. In the event that our AWS service agreements are terminated, or there is a lapse of service, we would experience interruptions in access to our platform as well as significant delays and additional expense in arranging new facilities and services and/or re-architecting our solutions for deployment on a different cloud infrastructure, which would adversely affect our business, operating results and financial condition.

Real or perceived errors, failures, defects or vulnerabilities in our solutions could adversely affect our financial results and growth prospects.

Our solutions and underlying platform are complex, and in the past, we or our customers have discovered software errors, failures, defects and vulnerabilities in our solutions after they have been released, including after new versions or updates are released. Our solutions and our platform are often deployed and used in large-scale computing environments with different operating systems, system management software and equipment and networking configurations, which have in the past, and may in the future, cause errors in, or failures of, our solutions or other aspects of the computing environment into which they are deployed. In addition, deployment of our solutions into complicated, large-scale computing environments have in the past exposed, and may, in the future, expose undetected errors, failures, defects or vulnerabilities in our solutions. Despite testing by us, errors, failures, defects or vulnerabilities may not be found in our solutions until they are released to our customers or thereafter. Real or perceived errors, failures, defects or vulnerabilities in our solutions could result in, among other things, negative publicity and damage to our reputation, lower renewal rates, loss of or delay in market acceptance of our solutions, loss of competitive position or claims by customers for losses sustained by them or expose us to breach of contract claims, regulatory fines and related liabilities. In such an event, we may be required, or may choose, for customer relations or other reasons, to expend additional resources in order to help correct the problem.

Security breaches, computer malware, computer hacking attacks and other security incidents could harm our business, reputation, brand and operating results.

Security incidents have become more prevalent across industries and may occur on our systems, or on the systems of third parties we use to host our solutions or SaaS solutions that we use in the operation of our business. These security incidents may be caused by or result in but are not limited to

Table of Contents

security breaches, computer malware or malicious software, ransomware, computer hacking, denial of service attacks, security system control failures in our own systems or from vendors we use, email phishing, software vulnerabilities, social engineering, sabotage and drive-by downloads. In particular, because we utilize a multi-tenant platform, any security breach would affect a significant amount of our customers. Such security incidents, whether intentional or otherwise, may result from actions of hackers, criminals, nation states, vendors, employees, contractors, customers or other threat actors. We have experienced two email phishing attacks that resulted in the compromise of a limited number of email accounts. Although we have taken a number of measures to prevent future phishing attacks, we cannot be certain that our efforts will be effective.

We may in the future experience disruptions, outages and other performance problems on our internal systems due to service attacks, unauthorized access or other security related incidents. Any security breach or loss of system control caused by hacking, which involves efforts to gain unauthorized access to information or systems, or to cause intentional malfunctions or loss, modification or corruption of data, software, hardware or other computer equipment and the inadvertent transmission of computer malware could harm our business, operating results and financial condition, and expose us to claims arising from loss or unauthorized disclosure of confidential or personal information and the related breach of privacy or data security laws. If an actual or perceived security incident occurs, the market perception of the effectiveness of our security controls could be harmed, our brand and reputation could be damaged, we could lose customers, and we could suffer financial exposure due to such events or in connection with remediation efforts, investigation costs, regulatory fines, private lawsuits and changed security control, system architecture and system protection measures.

We may in the future experience disruptions, outages and other performance problems on the systems that we host for our customers due to service attacks, unauthorized access or other security related incidents. Any security breach or loss of system control caused by hacking, which involves efforts to gain unauthorized access to information or systems, or to cause intentional malfunctions or loss, modification or corruption of data, software, hardware or other computer equipment and the inadvertent transmission of computer malware could disrupt the services that we provide to our customers, harm our customers' business, operating results and financial condition, and expose us to claims from our customers for the damages that result, which could include, without limitation, claims arising from loss or unauthorized access, acquisition or disclosure of personal information and the related breach of privacy or data security laws. If an actual or perceived security incident occurs, the market perception of the effectiveness of our security controls could be harmed, our brand and reputation could be damaged, we could lose customers, and we could suffer financial exposure due to such events or in connection with remediation efforts, investigation costs, regulatory fines, private lawsuits and changed security control, system architecture and system protection measures.

We believe that our brand is integral to our future success and if we fail to cost-effectively promote or protect our brand, our business and competitive position may be harmed.

We believe that maintaining and enhancing our brand and increasing market awareness of our company and our solutions are critical to achieving broad market acceptance of our existing and future solutions and are important elements in attracting and retaining customers, partners and employees, particularly as we continue to expand internationally. In addition, independent industry analysts, such as Gartner and Forrester, often provide reviews of our solutions, as well as those of our competitors, and perception of our solutions in the marketplace may be significantly influenced by these reviews. We have no control over what these or other industry analysts report, and because industry analysts may influence current and potential customers, our brand could be harmed if they do not provide a positive review of our solutions or view us as a market leader.

[Table of Contents](#)

The successful promotion of our brand and the market's awareness of our solutions and platform will depend largely upon our ability to continue to offer enterprise-grade software intelligence solutions, our ability to be thought leaders in application intelligence, our marketing efforts and our ability to successfully differentiate our solutions from those of our competitors. We have invested, and expect to continue to invest, substantial resources to promote and maintain our brand and generate sales leads, both domestically and internationally, but there is no guarantee that our brand development strategies will enhance the recognition of our brand or lead to increased sales. If our efforts to promote and maintain our brand are not cost-effective or successful, our operating results and our ability to attract and retain customers, partners and employees may be adversely affected. In addition, even if our brand recognition and customer loyalty increases, this may not result in increased sales of our solutions or higher revenue.

Our sales cycles can be long, unpredictable and vary seasonally, which can cause significant variation in the number and size of transactions that close in a particular quarter.

Our results of operations may fluctuate, in part, because of the resource-intensive nature of our sales efforts, the length and variability of the sales cycle for our platform and the difficulty in making short-term adjustments to our operating expenses. Many of our customers are large enterprises, whose purchasing decisions, budget cycles and constraints and evaluation processes are unpredictable and out of our control. Further, the timing of our sales is difficult to predict. The length of our sales cycle, from initial evaluation to payment for our subscriptions can range from several months to over a year and can vary substantially from customer to customer. Our sales efforts involve significant investment in resources in field sales, partner development, marketing and educating our customers about the use, technical capabilities and benefits of our platform and services. Customers often undertake a prolonged evaluation process, which frequently involves not only our platform but also those of other companies or the consideration of internally developed alternatives including those using open-source software. Some of our customers initially deploy our platform on a limited basis, with no guarantee that these customers will deploy our platform widely enough across their organization to justify our substantial pre-sales investment. As a result, it is difficult to predict exactly when, or even if, we will make a sale to a potential customer or if we can increase sales to our existing customers. Large individual sales have, in some cases, occurred in quarters subsequent to those we anticipated, or have not occurred at all. If our sales cycle lengthens or our substantial upfront investments do not result in sufficient revenue to justify our investments, our operating results could be adversely affected.

We have experienced seasonal and end-of-quarter concentration of our transactions and variations in the number and size of transactions that close in a particular quarter, which impacts our ability to grow revenue over the long term and plan and manage cash flows and other aspects of our business and cost structure. Our transactions vary by quarter, with the third fiscal quarter typically being our largest. In addition, within each quarter, a significant portion of our transactions occur in the last two weeks of that quarter. If expectations for our business turn out to be inaccurate, our revenue growth may be adversely affected over time and we may not be able to adjust our cost structure on a timely basis and our cash flows may suffer.

Any failure to offer high-quality customer support and professional services may adversely affect our relationships with our customers and our financial results.

We typically bundle customer support with arrangements for our solutions, and offer professional services for implementation and training. In deploying and using our platform and solutions, our customers require the assistance of our services teams to resolve complex technical and operational issues. Increased customer demand for support, without corresponding revenue, could increase costs and adversely affect our operating results. We may also be unable to respond quickly enough to

[Table of Contents](#)

accommodate short-term increases in customer demand for support. If we fail to meet our service level commitments, which relate to uptime, response times and escalation procedures, and time to problem resolution, or if we suffer extended periods of unavailability for our solutions, we may be contractually obligated to provide these customers with service credits or penalties, refunds for prepaid amounts related to unused subscription services, or we could face contract terminations. Our sales are highly dependent on our reputation and on positive recommendations from our existing customers. Any failure to maintain high-quality customer support, or a market perception that we do not maintain high-quality product support, could adversely affect our reputation, and our ability to sell our solutions to existing and new customers.

Our ability to succeed depends on the experience and expertise of our senior management team. If we are unable to retain and motivate our personnel, our business, operating results and prospects may be harmed.

Our ability to succeed depends in significant part on the experience and expertise of our senior management team. The members of our senior management team are employed on an at-will basis, which means that they are not contractually obligated to remain employed with us and could terminate their employment with us at any time. Accordingly, and in spite of our efforts to retain our senior management team, any member of our senior management team could terminate his or her employment with us at any time and go to work for one of our competitors, after the expiration of any applicable non-compete period. The loss of one or more members of our senior management team, particularly if closely grouped, could adversely affect our ability to execute our business plan and thus, our business, operating results and prospects. We do not maintain key man insurance on any of our officers, and we may not be able to find adequate replacements. If we fail to identify, recruit and integrate strategic hires, our business, operating results and financial condition could be adversely affected.

We rely on highly skilled personnel and, if we are unable to attract, retain or motivate substantial numbers of qualified personnel or expand and train our sales force, we may not be able to grow effectively.

Our success largely depends on the talents and efforts of key technical, sales and marketing employees and our future success depends on our continuing ability to identify, hire, develop, motivate and retain highly skilled personnel for all areas of our organization. Competition in our industry is intense and often leads to increased compensation and other personnel costs. In addition, competition for employees with experience in our industry can be intense, particularly in Europe, where our research and development operations are concentrated and where other technology companies compete for management and engineering talent. Our continued ability to compete and grow effectively depends on our ability to attract substantial numbers of qualified new employees and to retain and motivate our existing employees.

We believe that our corporate culture has contributed to our success, and if we cannot successfully maintain our culture as we grow, we could lose the innovation, creativity and teamwork fostered by our culture.

We believe that a critical component to our success has been our corporate culture. We believe our culture has contributed significantly to our ability to innovate and develop new technologies. We have spent substantial time and resources in building our team while maintaining this corporate culture. We have experienced rapid growth in our employee headcount and international presence. The rapid influx of large numbers of people from different business backgrounds in different geographic locations may make it difficult for us to maintain our corporate culture of innovation. If our culture is negatively affected, our ability to support our growth and innovation may diminish.

We are subject to a number of risks associated with global sales and operations.

Revenue from customers located outside of the United States represented 42%, 46%, and 46% of our total revenue for the years ended March 31, 2017, 2018, and 2019, respectively. As a result, our sales and operations are subject to a number of risks and additional costs, including the following:

- increased expenses associated with international sales and operations, including establishing and maintaining office space and equipment for our international operations;
- fluctuations in exchange rates between currencies in the markets where we do business;
- risks associated with trade restrictions and additional legal requirements, including the exportation of our technology or source code that is required in some of the countries in which we operate;
- greater risk of unexpected changes in regulatory rules, regulations and practices, tariffs and tax laws and treaties;
- compliance with United States and foreign import and export control and economic sanctions laws and regulations, including the Export Administration Regulations administered by the United States Department of Commerce's Bureau of Industry and Security and the executive orders and laws implemented by the United States Department of the Treasury's Office of Foreign Asset Controls;
- compliance with anti-bribery laws, including the United States Foreign Corrupt Practices Act, and the U.K. Anti-Bribery Act;
- compliance with privacy, data protection and data security laws of many countries, including the General Data Protection Regulation, or GDPR, adopted by the European Union, or EU, and which became effective in May 2018;
- heightened risk of unfair or corrupt business practices in certain geographies, and of improper or fraudulent sales arrangements that may impact financial results and result in restatements of, or irregularities in, financial statements;
- limited or uncertain protection of intellectual property rights in some countries and the risks and costs associated with monitoring and enforcing intellectual property rights abroad;
- greater difficulty in enforcing contracts and managing collections in certain jurisdictions, as well as longer collection periods;
- management communication and integration problems resulting from cultural and geographic dispersion;
- social, economic and political instability, terrorist attacks and security concerns in general; and
- potentially adverse tax consequences.

These and other factors could harm our ability to generate future global revenue and, consequently, materially impact our business, results of operations and financial condition.

Economic conditions and regulatory changes leading up to and following the United Kingdom's scheduled exit from the European Union could have a material adverse effect on our business and results of operations.

The United Kingdom, or U.K., government has commenced the legal process of leaving the European Union, typically referred to as "Brexit." There remains significant uncertainty about when and how the U.K. will officially exit the European Union, if at all, and the possible effects of Brexit including but not limited to, the imposition of trade barriers and increased costs throughout Europe, changes in

Table of Contents

European manufacturing and employment markets, and currency fluctuations. While the full effects of Brexit will not be known for some time, Brexit could cause disruptions to, and create uncertainty surrounding, our business and results of operations. The most immediate effect of the expected Brexit has been significant volatility in global equity and debt markets and currency exchange rate fluctuations. Ongoing global market volatility and a deterioration in economic conditions due to uncertainty surrounding Brexit, could significantly disrupt the markets in which we operate and lead our customers to closely monitor their costs and delay capital spending decisions.

Additionally, the expected Brexit has resulted in the immediate strengthening of the U.S. dollar against foreign currencies in which we conduct business. Although this strengthening has been somewhat ameliorated by the British Government's stated desire to accomplish a transitional exit, because we translate revenue denominated in foreign currency into U.S. dollars for our financial statements, during periods of a strengthening U.S. dollar, our reported revenue from foreign operations is reduced. As a result of Brexit and the continued negotiations within the U.K., there may be further periods of volatility in the currencies in which we conduct business.

The effects of Brexit will depend on any agreements the U.K. makes to retain access to EU markets, either during a transitional period or more permanently. The measures could potentially disrupt the markets we serve and may cause us to lose customers and employees. In addition, Brexit could lead to legal uncertainty and potentially divergent national laws and regulations as the U.K. determines which EU laws to replace or replicate.

Any of these effects of Brexit could materially adversely affect our business, results of operations and financial condition.

We may face exposure to foreign currency exchange rate fluctuations.

We have transacted in foreign currencies and expect to transact in foreign currencies in the future. In addition, our international subsidiaries maintain assets and liabilities that are denominated in currencies other than the functional operating currencies of these entities. Accordingly, changes in the value of foreign currencies relative to the U.S. dollar will affect our revenue and operating results due to transactional and translational remeasurement that is reflected in our earnings. As a result of such foreign currency exchange rate fluctuations, it could be more difficult to detect underlying trends in our business and results of operations. In addition, to the extent that fluctuations in currency exchange rates cause our results of operations to differ from our expectations or the expectations of our investors, the trading price of our common stock could be adversely affected. We do not currently maintain a program to hedge transactional exposures in foreign currencies. However, in the future, we may use derivative instruments, such as foreign currency forward and option contracts, to hedge certain exposures to fluctuations in foreign currency exchange rates. The use of such hedging activities may not offset any or more than a portion of the adverse financial effects of unfavorable movements in foreign exchange rates over the limited time the hedges are in place. Moreover, the use of hedging instruments may introduce additional risks if we are unable to structure effective hedges with such instruments.

Assertions by third parties of infringement or other violations by us of their intellectual property rights, or other lawsuits brought against us, could result in significant costs and substantially harm our business, operating results and financial condition.

Patent and other intellectual property disputes are common in the markets in which we compete. Some companies in the markets in which we compete, including some of our competitors, own large numbers of patents, copyrights, trademarks and trade secrets, which they may use to assert claims of infringement, misappropriation or other violations of intellectual property rights against us, our partners,

our technology partners or our customers. As the number of patents and competitors in our market increase, allegations of infringement, misappropriation and other violations of intellectual property rights may also increase. Our broad solution portfolio and the competition in our markets further exacerbate the risk of additional third-party intellectual property claims against us in the future. Any allegation of infringement, misappropriation or other violation of intellectual property rights by a third party, even those without merit, could cause us to incur substantial costs and resources defending against the claim, could distract our management from our business, and could cause uncertainty among our customers or prospective customers, all of which could have an adverse effect on our business, operating results and financial condition. We cannot assure you that we are not infringing or otherwise violating any third-party intellectual property rights.

Furthermore, companies that bring allegations against us may have the capability to dedicate substantially greater resources to enforce their intellectual property rights and to defend against similar allegations that may be brought against them than we do. We have received, and may in the future receive, notices alleging that we have misappropriated, misused or infringed other parties' intellectual property rights, including allegations made by our competitors, and, to the extent we gain greater market visibility, we face a higher risk of being the subject of intellectual property infringement assertions. There also is a market for acquiring third-party intellectual property rights and a competitor, or other entity, could acquire third-party intellectual property rights and pursue similar assertions based on the acquired intellectual property. They may also make such assertions against our customers or partners.

An adverse outcome of a dispute may require us to take several adverse steps such as: pay substantial damages, including potentially treble damages, if we are found to have willfully infringed a third party's patents or copyrights; cease making, using, selling, licensing, importing or otherwise commercializing solutions that are alleged to infringe or misappropriate the intellectual property of others; expend additional development resources to attempt to redesign our solutions or otherwise to develop non-infringing technology, which may not be successful; enter into potentially unfavorable royalty or license agreements in order to obtain the right to use necessary technologies or intellectual property rights or have royalty obligations imposed by a court; or indemnify our customers, partners and other third parties. Any damages or royalty obligations we may become subject to, any prohibition against our commercializing our solutions as a result of an adverse outcome could harm our business and operating results.

Additionally, our agreements with customers and partners include indemnification provisions, under which we agree to indemnify them for losses suffered or incurred as a result of allegations of intellectual property infringement and, in some cases, for damages caused by us to property or persons or other third-party allegations. Furthermore, we have agreed in certain instances to defend our partners against third-party claims asserting infringement of certain intellectual property rights, which may include patents, copyrights, trademarks or trade secrets, and to pay judgments entered on such assertions. Large indemnity payments could harm our business, operating results and financial condition.

Failure to protect and enforce our proprietary technology and intellectual property rights could substantially harm our business, operating results and financial condition.

The success of our business depends on our ability to protect and enforce our proprietary rights, including our patents, trademarks, copyrights, trade secrets and other intellectual property rights, throughout the world. We attempt to protect our intellectual property under patent, trademark, copyright and trade secret laws, and through a combination of confidentiality procedures, contractual provisions and other methods, all of which offer only limited protection. However, the steps we take to protect our intellectual property may be inadequate. We will not be able to protect our intellectual property if we are

unable to enforce our rights or if we do not detect unauthorized use of our intellectual property. Despite our precautions, it may be possible for unauthorized third parties to copy our technology and use information that we regard as proprietary to create products and services that compete with ours. In the past, we have been made aware of public postings of portions of our source code. It is possible that released source code could reveal some of our trade secrets, and impact our competitive advantage. Some license provisions protecting against unauthorized use, copying, transfer, reverse engineering, and disclosure of our technology may be unenforceable under the laws of certain jurisdictions and foreign countries. Further, the laws of some countries do not protect proprietary rights to the same extent as the laws of the United States. In expanding our international activities, our exposure to unauthorized copying and use of our technology and proprietary information may increase.

As of June 30, 2019, we had 59 issued patents, all of which are in the United States, and 27 pending applications, of which 18 are in the United States. Our issued patents expire at various dates through July 2037. The process of obtaining patent protection is expensive and time-consuming, and we may not be able to prosecute all necessary or desirable patent applications at a reasonable cost or in a timely manner. We may choose not to seek patent protection for certain innovations and may choose not to pursue patent protection in certain jurisdictions. Furthermore, it is possible that our patent applications may not result in issued patents, that the scope of the claims in our issued patents will be insufficient or not have the coverage originally sought, that our issued patents will not provide us with any competitive advantages, and that our issued patents and other intellectual property rights may be challenged by others or invalidated through administrative process or litigation. In addition, issuance of a patent does not guarantee that we have an absolute right to practice our patented technology, or that we have the right to exclude others from practicing our patented technology. As a result, we may not be able to obtain adequate patent protection or to enforce our issued patents effectively.

In addition to patented technology, we rely on our unpatented proprietary technology and trade secrets. Despite our efforts to protect our proprietary technology and trade secrets, unauthorized parties may attempt to misappropriate, reverse engineer or otherwise obtain and use them. The contractual provisions that we enter into with employees, consultants, partners, vendors and customers may not prevent unauthorized use or disclosure of our proprietary technology or trade secrets and may not provide an adequate remedy in the event of unauthorized use or disclosure of our proprietary technology or trade secrets.

Moreover, policing unauthorized use of our technologies, solutions and intellectual property is difficult, expensive and time-consuming, particularly in foreign countries where the laws may not be as protective of intellectual property rights as those in the United States and where mechanisms for enforcement of intellectual property rights may be weak. We may be unable to determine the extent of any unauthorized use or infringement of our solutions, technologies or intellectual property rights.

From time to time, legal action by us may be necessary to enforce our patents and other intellectual property rights, to protect our trade secrets, to determine the validity and scope of the intellectual property rights of others or to defend against allegations of infringement or invalidity. Such litigation could result in substantial costs and diversion of resources and could negatively affect our business, operating results, financial condition and cash flows. If we are unable to protect our intellectual property rights, our business, operating results and financial condition will be harmed.

Our use of open source technology could impose limitations on our ability to commercialize our solutions and platform and application intelligence software platform.

We use open source software in our solutions and platform and expect to continue to use open source software in the future. Although we monitor our use of open source software to avoid subjecting our solutions and platform to conditions we do not intend, we may face allegations from others alleging

ownership of, or seeking to enforce the terms of, an open source license, including by demanding release of the open source software, derivative works, or our proprietary source code that was developed using such software. These allegations could also result in litigation. The terms of many open source licenses have not been interpreted by U.S. courts. As a result, there is a risk that these licenses could be construed in a way that could impose unanticipated conditions or restrictions on our ability to commercialize our solutions. In such an event, we could be required to seek licenses from third parties to continue offering our solutions, to make our proprietary code generally available in source code form, to re-engineer our solutions or to discontinue the sale of our solutions if re-engineering could not be accomplished on a timely basis, any of which could adversely affect our business, operating results and financial condition.

Our participation in open source initiatives may limit our ability to enforce our intellectual property rights in certain circumstances.

As part of our strategy to broaden our target markets and accelerate adoption of our products, we contribute software program code to certain open source projects, managed by organizations such as Microsoft, Google and Cloud Native Computing Foundation. We also undertake our own open source initiatives to promote “open innovation” and “enterprise openness,” meaning that we make technologies available under open source licenses with the goal of exchanging insights and experience with other experts in the community, broadening the adoption of our platform by our customers, and providing our partners with the ability to leverage their own technologies through the Dynatrace® platform. In some cases, we accept contributions of code from the community, our customers and partners.

When we contribute to a third-party managed open source project, the copyrights, patent rights and other proprietary rights in and to the technologies, including software program code, owned by us that we contribute to these projects are licensed to the project managers and to all other contributing parties without restriction on further use or distribution. If and to the extent that any of the technologies that we contribute, either alone or in combination with the technologies that may be contributed by others, practice any inventions that are claimed under our patents or patent applications, then we may be unable to enforce those claims or prevent others from practicing those inventions, regardless of whether such other persons also contributed to the open source project (even if we were to conclude that their use infringes our patents with competing offerings), unless any such third party asserts its patent rights against us. This limitation on our ability to assert our patent rights against others could harm our business and ability to compete. In addition, if we were to attempt to enforce our patent rights, we could suffer reputational injury among our customers and the open source community.

Our sales to government entities are subject to a number of challenges and risks.

We sell our solutions to U.S. federal and state and foreign governmental agency customers, often through our resellers, and we may increase sales to government entities in the future. Sales to government entities are subject to a number of challenges and risks. Selling to government entities can be highly competitive, expensive and time consuming, often requiring significant upfront time and expense without any assurance that these efforts will generate a sale. Contracts and subcontracts with government agency customers are subject to procurement laws and regulations relating to the award, administration, and performance of those contracts. Government demand and payment for our solutions are affected by public sector budgetary cycles and funding authorizations, with funding reductions or delays adversely affecting public sector demand for our solutions. We may be subject to audit or investigations relating to our sales to government entities, and any violations could result in various civil and criminal penalties and administrative sanctions, including termination of contracts, refunds of fees received, forfeiture of profits, suspension of payments, fines, and suspension or debarment from future government business. Government entities may have statutory, contractual or

[Table of Contents](#)

other legal rights to terminate contracts with our distributors and resellers for convenience or due to a default. Any of these risks relating to our sales to governmental entities could adversely impact our future sales and operating results.

We may acquire other businesses, products or technologies in the future which could require significant management attention, disrupt our business, dilute shareholder value and adversely affect our results of operations.

As part of our business growth strategy and in order to remain competitive, we may acquire, or make investments in, complementary companies, products or technologies. For example, in 2017 we acquired Qumram AG, a provider of session replay technology that captures end users digital experiences across browsers, interfaces and devices. We may not be able to find suitable acquisition targets in the future, and we may not be able to complete such acquisitions on favorable terms, if at all. If we do complete acquisitions, we may not ultimately strengthen our competitive position or achieve our goals, and any acquisitions we complete could be viewed negatively by our customers, securities analysts and investors. In addition, if we are unsuccessful at integrating such acquisitions or the technologies associated with such acquisitions, our revenue and results of operations could be adversely affected. In addition, while we will make significant efforts to address any information technology security and privacy compliance issues with respect to any acquisitions, we may still inherit such risks when we integrate the acquired products and systems. Any integration process may require significant time and resources, and we may not be able to manage the process successfully. We may not successfully evaluate or utilize the acquired technology or personnel, or accurately forecast the financial impact of an acquired business, including accounting charges. We may have to pay cash, incur debt or issue equity securities to pay for any such acquisitions, each of which could adversely affect our financial condition or the value of our ordinary shares. The sale of equity or issuance of debt to finance any such acquisitions could result in dilution to our shareholders. The incurrence of indebtedness would result in increased fixed obligations and could also include covenants or other restrictions that would impede our ability to manage our operations.

Our business is subject to a wide range of laws and regulations and our failure to comply with those laws and regulations could harm our business, operating results and financial condition.

Our business is subject to regulation by various federal, state, local and foreign governmental agencies, including agencies responsible for monitoring and enforcing employment and labor laws, workplace safety, product safety, environmental laws, consumer protection laws, privacy and data protection laws, anti-bribery laws, import and export controls, federal securities laws and tax laws and regulations. In certain foreign jurisdictions, these regulatory requirements may be more stringent than those in the United States. These laws and regulations are subject to change over time and we must continue to monitor and dedicate resources to ensure continued compliance. Non-compliance with applicable regulations or requirements could subject us to litigation, investigations, sanctions, mandatory product recalls, enforcement actions, disgorgement of profits, fines, damages, civil and criminal penalties or injunctions. If any governmental sanctions are imposed, or if we do not prevail in any possible civil or criminal litigation, our business, operating results, and financial condition could be materially adversely affected. In addition, responding to any action will likely result in a significant diversion of management's attention and resources and an increase in professional fees. Enforcement actions and sanctions could harm our business, operating results and financial condition.

Any actual or perceived failure by us to comply with our privacy policy or legal or regulatory requirements in one or multiple jurisdictions could result in proceedings, actions or penalties against us.

We are subject to federal, state, and international laws, regulations and standards relating to the collection, use, disclosure, retention, security, transfer and other processing of personal data. The legal

and regulatory framework for privacy, data protection and security issues worldwide is rapidly evolving and as a result implementation standards, potential fines, enforcement practices and litigation risks are likely to remain uncertain for the foreseeable future.

Internationally, virtually every jurisdiction in which we operate has established its own privacy, data protection and/or data security legal framework with which we or our customers must comply, including but not limited to the EU. The EU's data protection landscape is currently unstable, resulting in possible significant operational costs for internal compliance and risk to our business. In addition, the EU has adopted the GDPR, which went into effect on May 25, 2018 and contains numerous requirements and changes from prior EU law, including more robust obligations on data processors and heavier documentation requirements for data protection compliance programs by companies. Specifically, the GDPR introduced numerous privacy-related changes for companies operating in the EU, including heightened notice and consent requirements, greater control for data subjects (e.g., the "right to be forgotten"), increased data portability for EU consumers, additional data breach notification and data security requirements, requirements for engaging third-party processors, and increased fines. In particular, under the GDPR, fines of up to 20 million euros or up to 4% of the annual global revenue of the noncompliant company, whichever is greater, could be imposed for violations of certain of the GDPR's requirements. The GDPR also confers a private right of action on data subjects and consumer associations to lodge complaints with supervisory authorities, seek judicial remedies and obtain compensation for damages. The GDPR applies to any company established in the European Union as well as any company outside the European Union that processes personal data in connection with the offering of goods or services to individuals in the European Union or the monitoring of their behavior. Moreover, the GDPR requirements apply not only to third-party transactions, but also to transfers of information between us and our subsidiaries, including employee information.

In addition to the GDPR, the European Union also is considering another draft data protection regulation. The proposed regulation, known as the Regulation on Privacy and Electronic Communications, or ePrivacy Regulation, would replace the current ePrivacy Directive. Originally planned to be adopted and implemented at the same time as the GDPR, the ePrivacy Regulation could be enacted sometime in the latter part of 2019. While the new regulation contains protections for those using communications services (for example, protections against online tracking technologies), the potential timing of its enactment significantly later than the GDPR means that additional time and effort may need to be spent addressing differences between the ePrivacy Regulation and the GDPR. New rules related to the ePrivacy Regulation are likely to include enhanced consent requirements in order to use communications content and communications metadata, as well as obligations and restrictions on the processing of data from an end-user's terminal equipment, which may negatively impact our product offerings and our relationships with our customers.

Preparing for and complying with the GDPR and the ePrivacy Regulation (if and when it becomes effective) has required and will continue to require us to incur substantial operational costs and may require us to change our business practices. Despite our efforts to bring practices into compliance with the GDPR and before the effective date of the ePrivacy Regulation, we may not be successful either due to internal or external factors such as resource allocation limitations. Non-compliance could result in proceedings against us by governmental entities, customers, data subjects, consumer associations or others. We are not a participant in the EU-U.S. and Swiss-U.S. Privacy Shield Frameworks administered by the U.S. Department of Commerce. We are in the process of submitting our binding corporate rules for approval by CNIL, the France data protection agency, as our lead regulator in Europe, but there is no assurance as to when this process will be complete, that it will be successfully completed or that the laws may not require additional compliance steps to be taken in the future.

In the United States, California enacted the California Consumer Privacy Act, or the CCPA, on June 28, 2018, which takes effect on January 1, 2020. The CCPA gives California residents expanded

[Table of Contents](#)

rights to access and delete their personal information, opt out of certain personal information sharing and receive detailed information about how their personal information is used. The CCPA provides for civil penalties for violations, as well as a private right of action for data breaches that is expected to increase data breach litigation. The CCPA may increase our compliance costs and potential liability. Some observers have noted that the CCPA could mark the beginning of a trend toward more stringent privacy legislation in the U.S., which could increase our potential liability and adversely affect our business.

Privacy and data security concerns, whether valid or not valid, may inhibit market adoption of our products, particularly in certain industries and foreign countries. If we are not able to adjust to changing laws, regulations, and standards related to the Internet, our business may be harmed.

We are subject to governmental export, import and sanctions controls that could impair our ability to compete in international markets due to licensing requirements and subject us to liability if we are not in compliance with applicable laws.

Our solutions are subject to export control and economic sanctions laws and regulations, including the U.S. Export Administration Regulations administered by the U.S. Commerce Department's Bureau of Industry and Security and the economic and trade sanctions regulations administered by the U.S. Treasury Department's Office of Foreign Assets Controls. Exports, re-exports and transfers of our software and services must be made in compliance with these laws and regulations. Obtaining the necessary authorizations, including any required license, for a particular sale may be time-consuming, is not guaranteed and may result in the delay or loss of sales opportunities. Changes in the encryption or other technology incorporated into our solutions or in applicable export or import laws and regulations may delay the introduction and sale of our solutions in international markets, prevent customers from deploying our solutions or, in some cases, prevent the export or import of our solutions to certain countries, regions, governments or persons altogether. Changes in sanctions, export or import laws and regulations, in the enforcement or scope of existing laws and regulations, or in the countries, regions, governments, persons or technologies targeted by such laws and regulations, could also result in decreased use of our solutions or in our ability to sell our solutions in certain countries. Even though we take precautions to prevent our solutions from being provided to restricted countries or persons, our solutions could be provided to those targets by our resellers or customers despite such precautions. The decreased use of our solutions or limitation on our ability to export or sell our solutions could adversely affect our business, while violations of these export and import control and economic sanctions laws and regulations could have negative consequences for us and our personnel, including government investigations, administrative fines, civil and criminal penalties, denial of export privileges, incarceration, and reputational harm.

Due to the global nature of our business, we could be adversely affected by violations of the U.S. Foreign Corrupt Practices Act, the U.K. Bribery Act or similar anti-bribery laws in other jurisdictions in which we operate.

The global nature of our business creates various domestic and local regulatory challenges. The Foreign Corrupt Practices Act, or FCPA, the U.K. Bribery Act and similar anti-bribery laws in other jurisdictions generally prohibit U.S.-based companies and their intermediaries from making improper payments for the purpose of obtaining or retaining business to non-U.S. officials, or in the case of the U.K. Bribery Act, to any person. In addition, U.S.-based companies are required to maintain records that accurately and fairly represent their transactions and have an adequate system of internal accounting controls. We operate in areas that experience corruption by government officials and, in certain circumstances, compliance with anti-bribery laws may conflict with local customs and practices. Changes in applicable laws could result in increased regulatory requirements and compliance costs that could adversely affect our business, financial condition and operating results. Although we take

Table of Contents

steps to ensure compliance, we cannot guarantee that our employees, resellers, agents, or other intermediaries will not engage in prohibited conduct that could render us responsible under the FCPA, the U.K. Bribery Act, or other similar laws or regulations in the jurisdictions in which we operate. If we are found to be in violation of these anti-bribery laws (either due to acts or inadvertence of our employees, or due to the acts or inadvertence of others), we could suffer criminal or civil penalties or other sanctions, which could have a material adverse effect on our business.

Our international operations subject us to potentially adverse tax consequences.

As a multinational corporation, we are subject to income taxes as well as non-income based taxes, such as payroll, sales, use, value-added, net worth, property and goods and services taxes, in both the United States and various foreign jurisdictions. Our domestic and international tax liabilities are subject to the allocation of revenues and expenses in different jurisdictions and the timing of recognizing revenues and expenses. Additionally, the amount of income taxes paid is subject to our interpretation of applicable tax laws in the jurisdictions in which we file and changes to tax laws. Significant judgment is required in determining our worldwide provision for income taxes and other tax liabilities. From time to time, we are subject to income and non-income tax audits. While we believe we have complied with all applicable income tax laws, there can be no assurance that a governing tax authority will not have a different interpretation of the law and assess us with additional taxes. Should we be assessed with additional taxes, there could be a material adverse effect on our business, operating results and financial condition.

Our future effective tax rate may be affected by such factors as changes in tax laws, regulations or rates, changing interpretation of existing laws or regulations, the impact of accounting for stock-based compensation, the impact of accounting for business combinations, changes in our international organization, and changes in overall levels of income before tax. In addition, in the ordinary course of our global business, there are many intercompany transactions and calculations where the ultimate tax determination is uncertain. Although we believe that our tax estimates are reasonable, we cannot ensure that the final determination of tax audits or tax disputes will not be different from what is reflected in our historical income tax provisions and accruals.

Taxing authorities may successfully assert that we should have collected or in the future should collect sales and use, value added or similar taxes, and we could be subject to liability with respect to past or future sales, which could adversely affect our results of operations.

We do not collect sales and use, value added and similar taxes in all jurisdictions in which we have sales, based on our belief that such taxes are not applicable. Sales and use, value added and similar tax laws and rates vary greatly by jurisdiction. Certain jurisdictions in which we do not collect such taxes may assert that such taxes are applicable, which could result in tax assessments, penalties and interest, and we may be required to collect such taxes in the future. Such tax assessments, penalties and interest or future requirements may adversely affect our results of operations.

Risks Related to Our Common Stock and This Offering

There has been no prior public trading market for our common stock, and an active trading market may not develop or be sustained following this offering.

We have been approved to list our common stock on the New York Stock Exchange, or NYSE, under the symbol "DT." However, there has been no prior public trading market for our common stock. We cannot assure you that an active trading market for our common stock will develop on such exchange or elsewhere or, if developed, that any market will be sustained. Accordingly, we cannot assure you of the liquidity of any trading market, your ability to sell your shares of our common stock when desired or the prices that you may obtain for your shares of our common stock.

The trading price of our common stock could be volatile , and you could lose all or part of your investment.

Prior to this offering, there has been no public market for shares of our common stock. The initial public offering price of our common stock was determined through negotiation among us and the underwriters. This price does not necessarily reflect the price at which investors in the market will be willing to buy and sell shares of our stock following this offering. In addition, the trading prices of technology stocks have historically experienced high levels of volatility. The trading price of our common stock following this offering may fluctuate substantially. Following the completion of this offering, the market price of our common stock may be higher or lower than the price you pay in the offering, depending on many factors, some of which are beyond our control and may not be related to our operating performance. These fluctuations could cause you to lose all or part of your investment in our common stock. Factors that could cause fluctuations in the trading price of our common stock include the following:

- announcements of new products or technologies, commercial relationships, acquisitions or other events by us or our competitors;
- changes in how customers perceive the benefits of our platform;
- shifts in the mix of billings and revenue attributable to perpetual licenses, term licenses and SaaS subscriptions from quarter to quarter;
- departures of key personnel;
- price and volume fluctuations in the overall stock market from time to time;
- fluctuations in the trading volume of our shares or the size of our public float;
- sales of large blocks of our common stock, including by the Thoma Bravo Funds;
- actual or anticipated changes or fluctuations in our operating results;
- whether our operating results meet the expectations of securities analysts or investors;
- changes in actual or future expectations of investors or securities analysts;
- litigation involving us, our industry or both;
- regulatory developments in the United States, foreign countries or both;
- general economic conditions and trends; and
- major catastrophic events in our domestic and foreign markets.

In addition, if the market for technology stocks or the stock market in general experiences a loss of investor confidence, the trading price of our common stock could decline for reasons unrelated to our business, operating results or financial condition. The trading price of our common stock might also decline in reaction to events that affect other companies in our industry even if these events do not directly affect us. In the past, following periods of volatility in the trading price of a company's securities, securities class action litigation has often been brought against that company.

If securities analysts were to downgrade our stock, publish negative research or reports or fail to publish reports about our business, our competitive position could suffer, and our stock price and trading volume could decline.

The trading market for our common stock will, to some extent, depend on the research and reports that securities analysts may publish about us, our business, our market or our competitors. We do not have any control over these analysts. We do not currently have and may never obtain research

Table of Contents

coverage by securities analysts. If no or few securities analysts commence coverage of us, the trading price of our stock would likely decrease. Even if we do obtain analyst coverage, if one or more of the analysts who cover us should downgrade our stock or publish negative research or reports, cease coverage of our company or fail to regularly publish reports about our business, our competitive position could suffer, and our stock price and trading volume could decline.

The requirements of being a public company, including compliance with the reporting requirements of the Exchange Act, and the requirements of the Sarbanes-Oxley Act, may strain our resources, increase our costs and distract management, and we may be unable to comply with these requirements in a timely or cost-effective manner.

As a public company, we will need to comply with new laws, regulations and requirements, certain corporate governance provisions of the Sarbanes-Oxley Act, the Securities Exchange Act of 1934, as amended, related regulations of the SEC and the requirements of the NYSE, with which we are not required to comply as a private company. Complying with these statutes, regulations and requirements will occupy a significant amount of time of our board of directors and management and will significantly increase our costs and expenses. We will need to:

- institute a more comprehensive compliance function;
- comply with rules promulgated by the NYSE;
- continue to prepare and distribute periodic public reports in compliance with our obligations under the federal securities laws;
- establish new internal policies, such as those relating to insider trading; and
- involve and retain to a greater degree outside counsel and accountants in the above activities.

Furthermore, while we generally must comply with Section 404 of the Sarbanes-Oxley Act for our fiscal year ending March 31, 2021, we are not required to have our independent registered public accounting firm attest to the effectiveness of our internal control over financial reporting until our first annual report subsequent to our ceasing to be an emerging growth company. Accordingly, we may not be required to have our independent registered public accounting firm attest to the effectiveness of our internal control over financial reporting until as late as our annual report for the fiscal year ending March 31, 2024. Once it is required to do so, our independent registered public accounting firm may issue a report that is adverse in the event it is not satisfied with the level at which our internal control over financial reporting are documented, designed, operated or reviewed. Compliance with these requirements may strain our resources, increase our costs and distract management, and we may be unable to comply with these requirements in a timely or cost-effective manner.

In addition, we expect that being a public company subject to these rules and regulations may make it more difficult and more expensive for us to obtain director and officer liability insurance and we may be required to accept reduced policy limits and coverage or incur substantially higher costs to obtain the same or similar coverage. As a result, it may be more difficult for us to attract and retain qualified individuals to serve on our board of directors or as executive officers. We are currently evaluating these rules, and we cannot predict or estimate the amount of additional costs we may incur or the timing of such costs.

Investors in this offering will experience dilution.

Based on an assumed initial public offering price of \$14.00 per share (the midpoint of the estimated price range set forth on the cover of this prospectus), purchasers of our common stock in this offering will experience dilution of \$17.48 per share in the pro forma as adjusted net tangible book

[Table of Contents](#)

value per share of common stock from the initial public offering price, and our pro forma as adjusted net tangible book value as of March 31, 2019 after giving effect to this offering would be \$(3.48) per share. This dilution is due in large part to earlier investors having paid substantially less than the initial public offering price when they purchased their shares. See the section titled "Dilution" below.

Participation in this offering by one or more funds affiliated with Dragoneer Investment Group, LLC could reduce the public float for our shares of common stock.

One or more funds affiliated with Dragoneer Investment Group, LLC have indicated an interest in purchasing up to an aggregate of \$75 million in shares of our common stock in this offering at the initial public offering price. Because this indication of interest is not a binding agreement or commitment to purchase, one or more funds affiliated with Dragoneer Investment Group, LLC could determine to purchase more, less or no shares in this offering or the underwriters could determine to sell more, less or no shares to one or more funds affiliated with Dragoneer Investment Group, LLC. The underwriters will receive the same discount on any of our shares of common stock purchased by one or more funds affiliated with Dragoneer Investment Group, LLC as they will from any other shares of common stock sold to the public in this offering.

If one or more funds affiliated with Dragoneer Investment Group, LLC are allocated all or a portion of the shares in which it has indicated an interest in this offering or more, and purchase any such shares, such purchase could reduce the available public float for our shares if such entities hold these shares long term.

Sales of substantial amounts of our common stock in the public markets, or the perception that such sales could occur, could reduce the market price of our common stock.

Sales of a substantial number of shares of our common stock in the public market after this offering, or the perception that such sales could occur, could adversely affect the market price of our common stock and may make it more difficult for you to sell your common stock at a time and price that you deem appropriate. Based on the total number of outstanding shares of our common stock as of June 30, 2019, upon completion of this offering, we will have approximately 281,463,124 shares of common stock outstanding, assuming an initial public offering price of \$14.00 per share (the midpoint of the estimated price range set forth on the cover page of this prospectus). All of the shares of common stock sold in this offering will be freely tradable without restrictions or further registration under the Securities Act of 1933, as amended, or the Securities Act, except for any shares held by our "affiliates" as defined in Rule 144 under the Securities Act.

Subject to certain exceptions described in the section titled "Underwriting," we, our directors and executive officers, the Thoma Bravo Funds, the selling stockholders and substantially all of the other holders of our common stock, restricted stock units or stock options outstanding immediately prior to this offering have agreed or will agree to enter into lock-up agreements with the underwriters of this offering pursuant to which we and they have agreed or will agree that, subject to certain exceptions, we and they will not dispose of or hedge any shares or any securities convertible into or exchangeable for shares of our common stock for a period of 180 days after the date of this prospectus. See the sections titled "Underwriting" and "Shares Eligible for Future Sale" for more information. Sales of a substantial number of such shares upon expiration of, or the perception that such sales may occur, or early release of the securities subject to, the lock-up agreements, could cause our stock price to fall or make it more difficult for you to sell your common stock at a time and price that you deem appropriate.

Our issuance of additional capital stock in connection with financings, acquisitions, investments, our stock incentive plans or otherwise will dilute all other stockholders.

We may issue additional capital stock in the future that will result in dilution to all other stockholders. We may also raise capital through equity financings in the future. As part of our business

strategy, we may acquire or make investments in complementary companies, products or technologies and issue equity securities to pay for any such acquisition or investment. Any such issuances of additional capital stock may cause stockholders to experience significant dilution of their ownership interests and the per share value of our common stock to decline.

Management will have broad discretion over the use of our proceeds from this offering.

The principal purposes of this offering include increasing our capitalization and financial flexibility, creating a public market for our stock, thereby enabling access to the public equity markets by our employees and stockholders, obtaining additional capital and increasing our visibility in the marketplace. We intend to use our net proceeds from this offering for general corporate purposes, including working capital, operating expenses and capital expenditures, and to repay a portion of the borrowings outstanding under our credit facility. See "Use of Proceeds." We cannot specify with certainty the particular uses of the net proceeds to us from this offering. Accordingly, we will have broad discretion in using these proceeds and might not be able to obtain a significant return, if any, on investment of these net proceeds. Investors in this offering will need to rely upon the judgment of our management with respect to the use of our proceeds. If we do not use the net proceeds that we receive in this offering effectively, our business, operating results and financial condition could be harmed.

We expect to be a controlled company within the meaning of the NYSE rules and, as a result, will qualify for and intend to rely on exemptions from certain corporate governance requirements.

Upon completion of this offering, Thoma Bravo, as the ultimate general partner of the Thoma Bravo Funds, will beneficially own a majority of the voting power of all classes of our outstanding voting stock. As a result, we will be a controlled company within the meaning of the NYSE corporate governance standards. Under the NYSE rules, a company of which more than 50% of the voting power is held by another person or group of persons acting together is a controlled company and may elect not to comply with certain NYSE corporate governance requirements, including the requirements that:

- a majority of the board of directors consist of independent directors as defined under the rules of the NYSE;
- the nominating and governance committee be composed entirely of independent directors with a written charter addressing the committee's purpose and responsibilities;
- the compensation committee be composed entirely of independent directors with a written charter addressing the committee's purpose and responsibilities; and
- annual performance evaluations of the nominating and governance committee and the compensation committee be performed.

These requirements will not apply to us as long as we remain a controlled company. Following this offering, we intend to utilize some or all of these exemptions. Additionally, upon the completion of this offering, our executive officers, directors, and the Thoma Bravo Funds will beneficially own approximately 73.5% of our issued and outstanding shares of common stock, assuming the sale by us of 34,000,000 shares of common stock in this offering. These stockholders may be able to determine all matters requiring stockholder approval. For example, these stockholders may be able to control elections of directors, amendments of our organizational documents, or approval of any merger, sale of assets, or other major corporate transaction. This may prevent or discourage unsolicited acquisition proposals or offers for our common stock that you may feel are in your best interest as one of our stockholders. Accordingly, you may not have the same protections afforded to stockholders of companies that are subject to all of the corporate governance requirements of the NYSE. See the section titled "Management—Status as a Controlled Company" below.

Thoma Bravo has a controlling influence over matters requiring stockholder approval, which may have the effect of delaying or preventing changes of control, or limiting the ability of other stockholders to approve transactions they deem to be in their best interest.

Thoma Bravo, as the ultimate general partner of the Thoma Bravo Funds, beneficially owns in the aggregate 80.7% of our stock and, after this offering, will beneficially own in the aggregate 70.9% of our issued and outstanding shares of common stock assuming the sale by us of 34,000,000 shares of common stock in this offering (or, if the underwriters' option to purchase additional shares from us is exercised in full, 69.7% of our issued and outstanding shares of common stock). As a result, Thoma Bravo could exert significant influence over our operations and business strategy and would have sufficient voting power to determine the outcome of all matters requiring stockholder approval. These matters may include:

- the composition of our board of directors, which has the authority to direct our business and to appoint and remove our officers;
- approving or rejecting a merger, consolidation or other business combination;
- raising future capital; and
- amending our charter and bylaws, which govern the rights attached to our common stock.

For so long as Thoma Bravo beneficially owns 30% or more of our outstanding shares of common stock, Thoma Bravo will have the right to designate a majority of our board of directors. For so long as Thoma Bravo has the right to designate a majority of our board of directors, the directors designated by Thoma Bravo are expected to constitute a majority of each committee of our board of directors, other than the audit committee, and the chairman of each of the committees, other than the audit committee, is expected to be a director designated by Thoma Bravo. At such time as we are not a "controlled company" under the NYSE corporate governance standards, our committee membership will comply with all applicable requirements of those standards and a majority of our board of directors will be "independent directors," as defined under the rules of the NYSE.

This concentration of ownership of our common stock could delay or prevent proxy contests, mergers, tender offers, open-market purchase programs or other purchases of our common stock that might otherwise give you the opportunity to realize a premium over the then-prevailing market price of our common stock. This concentration of ownership may also adversely affect our share price.

Thoma Bravo may pursue corporate opportunities independent of us that could present conflicts with our and our stockholders' interests.

Thoma Bravo is in the business of making or advising on investments in companies and holds (and may from time to time in the future acquire) interests in or provides advice to businesses that may directly or indirectly compete with our business or be suppliers or customers of ours. Thoma Bravo may also pursue acquisitions that may be complementary to our business and, as a result, those acquisition opportunities may not be available to us.

Our charter provides that none of our officers or directors who are also an officer, director, employee, partner, managing director, principal, independent contractor or other affiliate of Thoma Bravo will be liable to us or our stockholders for breach of any fiduciary duty by reason of the fact that any such individual pursues or acquires a corporate opportunity for its own account or the account of an affiliate, as applicable, instead of us, directs a corporate opportunity to any other person, instead of us or does not communicate information regarding a corporate opportunity to us.

We do not intend to pay dividends on our common stock and, consequently, your ability to achieve a return on your investment will depend on appreciation in the price of our common stock.

We have never declared or paid any dividends on our common stock. We intend to retain any earnings to finance the operation and expansion of our business, and we do not anticipate paying any cash dividends in the foreseeable future. As a result, you may only receive a return on your investment in our common stock if the market price of our common stock increases.

Our charter and bylaws contain anti-takeover provisions that could delay or discourage takeover attempts that stockholders may consider favorable.

Our charter and bylaws contain provisions that could delay or prevent a change in control of our company. These provisions could also make it difficult for stockholders to elect directors who are not nominated by the current members of our board of directors or take other corporate actions, including effecting changes in our management. These provisions include:

- a classified board of directors with three-year staggered terms, which could delay the ability of stockholders to change the membership of a majority of our board of directors;
- after Thoma Bravo ceases to beneficially own at least 30% of the outstanding shares of our common stock, removal of directors only for cause, and subject to the affirmative vote of the holders of 66 2/3% or more of our outstanding shares of capital stock then entitled to vote at a meeting of our stockholders called for that purpose;
- the ability of our board of directors to issue shares of preferred stock and to determine the price and other terms of those shares, including preferences and voting rights, without stockholder approval, which could be used to significantly dilute the ownership of a hostile acquirer;
- allowing Thoma Bravo to fill any vacancy on our board of directors for so long as affiliates of Thoma Bravo own 30% or more of our outstanding shares of common stock and thereafter, allowing only our board of directors to fill vacancies on our board of directors, which prevents stockholders from being able to fill vacancies on our board of directors;
- after Thoma Bravo ceases to beneficially own at least a majority of the outstanding shares of our common stock, a prohibition on stockholder action by written consent, which forces stockholder action to be taken at an annual or special meeting of our stockholders;
- after we cease to be a controlled company, the requirement that a special meeting of stockholders may be called only by our board of directors, the chairperson of our board of directors, our chief executive officer or our president (in the absence of a chief executive officer), which could delay the ability of our stockholders to force consideration of a proposal or to take action, including the removal of directors;
- after we cease to be a controlled company, the requirement for the affirmative vote of holders of at least 66 2/3% of the voting power of all of the then outstanding shares of the voting stock, voting together as a single class, to amend the provisions of our charter relating to the management of our business (including our classified board structure) or certain provisions of our bylaws, which may inhibit the ability of an acquirer to effect such amendments to facilitate an unsolicited takeover attempt;
- the ability of our board of directors to amend the bylaws, which may allow our board of directors to take additional actions to prevent an unsolicited takeover and inhibit the ability of an acquirer to amend the bylaws to facilitate an unsolicited takeover attempt;
- advance notice procedures with which stockholders must comply to nominate candidates to our board of directors or to propose matters to be acted upon at a stockholders' meeting, which

may discourage or deter a potential acquirer from conducting a solicitation of proxies to elect the acquirer's own slate of directors or otherwise attempting to obtain control of us; and

- a prohibition of cumulative voting in the election of our board of directors, which would otherwise allow less than a majority of stockholders to elect director candidates.

Our charter also contains a provision that provides us with protections similar to Section 203 of the Delaware General Corporation Law, and prevents us from engaging in a business combination, such as a merger, with an interested stockholder (i.e., a person or group who acquires at least 15% of our voting stock) for a period of three years from the date such person became an interested stockholder, unless (with certain exceptions) the business combination or the transaction in which the person became an interested stockholder is approved in a prescribed manner. However, our charter also provides that transactions with Thoma Bravo, including the Thoma Bravo Funds, and any persons to whom any Thoma Bravo Fund sells its common stock will be deemed to have been approved by our board of directors.

We may issue preferred stock the terms of which could adversely affect the voting power or value of our common stock.

Following the completion of this offering, our charter will authorize us to issue, without the approval of our stockholders, one or more classes or series of preferred stock having such designations, preferences, limitations and relative rights, including preferences over our common stock respecting dividends and distributions, as our board of directors may determine. The terms of one or more classes or series of preferred stock could adversely impact the voting power or value of our common stock. For example, we might grant holders of preferred stock the right to elect some number of our directors in all events or on the happening of specified events or the right to veto specified transactions. Similarly, the repurchase or redemption rights or liquidation preferences we might assign to holders of preferred stock could affect the residual value of our common stock.

Our bylaws designate the Court of Chancery of the State of Delaware as the exclusive forum for certain litigation that may be initiated by our stockholders, which could limit our stockholders' ability to obtain a favorable judicial forum for disputes with us.

Pursuant to our bylaws, which will become effective upon the completion of this offering, unless we consent in writing to the selection of an alternative forum, the Court of Chancery of the State of Delaware is the sole and exclusive forum for state law claims for (1) any derivative action or proceeding brought on our behalf, (2) any action asserting a claim of or based on a breach of a fiduciary duty owed by any of our current or former directors, officers, or other employees to us or our stockholders, (3) any action asserting a claim against us or any of our current or former directors, officers, employees, or stockholders arising pursuant to any provision of the Delaware General Corporation Law or our bylaws, or (4) any action asserting a claim governed by the internal affairs doctrine. In addition, our bylaws provide that any person or entity purchasing or otherwise acquiring any interest in shares of our common stock is deemed to have notice of and consented to the foregoing provisions; provided, however, that stockholders will not be deemed to have waived our compliance with the federal securities laws and the rules and regulations thereunder. This provision will not apply to actions arising under the Securities Act or the Exchange Act. We recognize that the forum selection clause may impose additional litigation costs on stockholders who assert the provision is not enforceable and may impose more general additional litigation costs in pursuing any such claims. Additionally, the forum selection clause in our bylaws may limit our stockholders' ability to obtain a favorable judicial forum for disputes with us. The Court of Chancery of the State of Delaware may also reach different judgments or results than would other courts, including courts where a stockholder considering an action may be located or would otherwise choose to bring the action, and such judgments may be more or less favorable to us than our stockholders.

For as long as we are an emerging growth company, we will not be required to comply with certain requirements that apply to other public companies.

We are an emerging growth company, as defined in the JOBS Act. For as long as we are an emerging growth company, unlike other public companies, we will not be required to, among other things: (i) provide an auditor's attestation report on management's assessment of the effectiveness of our system of internal control over financial reporting pursuant to Section 404(b) of the Sarbanes-Oxley Act; (ii) comply with any new requirements adopted by the Public Company Accounting Oversight Board requiring mandatory audit firm rotation or a supplement to the auditor's report in which the auditor would be required to provide additional information about the audit and the financial statements of the issuer; (iii) provide certain disclosures regarding executive compensation required of larger public companies; or (iv) hold nonbinding advisory votes on executive compensation and any golden parachute payments not previously approved. In addition, the JOBS Act provides that an emerging growth company can take advantage of the extended transition period provided in Section 7(a)(2)(B) of the Securities Act for adopting new or revised financial accounting standards. We intend to take advantage of the longer phase-in periods for the adoption of new or revised financial accounting standards permitted under the JOBS Act until we are no longer an emerging growth company. If we were to subsequently elect instead to comply with these public company effective dates, such election would be irrevocable pursuant to the JOBS Act.

We will remain an emerging growth company for up to five full fiscal years, although we will lose that status sooner if we have more than \$1.07 billion of revenues in a fiscal year, have more than \$700 million in market value of our common stock held by non-affiliates (and have been a public company for at least 12 months and have filed one annual report on Form 10-K), or issue more than \$1.0 billion of non-convertible debt over a three-year period.

To the extent that we rely on any of the exemptions available to emerging growth companies, you will receive less information about our executive compensation and internal control over financial reporting than issuers that are not emerging growth companies. We cannot predict if investors will find our common stock less attractive because we will rely on these exemptions. If some investors find our common stock to be less attractive as a result, there may be a less active trading market for our common stock and our stock price may be more volatile.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This prospectus contains forward-looking statements within the meaning of the federal securities laws, which statements involve substantial risks and uncertainties. Forward-looking statements generally relate to future events or our future financial or operating performance. All statements of historical fact included in this prospectus regarding our strategy, future operations, financial position, estimated revenues and losses, projected costs, prospects, plans and objectives of management are forward-looking statements. In some cases, you can identify forward-looking statements because they contain words such as “may,” “should,” “expects,” “plans,” “anticipates,” “could,” “intends,” “target,” “projects,” “contemplates,” “believes,” “estimates,” “predicts,” “potential” or “continue” or the negative of these words or other similar terms or expressions that concern our expectations, strategy, plans or intentions. When considering forward-looking statements, you should keep in mind the risk factors and other cautionary statements described under the heading “Risk Factors” included in this prospectus. These forward-looking statements are based on management’s current beliefs, based on currently available information, as to the outcome and timing of future events. Forward-looking statements contained in this prospectus include, but are not limited to, statements about:

- our future financial performance, including our expectations regarding our revenue, annual recurring revenue, gross profit or gross margin, operating expenses, ability to generate cash flow, revenue mix and ability to maintain future profitability;
- anticipated trends and growth rates in our business and in the markets in which we operate;
- our ability to convert our customers from our Classic products to our Dynatrace ® platform;
- our ability to maintain and expand our customer base and our partner network;
- our ability to sell our applications and expand internationally;
- our ability to anticipate market needs and successfully develop new and enhanced solutions to meet those needs;
- our ability to hire and retain necessary qualified employees to grow our business and expand our operations;
- the evolution of technology affecting our applications, platform and markets;
- our ability to adequately protect our intellectual property;
- our ability to service our debt obligations;
- our ability to pay the remaining balance of the tax liability resulting from the Compuware Spin-Off from our cash flow from operations; and
- our anticipated uses of our net proceeds from this offering.

We caution you that the foregoing list may not contain all of the forward-looking statements made in this prospectus.

You should not rely upon forward-looking statements as predictions of future events. We have based the forward-looking statements contained in this prospectus primarily on our current expectations and projections about future events and trends that we believe may affect our business, financial condition, results of operations and prospects. The outcome of the events described in these forward-looking statements is subject to risks, uncertainties and other factors described in the section titled “Risk Factors” and elsewhere in this prospectus. Moreover, we operate in a very competitive and rapidly changing environment. New risks and uncertainties emerge from time to time and it is not possible for us to predict all risks and uncertainties that could have an impact on the forward-looking statements contained in this prospectus. We cannot assure you that the results, events and circumstances reflected in the forward-looking statements will be achieved or occur, and actual results, events or circumstances could differ materially from those described in the forward-looking statements.

[Table of Contents](#)

The forward-looking statements made in this prospectus relate only to events as of the date on which the statements are made. We undertake no obligation to update any forward-looking statements made in this prospectus to reflect events or circumstances after the date of this prospectus or to reflect new information or the occurrence of unanticipated events, except as required by law. We may not actually achieve the plans, intentions or expectations disclosed in our forward-looking statements and you should not place undue reliance on our forward-looking statements.

MARKET AND INDUSTRY DATA

Unless otherwise indicated, information contained in this prospectus concerning our industry and the market in which we operate, including our general expectations and market position, market opportunity and market size, is based on information from various sources, on assumptions that we have made that are based on those data and other similar sources, and on our knowledge of the markets for our solutions. This information involves a number of assumptions and limitations and you are cautioned not to give undue weight to these estimates. In addition, the industry in which we operate, as well as the projections, assumptions and estimates of our future performance and the future performance of the industry in which we operate, are subject to a high degree of uncertainty and risk due to a variety of factors, including those described in the section titled "Risk Factors" and elsewhere in this prospectus, that could cause results to differ materially from those expressed in these publications and reports.

Some of the industry and market data contained in this prospectus are based on independent industry publications, including those generated by Gartner or other publicly available information. The Gartner reports described herein, or the Gartner Reports, represent research opinions or viewpoints published, as part of a syndicated subscription service, by Gartner, and are not representations of fact. Each Gartner Report speaks as of its original publication date (and not as of the date of this prospectus) and the opinions expressed in the Gartner Reports are subject to change without notice. Gartner does not endorse any vendor, product or service depicted in its research publications, and does not advise technology users to select only those vendors with the highest ratings or other designation. Gartner research publications consist of the opinions of each of the respective party's research organization and should not be construed as statements of fact. Gartner disclaims all warranties, expressed or implied, with respect to this research, including any warranties of merchantability or fitness for a particular purpose.

USE OF PROCEEDS

We estimate that the net proceeds from the sale of shares of our common stock that we are selling in this offering will be approximately \$445.5 (or approximately \$510.0 if the underwriters' option to purchase additional shares from us is exercised in full), assuming an initial public offering price of \$14.00 per share (the midpoint of the estimated offering price range set forth on the cover page of this prospectus), after deducting estimated underwriting discounts and commissions and estimated offering expenses payable by us. We will not receive any of the proceeds from the sale of the shares being offered by the selling stockholders.

Each \$1.00 increase or decrease in the assumed initial public offering price of \$14.00 per share (the midpoint of the estimated offering price range set forth on the cover page of this prospectus) would increase or decrease, as applicable, the net proceeds that we receive from this offering by approximately \$32.2 million, assuming that the number of shares of common stock offered by us, as set forth on the cover page of this prospectus, remains the same, and after deducted estimated underwriting discounts and commissions and estimated offering expenses payable by us. Similarly, each increase or decrease of 1.0 million shares in the number of shares of our common stock offered by us, as set forth on the cover page of this prospectus, would increase or decrease the net proceeds that we receive from this offering by approximately \$13.2 million, assuming the assumed initial public offering price remains the same.

The principal purposes of this offering are to increase our capitalization and financial flexibility, create a public market for our common stock and enable access to the public equity markets for us and our stockholders.

We intend to use a portion of our net proceeds from this offering, together with our cash and cash equivalents, to repay \$386.0 million of the borrowings outstanding under our Credit Facility, under which affiliates of certain of the underwriters in this offering are lenders. See "Underwriting." We may also use the balance of our net proceeds for general corporate purposes, including working capital, operating expenses, capital expenditures, and to acquire complementary businesses, products, services or technologies. However, we do not have agreements or commitments for any acquisitions at this time.

At March 31, 2019, we had approximately \$1.0 billion of aggregate indebtedness, consisting of: (i) \$947.6 million outstanding under our first lien term loan facility, (ii) \$88.7 million outstanding under our second lien term loan facility, (iii) \$0.5 million outstanding under a \$15.0 million letter of credit sub-facility, and (iv) \$14.3 million of unamortized debt issuance fees. We also have a \$60.0 million revolving credit facility under which we had no outstanding borrowings as of March 31, 2019. The first lien term loan requires equal quarterly repayments equal to 0.25% of the original principal amount under the first lien term loan facility and revolving credit facility. The second lien term loan facility bears interest at a floating rate which can be, at our option, either (i) a Eurodollar rate for a specified period plus 7.00% or (ii) a base rate plus 6.00%. The base rate for any day is a fluctuating rate per annum equal to the highest of (a) the "prime rate" as last quoted by *The Wall Street Journal*, (b) the federal funds effective rate in effect on such day, plus 0.50% per annum and (c) the Eurodollar rate for a one-month interest period plus 1.00%. The base rate applicable to the second lien term loan facility is subject to a "floor" of 0.0%. Borrowings under the revolving credit facility mature on August 23, 2023. The first lien term loan facility matures on August 23, 2025. The second lien term loan facility matures on August 23, 2026. The indebtedness was incurred for the purpose of paying down related party debt associated with our acquisition by the Thoma Bravo Funds. See "Description of Indebtedness."

[Table of Contents](#)

Our management will have broad discretion in the application of our net proceeds of this offering, and investors will be relying on the judgment of our management regarding the application of our net proceeds. Pending the use of proceeds to us from this offering as described above, we intend to invest the net proceeds to us from this offering in short-term and long-term interest-bearing obligations, including government and investment-grade debt securities and money market funds.

DIVIDEND POLICY

We currently intend to retain all available funds and any future earnings for use in the operation of our business and do not expect to pay any dividends on our common stock in the foreseeable future. Any future determination to declare dividends will be made at the discretion of our board of directors, subject to applicable laws, and will depend on a number of factors, including our financial condition, results of operations, capital requirements, contractual restrictions, general business conditions and other factors that our board of directors may deem relevant. In addition, our credit facility places restrictions on the ability of our subsidiaries to pay cash dividends or make distributions to us.

CAPITALIZATION

The following table sets forth our cash and cash equivalents and capitalization as of March 31, 2019:

- on an actual basis;
- on a pro forma basis to give effect to:
 - the issuance of 246,972,117 shares of common stock in connection with the Spin-Off Transactions, as if the Spin-Off Transactions occurred on March 31, 2019;
 - the elimination of the related party payable in connection with the Spin-Off Transactions; and
 - the reclassification of our share-based compensation liability to additional paid-in capital, prior to the effectiveness of the registration statement of which this prospectus is a part; and
- on a pro forma as adjusted basis, giving effect to the pro forma adjustments set forth above and the sale and issuance by us of 34,000,000 shares of our common stock in this offering, assuming an initial public offering price of \$14.00 per share (the midpoint of the estimated offering price range set forth on the cover page of this prospectus), after deducting estimated underwriting discounts and commissions and estimated offering expenses payable by us, and the application of our net proceeds from this offering as set forth under the section titled "Use of Proceeds."

The information below is illustrative only and our capitalization following the closing of this offering will be adjusted based on the actual public offering price and other terms of this offering determined at pricing. You should read this table together with our consolidated financial statements and related notes, and the sections titled "Selected Consolidated Financial and Other Data," "Management's Discussion and Analysis of Financial Condition and Results of Operations" and "Use of Proceeds" that are included elsewhere in this prospectus.

	As of March 31, 2019		
	Actual	Pro Forma	Pro Forma as Adjusted
	(in thousands, except share and per share data)		
Cash and cash equivalents(1)	\$ 51,314	\$ 51,314	\$ 109,892
Related party payable	597,150	—	—
Long-term debt, net of current portion	1,011,793	1,011,793	628,558
Member's/stockholder's deficit			
Preferred stock, \$0.001 par value per share; no shares authorized, issued or outstanding, actual; no shares authorized, issued and outstanding, pro forma; 50,000,000 shares authorized and no shares issued and outstanding pro forma as adjusted	—	—	—
Common units, no par value; 100 units authorized, issued and outstanding	—	—	—
Common stock, \$0.001 par value per share; no shares authorized, issued or outstanding, actual; 600,000,000 shares authorized and 246,972,117 shares issued and outstanding, pro forma; 600,000,000 shares authorized and 280,972,117 shares issued and outstanding pro forma as adjusted	—	247	281
Additional paid-in capital	(184,546)	504,404	949,834
Accumulated deficit	(176,002)	(176,002)	(179,653)
Accumulated other comprehensive (loss)	(29,710)	(29,710)	(29,710)
Total member's/stockholder's equity (deficit)	(390,258)	298,939	740,752
Total capitalization	\$ 1,218,685	\$ 1,310,732	\$ 1,369,310

- (1) The pro forma and pro forma as adjusted cash and cash equivalents does not reflect the \$265.0 million that Compuware will distribute to us to partially satisfy the estimated \$275.0 million tax liability incurred by us in connection with the Compuware Spin-Off. We expect to fund the remaining tax liability with our cash flow from operations. Of the estimated tax liability, we expect to pay \$265.0 to the applicable taxing authorities during the three months ending September 30, 2019, and the balance will be due by no later than March 2020.

Each \$1.00 increase (decrease) in the assumed initial public offering price of \$14.00 per share (the midpoint of the estimated offering price range set forth on the cover page of this prospectus) would increase (decrease) the pro forma as adjusted amount of each of cash and cash equivalents, additional paid-in capital, total stockholders' equity and total capitalization by \$32.2 million, assuming that the number of shares offered by us, as set forth on the cover page of this prospectus, remains the same and after deducting estimated underwriting discounts and commissions and estimated offering expenses payable by us. Each increase (decrease) of 1.0 million shares in the number of shares offered by us, as set forth on the cover page of this prospectus, would increase (decrease) the pro forma as adjusted amount of each of cash and cash equivalents, additional paid-in capital, total stockholders' equity and total capitalization by \$13.2 million, assuming no change in the assumed initial public offering price per share and after deducting estimated underwriting discounts and commissions and estimated offering expenses payable by us.

The number of shares of common stock to be outstanding as of March 31, 2019 excludes:

- 1,554,323 shares of common stock issuable upon the vesting of restricted stock unit awards that are issuable upon the exchange of equity awards that are issued, outstanding and unvested as of March 31, 2019, which exchange will occur in connection with the Spin-Off Transactions, as if the Spin-Off Transactions occurred on March 31, 2019;
- 52,000,000 shares of our common stock that will become available for future issuance under our 2019 Equity Incentive Plan, which will become effective prior to the effectiveness of the registration statement of which this prospectus is a part, under which we intend to grant (i) an aggregate of 20,512,141 shares of common stock, restricted stock awards and restricted stock unit awards, which are issuable upon exchange of equity grants in connection with the Spin-Off Transactions, as well as (ii) awards to certain of our directors, officers and employees totaling 2,703,486 restricted stock unit awards and 8,201,800 options to purchase shares of common stock, at an exercise price equal to the initial public offering price set forth on the cover page of this prospectus, which awards will be effective immediately following the effectiveness of the registration statement of which this prospectus is a part; and
- 6,250,000 shares of our common stock that will become available for future issuance under our 2019 Employee Stock Purchase Plan, which will become effective prior to the effectiveness of the registration statement of which this prospectus is a part.

DILUTION

If you purchase shares of our common stock in this offering, your ownership interest will be diluted to the extent of the difference between the initial public offering price per share of our common stock and the pro forma as adjusted net tangible book value per share immediately after this offering. Dilution in pro forma net tangible book value per share to investors purchasing shares of our common stock in this offering represents the difference between the amount per share paid by investors purchasing shares of our common stock in this offering and the pro forma as adjusted net tangible book value per share of our common stock immediately after completion of this offering.

Net tangible book value per share is determined by dividing our total tangible assets, excluding deferred commissions, less our total liabilities by the number of shares of our common stock outstanding. Our historical net tangible book value as of March 31, 2019 was \$(2.0) billion, or \$(8.06) per share. Our pro forma net tangible book value as of March 31, 2019 was \$(1.3) billion, or \$(5.26) per share, based on the total number of shares of our common stock outstanding as of March 31, 2019, giving effect to the issuance of 246,972,117 shares of common stock in connection with the Spin-Off Transactions, as if the Spin-Off Transactions occurred on March 31, 2019, and elimination of the related party payable and the reclassification of our share-based compensation liability to additional paid-in capital in connection with the Spin-Off Transactions prior to the effectiveness of the registration statement of which this prospectus is a part.

After giving further effect to the sale by us of 34,000,000 shares of our common stock in this offering at the assumed initial public offering price of \$14.00 per share (the midpoint of the estimated offering price range set forth on the cover page of this prospectus), the repayment of \$386.0 million of borrowings outstanding under our credit facility, and after deducting estimated underwriting discounts and commissions and estimated offering expenses payable by us, our pro forma as adjusted net tangible book value as of March 31, 2019 would have been \$(858.4) million, or \$(3.48) per share. This represents an immediate increase in pro forma net tangible book value of \$1.79 per share to our existing stockholders and an immediate dilution in pro forma as adjusted net tangible book value of \$17.48 per share to investors purchasing shares of our common stock in this offering. There is no impact on dilution per share to investors participating in this offering as a result of the sale of shares by the selling stockholders. The following table illustrates this dilution:

Assumed initial public offering price per share	\$ 14.00
Pro forma net tangible book value per share as of March 31, 2019	\$(5.26)
Increase in pro forma net tangible book value per share attributable to investors purchasing shares in this offering	<u>1.79</u>
Pro forma as adjusted net tangible book value per share immediately after the completion of this offering	<u>(3.48)</u>
Dilution to new investors purchasing shares in this offering	<u>\$ 17.48</u>

Each \$1.00 increase or decrease in the assumed initial public offering price of \$14.00 per share (the midpoint of the estimated offering price range set forth on the cover page of this prospectus) would increase or decrease, as applicable, our pro forma as adjusted net tangible book value per share to new investors by \$0.13, and would increase or decrease, as applicable, dilution per share to new investors purchasing shares of our common stock in this offering by \$0.87, assuming the number of shares of our common stock offered by us, as set forth on the cover page of this prospectus, remains the same and after deducting estimated underwriting discounts and commissions and estimated offering expenses payable by us. Similarly, each increase or decrease of 1.0 million shares in the number of shares of our common stock offered by us would increase or decrease, as applicable, our pro forma as adjusted net tangible book value by approximately \$0.07 per share and increase or

Table of Contents

decrease, as applicable, the dilution to investors purchasing shares of our common stock in this offering by \$0.07 per share, assuming the assumed initial public offering price of \$14.00 per share (the midpoint of the estimated offering price range set forth on the cover page of this prospectus) remains the same and after deducting estimated underwriting discounts and commissions and estimated offering expenses payable by us.

If the underwriters' option to purchase additional shares from us is exercised in full, the pro forma as adjusted net tangible book value per share of our common stock immediately after the completion of this offering would be \$(3.15) per share, and the dilution to investors purchasing shares of our common stock in this offering would be \$17.15 per share.

The following table presents, on a pro forma as adjusted basis, as of March 31, 2019, after giving effect to (i) the completion of the Spin-Off Transactions prior to the effectiveness of the registration statement of which this prospectus is a part and (ii) the sale by us of 34,000,000 shares of our common stock in this offering at the assumed initial public offering price of \$14.00 per share (the midpoint of the estimated offering price range set forth on the cover page of this prospectus) the difference between the existing stockholders and the investors purchasing shares of our common stock in this offering with respect to the number of shares of our common stock purchased from us, the total consideration paid or to be paid to us, and the average price per share paid or to be paid to us, before deducting estimated underwriting discounts and commissions and estimated offering expenses payable by us:

	Shares Purchased		Total Consideration		Average Price Per Share
	Number	Percent	Amount	Percent	
Existing stockholders	246,972,117	87.9%	\$ 610,988,003	56.2%	2.47
Investors purchasing shares of our common stock in this offering	34,000,000	12.1	476,000,000	43.8	14.00
Total	<u>280,972,117</u>	<u>100%</u>	<u>\$1,086,988,003</u>	<u>100%</u>	<u>\$ 3.87</u>

Sales of shares of common stock by the selling stockholders in this offering will reduce the number of shares of common stock held by existing stockholders to 245,362,363, or approximately 87.3% of the total shares of common stock outstanding after this offering, and will increase the number of shares held by new investors to 35,609,754, or approximately 12.7% of the total shares of common stock outstanding after this offering.

Except as otherwise indicated, the above discussion and tables assume no exercise of the underwriters' option to purchase additional shares. If the underwriters' option to purchase additional shares is exercised in full, our existing stockholders would own 85.7% and the investors purchasing shares of our common stock in this offering would own approximately 14.3% of the total number of shares of our common stock outstanding immediately after completion of this offering.

The number of shares of common stock to be outstanding as of March 31, 2019 excludes:

- 1,554,323 shares of common stock issuable upon the vesting of restricted stock unit awards that are issuable upon the exchange of equity awards that are issued, outstanding and unvested as of March 31, 2019, which exchange will occur in connection with the Spin-Off Transactions, as if the Spin-Off Transactions occurred on March 31, 2019.
- 52,000,000 shares of our common stock that will become available for future issuance under our 2019 Equity Incentive Plan, which will become effective prior to the effectiveness of the registration statement of which this prospectus is a part, under which we intend to grant (i) an aggregate of 20,512,141 shares of common stock, restricted stock awards and restricted stock unit awards, which are issuable upon exchange of equity grants in connection with the Spin-Off

[Table of Contents](#)

Transactions, as well as (ii) awards to certain of our directors, officers and employees totaling 2,703,486 restricted stock unit awards and 8,201,800 options to purchase shares of common stock, at an exercise price equal to the initial public offering price set forth on the cover page of this prospectus, which awards will be effective immediately following the effectiveness of the registration statement of which this prospectus is a part; and

- 6,250,000 shares of our common stock that will become available for future issuance under our 2019 Employee Stock Purchase Plan, which will become effective prior to the effectiveness of the registration statement of which this prospectus is a part.

To the extent that any outstanding options to purchase shares of our common stock are exercised there will be further dilution to investors participating in this offering.

SELECTED CONSOLIDATED FINANCIAL AND OTHER DATA

We have derived the selected consolidated statement of operations and cash flow data for the years ended March 31, 2017, 2018, and 2019 and the selected consolidated balance sheet data as of March 31, 2018 and 2019 set forth below from our audited consolidated financial statements included elsewhere in this prospectus. Our historical results are not necessarily indicative of the results to be expected in the future.

The following summary consolidated financial and other data should be read in conjunction with the section titled “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and our consolidated financial statements and related notes included elsewhere in this prospectus.

	Year Ended March 31,		
	2017	2018	2019
Consolidated Statements of Operations Data:			
Revenue:			
Subscriptions	\$ 232,783	\$ 257,576	\$ 349,830

For an explanation of our key metrics, see section titled “Management’s Discussion and Analysis of Financial Condition and Results of Operations—Key Metrics.”

NON-GAAP FINANCIAL MEASURES

In addition to our financial information presented in accordance with GAAP, we use certain “non-GAAP financial measures” to clarify and enhance our understanding of past performance and future prospects. Generally, a non-GAAP financial measure is a numerical measure of a company’s operating performance, financial position or cash flow that includes or excludes amounts that are included or excluded from the most directly comparable measure calculated and presented in accordance with GAAP. As discussed below, we monitor the non-GAAP financial measures described below, and we believe they are helpful to investors.

Our non-GAAP financial measures may not provide information that is directly comparable to that provided by other companies in our industry because they may calculate non-GAAP financial results differently. In addition, there are limitations in using non-GAAP financial measures because they are not prepared in accordance with GAAP and exclude expenses that may have a material impact on our reported financial results. In particular, interest expense, which is excluded from Adjusted EBITDA has been and will continue to be a significant recurring expense in our business for the foreseeable future. The presentation of non-GAAP financial information is not meant to be considered in isolation or as a substitute for the directly comparable financial measures prepared in accordance with GAAP. We urge you to review the reconciliations of our non-GAAP financial measures to the comparable GAAP financial measures included below, and not to rely on any single financial measure to evaluate our business.

Non-GAAP operating income (loss)

To supplement our consolidated financial statements presented in accordance with GAAP, we provide investors with certain non-GAAP financial measures, including non-GAAP operating income (loss). We define non-GAAP operating income (loss) as the respective GAAP balance, adjusted to exclude depreciation and amortization, restructuring, transaction and sponsor related costs, and stock-based compensation expense.

Table of Contents

The following tables present our non-GAAP operating income (loss) and reconcile our GAAP net income (loss) to non-GAAP operating income (loss) for the years ended March 31, 2017, 2018 and 2019:

Year Ended March 31, 2017					
	GAAP	Share-based compensation	Amortization of other intangibles	Restructuring & Other	Non-GAAP
Cost of revenues	\$102,172	\$ (28)	\$ (19,261)	\$ —	\$ 82,883

Operating income (loss)	(72,707)	71,151	66,024	14,306	78,774
<i>Operating margin</i>	(16.9)%				18.3%

Adjusted EBITDA

We believe that adjusted EBITDA is a measure widely used by securities analysts and investors to evaluate the financial performance of our company and other companies. We also believe that adjusted EBITDA is an important measure for evaluating our performance because it facilitates comparisons of our core operating results from period to period by removing the impact of our capital structure (net interest income or expense from our outstanding debt), asset base (depreciation and amortization), tax consequences, restructuring and other gains and losses, transaction and sponsor related costs, gains and losses on foreign currency and stock-based compensation. In addition, we base certain of our forward-looking estimates and budgets on adjusted EBITDA.

Table of Contents

The following table reflects the reconciliation of adjusted EBITDA to net income (loss) calculated in accordance with GAAP:

	Year Ended March 31,		
	2017	2018	2019
	(in thousands)		
Net income (loss)	\$ 796	\$ 9,222	\$ (116,194)
Income tax benefit	(17,189)	(60,997)	(23,717)
Interest expense, net	25,481	35,220	69,845
Amortization	73,852	73,455	72,792
Depreciation	11,067	8,783	7,319
Restructuring and other	7,637	4,990	1,763
Transaction and sponsor related costs	2,835	5,060	12,543
(Gain) loss on currency translation	3,445	(5,204)	(2,641)
Share-based compensation	349	22,294	71,151
Adjusted EBITDA	<u>\$ 108,273</u>	<u>\$ 92,823</u>	<u>\$ 92,861</u>

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with the section titled "Selected Consolidated Financial Data" and our consolidated financial statements and related notes appearing elsewhere in this prospectus. The following discussion and analysis contains forward-looking statements that involve risks and uncertainties. When reviewing the discussion below, you should keep in mind the substantial risks and uncertainties that could impact our business. In particular, we encourage you to review the risks and uncertainties described in the section titled "Risk Factors" included elsewhere in this prospectus. These risks and uncertainties could cause actual results to differ materially from those projected in forward-looking statements contained in this report or implied by past results and trends. Our fiscal year ends on March 31. Our historical results are not necessarily indicative of the results that may be expected for any period in the future, and our interim results are not necessarily indicative of the results we expect for the full fiscal year or any other period.

Overview

We offer the market-leading software intelligence platform, purpose-built for the enterprise cloud. As enterprises embrace the cloud to effect their digital transformation, our all-in-one intelligence platform is designed to address the growing complexity faced by technology and digital business teams. Our platform utilizes artificial intelligence at its core and advanced automation to provide answers, not just data, about the performance of applications, the underlying hybrid cloud infrastructure and the experience of our customers' users. We designed our software intelligence platform to allow our customers to modernize and automate IT operations, develop and release high quality software faster, and improve user experiences for better business outcomes. As a result, as of March 31, 2019, our products are trusted by more than 2,300 customers in over 70 countries in diverse industries such as banking, insurance, retail, manufacturing, travel and software.

Since we began operations, we have been a leader within the application performance monitoring space. In 2014, we leveraged the knowledge and experience of the same engineering team that founded Dynatrace to develop a new platform, the Dynatrace Software Intelligence Platform, from the ground up with a dynamic, AI-powered infrastructure to handle web-scale applications across hybrid cloud platforms.

We market Dynatrace® through a combination of our global direct sales team and a network of partners, including resellers, system integrators, and managed service providers. We target the largest 15,000 global enterprise accounts, which generally have annual revenues in excess of \$750 million.

We generate revenue primarily by selling subscriptions, which we define as (i) SaaS agreements, (ii) Dynatrace® term-based licenses, which are recognized ratably over the contract term, (iii) Dynatrace® perpetual licenses, which are recognized ratably over the term of the expected optional maintenance renewals, which is generally three years, and (iv) maintenance and support agreements.

We deploy our platform as a SaaS solution, with the option of retaining the data in the cloud, or at the edge in customer-provisioned infrastructure, which we refer to as Dynatrace® Managed. The Dynatrace® Managed offering allows customers to maintain control of the environment where their data resides, whether in the cloud or on-premise, combining the simplicity of SaaS with the ability to adhere to their own data security and sovereignty requirements. Our Mission Control center automatically upgrades all Dynatrace® instances and offers on-premise cluster customers auto-deployment options that suit their specific enterprise management processes.

Dynatrace® is an all-in-one platform, which is typically purchased by our customers as a full-stack package and extended with our DEM offering. Customers also have the option to purchase infrastructure monitoring only where the full-stack is not required, with the ability to upgrade to the full-stack when necessary. Our Dynatrace® platform has been commercially available since 2016 and is now the primary offering we sell. Dynatrace® customers increased to 1,364 as of March 31, 2019 from 574 as of March 31, 2018, representing year-over-year growth of 138%. As of March 31, 2019, approximately 53% of Dynatrace® customers added to the platform since April 1, 2017 were new customers, and the remaining 47% were existing customers that either added or converted to Dynatrace® over the past two years.

Our Classic products include AppMon, Classic Real User Monitoring, or RUM, Network Application Monitoring, or NAM, and Synthetic Classic. As of April 2018, these products are only available to customers who had previously purchased them. AppMon, Classic RUM, and NAM are deployed using customer-provisioned infrastructure, either on-premise or in the cloud, while Synthetic Classic is a SaaS-based application.

Key Factors Affecting Our Performance

Our historical financial performance has been, and we expect our financial performance in the future to be, driven by our ability to:

- **Extend our technology and market leadership position.** We intend to maintain our position as the market-leading software intelligence platform through increased investment in research and development and continued innovation. We expect to focus on expanding the functionality of Dynatrace® and investing in capabilities that address new market opportunities. We believe this strategy will enable new growth opportunities and allow us to continue to deliver differentiated high-value outcomes to our customers.
- **Grow our customer base.** We intend to drive new customer growth by expanding our direct sales force focused on the largest 15,000 global enterprise accounts, which generally have annual revenues in excess of \$750 million. The initial average Dynatrace® ARR for new customers added during the twelve months ended March 31, 2019 was approximately \$96,000. In addition, we expect to leverage our global partner ecosystem to add new customers in geographies where we have direct coverage and work jointly with our partners. In other geographies, such as Africa, Japan, the Middle East, Russia and South Korea, we utilize a multi-tier “master reseller” model.
- **Increase penetration within existing customers.** We plan to continue to increase penetration within our existing customers by expanding the breadth of our platform capabilities to provide for continued cross-selling opportunities. In addition, we believe the ease of implementation for Dynatrace® provides us the opportunity to expand adoption within our existing enterprise customers, across new customer applications, and into additional business units or divisions. Once customers are on the Dynatrace® platform, we have seen significant dollar-based net expansion due to the ease of use and power of our new platform.
- **Enhance our strategic partner ecosystem.** Our strategic partners include industry-leading system integrators, software vendors, and cloud and technology providers. We intend to continue to invest in our partner ecosystem, with a particular emphasis on expanding our strategic alliances and cloud-focused partnerships, such as AWS, Azure, Google Cloud Platform, Red Hat OpenShift, and Pivotal Cloud Foundry.

Table of Contents

Key Metrics

In addition to our GAAP financial information, we monitor the following key metrics to help us measure and evaluate the effectiveness of our operations:

	As of							
	6/30/2017	9/30/2017	12/31/2017	3/31/2018	6/30/2018	9/30/2018	12/31/2018	3/31/2019
Number of Dynatrace® Customers	201	276	399	574	733	899	1,149	1,364
Dynatrace® ARR (in thousands)	\$ 30,739	\$ 45,007	\$ 61,165	\$ 85,306	\$ 118,371	\$ 159,949	\$ 226,976	\$ 282,815
Classic ARR (in thousands)	\$201,522	\$202,650	\$ 201,927	\$195,008	\$187,732	\$166,490	\$ 145,341	\$120,459
Total ARR (in thousands)	\$232,261	\$247,657	\$ 263,092	\$280,314	\$306,103	\$326,439	\$ 372,317	\$403,274
Dynatrace® Dollar-Based Net Expansion Rate	*	*	*	*	122%	120%	129%	140%

* Not meaningful

Dynatrace® Customers: We define the number of Dynatrace® customers at the end of any reporting period as the number of accounts, as identified by a unique account identifier, that generate at least \$10,000 of Dynatrace® ARR as of the reporting date. In infrequent cases, a single large organization may comprise multiple customer accounts when there are distinct divisions, departments or subsidiaries that operate and make purchasing decisions independently from the parent organization. In cases where multiple customer accounts exist under a single organization, each customer account is counted separately based on a mutually exclusive accounting of ARR. As such, even though we target the largest 15,000 global enterprise accounts, there are more than 15,000 addressable Dynatrace® customers. We believe that our ability to grow the number of Dynatrace® customers is an indicator of our ability to drive market adoption of our platform, as well as our ability to grow the business and generate future subscription revenues.

Dynatrace® ARR: We define Dynatrace® annualized recurring revenue, or ARR, as the daily revenue of all term-based Dynatrace® subscription agreements that are actively generating revenue as of the last day of the reporting period multiplied by 365. We exclude from our calculation of ARR any revenues derived from month-to-month agreements and/or product usage overage billings, where customers are billed in arrears based on product usage.

Classic ARR: We define classic annualized recurring revenue as the daily revenue of all classic subscription agreements that are actively generating revenue as of the last day of the reporting period multiplied by 365. We exclude from our calculation of ARR any revenues derived from month-to-month agreements and/or product usage overage billings, where customers are billed in arrears based on product usage. Classic ARR was \$120 million as of March 31, 2019. Over the last two years, Classic ARR has decreased by \$81 million, or 40%. The \$81 million reduction in Classic ARR was offset by a \$100 million increase in Dynatrace® ARR resulting from the conversion of Classic products to Dynatrace® products, as well as upsell generated at the time of conversion of accounts that have undergone a conversion from our Classic products to Dynatrace® products. We also believe that in future periods the reduction in Classic ARR from lost customers may exceed the increase in Dynatrace® ARR resulting from the conversion to Dynatrace® products and upsell at the time of conversion. Based on historical trends, we believe that the majority of our Classic ARR as of March 31, 2019 will convert to Dynatrace® ARR over the next two years.

Total ARR: We define Total ARR as the daily revenue of all subscription agreements that are actively generating revenue as of the last day of the reporting period multiplied by 365. We exclude

from our calculation of Total ARR any revenues derived from month-to-month agreements and/or product usage overage billings.

Dynatrace® Dollar-Based Net Expansion Rate: We define the Dynatrace® dollar-based net expansion rate as the Dynatrace® ARR at the end of a reporting period for the cohort of Dynatrace® accounts as of one year prior to the date of calculation, divided by the Dynatrace® ARR one year prior to the date of calculation for that same cohort. This calculation excludes the benefit of Dynatrace® ARR resulting from the conversion of Classic products to the Dynatrace® platform, as well as any upsell generated at the time of conversion. Dynatrace® dollar-based net expansion rate has trended between 120% and 140% as of June 30, 2018, September 30, 2018, December 31, 2018 and March 31, 2019. In the period before June 30, 2018, our Dynatrace® dollar-based net expansion rate was not meaningful given the relatively small amount of Dynatrace® ARR we generated during the prior periods.

Key Components of Results of Operations

Revenues

Net revenues include subscriptions, licenses and services.

Subscriptions. Our subscription revenue consists of (i) SaaS agreements, (ii) Dynatrace® term-based licenses which are recognized ratably over the contract term, (iii) Dynatrace® perpetual licenses that are recognized ratably over the term of the expected optional maintenance renewals, which is generally three years, and (iv) maintenance and support agreements. We typically invoice SaaS subscription fees and term licenses annually in advance and recognize subscription revenue ratably over the term of the applicable agreement, provided that all other revenue recognition criteria have been satisfied. Fees for our Dynatrace® perpetual licenses are generally billed up front. See the section titled “Critical Accounting Policies and Estimates—Revenue Recognition” for more information. Over time, we expect subscription revenue will increase as a percentage of total revenue as we continue to focus on increasing subscription revenue as a key strategic priority.

License. License revenues reflect the revenues recognized from sales of perpetual and term-based licenses of our Classic products that are sold primarily to existing customers. A majority of our license revenues consists of revenues from perpetual licenses, under which we recognize the license fee portion of the arrangement upfront, assuming all revenue recognition criteria are satisfied. Customers can also purchase term license agreements, under which we recognize the license fee up front. Term licenses are generally billed annually in advance and perpetual licenses are billed up front.

Services. Services revenue consists of revenue from helping our customers deploy our software in highly complex operational environments and train their personnel. We recognize the revenues associated with these professional services on a time and materials basis as we deliver the services or provide the training. We generally recognize the revenues associated with our services in the period the services are performed, provided that collection of the related receivable is reasonably assured.

Cost of Revenues

Cost of subscriptions. Cost of subscription revenues includes all direct costs to deliver and support our subscription products, including salaries, benefits, share-based compensation and related expenses such as employer taxes, allocated overhead for facilities, IT, third-party hosting fees related to our cloud services, and amortization of internally developed capitalized software technology. We recognize these expenses as they are incurred.

[Table of Contents](#)

Cost of services. Cost of services revenues includes salaries, benefits, share-based compensation and related expenses such as employer taxes for our services organization, allocated overhead for depreciation of equipment, facilities and IT. We recognize these expenses as they are incurred.

Amortization of acquired technology. Amortization of acquired technology includes amortization expense for technology acquired in business combinations and the Thoma Bravo Funds' acquisition of us in 2014.

Gross Profit and Gross Margin

Gross profit is revenue less cost of revenue, and gross margin is gross profit as a percentage of revenue. Gross profit has been and will continue to be affected by various factors, including the mix of our license, subscription, and services and other revenue, the costs associated with third-party cloud-based hosting services for our cloud-based subscriptions, and the extent to which we expand our customer support and services organizations. We expect that our gross margin will fluctuate from period to period depending on the interplay of these various factors.

Operating Expenses

Personnel costs, which consist of salaries, benefits, bonuses, stock-based compensation and, with regard to sales and marketing expenses, sales commissions, are the most significant component of our operating expenses. We also incur other non-personnel costs such as an allocation of our general overhead expenses.

Research and development. Research and development expenses primarily consists of the cost of programming personnel. We focus our research and development efforts on developing new solutions, core technologies, and to further enhance the functionality, reliability, performance and flexibility of existing solutions. We believe that our software development teams and our core technologies represent a significant competitive advantage for us and we expect that our research and development expenses will continue to increase, as we invest in research and development headcount to further strengthen and enhance our solutions.

Sales and marketing. Sales and marketing expenses primarily consists of personnel and facility-related costs for our sales, marketing, and business development personnel, commissions earned by our sales personnel and the cost of marketing and business development programs. We expect that sales and marketing expenses will continue to increase as we continue to hire additional sales and marketing personnel and invest in marketing programs.

General and administrative. General and administrative expenses primarily consist of the personnel and facility-related costs for our executive, finance, legal, human resources and administrative personnel; and other corporate expenses, including those associated with preparation for the initial public offering. We anticipate continuing to incur additional expenses due to growing our operations and being a public company, including higher legal, corporate insurance and accounting expenses.

Amortization of other intangibles. Amortization of other intangibles primarily consists of amortization of customer relationships, acquired technology, capitalized software and tradenames.

Restructuring and Other. Restructuring and other expenses primarily consists of various restructuring activities we have undertaken to achieve strategic and financial objectives. Restructuring activities include, but are not limited to, product offering cancellation and termination of related employees, office relocation, administrative cost structure realignment and consolidation of resources.

Other Income (Expense), Net

Other income (expense), net consists primarily of interest expense and foreign currency realized and unrealized gains and losses related to the impact of transactions denominated in a foreign currency, including balances between subsidiaries. Interest expense, net of interest income, consists primarily of interest on our term loan facility, amortization of debt issuance costs, loss on the modification and partial extinguishment of debt and prepayment penalties.

Income Tax Benefit (Expense)

Our income tax benefit (expense), deferred tax assets and liabilities, and liabilities for unrecognized tax benefits reflect management's best assessment of estimated current and future taxes to be paid. We are subject to income taxes in both the United States and numerous foreign jurisdictions. Significant judgments and estimates are required in determining the consolidated income tax expense.

Our income tax rate varies from the U.S. federal statutory rate mainly due to (1) differing tax rates and regulations in foreign jurisdictions, (2) differences in accounting and tax treatment of our stock-based compensation, and (3) foreign withholding taxes. We expect this fluctuation in income tax rates, as well as its potential impact on our results of operations, to continue.

Results of Operations

The following tables set forth our results of operations for the periods presented. The period-to-period comparison of financial results is not necessarily indicative of financial results to be achieved in future periods.

Comparison of the Years Ended March 31, 2018 and 2019

The following tables set forth our results of operations for the periods presented. The period-to-period comparison of financial results is not necessarily indicative of financial results to be achieved in future periods.

	Year Ended March 31,			
	2018		2019	
	(in thousands, except percentages)

	2018	2019
	(in thousands)	
Cost of revenues	\$ 1,720	\$ 5,777
Research and development	3,858	12,566
Sales and marketing	7,536	24,673
General and administrative	9,180	28,135
Total share-based compensation	<u>\$ 22,294</u>	<u>\$ 71,151</u>

Revenues

	Year Ended March 31,		Change	
	2018	2019	Amount	Percent
	(in thousands, except percentages)			
Subscriptions	\$257,576	\$349,830	\$ 92,254	36%
License	98,756	40,354	(58,402)	(59)%
Services	41,715	40,782	(933)	(2)%
Total revenues	<u>\$398,047</u>	<u>\$430,966</u>	<u>\$ 32,919</u>	<u>8%</u>

Subscriptions

Subscription revenue increased by \$92.3 million, or 36%, for the year ended March 31, 2019, as compared to the year ended March 31, 2018, primarily due to the growing adoption of the Dynatrace® platform by new customers combined with existing customers expanding their use of our solutions. Our subscription revenue increased to 81% of total revenue for the year ended March 31, 2019 compared to 65% of total revenue for the year ended March 31, 2018.

License

License revenue decreased by \$58.4 million, or 59%, for the year ended March 31, 2019, as compared to the year ended March 31, 2018, primarily due to decline of sales of our Classic products to existing customers as they convert to our Dynatrace® platform. We are no longer selling our Classic products to new customers.

Services

Services revenue decreased by \$0.9 million, or 2%, for the year ended March 31, 2019, as compared to the year ended March 31, 2018. The decrease was primarily a result of consulting services related to our Classic products. We recognize the revenues associated with professional services on a time and material basis or as we deliver the services, provide the training or when the service term has expired.

Cost of Revenues

	Year Ended March 31,		Change	
	2018	2019	Amount	Percent
	(in thousands, except percentages)			
Cost of subscriptions	\$48,270	\$ 56,934	\$ 8,664	18%
Cost of services	30,316	31,529	1,213	4%
Amortization of acquired technology	17,948	18,338	390	2%
Total cost of revenue	<u>\$96,534</u>	<u>\$106,801</u>	<u>\$10,267</u>	<u>11%</u>

Cost of subscriptions

Cost of subscription revenue increased \$8.7 million, or 18%, for the year ended March 31, 2019 compared to the year ended March 31, 2018. The increase is primarily due to higher personnel costs to support the growth of our subscription cloud-based offering as well as higher share-based compensation of \$2.9 million.

Cost of services

Cost of services and other revenue increased by \$1.2 million, or 4%, for the year ended March 31, 2019, as compared to the year ended March 31, 2018. The increase was the result of higher share-based compensation of \$1.1 million and increased personnel costs to support the increase in use of our consulting and training services to support our new customers, which was partially offset by lower third-party consulting costs.

Amortization of acquired technologies

For the years ended March 31, 2018 and 2019, amortization of acquired technologies includes \$17.7 million of amortization expense for technology acquired in connection with the Thoma Bravo Funds' acquisition of us in 2014, with the remaining balance related primarily to the Qumram acquisition in November 2017.

Gross Profit and Gross Margin

	Year Ended March 31,		Change	
	2018	2019	Amount	Percent
	(in thousands, except percentages)			
Gross profit:				
Subscriptions	\$209,306	\$292,896	\$ 83,590	40%
License	98,756	40,354	(58,402)	(59)%
Services	11,399	9,253	(2,146)	(19)%
Amortization of acquired technology	(17,948)	(18,338)	(390)	2%
Total gross profit	<u>\$301,513</u>	<u>\$324,165</u>	<u>\$ 22,652</u>	8%
Gross margin:				
Subscriptions	81%	84%		
License	100%	100%		
Services	27%	23%		
Amortization of acquired technology	(100)%	(100)%		
Total gross margin	<u>76%</u>	<u>75%</u>		

[Table of Contents](#)

Subscriptions

Subscriptions gross profit increased by \$83.6 million, or 40%, during the year ended March 31, 2019 compared to the year ended March 31, 2018. Subscription gross margin increased from 81% to 84%, during the year ended March 31, 2019 compared to the year ended March 31, 2018.

License

License gross profit decreased by \$58.4 million, or 59%, during the year ended March 31, 2019 compared to the year ended March 31, 2018. The decrease was the result of a decline in sales of perpetual and term licenses for our Classic products.

Services

Services gross profit decreased by \$2.1 million, or 19%, during the year ended March 31, 2019 compared to the year ended March 31, 2018. Services gross margin decreased from 27% to 23%, during the year ended March 31, 2019 compared to the year ended March 31, 2018.

Operating Expenses

	Year Ended March 31,		Change	
	2018	2019	Amount	Percentage
	(in thousands, except percentages)			
Operating expenses:				
Research and development	\$ 58,320	\$ 76,759	\$ 18,439	32%
Sales and marketing	145,350	178,886	33,536	23%
General and administrative	64,114	91,778	27,664	43%
Amortization of other intangibles	50,498	47,686	(2,812)	(6)%
Restructuring and other	4,990	1,763	(3,227)	(65)%
Total operating expenses	<u>\$323,272</u>	<u>\$396,872</u>	<u>\$73,600</u>	<u>(23)%</u>

Research and Development

Research and development expenses increased \$18.4 million, or 32%, for the year ended March 31, 2019, as compared to the year ended March 31, 2018. The increase is attributable to higher share-based compensation of \$8.7 million, a 20% increase in headcount, resulting in increased personnel and other costs to expand our product offerings of \$6.9 million, and lower capitalization of internally developed capitalized software technology of \$1.8 million.

Sales and Marketing

Sales and marketing expenses increased \$33.5 million, or 23%, for the year ended March 31, 2019, as compared to the year ended March 31, 2018, primarily due to higher share-based compensation of \$17.1 million. Further contributing to the increase was a 10% increase in headcount, resulting in an increase of \$12.3 million in personnel and other costs to expand our sales organization and marketing program investments to increase awareness and to accelerate lead generation activities.

General and Administrative

General and administrative expenses increased \$27.7 million, or 43%, for the year ended March 31, 2019, as compared to the year ended March 31, 2018, primarily due to an increase in share-

[Table of Contents](#)

based compensation of \$19.0 million and transaction costs related to this initial public offering of \$7.3 million. Sponsor related costs were approximately \$4.9 million for each of the years ended March 31, 2018 and 2019.

Amortization of other intangibles

Amortization of other intangibles decreased by \$2.8 million, or 6%, for the year ended March 31, 2019, as compared to the year ended March 31, 2018. The decline is primarily the result of lower amortization for certain intangible assets that are amortized on a systematic basis that reflects the pattern in which the economic benefits of the intangible assets are estimated to be realized.

Restructuring and Other

Restructuring expenses decreased by \$3.2 million, or 65%, for the year ended March 31, 2019, as compared to the year ended March 31, 2018, due to lower costs incurred for various restructuring activities to achieve our strategic and financial objectives, lower facility exit charges in relation to plans to optimize our U.S. offices, and lower costs related to a restructuring program designed to align employee resources with our product offering and future plans.

Other Expense, Net

Other expense, net increased by \$37.2 million, or 124%, for the year ended March 31, 2019, as compared to the year ended March 31, 2018. The increase in other expense was primarily a result of interest expense on our Term Loans entered into in the second quarter of 2019. See section titled "Liquidity and Capital Resources."

Income Tax Benefit

Income tax benefit decreased by \$37.3 million to \$23.7 million for the year ended March 31, 2019, as compared to an income tax benefit of \$61.0 million for the year ended March 31, 2018. The decrease was primarily a result of a \$50.0 million tax benefit recorded in the year ended March 31, 2018 for the remeasurement of the U.S. deferred tax liabilities to the newly-enacted 21% corporate federal tax rate under the Tax Cuts and Jobs Act.

Comparison of the Years Ended March 31, 2017 and 2018

The following tables set forth our results of operations for the periods presented. The period-to-period comparison of financial results is not necessarily indicative of financial results to be achieved in future periods.

	Year Ended March 31,			
	2017		2018	
	(in thousands, except percentages)

[Table of Contents](#)**Revenues**

	Year Ended March 31,		Change	
	2017	2018	Amount	Percent
	(in thousands, except percentages)			
Subscriptions	\$232,783	\$257,576	\$ 24,793	11%
License	130,738	98,756	(31,982)	(24)%
Services	42,856	41,715	(1,141)	(3)%
Total revenues	<u>\$406,377</u>	<u>\$398,047</u>	<u>\$ (8,330)</u>	<u>(2)%</u>

Subscriptions

Subscription revenue increased by \$24.8 million, or 11%, for the year ended March 31, 2018, as compared to the year ended March 31, 2017, primarily due to the growing adoption of the Dynatrace® platform by new customers combined with existing customers expanding their use of the Dynatrace® platform. Our subscription revenue increased to 65% of total revenue for the years ended March 31, 2018 compared to 57% of total revenue for the years ended March 31, 2017.

License

License revenue decreased by \$32.0 million, or 24%, for the year ended March 31, 2018, as compared to the year ended March 31, 2017, primarily due to decline of sales of our Classic products to existing customers as they convert to our Dynatrace® platform.

Services

Services revenue decreased by \$1.1 million, or 3%, for the year ended March 31, 2018, as compared to the year ended March 31, 2017. The decrease was primarily a result of a decrease in consulting and training services related to our Classic products. We recognize the revenues associated with professional services on a time and material basis or as we deliver the services, provide the training or when the service term has expired.

Cost of Revenues

	Year Ended March 31,		Change	
	2017	2018	Amount	Percent
	(in thousands, except percentages)			
Cost of subscriptions	\$ 52,176	\$ 48,270	\$(3,906)	(7)%
Cost of services	30,735	30,316	(419)	(1)%
Amortization of acquired technology	19,261	17,948	(1,313)	(7)%
Total cost of revenue	<u>\$ 102,172</u>	<u>\$ 96,534</u>	<u>\$(5,638)</u>	<u>(6)%</u>

Cost of subscriptions

Cost of subscription revenue decreased \$3.9 million, or 7%, for the year ended March 31, 2018 compared to the year ended March 31, 2017, primarily due to lower facility and personnel costs. These decreases were partially offset by an increase in amortization of internally developed capitalized software technology, increased cloud-based hosting costs, and higher share-based compensation of \$1.2 million.

[Table of Contents](#)

Cost of services

Cost of services decreased by \$0.4 million, or 1% for the year ended March 31, 2018, as compared to the year ended March 31, 2017, primarily due to lower volume of our consulting and training services which was partially offset by higher share-based compensation of \$0.5 million.

Amortization of acquired technologies

Amortization of acquired technologies includes amortization related to acquired technology and the Thoma Bravo Funds' acquisition of us in 2014 for the years ended March 31, 2017 and March 31, 2018, respectively.

Gross Profit and Gross Margin

	Year Ended March 31,		Change	
	2017	2018	Amount	Percent
	(in thousands, except percentages)			
Gross profit:				
Subscriptions	\$180,607	\$209,306	\$ 28,699	16%

Services	28%	27%		
Amortization of acquired technology	<u>(100)%</u>	<u>(100)%</u>		
Total gross margin	<u>75%</u>	<u>76%</u>		

Subscriptions

Subscriptions gross profit increased by \$28.7 million, or 16%, during the year ended March 31, 2018 compared to the year ended March 31, 2017. Subscription gross margin increased from 78% to 81% , during the year ended March 31, 2018 compared to the year ended March 31, 2017.

License

License gross profit decreased by \$32.0 million, or 24%, during the year ended March 31, 2018 compared to the year ended March 31, 2017 due to decrease in license revenues.

Services

Services gross profit decreased by \$0.7 million, or 6%, during the year ended March 31, 2018 compared to the year ended March 31, 2017. Services gross margin decreased from 28% to 27%, during the year ended March 31, 2018 compared to the year ended March 31, 2017.

Operating Expenses

	Year Ended March 31,		Change	
	2017	2018	Amount	Percentage
	(in thousands, except percentages)			
Operating expenses:				
Research and development	\$ 52,885	\$ 58,320	\$ 5,435	10%
Sales and marketing	129,971	145,350	15,379	12%
General and administrative	49,232	64,114	14,882	30%
Amortization of other intangibles	51,947	50,498	(1,449)	(3)%
Restructuring and other	7,637	4,990	(2,647)	(35)%
Total operating expenses	<u>\$291,672</u>	<u>\$323,272</u>	<u>\$31,600</u>	<u>11%</u>

Research and Development

Research and development expenses increased \$5.4 million, or 10%, for the year ended March 31, 2018, as compared to the year ended March 31, 2017. The increase is attributable to higher share-based compensation of \$3.8 million, lower capitalization of internally developed capitalized software technology of \$1.6 million, and a 7% increase in headcount, resulting in increased personnel costs to enhance and expand our product offerings.

Sales and Marketing

Sales and marketing expenses increased \$15.4 million, or 12%, for the year ended March 31, 2018, as compared to the year ended March 31, 2017, primarily due to higher share-based compensation of \$7.4 million. Further contributing to the increase was a 17% increase in headcount, resulting in an increase in sales personnel costs to support business growth and marketing program investments to expand our customer base and to support increased penetration into our existing customers.

General and Administrative

General and administrative expenses increased \$14.9 million, or 30%, for the year ended March 31, 2018, as compared to the year ended March 31, 2017, primarily due to an increase in share-based compensation of \$9.1 million. Further contributing to the increase was an increase in personnel costs to support the growth and scale of the business, higher professional fees and other costs incurred primarily related to this initial public offering of \$2.9 million.

Amortization of other intangibles

Amortization of other intangibles decreased by \$1.5 million, or 3%, for the year ended March 31, 2018, as compared to the year ended March 31, 2017. The decline is primarily the result of lower amortization for certain intangible assets that are amortized on a basis that reflects the pattern in which the economic benefits of the intangible assets are estimated to be realized.

Restructuring and Other

Restructuring expenses decreased by \$2.6 million, or 35%, for the year ended March 31, 2018, as compared to the year ended March 31, 2017, partially due to lower facility exit charges in relation to plans to optimize our U.S. offices. The remainder of the decrease is due to lower costs incurred for various other restructuring activities to achieve our strategic and financial objectives.

[Table of Contents](#)

Other Expense, Net

Other expense, net increased by \$1.1 million, or 4%, for the year ended March 31, 2018, as compared to the year ended March 31, 2017. The increase was primarily a result of fluctuations in foreign currency exchange rates on transactions denominated in foreign currencies.

Income Tax Benefit

Income tax benefit increased by \$43.8 million to \$61.0 million for the year ended March 31, 2018, as compared to an income tax benefit of \$17.2 million for the year ended March 31, 2017. The increase was primarily a result of a \$50.0 million tax benefit recorded for the year ended March 31, 2018 for the remeasurement of the U.S. deferred tax liabilities to the newly-enacted 21% corporate federal tax rate under the Tax Cuts and Jobs Act.

Quarterly Results of Operations

The following tables set forth our unaudited quarterly consolidated statements of operations data for each of the quarters indicated as well as the percentage that each line item represents of our total revenue for each quarter presented. The information for each quarter has been prepared on a basis consistent with our audited consolidated financial statements included in this prospectus and reflect, in the opinion of management, all adjustments of a normal, recurring nature that are necessary for a fair presentation of the financial information contained in those statements. Our historical results are not necessarily indicative of the results that may be expected in the future. The following quarterly financial data should be read in conjunction with our consolidated financial statements included elsewhere in this prospectus.

Quarterly Trends in Revenue

Our quarterly subscription revenue increased in each period presented primarily due to an expanding Dynatrace[®] customer base as well as customers expanding their use of the Dynatrace[®] platform. Sales of subscriptions to our platform also continue to grow as a result of the expanding breadth and functionality of our platform, increasing brand awareness, and the success of our sales efforts with new and existing customers. We generally recognize subscription revenue over the term of the contract period; therefore, changes in our sales activity in a period may not be apparent as a change to our revenue until future periods.

Our quarterly license revenue has generally declined on a quarterly basis due to the declining sales of our Classic products. We expect to continue to experience a decline in license revenue when comparing similar periods year-over-year as a result of our focus on converting our customer base to the new Dynatrace[®] platform.

Our quarterly services revenue fluctuates quarter to quarter based on the demand for our consulting and training services.

Quarterly Trends in Operating Expenses

Our operating expenses have generally increased sequentially as a result of our growth and are primarily related to increases in personnel-related costs to support our expanded operations, continued investment in our platform, expanding commercial and marketing investments, and higher share-based compensation expense.

Liquidity and Capital Resources

As of March 31, 2019, we had \$51.3 million of cash and cash equivalents and \$59.5 million available under our revolving credit facility. We have financed our operations primarily through cash generated from operations. We believe that our existing cash, cash equivalents, and short-term investment balances, together with cash generated from operations, will be sufficient to meet our working capital and capital expenditure requirements for at least the next twelve months.

Our future capital requirements will depend on many factors, including our growth rate, the timing and extent of spending to support research and development efforts, the continued expansion of sales and marketing activities, the introduction of new and enhanced products, seasonality of our billing activities, timing and extent of spending to support our growth strategy, and the continued market

Table of Contents

acceptance of our products. In the event that additional financing is required from outside sources, we may not be able to raise such financing on terms acceptable to us or at all. If we are unable to raise additional capital when desired, our business, operating results, and financial condition would be adversely affected.

To date, we have financed operations primarily through license fees, subscription fees, consulting and training fees. Our principal uses of cash are funding operations, capital expenditures, debt payments and interest expense. Over the past three years cash flows from customer collections have increased. However, operating expenses have also increased as we have invested in growing our business. Our operating cash requirements may increase in the future as we continue to invest in the strategic growth of our company.

Our Credit Facilities

In anticipation of separation from Compuware Corporation, on August 23, 2018, we entered into a Senior Secured First Lien Credit Agreement and a Senior Secured Second Lien Credit Agreement, or our Term Loans, consisting of a \$950.0 million first lien term loan and a \$170.0 million second lien term loan, each agreement made by and among the Company, Dynatrace Intermediate LLC, as Guarantor, Jefferies Finance LLC, as Administrative Agent and Collateral Agent, and certain lending parties. The First Lien Credit Agreement further provided a \$60.0 million revolving credit facility which includes a letter of credit sub-facility with an aggregate limit equal to the lesser of \$15.0 million and the aggregate unused amount of the revolving credit facility then in effect. The first lien term loan and second lien term loan mature on August 23, 2025 and August 23, 2026, respectively, and the revolving credit facility matures on August 23, 2023.

As of March 31, 2019, the balance outstanding under the Term Loans was \$1,036.3 million and is included in current portion of long-term debt and long-term debt on our consolidated balance sheet. We had \$59.5 million available under the revolving credit facility and \$0.5 million of letters of credit outstanding.

All of our obligations under the Term Loans are guaranteed by our existing and future domestic subsidiaries and, subject to certain exceptions, secured by a security interest in substantially all of our tangible and intangible assets.

We intend to use the net proceeds from this offering and our cash and cash equivalents to repay \$386.0 million of the borrowings outstanding under our Term Loans (repayment will be subject to a repayment premium of approximately \$0.9 million). See the section titled "Use of Proceeds" for additional information regarding our intended use of our net proceeds from this offering.

Summary of Cash Flows

	Year Ended March 31,		
	2017	2018	2019
	(in thousands)		
Cash provided by operating activities(1)	\$ 94,560	\$ 118,838	\$ 147,141
Cash used in investing activities	(13,876)	(26,531)	(9,250)
Cash used in financing activities	(63,019)	(75,501)	(161,482)
Effect of exchange rate changes on cash and cash equivalents	(1,338)	2,827	(2,676)
Net increase (decrease) in cash and cash equivalents	<u>\$ 16,327</u>	<u>\$ 19,633</u>	<u>\$ (26,267)</u>

(1) Net cash provided by operating activities includes cash payments for interest as follows:

	Year Ended March 31,		
	2017	2018	2019
	(in thousands)		
Cash paid for interest	\$ 163	\$ 38	\$40,969

Operating Activities

For the year ended March 31, 2018, cash provided by operating activities was \$118.8 million as a result of net income of \$9.2 million, adjusted by non-cash charges of \$31.7 million and a change of \$77.9 million in our operating assets and liabilities. The non-cash charges are primarily comprised of depreciation and amortization of \$82.2 million, share-based compensation of \$22.3 million, and deferred income taxes of \$73.2 million. The change in our net operating assets and liabilities was primarily the result of an increase in deferred revenue of \$77.9 million due to the timing of billings and cash received in advance of revenue recognition primarily for subscription and support services, partially offset by an increase in accounts receivable of \$14.7 million due to the timing of receipts of payments from customers, and an increase in deferred commissions of \$14.1 million.

For the year ended March 31, 2019, cash provided by operating activities was \$147.1 million as a result of a net loss of \$116.2 million, adjusted by non-cash charges of \$118.5 million and a change of \$144.8 million in our operating assets and liabilities. The non-cash charges are primarily comprised of depreciation and amortization of \$80.1 million, share-based compensation of \$71.2 million, and deferred income taxes of \$34.2 million. The change in our net operating assets and liabilities was primarily the result of an increase in deferred revenue of \$127.0 million due to the timing of billings and cash received in advance of revenue recognition primarily for subscription and support services and a decrease in accounts receivable of \$18.0 million due to the timing of receipts of payments from customers, partially offset by an increase in deferred commissions of \$20.0 million, and an increase in prepayments and other assets of \$12.7 million.

Investing Activities

Cash used in investing activities during the year ended March 31, 2018 was \$26.5 million, primarily as a result of acquisitions of \$11.3 million, purchases of property and equipment of \$11.6 million, and capitalized software additions of \$3.6 million.

Cash used in investing activities during the year ended March 31, 2019 was \$9.3 million, primarily as a result of the purchase of property and equipment of \$7.4 million and capitalized software additions of \$1.9 million.

Financing Activities

Cash used in financing activities during the year ended March 31, 2018 was \$75.5 million, primarily as a result of payments to related parties of \$74.6 million and equity repurchases of \$0.9 million.

Cash used in financing activities during the year ended March 31, 2019 was \$161.5 million, primarily as a result of payments to related parties of \$1,177.0 million, repayments on our Term Loans of \$83.9 million, debt issuance costs of \$16.3 million and equity repurchases of \$0.6 million, partially offset by \$1,120.0 million in proceeds from Term Loans.

Contractual Obligations and Commitments

Under various agreements, we are obligated to make future cash payments. These include payments under our long-term debt agreements, rent payments required under operating lease agreements, interest obligations on our Term Loans, and other contractual commitments.

The following table summarizes our payments under contractual obligations as of March 31, 2019:

	Payments Due by Period				
	Total	Less than 1 Year	1 to 3 Years	3 to 5 Years	More than 5 Years
	(in thousands)				
Operating lease obligations	\$ 75,092	\$ 13,464	\$ 22,325	\$ 17,669	\$ 21,634
Related party advisory services agreement(1)	2,400	2,400	—	—	—
Term Loans—principal(2)	1,036,314	9,500	19,000	19,000	988,814
Term Loans—interest(3)	417,216	64,298	127,547	127,372	97,999
Revolving credit facility(4)	—	—	—	—	—
Total	\$ 1,531,022	\$ 89,662	\$ 168,872	\$ 164,041	\$ 1,108,447

- (1) Amounts represent our advisory services agreement with Thoma Bravo for which contractual consulting fees of \$1.2 million are due per quarter until termination of the advisory services agreement upon the completion of this offering.
- (2) The amounts included in the table above represent principal maturities only. We intend to use a portion of our net proceeds from this offering to repay \$386.0 million of the borrowings outstanding under our Term Loans. Please see the section titled "Use of Proceeds" for more information.
- (3) Amounts represent estimated future interest payments on borrowings under our Term Loans, which are floating rate instruments and were estimated using the interest rate effective at March 31, 2019 of approximately 5.7% and 9.5% for the first lien term loan and second lien term loan, respectively, multiplied by the principal outstanding of the respective Term Loans on March 31, 2019 of \$947.6 million and \$88.7 million, respectively.
- (4) As of March 31, 2019, we had no outstanding borrowings under our revolving credit facility, \$0.5 million of letters of credit outstanding, and \$59.5 million was available for borrowing under our revolving credit facility.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements.

Quantitative and Qualitative Disclosures About Market Risk

We are exposed to market risk in the ordinary course of our business. Market risk represents the risk of loss that may impact our financial position due to adverse changes in financial market prices and rates. Our market risk exposure is primarily a result of fluctuations in foreign currency exchange rates and interest rates and inflation. We do not hold or issue financial instruments for trading purposes.

Foreign Currency Exchange Risk

Our reporting currency is the U.S. dollar. Due to our international operations, we have foreign currency risks related to operating expense denominated in currencies other than the U.S. dollar,

Table of Contents

particularly the euro. As of March 31, 2018, and 2019, our cash and cash equivalents included \$34.1 million and \$39.6 million, respectively, held in currencies other than the U.S. dollar. Decreases in the relative value of the U.S. dollar to other currencies may negatively affect our operating results as expressed in U.S. dollars. These amounts are included in other expense, net in our consolidated statements of operations.

Our results of operations and cash flows are subject to fluctuations due to changes in foreign currency exchange rates because, although substantially all of our revenue is generated in U.S. dollars, our expenses are generally denominated in the currencies of the jurisdictions in which we conduct our operations, which are primarily in the United States, Europe and Asia.

Our results of operations and cash flows could therefore be adversely affected in the future due to changes in foreign exchange rates. We do not believe that an immediate 10% increase or decrease in the relative value of the U.S. dollar to other currencies would have a material effect on our results of operations or cash flows, and to date, we have not engaged in any hedging strategies with respect to foreign currency transactions. As our international operations grow, we will continue to reassess our approach to manage our risk relating to fluctuations in currency rates, and we may choose to engage in the hedging of foreign currency transactions in the future.

Interest Rate Risk

We had cash and cash equivalents of \$77.6 million and \$51.3 million as of March 31, 2018, and 2019, respectively, consisting of bank deposits, commercial paper, and money market funds. These interest-earning instruments carry a degree of interest rate risk. To date, fluctuations in our interest income have not been significant. We do not enter into investments for trading or speculative purposes and have not used any derivative financial instruments to manage our interest rate risk exposure. Due to the short-term nature of these investments, we have not been exposed to, nor do we anticipate being exposed to, material risks due to changes in interest rates.

At March 31, 2019, we also had in place a \$60.0 million revolving credit facility, with availability of \$59.5 million, and approximately \$1,036.3 million in Term Loans, both of which bear interest based on the adjusted LIBOR rate, as defined in the agreement, plus an applicable margin. At March 31, 2019, the applicable margin was 3.25% for the first lien term loan and revolving credit facility, respectively, and 7.00% for the second lien term loan. A hypothetical 10% change in interest rates during any of the periods presented would not have had a material impact on our consolidated financial statements.

We have an agreement to maintain cash balances at a financial institution of no less than \$2.4 million as collateral for several letters of credit in favor of our landlords.

Inflation Risk

We do not believe that inflation has had a material effect on our business, financial condition or results of operations in 2017, 2018, or 2019 because substantially all of our sales are denominated in U.S. dollars, which have not been subject to material currency inflation, and our operating expenses that are denominated in currencies other than U.S. dollars have not been subject to material currency inflation.

Critical Accounting Policies and Estimates

We prepare our consolidated financial statements in accordance with generally accepted accounting principles in the United States. The preparation of consolidated financial statements also

[Table of Contents](#)

requires us to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, costs and expenses and related disclosures. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances. Actual results could differ significantly from the estimates made by our management. To the extent that there are differences between our estimates and actual results, our future financial statement presentation, financial condition, results of operations and cash flows will be affected.

We believe that the assumptions and estimates associated with revenue recognition, share-based compensation, income taxes, goodwill, and impairment of long-lived assets have the greatest potential impact on our consolidated financial statements. Therefore, we consider these to be our critical accounting policies and estimates. Accordingly, we believe these are the most critical to fully understand and evaluate our financial condition and results of operations.

Revenue Recognition

We recognize revenue from contracts with customers using the five-step method described in Note 2 of the notes to our consolidated financial statements, included elsewhere in this prospectus. At contract inception we evaluate whether two or more contracts should be combined and accounted for as a single contract and whether the combined or single contract includes more than one performance obligation. We combine contracts entered into at or near the same time with the same customer if (i) we determine that the contracts are negotiated as a package with a single commercial objective, (ii) the amount of consideration to be paid in one contract depends on the price or performance of the other contract, or (iii) the services promised in the contracts are a single performance obligation.

Our performance obligations consist of (i) subscription and support services, (ii) licenses for our Classic products, and (iii) professional and other services. Contracts that contain multiple performance obligations require an allocation of the transaction price to each performance obligation based on their relative standalone selling price. We determine standalone selling price, or SSP, for all our performance obligations using observable inputs, such as standalone sales and historical contract pricing. SSP is consistent with our overall pricing objectives, taking into consideration the type of subscription services and professional and other services. SSP also reflects the amount we would charge for that performance obligation if it were sold separately in a standalone sale, and the price we would sell to similar customers in similar circumstances. We have determined that our pricing for software licenses and subscription services is highly variable and we therefore allocate the transaction price to those performance obligations using the residual approach.

In general, we satisfy the majority of our performance obligations over time as we transfer the promised services to our customers. We review the contract terms and conditions to evaluate (i) the timing and amount of revenue recognition, (ii) the related contract balances, and (iii) our remaining performance obligations. We also estimate the number of hours expected to be incurred based on an expected hours approach that considers historical hours incurred for similar projects based on the types and sizes of customers. These evaluations require significant judgment that could affect the timing and amount of revenue recognized.

Share-based Compensation

Compensation expense relating to share-based payments is recognized in earnings using a fair-value measurement method. We use the straight-line attribution method of recognizing compensation expense over the vesting period. The estimated fair value of equity awards is expensed on a straight-line basis over the period from grant date to remaining requisite service period which is generally the vesting period. Equity units classified as liability awards are measured at fair value at the end of each reporting period until vested.

[Table of Contents](#)

The fair value of each new equity award is estimated on the date of grant using the option-pricing model, or OPM, or a hybrid of the probability-weighted expected return method, or PWERM, and the OPM, which we refer to as the hybrid method. Use of the OPM model and hybrid method requires that we make assumptions as to the volatility of our equity units, the expected term to expiration or a liquidity event, and the risk-free interest rate for a period that approximates the expected term of our equity units. Because we are currently a privately-held company with limited operating history and no company-specific historical and implied volatility information and accordingly, we estimate our expected volatility based on the historical volatility of a group of publicly traded peer companies. We expect to continue to do so until such time as we have adequate historical data regarding the volatility of our traded stock price. We use the simplified method prescribed by SEC Staff Accounting Bulletin No. 107, *Share-Based Payment*, to calculate the expected term of units granted to employees and directors. We base the expected term of options granted to non-employees on the contractual term of the units. We determine the risk-free interest rate by reference to the U.S. Constant Maturity Treasury yield curve in effect as of the valuation date with the maturity matching the expected term.

The following key assumptions were used to determine the fair value of the equity units as of the valuation date:

	2017	2018	2019
Expected volatility	110%	50%	50% - 60%
Expected term (years)	3.75	2.50	1.0 - 1.5
Risk-free interest rate	1.67%	2.34%	2.33% - 2.40%

Prior to our initial public offering, given the absence of a public trading market of our equity units and in accordance with the American Institute of Certified Public Accountants Accounting and Valuation Guide, Valuation of Privately-Held Company Equity Securities Issued as Compensation, or the Practice Aid, our board of directors determined the fair value of our MIUs and AUs exercising reasonable judgment and considering numerous objective and subjective factors.

These factors included:

- independent third-party valuations of our equity units;
- the rights, preferences and privileges of each class of our equity units;
- our financial condition, results of operations and capital resources;
- the industry outlook;
- the valuation of comparable companies;
- the lack of marketability of our equity units;
- the likelihood of achieving a liquidity event, such as an initial public offering or a sale of our company given prevailing market conditions;
- the history and nature of our business, industry trends and competitive environment; and
- general economic outlook including economic growth, inflation and unemployment, interest rate environment and global economic trends.

The enterprise value of our business was primarily estimated using a combination of income and market approaches. The income approach estimates the equity value of the business based on the cash flows that it expects to generate over its remaining life. These future cash flows are discounted to their present values using a rate of return appropriate for the risk of achieving the business' projected cash flows. The present value of the estimated cash flows is then added to the present value

Table of Contents

equivalent of the residual value of the business at the end of the projected period to calculate the business enterprise value. The market approach considers market values of comparable public companies in a similar line of business that are publicly traded.

The Practice Aid identifies various available methods for allocating enterprise value across classes and series of capital stock to determine the estimated fair value of common stock at each valuation date. In accordance with the Practice Aid, we considered the following methods:

OPM. Under the OPM methodology, we utilized a Contingent Claim Analysis, or CCA, where each class of security is modeled as a call option with the unique claim on the assets of Dynatrace. The characteristics of each class of stock determine the uniqueness of each class of stock's claim on the company's assets, and these characteristics are modeled as distinct call options. Under this method, the equity unit has value only if the funds available for distribution to shareholders exceed the value of the liquidation preferences at the time of a liquidity event. A discount for lack of marketability of the equity unit is then applied to arrive at an indication of value for the equity unit.

The OPM uses the Black-Scholes formula to price the call options. This model defines the fair values of equity units as functions of the current fair value of a company and uses assumptions such as the anticipated timing of a potential liquidity event and the estimated volatility of the equity units.

PWERM. Under the PWERM methodology, the fair value of equity units is estimated based upon an analysis of future values for the company, assuming various outcomes. The equity unit value is based on the probability-weighted present value of expected future investment returns considering each of the possible outcomes available as well as the rights of each class of equity unit. The future value of the equity unit under each outcome is discounted back to the valuation date at an appropriate risk-adjusted discount rate and probability weighted to arrive at an indication of value for the equity unit.

Hybrid Method. The hybrid method is a PWERM where the equity value is calculated using an OPM. In the hybrid method used by us, we considered an initial public offering as the other potential future liquidity event. The relative probability of the initial public offering scenario was determined based on an analysis of market conditions at the time and our expectations as to the timing and likely prospects of the initial public offering at each valuation date. We then discounted that future value back to the valuation date at an appropriate discount rate.

Based on the company being privately held, and other relevant factors, our board of directors determined that the OPM was the most appropriate method for allocating our enterprise value to determine the estimated fair value of our equity awards for the valuations performed for fiscal 2017 and fiscal 2018, which resulted in our board of directors determining that the fair value of our equity awards were \$0.04 and \$1.64, respectively. Following its determination in fiscal 2019 that we should explore a potential initial public offering, our board of directors determined that the Hybrid Method was the most appropriate method for allocating our enterprise value to determine the estimated fair value of our equity units for the valuation performed for fiscal 2019 which resulted in the fair value of our equity units being \$5.45.

For stock awards after the completion of this offering, our board of directors intends to determine the fair value of each share of underlying common stock based on the closing price of our common stock as reported on the date of grant.

Income Taxes

We account for income taxes under the asset and liability method, which requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been

Table of Contents

included in the financial statements. Under this method, deferred tax assets and liabilities are determined based on the differences between the financial statements and tax bases of assets and liabilities and net operating loss and credit carryforwards using enacted tax rates in effect for the year in which the differences are expected to reverse. The effect of a change in tax rates on deferred tax assets and liabilities is recognized in the period that includes the enactment date. We do not permanently reinvest any earnings in our foreign subsidiaries and recognize all deferred tax liabilities that arise from outside basis differences in our investments in subsidiaries.

We record net deferred tax assets to the extent we believe that these assets will more likely than not be realized. These deferred tax assets are subject to periodic assessments as to recoverability, and if it is determined that it is more likely than not that the benefits will not be realized, valuation allowances are recorded which would reduce deferred tax assets. In making such determination, we consider all available positive and negative evidence, including future reversals of existing taxable temporary differences, projected future taxable income, tax planning strategies and recent financial operations.

We account for uncertain tax positions based on those positions taken or expected to be taken in a tax return. We determine if the amount of available support indicates that it is more likely than not that the tax position will be sustained on audit, including resolution of any related appeals or litigation processes. We then measure the tax benefit as the largest amount that is more than 50% likely to be realized upon settlement. We adjust reserves for our uncertain tax positions due to changing facts and circumstances. To the extent that the final outcome of these matters is different than the amounts recorded, such differences will impact our tax provision in our consolidated statements of operations in the period in which such determination is made. Interest and penalties related to uncertain income tax positions are included in the income tax provision.

Goodwill

Goodwill represents the excess of acquisition cost over the fair value of net tangible and identified net assets acquired. Goodwill and intangible assets that have indefinite lives are not amortized, but rather tested for impairment annually, as of January 1, or more often if and when events or circumstances indicate that the carrying value may not be recoverable. In fiscal year 2019, we have elected to early adopt ASU 2017-04, "Simplifying the Test for Goodwill Impairment" for our annual goodwill impairment test. ASU 2017-04 removes Step 2 of the goodwill impairment test requiring a hypothetical purchase price allocation. Goodwill impairment, if any, is determined by comparing the reporting unit's fair value to its carrying value. An impairment loss is recognized in an amount equal to the excess of the reporting unit's carrying value over its fair value, up to the amount of goodwill allocated to the reporting unit. There were no impairments of goodwill during the years ended March 31, 2017, 2018, and 2019.

For the purpose of testing goodwill for impairment, all goodwill acquired in a business combination is assigned to one or more reporting units. A reporting unit represents an operating segment or a component within an operating segment for which discrete financial information is available and is regularly reviewed by segment management for performance assessment and resource allocation. Components of similar economic characteristics are aggregated into one reporting unit for the purpose of goodwill impairment assessment. Reporting units are identified annually and re-assessed periodically for recent acquisitions or any changes in segment reporting structure. We have determined that we operate as one reporting unit.

The fair value of a reporting unit is generally determined using a combination of the income approach and the market approach. For the income approach, fair value is determined based on the present value of estimated future after-tax cash flows, discounted at an appropriate risk-adjusted rate.

[Table of Contents](#)

We use our internal forecasts to estimate future after-tax cash flows and estimate the long-term growth rates based on our most recent views of the long-term outlook for each reporting unit. Actual results may differ from those assumed in our forecasts. We derive our discount rates using a capital asset pricing model and analyzing published rates for industries relevant to our reporting units to estimate the weighted average cost of capital. We adjust the discount rates for the risks and uncertainty inherent in the respective businesses and in our internally developed forecasts. For the market approach, we use a valuation technique in which values are derived based on valuation multiples of comparable publicly traded companies. We assess each valuation methodology based upon the relevance and availability of the data at the time we perform the valuation and weight the methodologies appropriately.

Impairment of Long-Lived Assets

Long-lived assets, including amortized intangibles, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. If circumstances require a long-lived asset be tested for possible impairment, we first compare undiscounted cash flows expected to be generated by an asset to the carrying value of the asset. If the carrying value of the long-lived asset is not recoverable on an undiscounted cash flow basis, impairment is recognized to the extent that the carrying value exceeds its fair value. We estimate fair value using discounted cash flows and other market-related valuation models, including earnings multiples and comparable asset market values. If circumstances change or events occur to indicate that our fair market value has fallen below book value, then we will compare the estimated fair value of long-lived assets (including goodwill) to its book value. If the book value exceeds the estimated fair value, we will recognize the difference as an impairment loss in our consolidated statements of operations. We did not incur any impairment losses during the years ended March 31, 2017, 2018 and 2019.

Recent Accounting Pronouncements

See Note 2, Summary of Significant Accounting Policies of our audited consolidated statements included in this prospectus for a description of recently issued accounting pronouncements.

JOBS Act Accounting Election

We are an emerging growth company, as defined in the JOBS Act. Under the JOBS Act, emerging growth companies can delay adopting new or revised accounting standards issued subsequent to the enactment of the JOBS Act until such time as those standards apply to private companies. We have elected to take advantage of all of the reduced reporting requirements and exemptions, including the longer phase-in periods for the adoption of new or revised financial accounting standards, until we are no longer an emerging growth company. Our election to use the phase-in periods permitted by this election may make it difficult to compare our financial statements to those of non-emerging growth companies and other emerging growth companies that have opted out of the longer phase-in periods under the JOBS Act and who will comply with new or revised financial accounting standards. If we were to subsequently elect to instead comply with these public company effective dates, such election would be irrevocable pursuant to the JOBS Act.

BUSINESS

Overview

We offer the market-leading software intelligence platform, purpose-built for the enterprise cloud. As enterprises embrace the cloud to effect their digital transformation, our all-in-one intelligence platform is designed to address the growing complexity faced by technology and digital business teams. Our platform utilizes artificial intelligence at its core and advanced automation to provide answers, not just data, about the performance of applications, the underlying hybrid cloud infrastructure, and the experience of our customers' users. We designed our software intelligence platform to allow our customers to modernize and automate IT operations, develop and release high quality software faster, and improve user experiences for better business outcomes. As a result, as of March 31, 2019, our products are trusted by more than 2,300 customers in over 70 countries.

Today's leading companies are striving to deliver innovative, high performance digital services that expand market opportunities, to compete more effectively, and to operate with increased agility. Software is increasingly central to how enterprises seek to accomplish these goals. Applications sit at the core of this software revolution and are central to the digital transformation of these enterprises—from the mission critical enterprise applications that power factories, enable trading, manage transportation networks, and run business systems to the applications that consumers use every day to bank, shop, entertain, travel, and more.

Developing and operating software is harder than ever, largely driven by:

- 1) **Cloud Transformation:** Enterprises are building and deploying software across multiple public and on-premise platforms, creating significant visibility challenges across all of an enterprise's hosted environments.
- 2) **Application Complexity:** Applications are increasingly complex and deployed as microservices-based architectures that are written in multiple different programming languages with hundreds of loosely coupled service connections. The scale of this complexity is heightened by the advent of the Internet of Things, which increases the number of potential sources of application failure.
- 3) **DevOps:** Ensuring that software updates work without issues has grown more challenging due to the increased frequency of software releases, reduced testing time, and the use of independent development teams.
- 4) **User Experience:** User expectations for software performance have rapidly increased and enterprises are focused on advancing branded experiences to maximize revenue, differentiate offerings, and retain competitive positions.

Traditional approaches for developing, operating, and monitoring software were not designed for the enterprise cloud environment. Traditional monitoring solutions were developed in an era in which applications were monolithic, updated infrequently, and run in static data center environments. These monitoring solutions, including application performance monitoring, or APM, infrastructure monitoring, incident and alert management, and user experience monitoring, are difficult to deploy, narrow in scope, and were designed to operate in a simpler, siloed environment. Each tool in this approach only collects data about individual components of the computing stack, such as applications, infrastructures, logs, networks, or user experiences. In order to get an end-to-end view using these traditional approaches, IT teams are required to aggregate and correlate data from these disparate monitoring solutions in an attempt to identify actionable answers, including where bottlenecks occur, how best to optimize for performance and scalability, if an issue is impacting service, and if so, where to find the problem and what to do about it.

[Table of Contents](#)

With the advent of the enterprise cloud, the challenges and limitations of traditional solutions have been exacerbated. What was once a well understood layering of applications running on operating systems on physical servers connected to physical networks has rapidly become virtualized into software at all levels. Environments have become dynamic. Applications are no longer monolithic and are fragmented into dozens to potentially thousands of microservices, written in multiple software languages. These enterprise cloud environments sprawl from traditional backend applications run on relational databases and mainframes to modern IaaS platforms run on Amazon Web Services, or AWS, Microsoft Azure, or Azure, and Google Cloud Platform. All these factors result in an environment that is web-scale, extremely complex, and dynamic at all layers of the new computing stack.

We believe the scale, complexity, and dynamic nature of this emerging enterprise cloud environment, including the applications that run on it, require a comprehensive monitoring strategy that we refer to as “software intelligence.” Starting in 2014, we leveraged the knowledge and experience of the same engineering team that founded Dynatrace to develop a solution to address the disruptive shift to the enterprise cloud. These efforts resulted in the creation of a new platform, the Dynatrace Software Intelligence Platform, or Dynatrace®. Dynatrace® leverages an automatic instrumentation technology that we call OneAgent®, a real-time dependency mapping system we call SmartScope®, our transaction-centric code analysis technology that we call PurePath®, and an open artificial intelligence, or AI, engine that we call Davis™ for instant answers to degradations in service, anomalies in behavior, and user impact. Dynatrace® simplifies the complexity of the enterprise cloud for cloud architects, application teams and operations teams, while providing actionable insights that accelerate cloud migrations, cloud adoption, and DevOps success.

Unlike traditional multi-tool approaches, Dynatrace® has been integrated with key components of the enterprise cloud ecosystem to support dynamic cloud orchestration, including for AWS, Azure, Google Cloud Platform, Pivotal Cloud Foundry, Red Hat OpenShift, and Kubernetes. In these environments, Dynatrace® automatically launches and monitors the full cloud stack and all the applications and containers running anywhere in the stack, including applications and workloads that may traverse multiple cloud and hybrid environments. We believe that our ability to integrate Dynatrace® with cloud platforms simplifies development and operational efforts, increases visibility, and improves situational awareness for our customers.

We designed Dynatrace® to maximize flexibility and control of the rich monitoring data captured and analyzed by our platform. We believe that it provides the simplicity of software-as-a-service, or SaaS, with the customer option of either maintaining data in the cloud, or at the edge in customer-provisioned infrastructure, which we refer to as Dynatrace® Managed. In this managed offering, we provide updates and enhancements automatically on a monthly basis while allowing customers the flexibility and control to adhere to their own data security and sovereignty requirements.

We market Dynatrace® through a combination of our global direct sales team and a network of partners, including resellers, system integrators, and managed service providers. We target the largest 15,000 global enterprise accounts, which generally have annual revenues in excess of \$750 million.

The Dynatrace® Software Intelligence Platform has been commercially available since 2016 and is now our primary offering. The number of Dynatrace® customers increased to 1,364 as of March 31, 2019 from 574 as of March 31, 2018, representing year-over-year growth of 138%. As of March 31, 2019, approximately 53% of our Dynatrace® customers added to the platform since April 1, 2017 were new customers, and the remaining 47% were existing customers that either added or converted to Dynatrace® since we launched Dynatrace®. Our Dynatrace® dollar-based net expansion rate was 140% as of March 31, 2019. See the section titled “Management’s Discussion and Analysis of Financial Condition and Results of Operations—Key Metrics.”

[Table of Contents](#)

Our subscription revenue for the years ended March 31, 2017, 2018, and 2019 was \$232.8 million, \$257.6 million, and \$349.8 million, respectively, representing 57%, 65%, and 81%, respectively, of total revenue and year-over-year growth of 11% and 36%. Our total revenue for the years ended March 31, 2017, 2018, and 2019 was \$406.4 million, \$398.0 million, and \$431.0 million, respectively, representing a year-over-year decline of 2% and a year-over-year increase of 8%.

We had net income (loss) of \$0.8 million, \$9.2 million, and \$(116.2) million for the years ended March 31, 2017, 2018, and 2019, respectively. Our adjusted EBITDA for the years ended March 31, 2017, 2018, and 2019 was \$108.3 million, \$92.8 million, and \$92.9 million, respectively, representing 26.6%, 23.3%, and 21.5%, respectively, of total revenue. See section titled “Non-GAAP Financial Measures” for information regarding our use of adjusted EBITDA and the reconciliation of this measure to net income determined in accordance with generally accepted accounting principles in the United States, or GAAP.

Industry Background

Key trends impacting the way enterprises develop, manage, and optimize their software environment include:

Software Applications Are Central to Digital Transformation for Businesses Across All Sectors

Whether it is retailers driving higher customer engagement through mobile apps, industrial companies reducing production downtime with predictive maintenance applications, or automobile manufacturers designing self-driving cars, software is central to how enterprises deliver a differentiated user experience. At the same time, software is increasingly being embedded throughout the enterprise, managing business critical systems, such as payments processing, inventory and supply chain management, logistics, and many other front- and back-office operations.

A study by International Data Corporation, or IDC, suggests that by 2022 spending on digital transformation technology globally will reach \$1.97 trillion, representing a compound annual growth rate of 16.7% over a five-year period. Digital transformation requires significant modernization of legacy environments, shifting from high cost, labor intensive, and inflexible technology systems to a modern cloud-native architecture. Maintaining visibility across a broad hybrid cloud environment represents a significant challenge, which we believe is a primary reason why digital transformations are slow, often disrupted by performance issues, and can fail to achieve intended objectives.

Enterprises now focus more of their budget on software innovation and less on operating and maintaining systems in order to remain competitive. As a result, enterprises are investing in new platforms that are built to automate the development, deployment, and operation of modern software applications and accelerate the transition to the enterprise cloud.

Changing Customer Expectations are Requiring Enterprises to Prioritize the User Experience

Enterprises are increasingly seeking to differentiate their products and services based on user experiences, with digital interaction becoming the primary channel of communication between enterprises and their customers, partners, and employees. According to a Forrester report, customers who have a better experience are more likely to stay with a brand, buy additional products and services from the brand, and recommend it to friends. The result is more retained revenue from reduced customer churn, more revenue per customer, and more new customers. Conversely, according to a study by NewVoiceMedia, U.S. companies lose \$75 billion per year due to poor customer experiences, a \$13 billion increase from 2016. Faced with poor customer service, 39% of respondents indicated that they would never use the offending company again.

User experience is closely tied to the performance of software applications. As a result, optimal application performance and exceptional user experiences are important to the entire enterprise, not just to the IT staff that maintain these applications. We believe that the need for an exceptional user experience to engage and retain customers will continue to drive demand for instrumentation that helps enterprises to provide high quality, user-focused outcomes.

Benefits of the Enterprise Cloud Make it Essential for Digital Transformation

Enterprises are increasingly adopting cloud technologies to increase agility and accelerate innovation. According to IDC, “by 2020, over 90% of enterprises will use multiple cloud services and platforms—a transition supported by investments to manage resources across platforms”. According to 451 Research, the share of enterprises deploying the majority of their workloads in cloud infrastructure environments will increase from 54% in 2018 to 79% by 2020. The key advantages of an enterprise cloud include:

- ***Ability to build better applications at a faster rate.*** Cloud-based application development technologies such as container and microservices architectures, enable enterprises to focus developer resources more on creating and improving value-add application features and less on managing underlying operating systems and infrastructure. Gartner states that by 2022, more than 75% of global organizations will be running containerized applications in production, which is a significant increase from fewer than 30% today. In addition to new cloud-based development technologies, enterprises are adopting new processes such as DevOps and Artificial Intelligence for IT Operations, or AIOps, that help accelerate the software delivery cycle.
- ***Operational efficiency.*** Enterprises are moving to the cloud to be more agile and to reduce spending on expensive and static systems, as well as the IT staff needed to maintain them. Furthermore, cloud services can be purchased dynamically as demand ebbs and flows over time, affording greater flexibility, financial efficiencies, and scale than traditional systems.

Shift to Enterprise Cloud Introduces Fundamentally New Software Delivery Challenges

While the cloud offers enterprises some clear advantages over traditional systems, moving to the cloud also creates fundamental new challenges, such as:

- ***Greater complexity.*** Hybrid cloud strategies require that IT teams manage applications and ensure interoperability of operations between private and multiple public clouds, such as AWS, Azure, Google Cloud Platform, or SAP. In addition, these applications are containerized and increasingly fragmented into microservices that are hosted across multiple cloud platforms, creating interdependencies across heterogeneous environments that increase the risk of incompatibility issues and the number of potential failure points if the applications are not deployed and maintained correctly.
- ***Highly dynamic environments.*** Cloud infrastructure and applications are built to scale up or down in real-time depending upon usage and traffic. The automation required to monitor these highly dynamic environments is beyond what is required for monolithic, on-premise applications.
- ***Massive scale.*** As software becomes more critical to business success, the number and size of applications will continue to grow and encompass more features and greater functionality. At the same time, web-scale architectures are enabling enterprises to build applications that are deployed across thousands of hosts and serve millions of users simultaneously. The breadth of functionality and scale of deployments of enterprise cloud applications regularly exceed even the largest applications built in the pre-cloud era.
- ***More frequent changes to software.*** The adoption of DevOps practices and cloud architectures have increased the speed at which software updates can be developed and

deployed. With the application development lifecycle accelerating, enterprises must adapt their software operations environment and culture to ensure that performance and business outcomes are not adversely affected by frequent changes.

Traditional Monitoring Approaches Were Not Built for the Modern Enterprise Cloud

Traditional application monitoring approaches were built before the enterprise cloud was the driving force in digital transformation, and suffer from significant shortcomings when applied in cloud-based environments. Challenges of traditional monitoring solutions for the enterprise cloud include:

- ***Manual configuration processes that do not scale.*** Traditional monitoring tools require unique agents for each component of an application and rely on IT personnel to manually pre-configure each agent. The complexity and dynamic nature of enterprise cloud applications, which can include thousands of containers and microservices, makes this multi-agent approach costly, slow, and impractical to install and maintain, especially as these applications are rapidly modified and updated.
- ***Not designed to capture data across the full application stack.*** Traditional APM solutions were created to view a limited portion of the full software stack and provide visibility only into individual applications, without providing visibility into how the applications are interconnected. In order to get a complete view of all applications, from the underlying infrastructure to the user experience, IT personnel are required to manually implement and manage many disparate tools. We believe this approach has resulted in enterprises overinvesting in operations and underinvesting in development, which slows innovation.
- ***Only able to provide data, not answers.*** Traditional monitoring tools provide data only about narrow components of the technology stack. As a result, IT teams must manually integrate and correlate the data from disparate systems and apply their own assumptions to identify the underlying cause of performance issues. This process is slow, prone to errors, and is made especially challenging by the complexity of enterprise cloud applications.
- ***Collect limited snapshots of data that do not provide real-time visibility.*** Traditional APM tools were not designed for the far larger and more complex data sets produced by enterprise cloud applications and can only capture snapshots of application performance or user data. This approach requires these tools to rely on partial data sets, reducing their effectiveness in performing precise root-cause determination, adding risk, and delaying innovation. In addition, traditional monitoring tools do not provide visibility into containers and microservices, which leads to blind spots in software performance monitoring when used in closed-based environments.
- ***Lack of flexible deployment options.*** Traditional monitoring solutions are either deployed as SaaS-only or on-premise-only. SaaS-only solutions often fail to meet the strict governance, security, and scale requirements of large enterprises, and were not built to monitor on-premise applications, making them incompatible with the needs of customers who manage hybrid-hosted applications. Conversely, traditional on-premise solutions were not built to manage cloud applications and are typically upgraded less frequently and thus innovate more slowly than cloud-based applications.

Our Solution

We offer the market-leading software intelligence platform, purpose-built for the enterprise cloud. We built our Dynatrace Software Intelligence Platform from the ground up to meet the challenges of running an enterprise cloud. Our AI-powered, full-stack, and completely automated platform provides deep insight into dynamic, web-scale, hybrid cloud ecosystems. Dynatrace® is able to provide real-time

actionable insights about the performance of our customers' entire software ecosystem by integrating high fidelity, web-scale data mapping its dependencies in real-time, and analyzing them with an open, deterministic AI engine. Dynatrace® is brought to market through our global direct sales force and a network of partners. The combination of our market-leading platform and go-to-market strategy has allowed us to achieve the scale, growth, and margins that we believe will provide us the capital to continue investing in driving further product differentiation.

Our platform provides the following key benefits:

- **Single agent, fully automated configuration.** Dynatrace® is installed as a single agent, which we refer to as OneAgent ®, that automatically configures itself, discovering all components of the full-stack to enable high fidelity and web-scale data capture. OneAgent® dynamically profiles the performance of all components of the full-stack with code-level precision, even as applications and environments change.
- **Full-stack, all-in-one approach with deep cloud integrations.** Dynatrace® combines APM with Cloud Infrastructure Monitoring, AIOps, and Digital Experience Management, or DEM, in a single full-stack approach. We believe that this all-in-one approach reduces the need for a variety of disparate tools and enables our customers to improve productivity and decision making while reducing operating costs. Dynatrace® provides out-of-the-box configuration for the leading cloud platforms, such as AWS, Azure, Google Cloud Platform, Red Hat OpenShift, Pivotal Cloud Foundry, and SAP Cloud Platform, as well as coverage for traditional on-premise mainframe and monolithic applications in a single, easy-to-use, intelligent platform.
- **AI-powered, answer-centric insights.** Davis™, our deterministic AI engine, dynamically baselines the performance of all components in the full-stack, continually learning normal performance thresholds in order to provide precise answers when performance deviates from expected or desired conditions. Unlike correlation engines that overwhelm IT professionals with dozens of alerts from many different tools, Dynatrace® provides a single problem resolution and precise root cause determination. We believe that the accuracy and precision of the answers delivered by our AI engine enable our customers to program automated remediation actions, taking a significant step towards our vision of autonomous cloud operations and accelerating the DevOps transformation.
- **Web-scale and enterprise grade.** Dynatrace® utilizes big data architecture and enterprise-proven cloud technologies that are engineered for web-scale environments. With role-based access and advanced security functionality, Dynatrace® was purpose-built for enterprise wide adoption.
- **Flexible deployment options.** We deploy our platform as a SaaS solution, with the option of retaining the data in the cloud, or at the edge in customer-provisioned infrastructure, which we refer to as Dynatrace® Managed. The Dynatrace® Managed offering allows customers to maintain control of the environment where their data resides, whether in the cloud or on-premise, combining the simplicity of SaaS with the ability to adhere to their own data security and sovereignty requirements. Our Mission Control center automatically upgrades all Dynatrace® instances and offers on-premise cluster customers auto-deployment options that suit their specific enterprise management processes.

Our Opportunity

We believe that our full-stack, all-in-one, software intelligence platform, Dynatrace®, has the ability to expand our potential market opportunity by allowing us to offer our solutions into adjacent markets beyond APM, replacing traditional monitoring tools, and potentially disrupting various well-established IT spending categories, such as infrastructure monitoring, alert and incident management,

and network monitoring, as enterprise cloud computing replaces traditional data centers. According to Gartner, the global IT operations software market in 2019 is estimated to be \$29 billion and is expected to grow at a compound annual growth rate of 6.7% to \$37.5 billion in 2023.

We believe a significant portion of our market opportunity remains unpenetrated today. According to Gartner, enterprises will quadruple their APM use due to increasingly digitized business processes from 2018 through 2021, to reach 20% of all business applications. As this trend continues, we believe there is an opportunity to increase our annual recurring revenue as enterprise customers expand the number of applications instrumented.

We estimate that the annual potential market opportunity for our Dynatrace® solution is currently approximately \$18 billion. We calculated this figure using the largest 15,000 global enterprises with greater than \$750 million in annual revenue, as identified by S&P Capital IQ in February 2019. We then banded these companies by revenue scale, and multiplied the total number of companies in each band by our calculated annualized booking per customer for companies in each respective band. The calculated annualized bookings per customer applied for each band is calculated using internal company data of actual customer spend. For each respective band, we calculate the average annualized bookings per customer of the top 10% of customers in the band, which we believe to be representative of having achieved broader implementation of our solutions within their enterprises. We believe our potential market opportunity could expand further as enterprises increasingly instrument, monitor, and optimize more of their applications and underlying infrastructure.

Our Growth Strategy

- **Extend our technology and market leadership position.** We intend to maintain our position as the market-leading software intelligence platform through increased investment in research and development and continued innovation. We expect to focus on expanding the functionality of Dynatrace® and investing in capabilities that address new market opportunities. We believe this strategy will enable new growth opportunities and allow us to continue to deliver differentiated high-value outcomes to our customers.
- **Grow our customer base.** We intend to drive new customer growth by expanding our direct sales force focused on the largest 15,000 global enterprise accounts, which generally have annual revenues in excess of \$750 million. Approximately 53% of our Dynatrace® customers as of March 31, 2019, are new customers added since we launched Dynatrace® in 2016 and the initial average Dynatrace® ARR for these new customers was approximately \$100,000. In addition, we expect to leverage our global partner ecosystem to add new customers in geographies where we have direct coverage and work jointly with our partners. In other geographies, we utilize a multi-tier “master reseller” model, such as in Africa, Japan, the Middle East, Russia, and South Korea.
- **Increase penetration within existing customers.** We plan to continue to increase the penetration within our existing customers by expanding the breadth of our platform capabilities to provide for continued cross-selling opportunities. In addition, we believe the ease of implementation for Dynatrace® provides us the opportunity to expand adoption within our existing enterprise customers, across new customer applications, and into additional business units or divisions. Once customers are on the Dynatrace® platform, we have seen significant dollar-based net expansion due to the ease of use and power of our new platform.
- **Enhance our strategic partner ecosystem.** Our strategic partners include industry-leading system integrators, software vendors, and cloud and technology providers. We intend to continue to invest in our partner ecosystem, with a particular emphasis on expanding our strategic alliances and cloud-focused partnerships, such as AWS, Azure, Google Cloud Platform, Red Hat OpenShift, and Pivotal Cloud Foundry.

The Dynatrace Software Intelligence Platform

Dynatrace® is a software intelligence platform purpose-built for the enterprise cloud. Dynatrace® provides APM, infrastructure monitoring, AIOps, and DEM, in an easy-to-use, highly automated all-in-one solution. We engineered Dynatrace® to simplify the operation of complex hybrid cloud environments and capture a wide variety of high-fidelity application and telemetry data at scale, then dynamically map all components and their dependencies for real-time, continuous context to provide answers to issues, bottlenecks, degradations and more using our proprietary AI engine. We believe this enhanced visibility and automation across the full enterprise cloud ecosystem enables our customers to modernize and automate IT operations more easily, develop and release higher quality software faster, and deliver superior user experiences consistently.

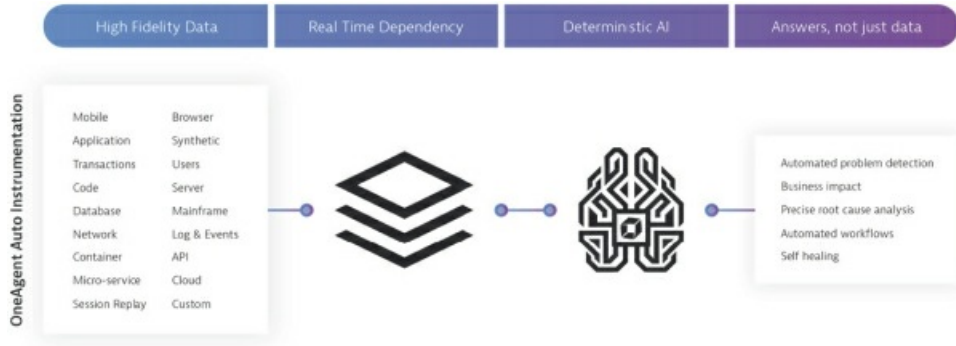

Our proprietary, single-agent technology, OneAgent® simplifies getting started with Dynatrace®. Upon installation, OneAgent® autonomously and instantly discovers all of the components and dependencies running on and across hosts in the enterprise cloud environment. We believe that OneAgent® offers significant time savings to our customers by providing them with the ability to automate deployment, configuration, and upgrades, which allows customers to quickly and efficiently monitor more applications.

Our SmartScope® technology dynamically maps a complete topology of the full-stack of modern software components and continuously updates in real-time to provide a comprehensive view of what applications are running, where they are running, how they are connected, and how they are performing.

With automatic baselining, our Davis™ AI continually learns what normal performance is, processing billions of dependencies in milliseconds, to serve up answers that are beyond human capabilities. This allows our proprietary, deterministic Davis™ AI engine to provide precise root cause problem identification, enabling faster decision making, greater optimization of IT resources, and better business outcomes.

We engineered Dynatrace® for web-scale, hybrid cloud environments with enterprise-grade governance and security and the ability to provide custom and secure role-based application and topology viewing access. We designed Dynatrace® to be highly scalable in order to capture and analyze big data sets produced by enterprise cloud environments in real-time. We believe that collecting high-fidelity data in one common architecture improves the intelligence of our AI engine and provides more precise answers about software performance and user activity across the full-stack. Using an application program interface, or API, we can extend Dynatrace® into common IT operations toolsets like ServiceNow and Atlassian's software portfolio, enriching information users receive, increasing automation of business processes, and providing incremental context to improve decision making.

Dynatrace Deterministic AI Delivers Answers, Not Just Data

Dynatrace® is a full-stack, all-in-one platform, which includes APM, DEM, AIOps, and Cloud Infrastructure Management. Customers typically start with APM and expand to include DEM for experience management and Cloud Infrastructure Management when full APM is not required. Davis™, our AI engine, is part of every Dynatrace® license since it is a core component of our software intelligence approach.

We deploy our platform as a SaaS solution, with data hosted in the cloud or at the edge on customer-provisioned infrastructure. This latter option we refer to as “managed,” as we provide updates and enhancements automatically on a monthly basis while allowing customers the flexibility and control to adhere to their own data security and sovereignty requirements.

Dynatrace Software Intelligence for The Enterprise Cloud

Application Performance Monitoring

Our approach to APM changes the way in which our customers monitor applications and manage transactions across highly complex enterprise cloud environments. Because cloud applications are dynamic, we engineered our instrumentation to be automatic. Because cloud applications run on shared infrastructure, leveraging shared services, we monitor the full-stack to provide visibility into both transactions (via PurePath®) and dependencies (via SmartScape®). Because the enterprise cloud is often hybrid, we gather metrics and telemetry beyond transaction data, including log and event data. And because the enterprise cloud is highly complex, we analyze all data and dependency context via our AI engine. This combination of capabilities allows our customers to manage web-scale cloud environments easily, with continuous visibility and insights into cloud operations, DevOps continuous integration and delivery pipelines, and business outcomes. Application coverage includes, though not limited to, traditional web and mobile environments such as Java, .NET, and PHP, modern environments such as Node.js and GoLang, database environments both SQL and NoSQL and mainframe environments such as Customer Information Control System and Information Management System.

Cloud Infrastructure Monitoring

Dynatrace® includes Cloud Infrastructure Monitoring to provide full visibility into the infrastructure layer across public, private, and hybrid cloud environments. We offer extensive coverage, including integrations with cloud platforms, such as AWS, Azure, Google Cloud Platform, Pivotal, Red Hat OpenShift and Kubernetes, by utilizing our OneAgent instrumentation and powerful API ingestion capabilities to provide a single source of analysis across environments.

We natively and automatically monitor containers and the microservices running inside of them, without the need to manually instrument each container. Our analysis includes full visibility into server metrics, including CPU, memory, network performance, and processes running on these hosts, including virtualized components. We also capture all relevant log files and put them in context of a transaction or a problem analysis to allow for richer detail and faster decision making.

Cloud Infrastructure Monitoring from Dynatrace® is part of our full-stack agent deployment or can be licensed in an infrastructure-only mode for host environments that do not require application analysis.

AIOps

Dynatrace® uses deterministic AI and full-stack intelligence to simplify IT operations, accelerate DevOps success, and improve business outcomes. Dynatrace® AI reduces the alert noise that is often associated with correlation engines used in enterprise environments by providing precise root-cause analysis to enable proactive troubleshooting and rapid remediation. Dynatrace® continuously auto-detects the entire technology stack as well as third-party APIs to create a visual map of all elements of the environment and their dependencies, including applications, services, processes, hosts, networks, and infrastructure. This allows the platform to learn a baseline of normal performance and interdependencies. When anomalies are automatically detected, the AI engine determines the precise root cause of the anomaly and prioritizes its importance based on user and service impact. By using an open API, the Dynatrace® AI engine can ingest and analyze third party data, such as firewall, load balancer, certificate server and more, to extend coverage and tailor to the specific environments of each customer.

We integrate our software intelligence with service management platforms to provide enriched data and improved workflows. This includes integrations with third parties such as ServiceNow and Atlassian, providing real-time updates to more accurately route problem tickets to the most appropriate IT teams and enriching the information available to them.

Davis™, our AI engine is part of every Dynatrace® license since it is a core component of our software intelligence approach. Customers who wish to enrich our AI engine with 3rd party data can license for incremental data ingestion.

Digital Experience Management

Dynatrace® provides intelligence into the digital experience of end users and how the software can be optimized to enhance user experience and maximize conversions. Our coverage has the ability to span across multiple applications to provide a single view of a customer journey across mobile, web, kiosk, SaaS applications, and IoT devices. Dynatrace® integrates three user experience capabilities into one Digital Experience Management, or DEM, solution—Real User Monitoring, or RUM, Synthetic Monitoring and Session Replay. We believe this integration simplifies set-up, configuration, education and on-going support while accelerating adoption and increasing value for our customers.

Dynatrace® RUM automatically captures every click, tap, and swipe of the user, regardless of device, across targeted applications. This capability is designed to enable our customers to quickly determine the impact that performance has on their conversion rates and revenue. We monitor at a user journey level to preserve a user's context for analysis, reporting, customer care and cross-channel tracking (e.g. a journey that traverses a mobile device and PC, or IoT devices and mobile device).

Dynatrace® Synthetic monitoring provides a proactive view into application and API performance and availability without the need for a live user of the application and can do so from multiple locations around the world. In addition, a customer can choose to extend test locations as well as test additional applications via private on-premise nodes. Simulated user visits are scripted by clicking through an application as a user would, and then provisioned and monitored by our SaaS DEM portal. Our customers use synthetic monitoring for proactive alerting and service level agreement management for both internally built cloud applications as well as for monitoring third-party applications such as Salesforce, NetSuite, ServiceNow, and more.

Dynatrace® Session Replay provides digital business teams, customer care teams and DevOps teams a visual recording of a real user's journey, including what they saw, what they clicked-on, how they traversed the application, and how they converted or where they abandoned. This expands Dynatrace®'s capabilities beyond user experience monitoring and into user behavior monitoring and analysis.

All Dynatrace® DEM capabilities use a common user interface, common dashboard and reporting system, and a common licensing scheme that we call "DEM units." Customers license DEM separately and the license supports all three capabilities.

Our Classic Products

Prior to launching Dynatrace® in 2016, our solutions consisted of the following suite of APM products, or the Classic products, which as of April 2018 are only available to customers who had previously purchased these products. We have largely incorporated the use cases for these products into our new Dynatrace® platform.

AppMon

AppMon continuously discovers and monitors all processing in application environments using our patented PurePath® technology. Unlike competitive alternatives which take only periodic snapshots of application component health, PurePath® continuously provides an end-to-end trace of every

transaction in a monitored application enabling root cause determination when issues occur. AppMon works across a wide variety of traditional application environments including mobile apps, web apps, web browsers, web servers, Java, .NET, Node.js, PHP, databases, middleware, and mainframe. Typically, AppMon is deployed on-premise using customer-provisioned infrastructure.

Classic Real User Monitoring

Classic RUM (also called End User Experience Monitoring) tracks each user's experience from an edge device, such as a smart phone, tablet, PC or kiosk, through cloud services to and including a customer's web tier. Classic RUM can monitor every click, tap, or swipe that a user makes and the application services these call, providing insight into how an application can or should be improved to enhance user experience and maximize conversions. Combined with AppMon, and leveraging PurePath® technology, Classic RUM customers is designed to enable customers to understand the impact that performance has on their revenue, with business transactions mapped to response times, errors, and abandonment, providing the link between IT operations and business outcomes. Like AppMon, Classic RUM is typically deployed using customer-provisioned infrastructure.

Synthetic Classic

Synthetic Classic provides a simulated customer experience and is used to monitor application and API availability and performance. Synthetic Classic proactively simulates user visits without the need for a live user of the application, providing global visibility into web applications by driving real web browser sessions. Simulated user visits are easily built and maintained via a simple point-and-click scripting environment, and performance dashboards, reports and alerting rules can be easily configured via our SaaS portal. Synthetic Classic is a SaaS-based application provisioned by Dynatrace®.

Network Application Monitoring

Network Application Monitoring, or NAM (also called DC RUM), provides visibility into traditional enterprise applications, network services, user experience, and application delivery across complex wide-area networks using a passive wire-data approach. NAM extends visibility into applications and key network infrastructure, such as SAP, Citrix, Oracle Applications, and more, complementing host-based monitoring. NAM is deployed using customer-provisioned infrastructure.

Research and Development

Our research and development organization is responsible for the design, development, testing, and operation of all aspects of our software intelligence offerings, addressing new use cases, adding new innovative capabilities, extending the scale and scope of our technology, and embracing modern cloud and AI technologies while maintaining high quality.

We utilize an agile development process with 100% test automation to deliver approximately 25 major software releases per year and hundreds of minor releases, fixes and currency updates. We believe monitoring the full-stack of software required by modern enterprise clouds requires a highly efficient and agile process to enable high-performing software across the diverse, dynamic cloud ecosystems of our customers.

Our primary lab locations are located in Linz, Austria; Gdansk, Poland; and Barcelona, Spain, and we also extend to additional cities in Austria and North America. We believe that our worldwide engineering and extensive European lab network is an advantage in driving lower costs, higher quality software and more stable workforce.

[Table of Contents](#)

Our research and development expenses were \$52.9 million, \$58.3 million, and \$76.8 million for the years ended March 31, 2017, 2018, and 2019, respectively.

Customers

As of March 31, 2019, we had more than 2,300 customers in over 70 countries. No organization or customer accounted for more than 10% of our revenue for the years ended March 31, 2018 and 2019. Representative customers, which generated Dynatrace® ARR in excess of our average Dynatrace ARR® per customer for the year ended March 31, 2019 and reflect the industry diversity of our Dynatrace customers, include Lloyds TSB, The Western Union Company, American Fidelity Assurance Company, The Kroger Co., Daimler AG, Air Canada, SAP SE and Autodesk, Inc.

Sales and Marketing

We take Dynatrace® to market through a combination of our global direct sales team and a network of partners, including resellers, system integrators and managed service providers. We target the largest 15,000 global enterprise accounts, which generally have annual revenues in excess of \$750 million, which we believe see more value from our integrated full-stack platform

Our sales and marketing organizations seek to promote the Dynatrace brand, our platform capabilities, and develop partnerships to drive revenue growth. We utilize a variety of go-to market strategies, including search engine optimization, online advertising, free software trials, events, online webinars, and broad content marketing strategies. We nurture our existing customer base through ongoing education, training, and upsell and cross-sell opportunities. We do this primarily through our digital online channels, such as the Dynatrace Community and Dynatrace University, as well as our customer event series 'Perform' – which caters to more than 7,500 people across 30 events globally.

Our sales and marketing expenses were \$130.0 million, \$145.4 million, and \$178.9 million for the years ended March 31, 2017, 2018, and 2019, respectively.

Partners

We develop and maintain partnerships that help us market and deliver our products to our customers around the world. Our mission is to bring together industry experts and hands-on practitioners to create a world class partner network. In addition, our partner network extends the sales reach of the Dynatrace® platform providing new sales opportunities, renewals of existing subscriptions, as well as upsell and cross sell opportunities. Our partner network includes the following:

- **Cloud providers.** We work with many of the major cloud providers to increase awareness of our products and make it easy for customers to access our software. Our software is developed to run in and integrate with leading cloud providers, such as, AWS, Azure, and Google Cloud Platform. Our customers are also able to procure our software through leading marketplaces such as AWS, Azure, SAP, and IBM.
- **Resellers.** Our resellers market and sell our products throughout the world, and provide a go-to-market channel in regions where we do not have a direct presence, such as Africa, Japan, the Middle East, Russia, and South Korea.
- **Technology alliance partners.** We partner with leading innovative technology organizations such as Red Hat, Pivotal, VMWare, and Atlassian to develop integrations, best practices, and extended capabilities that help our customers and solution partners achieve faster time to market and enhanced value in modern enterprise cloud environments.

- **System integrators.** We have a network of systems integrators, both global and regional, that help joint customers integrate our products into their enterprise cloud ecosystems. These partners extend our scale and reach and collaborate with our direct sales teams, bringing domain expertise in technologies and industries along with additional offerings powered by Dynatrace®.

Professional Services

Our global team of highly skilled consultants, architects and certified partners deliver strategic guidance and leadership designed to drive innovation for our customers. Whether working directly onsite or remotely by virtual engagement, Dynatrace offers and delivers a modernized portfolio of consulting and architectural services designed for every stage of our customers' cloud transformation journey. Our expertise includes cloud ecosystem integration, incident and alert management integration, DevOps CI/CD integration, user experience and business intelligence insights and more.

Dynatrace University is our global on-line, self-service education program that provides a number of learning options for customers and partners to develop their skills around monitoring, managing, integrating, and analyzing their enterprise cloud environment and application workloads with Dynatrace.

Support and SaaS Operations

Dynatrace ONE is our innovative onboarding and support service focused on simplifying and streamlining the experience our customers have with the company and our products. This service is delivered by a global team of product specialists, customer success managers, and support engineers. Dynatrace ONE uses in-product chat as the primary vehicle for customer interaction to drive adoption and growth, as well as to handle issues and user questions. We maintain a SaaS-like connection to tenants and clusters, both in the cloud and managed on customer provisioned infrastructure, via our "Mission Control" system, which allows us to streamline communication and accelerate resolution of issues. Dynatrace ONE is offered to all Dynatrace customers free of charge and includes automatic product updates and upgrades, online access to documentation, knowledge base, and discussion forums as well as access to Dynatrace University. Dynatrace ONE is comprised of technical personnel distributed across three territories and provides global coverage during normal business hours, and across multiple languages.

Dynatrace ONE Premium is an extra level of support services for customers who want to accelerate their adoption of our platform, increase their access to support, and extend their hours of expert coverage. Dynatrace ONE Premium offers dedicated expertise for customers with designated Product Specialists and Customer Success Managers familiar with the customer's environment, goals, and challenges in order to provide a customized success plan.

We proactively monitor our customers' Dynatrace® installations around the world, whether tenants are shared in the cloud or managed on customer-provisioned infrastructure. We operate our SaaS offerings in geographic locations across North America, Europe and Asia within AWS, combined with worldwide coverage of synthetic nodes in approximately 50 different datacenters including AWS, Microsoft Azure, and Alibaba Cloud Services. Our Dynatrace Security Team develops new process and technology controls, while we also employ third party firms for penetration tests, security audits, and security testing.

Intellectual Property

We rely on a combination of patent, copyright, trademark, trade dress, and trade secret laws, as well as confidentiality procedures and contractual restrictions, to establish and protect our proprietary

rights. These laws, procedures, and restrictions provide only limited protection. As of June 30, 2019, we had 59 issued patents, all of which are in the United States, and 27 pending applications, of which 18 are in the United States. Our issued patents expire at various dates through July 2037. We cannot be assured that any of our patent applications will result in the issuance of a patent or whether the examination process will require us to narrow the scope of the claims sought. Any future patents issued to us may be challenged, invalidated or circumvented. Any patents that may issue in the future with respect to pending or future patent applications may not provide sufficiently broad protection or may not prove to be enforceable in actions against alleged infringers.

We have registered “Dynatrace” and the “Dynatrace” logo as trademarks in the United States and other jurisdictions for our name and our product as well as certain other words and phrases that we use in our business, including “PurePath” and “SmartScape”. We have registered numerous Internet domain names related to our business. We also license software from third parties for integration into our applications and utilize open source software.

We enter into agreements with our employees, contractors, customers, partners, and other parties with which we do business to limit access to and disclosure of our proprietary information. We cannot be certain that the steps we have taken will prevent unauthorized use or reverse engineering of our technology. Moreover, others may independently develop technologies that are competitive with ours or that infringe our intellectual property. The enforcement of our intellectual property rights also depends on any legal actions against these infringers being successful, but these actions may not be successful, even when our rights have been infringed.

Furthermore, effective patent, trademark, trade dress, copyright, and trade secret protection may not be available in every country in which our products are available over the Internet. In addition, the legal standards relating to the validity, enforceability and scope of protection of intellectual property rights are uncertain and still evolving.

Competition

The market for software application monitoring and analytics solutions is evolving, complex and defined by changing technology and customer needs. We expect competition to intensify in the future as competitors bundle new and more competitive offerings with their existing products and services, and as products and product enhancements are introduced into our markets. As we have expanded our capabilities beyond traditional APM, we increasingly compete with a wider range of vendors. We expect competition to continually evolve as enterprises shift to the enterprise cloud environment and as more mature vendors look to provide a holistic approach to monitoring.

We compete either directly or indirectly with:

- APM vendors, such as Cisco AppDynamics, Broadcom, and New Relic;
- infrastructure monitoring vendors, such as BMC, Datadog, and Nagios;
- DEM vendors, such as Akamai and Catchpoint;
- point solutions from public cloud providers; and
- IT operations management, AIOps, and business intelligence providers that provide some portion of the capabilities that we provide.

In addition to the above companies, we also face potential competition from vendors in adjacent markets that may offer capabilities that overlap with ours. We may also face competition from companies entering our market, including large technology companies which could expand their platforms or acquire one of our competitors.

Table of Contents

The principal competitive factors in our markets are:

- artificial intelligence capabilities;
- automation;
- product features, functionality, and reliability;
- ease and cost of deployment, use and maintenance;
- deployment options and flexibility;
- customer, technology, and platform support;
- ability to easily integrate with customers software application and IT infrastructure environments;
- the quality of data collection and correlation;
- interoperability and ease of integration; and
- brand recognition.

While we believe that we compete favorably on the basis of the foregoing factors, we may be at a competitive disadvantage to certain of our current and future competitors as they may be able to devote greater resources to the development and improvement of their products and services than we can and, as a result, may be able to respond more quickly to technological changes and customers' changing needs. Moreover, because our market is changing rapidly, it is possible that new entrants, especially those with substantial resources, more efficient operating models, more rapid product development cycles or lower marketing costs, could introduce new products and services that disrupt the manner in which our all-in-one, highly automated approach addresses the needs of our customers and potential customers.

Employees

As of June 30, 2019, we had 1,981 full-time employees, including 647 in sales and marketing, 631 in research and development, 203 in administrative functions, 224 in services, and 276 in customer support. Among our full-time employees as of June 30, 2019, 799 were in North America, 940 were in EMEA, 183 were in Asia Pacific, and 59 were in Latin America.

Facilities

Our corporate headquarters is located in Waltham, Massachusetts and consists of approximately 40,000 square feet of space under a lease that expires in September 2027. In addition to our headquarters, we lease approximately 35,000 square feet of space in Detroit, Michigan under a lease that expires in January 2021. Our primary research and development facilities are located in Linz, Austria, Gdansk, Poland, and Barcelona, Spain, and consist of approximately 30,000, 35,000, and 12,000 square feet, respectively. We maintain additional offices in the United States and in various international locations, including San Mateo, California, Maidenhead, United Kingdom, and Sydney, Australia. We believe that our facilities are adequate to meet our needs for the immediate future and that we will be able to secure additional space to accommodate expansion of our operations.

Legal

We are not currently a party to any litigation or claims that, if determined adversely to us, would have a material adverse effect on our business, operating results, financial condition, or cash flows. We are, from time to time, party to litigation and subject to claims in the ordinary course of business. Regardless of the outcome, litigation can have an adverse impact on us because of defense and settlement costs, diversion of management resources, and other factors.

MANAGEMENT

Executive Officers and Directors

The following table provides information regarding the individuals who will serve as our executive officers and directors immediately following the completion of this offering, including their ages as of June 30, 2019:

<u>Name</u>	<u>Age</u>	<u>Position</u>
<i>Executive Officers:</i>		
John Van Siclen	62	Chief Executive Officer and Director
Kevin Burns	49	Chief Financial Officer and Treasurer
Stephen J. Pace	59	Senior Vice President, Worldwide Sales
Bernd Greifeneder	47	Senior Vice President, Chief Technology Officer
<i>Non-Employee Directors:</i>		
Seth Boro ⁽¹⁾	43	Director
Kenneth "Chip" Virnig ⁽²⁾⁽³⁾	35	Director
James K. Lines ⁽¹⁾⁽²⁾	62	Director
Paul Zuber ⁽³⁾	59	Director
Michael Capone ⁽²⁾⁽³⁾⁽⁴⁾	52	Director Nominee
Stephen Lifshatz ⁽¹⁾⁽⁴⁾	60	Director Nominee

(1) Member of the audit committee.

(2) Member of the compensation committee.

(3) Member of the nominating and corporate governance committee.

(4) Messrs. Capone and Lifshatz will join our board of directors effective immediately after the effectiveness of the registration statement of which this prospectus is a part.

Executive Officers

John Van Siclen has served as our Chief Executive Officer since 2008 and on our board of directors since December 2014. He has over 35 years of experience developing and leading technology companies in a variety of markets including networking, database, content management and broadband. In 2012, Mr. Van Siclen was recognized by CRN magazine as a 'Top 25 Disrupter,' and in 2018 he was recognized by Comparably as one of the top CEOs in America (#17) for companies over 500 employees. Prior to Dynatrace, Mr. Van Siclen was Chief Executive Officer of Adesso Systems, Inc. from July 2006 until December 2007. Mr. Van Siclen also held several executive positions at Interwoven Inc. from January 2000 until June 2003 last serving as its Chief Executive Officer from January 2002 through June 2003. Mr. Van Siclen holds a B.A. in History from Princeton University. Our board of directors believes that based on Mr. Van Siclen's knowledge of our company and our business, and his service as our Chief Executive Officer, Mr. Van Siclen is qualified to serve on our board of directors.

Kevin Burns has served as our Chief Financial Officer and Treasurer since September 2016. Mr. Burns was also the Treasurer and Secretary of SIGOS LLC, an affiliate of Dynatrace, until July 2018. Prior to his role at Dynatrace, Mr. Burns was the President, Chief Financial Officer and Chief Operating Officer of iCAD Inc. (Nasdaq: ICAD) from April 2011 until September 2016. From April 2008 until May 2010, Mr. Burns was Senior Vice President, Chief Financial Officer of AMICAS, Inc. (Nasdaq: AMCS), and he was the Vice President of Finance and Corporate Development from November 2004 until March 2008. Mr. Burns holds a B.S. from Babson College and an M.B.A. from Babson College's Franklin W. Olin Graduate School of Business.

Table of Contents

Stephen J. Pace has served as our Senior Vice President, Global Sales since March 2016. Prior to this, Mr. Pace was the Senior Vice President, Global Sales for Raytheon Cyber Products, Inc., a subsidiary of Raytheon Company (NYSE: RTN), from January 2014 until February 2016. Prior to his role at Raytheon, Mr. Pace was Executive Vice President of Global Sales and Advisory Board Member at Rapid Focus Security, Inc. (d/b/a Pwnie Express), from January 2013 until January 2014 and currently he remains an advisor to the company. He has also held various North American and Global Sales and Marketing roles with Seagate Software (acquired by Veritas), GeoTrust (acquired by Verisign), NaviSite (acquired by Time Warner), and IBM. Mr. Pace holds a B.S. in Electrical Engineering, with honors, from Pennsylvania State University and has been an Advisory Board member since 2008 in the College of Information Science and Technology at Pennsylvania State University.

Bernd Greifeneder has served as our Senior Vice President, Chief Technology Officer since December 2014. Mr. Greifeneder co-founded dynaTrace Software GmbH in 2005, where he was the Chief Executive Officer until 2008, and the Chief Technology Officer until December 2014. Prior to this, Mr. Greifeneder held a variety of roles at Segue Software Inc. from January 1998 to February 2005, including Project Lead, Chief Technology Officer of Global Technologies and Chief Software Architect. Mr. Greifeneder holds a B.S. in Computer Science and an M.S. in Computer Science from Johannes Kepler Universität Linz, Austria.

Non-Employee Directors

Seth Boro has served on our board of directors and a member of its compensation committee since January 2015. Mr. Boro has served as a Managing Partner at Thoma Bravo since 2013. He joined Thoma Bravo in 2005 and became a Partner in 2010, serving in that capacity until becoming a Managing Partner in 2013. Mr. Boro was previously an associate with the private equity firm Summit Partners from July 2000 to May 2003 and an analyst with Credit Suisse from July 1999 to July 2000. Mr. Boro currently serves on the board of directors of SolarWinds Corporation (NYSE: SWI) and previously served on the board of directors of SailPoint Technologies Holdings, Inc. (NYSE: SAIL) until November 2018. He currently serves as a director of several software and technology service companies in which certain private equity funds advised by Thoma Bravo hold an investment, including Compuware and SIGOS, affiliates of Dynatrace, ConnectWise, Inc., Hyland Software, Inc., Empirix, Inc., Imperva, Inc., Riverbed Technology, Inc., DigiCert, Inc., Qlik Technologies, Inc., McAfee, LLC, Kofax, Ltd., Veracode, Inc., Barracuda Networks, Inc. and LogRhythm, Inc. Mr. Boro also previously served on the board of directors of other cyber security companies, including Blue Coat Systems, Inc., Entrust, Inc., SonicWALL, Inc., and Tripwire, Inc. Mr. Boro received his M.B.A. from the Stanford Graduate School of Business and is a graduate of Queen's University School of Business (Canada), where he received a Bachelor of Commerce degree. Our board of directors believes that Mr. Boro's board and industry experience qualify him to serve on our board of directors.

Kenneth "Chip" Virnig has served on our board of directors and its audit committee since January 2015. Since September 2018, he has served as Partner at Thoma Bravo, and from July 2015 to September 2018 he served as Principal at Thoma Bravo. Mr. Virnig joined Thoma Bravo in 2008 and served as Vice President prior to his promotion to Principal. Prior to that, Mr. Virnig worked as an analyst in the investment banking group at Merrill Lynch & Co. from July 2006 to July 2008. He previously served on the board of directors of SailPoint Technologies Holdings, Inc. (NYSE: SAIL) until March 2019 and currently serves as a director of several software and technology service companies in which certain private equity funds advised by Thoma Bravo hold an investment, including Compuware and SIGOS, affiliates of Dynatrace, Hyland Software, Inc., Imperva, Inc., Imprivata, Inc., Qlik Technologies, Inc., Kofax, Ltd., LogRhythm, Inc., Barracuda Networks, Inc. and Veracode, Inc. Mr. Virnig received a B.A. in Business Economics, Commerce, Organizations and Entrepreneurship from Brown University. Our board of directors believes that Mr. Virnig's board and industry experience and his overall knowledge of our business qualify him to serve on our board of directors.

James K. Lines has served on our board of directors and as a member of the compensation and audit committees since January 2015. Mr. Lines has been an Operating Partner with Thoma Bravo since 2002, and is now a Senior Operating Partner. Mr. Lines' prior experience includes service in various financial management capacities at affiliates of AMR Corporation (a parent company of American Airlines), including as Chief Financial Officer of The SABRE Group; as Senior Vice President and Chief Financial Officer of ITI Marketing Services, a private tele-services firm; and as Executive Vice President; and Chief Financial Officer of United Surgical Partners, an international operator of surgery centers and hospitals. Mr. Lines currently serves on the board of directors of SolarWinds Corporation (NYSE: SWI) and several other software and technology service companies in which certain private equity funds advised by Thoma Bravo hold an investment, including Compuware and SIGOS, affiliates of Dynatrace, Hyland Software, Inc., Riverbed Technology, Inc., DigiCert, Inc., Qlik Technologies, Inc., Imprivata, Inc. and ABC Financial Services, LLC. Mr. Lines earned his B.S. in Electrical Engineering from Purdue University and an M.B.A. from Columbia University. Our board of directors believes that Mr. Lines' management, financial and industry experience and his knowledge of our business qualify him to serve on our board of directors.

Paul Zuber has served on our board of directors and as a member of our audit committee since January 2015. Mr. Zuber has been an Operating Partner with Thoma Bravo since 2010. Previously he served as founding Chief Executive Officer of Dilithium Networks Inc. from July 2001 to July 2010 and as Chief Executive Officer of Bluegum Group from 1995 to 2000. Mr. Zuber also served in senior positions at Ready Systems Inc. from 1986 to 1990. Mr. Zuber currently serves on the board of directors of several software and technology service companies in which certain private equity funds advised by Thoma Bravo hold an investment, including Empirix, Inc., MedeAnalytics, Inc., Elemica, Inc., Imprivata, Inc., Continuum Managed Services, LLC, Kofax, Ltd., Frontline Education Technologies, LLC, ABC Financial Services, LLC, Barracuda Networks, Inc., MeridianLink, Inc., SIGOS, an affiliate of Dynatrace, and LogRhythm, Inc. Mr. Zuber has an M.B.A. from the Stanford Graduate School of Business and B.A. degrees in International Relations and Economics from Stanford University. Our board of directors believes that Mr. Zuber's board and industry experience and his knowledge of our business qualify him to serve on our board of directors.

Director Nominees

Michael Capone will be elected to serve on our board of directors and as a member of its compensation and nominating and corporate governance committees effective immediately after the effectiveness of the registration statement of which this prospectus is a part. Mr. Capone has served as the Chief Executive Officer of Qlik Technologies, Inc., which is owned by affiliates of Thoma Bravo, since January 2018. Prior to that, Mr. Capone served as the Chief Operating Officer of Medidata Solutions, Inc. (Nasdaq: MDSO) from October 2014 to December 2017. Prior to joining Medidata, Mr. Capone worked in various executive positions at Automatic Data Processing, Inc., or ADP (Nasdaq: ADP), serving as Corporate Vice President of Product Development and Chief Information Officer from July 2008 to September 2014, and Senior Vice President and General Manager of ADP's Global HR/Payroll Outsourcing Business from July 2005 to June 2008. He has also served on the board of directors of Ellie Mae, which is owned by private equity funds advised by Thoma Bravo, since May 2019. Mr. Capone holds a B.S. in Computer Science from Dickinson College and an M.B.A. in Finance from Pace University. Our board of directors believes that Mr. Capone's board and business experience and his overall knowledge of our industry qualify him to serve on our board of directors.

Stephen Lifshatz will be elected to serve on our board of directors and as a member of its audit committee effective immediately after the effectiveness of the registration statement of which this prospectus is a part. Mr. Lifshatz has served as the Chief Financial Officer for Lytx, a private video telematics company, since May 2018. Prior to joining Lytx, from January 2017 through May 2018, Mr. Lifshatz was engaged as an independent consultant by several private equity firms to assist in the

Table of Contents

development and expansion of certain of their portfolio companies. Prior to that, Mr. Lifshatz served as Chief Financial Officer of Fleetmatics Group PLC (NYSE: FLTX) from December 2010 to December 2016. Mr. Lifshatz had also served as CFO of four additional private and public companies during his career. Mr. Lifshatz served on the Board of Directors of Amicas, Inc. (Nasdaq: AMCS) from June 2007 until June 2010, as well as on the Board or Advisory Board of several companies. Mr. Lifshatz holds a B.S. in Accounting and Marketing from Skidmore College. Our board of directors believes that Mr. Lifshatz' board and business experience and his overall knowledge of our industry qualify him to serve on our board of directors.

Status as a Controlled Company

Because the Thoma Bravo Funds will beneficially own 199,668,920 shares of common stock, representing approximately 70.9% of the voting power of our issued and outstanding capital stock (or 69.7% if the underwriters' option to purchase additional shares from us is exercised in full), following the completion of this offering, we expect to be a controlled company as of the completion of the offering under the Sarbanes-Oxley Act of 2002, or the Sarbanes-Oxley Act, and the rules of the New York Stock Exchange, or NYSE. A controlled company does not need its board of directors to have a majority of independent directors or to form an independent compensation or nominating and corporate governance committee. As a controlled company, we will remain subject to rules of the Sarbanes-Oxley Act and the NYSE, which require us to have an audit committee composed entirely of independent directors. Under these rules, we must have at least one independent director on our audit committee by the date our common stock is listed on the NYSE, at least two independent directors on our audit committee within 90 days of the listing date, and at least three directors, all of whom must be independent, on our audit committee within one year of the listing date. We expect to have six independent directors upon the closing of this offering.

If at any time we cease to be a controlled company, we will take all action necessary to comply with the Sarbanes-Oxley Act and rules of the NYSE, including by having a majority of independent directors on our board of directors and ensuring we have a compensation committee and a nominating and corporate governance committee, each composed entirely of independent directors, subject to any permitted "phase-in" period.

Code of Business Conduct and Ethics

Prior to the completion of this offering, our board of directors will adopt a code of business conduct and ethics that applies to all of our employees, officers and directors, including our Chief Executive Officer, Chief Financial Officer and other executive and senior officers. The full text of our code of business conduct and ethics will be posted on the investor relations page on our website. We intend to disclose any amendments to our code of business conduct and ethics, or waivers of its requirements, on our website or in filings under the Securities Exchange Act of 1934, as amended, or the Exchange Act.

Board of Directors

We expect our board of directors will consist of seven persons immediately prior to the consummation of this offering, six of whom will qualify as "independent" under the listing standards of the NYSE.

After the completion of this offering, the number of directors will be fixed by our board of directors, subject to the terms of our charter and bylaws that will become effective immediately prior to the completion of this offering. Each of our current directors will continue to serve as a director until the election and qualification of his successor, or until his earlier death, resignation or removal.

Table of Contents

Additionally, our charter that will be in effect following this offering will provide that for so long as Thoma Bravo beneficially owns in the aggregate at least (i) 30% of our outstanding shares of common stock, Thoma Bravo will have the right to designate the chairman of our board of directors and of each committee of our board of directors as well as nominate a majority of our board of directors (provided that, at such time as we cease to be a "controlled company" under the NYSE corporate governance standards, the majority of our board of directors will be "independent" directors, as defined under the rules of the NYSE, and provided further, that the membership of each committee of our board of directors will comply with the applicable rules of the NYSE); (ii) 20% (but less than 30%) of our outstanding shares of common stock, Thoma Bravo will have the right to nominate a number of directors to our board of directors equal to the lowest whole number that is greater than 20% of the total number of directors (but in no event fewer than two directors); (iii) 10% (but less than 20%) of our outstanding shares of common stock, Thoma Bravo will have the right to nominate a number of directors to our board of directors equal to the lowest whole number that is greater than 5% of the total number of directors (but in no event fewer than one director); and (iv) at least 5% (but less than 10%) of our outstanding shares of common stock, Thoma Bravo will have the right to nominate one director to our board of directors. When Thoma Bravo beneficially owns less than 30% of our common stock, the chairman of our board of directors will be elected by a majority of our directors.

Our directors will be divided into three classes serving staggered three-year terms. Class I, Class II and Class III directors will serve until our annual meetings of stockholders in 2020, 2021 and 2022, respectively. Messrs. Capone, Lifshatz and Van Sicken will be assigned to Class I, Messrs. Boro and Lines will be assigned to Class II, and Messrs. Virnig and Zuber will be assigned to Class III. At each annual meeting of stockholders held after the initial classification, directors will be elected to succeed the class of directors whose terms have expired. This classification of our board of directors could have the effect of increasing the length of time necessary to change the composition of a majority of the board of directors. In general, at least two annual meetings of stockholders will be necessary for stockholders to effect a change in a majority of the members of the board of directors.

Director Independence

Our board of directors has undertaken a review of the independence of each director. Based on information provided by each director concerning his background, employment and affiliations, our board of directors has determined that none of our directors (other than Mr. Van Sicken) has any relationships that would interfere with the exercise of independent judgment in carrying out the responsibilities of a director and that each of these directors is "independent" as that term is defined under the listing standards of the NYSE. In making these determinations, our board of directors considered the current and prior relationships that each non-employee director has with our company and all other facts and circumstances our board of directors deemed relevant in determining their independence and eligibility to serve on the committees of our board of directors, including the transactions involving them described in the section titled "Certain Relationships and Related Party Transactions."

Committees of Our Board of Directors

Our board of directors has established an audit committee and a compensation committee, and may have such other committees as the board of directors may establish from time to time. The composition and responsibilities of each of the committees of our board of directors are described below. Members serve on these committees until their resignation or until otherwise determined by our board of directors.

For so long as Thoma Bravo beneficially owns at least 30% of our outstanding shares of common stock, Thoma Bravo will have the right to designate the chairman of each committee of our board of

directors, and the directors nominated by Thoma Bravo are expected to constitute a majority of each committee of our board of directors (other than the audit committee), provided that our committee membership will comply with all applicable rules of the NYSE.

Audit Committee

We anticipate that following completion of this offering, our audit committee will consist of Stephen Lifshatz, Seth Boro and James K. Lines. Messrs. Lifshatz and Lines satisfy the requirements for independence and financial literacy under the applicable rules and regulations of the Securities and Exchange Commission, or SEC, and listing standards of the NYSE. We anticipate that following the completion of this offering, Mr. Lifshatz will serve as the chair of our audit committee. Mr. Lifshatz qualifies as an “audit committee financial expert” as defined in the rules of the SEC, and satisfies the financial expertise requirements under the listing standards of the NYSE. Following the completion of this offering, our audit committee will, among other things, be responsible for:

- selecting a qualified firm to serve as the independent registered public accounting firm to audit our financial statements;
- helping to ensure the independence and performance of the independent registered public accounting firm;
- discussing the scope and results of the audit with the independent registered public accounting firm, and reviewing, with management and the independent registered public accounting firm, our interim and year-end operating results;
- developing procedures for employees to submit concerns anonymously about questionable accounting or audit matters;
- reviewing our policies on risk assessment and risk management;
- reviewing related party transactions; and
- approving or, as required, pre-approving, all audit and all permissible non-audit services, other than de minimis non-audit services, to be performed by the independent registered public accounting firm.

Upon completion of this offering, our audit committee will operate under a written charter that satisfies the applicable rules and regulations of the SEC and the listing standards of the NYSE.

Compensation Committee

We anticipate that following completion of this offering, our compensation committee will consist of Michael Capone, James K. Lines and Kenneth “Chip” Virnig. We anticipate that following the completion of this offering, Mr. Capone will serve as the chair of our compensation committee. Each member of our compensation committee meets the requirements of a “non-employee director” pursuant to Rule 16b-3 under the Exchange Act. Because we will be a controlled company under the Sarbanes-Oxley Act and rules of the NYSE as of the completion of the offering, we will not be required to have a compensation committee composed entirely of independent directors as of the closing of this offering.

Following the completion of this offering, our compensation committee will, among other things, be responsible for:

- reviewing and approving the goals and objectives relating to the compensation of our executive officers, including any long-term incentive components of our compensation programs;

Table of Contents

- evaluating the performance of our executive officers in light of the goals and objectives of our compensation programs and determining each executive officer's compensation based on such evaluation;
- reviewing and approving, subject, if applicable, to stockholder approval, our compensation programs;
- reviewing the operation and efficacy of our executive compensation programs in light of their goals and objectives;
- reviewing and assessing risks arising from our compensation programs;
- reviewing and recommending to the board of directors the appropriate structure and amount of compensation for our directors;
- reviewing and approving, subject, if applicable, to stockholder approval, material changes in our employee benefit plans; and
- establishing and periodically reviewing policies for the administration of our equity compensation plans.

Compensation Committee Interlocks and Insider Participation

During fiscal 2019, our compensation committee consisted of Marcel Bernard (who resigned from our board in July 2019) and Messrs. Boro and Lines. None of the members of our compensation committee is an officer or employee of our company, nor have they even been an officer or employee of our company. None of our executive officers currently serves, or in the past year has served, as a member of the board of directors or compensation committee of any entity that has one or more executive officers serving on our board of directors or compensation committee.

Nominating and Corporate Governance Committee.

We anticipate that following the completion of this offering, our nominating and corporate governance committee will consist of Michael Capone, Kenneth "Chip" Virnig, and Paul Zuber. We anticipate that following the completion of this offering, Mr. Zuber will serve as the chair of our nominating and corporate governance committee. Because we will be a controlled company under the Sarbanes-Oxley Act and rules of the NYSE as of the completion of the offering, we will not be required to have a nominating and corporate governance committee composed entirely of independent directors as of the closing of this offering.

Following the completion of this offering, our nominating and corporate governance committee will, among other things, be responsible for:

- identifying, evaluating and recommending qualified nominees to serve on our board of directors;
- considering and making recommendations to our board of directors regarding the composition and chairmanship of the committees of our board of directors;
- developing and making recommendations to our board of directors regarding corporate governance guidelines and matters and periodically reviewing such guidelines and recommending any changes; and
- overseeing annual evaluations of our board of directors' performance, including committees of our board of directors and management.

EXECUTIVE COMPENSATION

Executive Compensation Overview

Historically, our executive compensation program has reflected our growth and development-oriented corporate culture. To date, the compensation of Mr. Van Siclén, our Chief Executive Officer, and our other executive officers identified in the 2019 Summary Compensation Table below, who we refer to as the Named Executive Officers, has consisted of a combination of base salary and annual incentive bonuses. Our Named Executive Officers have also been eligible to receive long-term incentive compensation in the form of profits interests. Our Named Executive Officers, like all full-time employees, are eligible to participate in our health and welfare benefit plans. As we transition from a private company to a publicly traded company, we will evaluate our compensation values and philosophy and compensation plans and arrangements as circumstances require.

2019 Summary Compensation Table

The following table summarizes the compensation awarded to, earned by, or paid to our principal executive officer and our next two most highly-compensated executive officers, our Named Executive Officers, for the fiscal year ended March 31, 2019.

Name and Principal Position	Fiscal Year	Salary (\$)	Non-Equity Incentive Plan Compensation (\$)(1)	All Other Compensation (\$)	Total (\$)
John Van Siclén, Chief Executive Officer	2019	\$555,000	\$ 555,000	\$ 22,938(2)	\$1,132,938
Kevin Burns, Chief Financial Officer	2019	\$375,000	\$ 206,250	\$ 24,717(3)	\$ 605,967
Stephen J. Pace, Senior Vice President, Worldwide Sales	2019	\$375,000	\$ 408,273(4)	\$ 26,891(5)	\$ 810,164

- (1) The amounts reported in this column, except as otherwise described below, represent bonuses paid under our Annual Short-Term Incentive Plan based on company performance during fiscal year 2019.
- (2) Amounts reported represent \$4,275 in 401(k) plan matching contributions, \$3,431 in disability insurance premiums, \$8,766 for a President's Club trip in fiscal year 2019 and \$6,466 for reimbursement of taxes related to the cost of the President's Club trip.
- (3) Amounts reported represent \$6,562 in 401(k) plan matching contributions, \$2,923 in disability insurance premiums, \$8,766 for a President's Club trip in fiscal year 2019 and \$6,466 for reimbursement of taxes related to the cost of the President's Club trip.
- (4) The amounts reported in this column for Mr. Pace includes \$295,773 earned pursuant to his sales commission plan during fiscal year 2019.
- (5) Amounts reported represent \$8,037 in 401(k) plan matching contributions, \$3,622 in disability insurance premiums, \$8,766 for a President's Club trip in fiscal year 2019 and \$6,466 for reimbursement of taxes related to the cost of the President's Club trip.

Narrative Disclosure to the 2019 Summary Compensation Table

Base Salaries

We use base salaries to recognize the experience, skills, knowledge and responsibilities required of all our employees, including our Named Executive Officers. Base salaries are reviewed annually,

Table of Contents

typically in connection with our annual performance review process, and adjusted from time to time to realign salaries with market levels after taking into account individual responsibilities, performance and experience. For the year ended March 31, 2019, the annual base salaries for each of Messrs. Van Siclen, Pace and Burns were \$555,000, \$375,000, and \$375,000, respectively.

Bonuses and Commissions

In fiscal year 2019, Mr. Pace participated in a commissions plan, which provided for a commission based bonus payment, based upon attainment of global bookings goals. Additionally, each of our Named Executive Officers participated in our Annual Short-Term Incentive Plan, pursuant to which each was eligible to receive annual bonuses based upon achievement of performance targets for fiscal year 2019. The performance criteria under our Annual Short-Term Incentive Plan for fiscal year 2019 was an adjusted EBITDA metric determined by our board of directors. The amount of commission earned by Mr. Pace and the amount of incentive compensation earned by each of our Named Executive Officers under the Annual Short-Term Incentive Plan for fiscal year 2019 is reported above in the 2019 Summary Compensation Table.

Equity Compensation

Although we do not have a formal policy with respect to the grant of equity incentive awards to our executive officers, we believe that equity grants provide our executives with a strong link to our long-term performance, create an ownership culture and help to align the interests of our executives and our stockholders. In addition, we believe that equity grants with a time-based vesting feature promote executive retention because this feature incentivizes our executive officers to remain in our employment during the vesting period. Accordingly, our board of directors periodically reviews the equity incentive compensation of our Named Executive Officers and from time to time may grant equity incentive awards to them. During the year ended March 31, 2019, we did not grant any equity incentives to our Named Executive Officers.

Executive Employment Arrangements

We initially entered into offer letters with each of the Named Executive Officers in connection with his employment with us, which set forth the terms and conditions of employment of each individual, including base salary, target annual bonus opportunity and standard employee benefit plan participation. We have entered into new employment agreements with each of Messrs. Van Siclen, Pace and Burns, which will become effective upon the effectiveness of the registration statement of which this prospectus is a part and will replace each Named Executive Officer's existing offer letters and other employment arrangements, as described below. In addition, each of our Named Executive Officers has entered into an agreement with us, which contains protections of confidential information, requires the assignment of inventions and contains other restrictive covenants.

John Van Siclen

John Van Siclen is party to an employment agreement with us that will become effective upon the effectiveness of the registration statement of which this prospectus is a part. This employment agreement has no specific term and constitutes at-will employment. Mr. Van Siclen's current annual base salary is \$575,000, which will be subject to change from time to time by our board of directors in its discretion. Mr. Van Siclen is also eligible to receive an annual bonus based upon the achievement of business metrics established by our board of directors or our compensation committee and subject to the terms of any applicable incentive compensation plan. Mr. Van Siclen's current target bonus is 100% of his base salary and is subject to review and change from time to time by our board of directors in its discretion. Mr. Van Siclen is also entitled to participate in all employee benefit plans and vacation policies in effect for our employees.

Pursuant to his employment agreement, in the event that Mr. Van Siclen's employment is terminated by us without cause, as such term is defined in his employment agreement, or if Mr. Van Siclen terminates his employment for good reason, as such term is defined in his employment agreement, and if he executes a separation and release agreement, we will be obligated to (i) pay him a cash severance payment equal to the sum of 12 months of his then-current base salary, the amount of any bonus earned in respect of the prior fiscal year that would have been paid if Mr. Van Siclen's employment had not been terminated and 100% of his target bonus for the then-current year, and (ii) continue for a period of 12 months to provide health insurance to Mr. Van Siclen as if Mr. Van Siclen had remained employed by us. If Mr. Van Siclen's employment with us is terminated by us without cause or Mr. Van Siclen terminates his employment for good reason either 3 months before or during the 12-month period after a change of control, and if he executes a separation and release agreement, we will be obligated to (i) pay him a lump-sum cash severance payment equal to the sum of 24 months of Mr. Van Siclen's then-current base salary and the amount of any bonus earned in respect of the prior fiscal year that would have been paid if his employment had not been terminated, (ii) accelerate all of his unvested equity awards as of the later of (A) the date of termination or (B) the effective date of a separation and release agreement, and (iii) continue for a period of 18 months to provide health insurance to Mr. Van Siclen as if he had remained employed by us.

Stephen J. Pace

Stephen J. Pace is party to an employment agreement with us that will become effective upon the effectiveness of the registration statement of which this prospectus is a part. This employment agreement has no specific term and constitutes at-will employment. Mr. Pace's current annual base salary is \$400,000, which will be reviewed annually and will be subject to change from time to time by our board of directors in its discretion. Mr. Pace is also eligible to receive an annual bonus based upon the achievement of business metrics established by our board of directors or our compensation committee and subject to the terms of any applicable incentive compensation plan. Mr. Pace's current target bonus is 100% of his base salary and is subject to review and change from time to time by our board of directors in its discretion. Mr. Pace is also entitled to participate in all employee benefit plans and vacation policies in effect for our employees.

Pursuant to his employment agreement, in the event that Mr. Pace's employment is terminated by us without cause, as such term is defined in his employment agreement, or if Mr. Pace terminates his employment for good reason, as such term is defined in his employment agreement, and if he executes a separation and release agreement, we will be obligated to (i) pay him a cash severance payment equal to the sum of 12 months of his then-current base salary and the amount of any bonus earned in respect of the prior fiscal year that would have been paid if Mr. Pace's employment had not been terminated, and (iii) if he elects healthcare continuation coverage under the law known as "COBRA," pay up to 12 monthly payments equal to the monthly employer contribution that we would have made to provide health insurance to Mr. Pace if he had remained employed by us. If Mr. Pace's employment with us is terminated by us without cause or Mr. Pace terminates his employment for good reason either 3 months before or during the 12-month period after a change of control, and if he executes a separation and release agreement, we will be obligated to (i) pay him a lump-sum cash severance payment equal to the sum of 18 months of his then-current base salary and the amount of any bonus earned in respect of the prior fiscal year that would have been paid if Mr. Pace's employment had not been terminated, and (ii) accelerate all of his unvested equity awards as of the later of (A) the date of termination or (B) the effective date of a separation and release agreement, and (iii) if he elects healthcare continuation coverage under the law known as "COBRA," pay up to 18 monthly payments equal to the monthly employer contribution that we would have made to provide health insurance to Mr. Pace if Mr. Pace had remained employed by us. In addition, in the event of a change in control and provided that Mr. Pace is still employed by us, 50% of Mr. Pace's unvested restricted stock outstanding as of the date of this prospectus will become vested in full.

Kevin Burns

Kevin Burns is party to an employment agreement with us that will become effective upon the effectiveness of the registration statement of which this prospectus is a part. This employment agreement has no specific term and constitutes at-will employment. Mr. Burns' current annual base salary is \$385,000, which will be reviewed annually and will be subject to change from time to time by our board of directors in its discretion. Mr. Burns is also eligible to receive an annual bonus based upon the achievement of business metrics established by our board of directors or our compensation committee and subject to the terms of any applicable incentive compensation plan. Mr. Burns's current target bonus is 60% of his base salary and is subject to review and change from time to time by our board of directors in its discretion. Mr. Burns is also entitled to participate in all employee benefit plans and vacation policies in effect for our employees.

Pursuant to his employment agreement, in the event that Mr. Burns' employment is terminated by us without cause, as such term is defined in his employment agreement, or if Mr. Burns terminates his employment for good reason, as such term is defined in his employment agreement, and if he executes a separation and release agreement, we will be obligated to (i) pay him a cash severance payment equal to the sum of 12 months of his then-current base salary and the amount of any bonus earned in respect of the prior fiscal year that would have been paid if his employment had not been terminated, and (ii) if he elects healthcare continuation coverage under the law known as "COBRA," pay up to 12 monthly payments equal to the monthly employer contribution that we would have made to provide health insurance to Mr. Burns if he had remained employed by us. If Mr. Burns' employment with us is terminated by us without cause or Mr. Burns terminates his employment for good reason either 3 months before or during the 12-month period after a change of control, and if he executes a separation and release agreement, we will be obligated to (i) pay him a lump-sum cash severance payment equal to the sum of 18 months of his then-current base salary and the amount of any bonus earned in respect of the prior fiscal year that would have been paid if his employment had not been terminated, (ii) accelerate all of his unvested equity awards as of the later of (A) the date of termination or (B) the effective date of a separation and release agreement, and (iii) if he elects healthcare continuation coverage under the law known as "COBRA," pay up to 18 monthly payments equal to the monthly employer contribution that we would have made to provide health insurance to Mr. Burns if he had remained employed by us. In addition, in the event of a change in control and provided that Mr. Burns is still employed by us, 100% of Mr. Burns' unvested restricted stock outstanding as of the date of this prospectus will become vested in full.

Outstanding Equity Awards at 2019 Fiscal Year-End

The following table reflects information regarding outstanding equity-based awards held by our Named Executive Officers as of March 31, 2019. It assumes the completion of the Spin-Off Transactions prior to the completion of this offering, and an initial public offering price of \$14.00 (the midpoint of the price range set forth on the cover page of this prospectus). See "Spin-Off Transactions."

	12/20/2016	43,750(4)	612,500	25,000(3)	350,000
Stephen J. Pace	3/1/2016	125,000(5)	1,750,000	125,000(6)	1,750,000

- (1) Represents the fair market value of shares that were unvested as of March 31, 2019. The fair market value assumes an initial public offering price of \$14.00 per share, which is the midpoint of the price range set forth on the cover page of this prospectus.
- (2) These shares vest over four years, with 25% vesting on the first anniversary of the vesting start date and the remainder vesting in 36 equal monthly installments thereafter. 150,000 shares were transferred to the Kevin C. Burns Irrevocable Non-Grantor Trust of 2018 dated December 17, 2018 on December 17, 2018. Subject to Mr. Burns' continuous service to us through a change in control (as defined in the 2019 Plan), 100% of the shares shall vest immediately prior to such change in control.
- (3) These shares shall vest on March 31, 2020 subject to the achievement of certain company performance metrics related to an adjusted EBITDA metric determined by our board of directors. Subject to Mr. Burns' continuous service to us through a change in control, 100% of the shares shall vest immediately prior to such change in control.
- (4) These shares vest over four years, with 25% vesting on the first anniversary of the vesting start date and the remainder vesting in 36 equal monthly installments thereafter. 43,750 shares were transferred to the Kevin C. Burns Irrevocable Non-Grantor Trust of 2018 dated December 17, 2018 on December 17, 2018. Subject to Mr. Burns' continuous service to us through a change in control, 100% of the shares shall vest immediately prior to such change in control.
- (5) These shares vest over four years, with 25% vesting on the first anniversary of the vesting start date and the remainder vesting in 36 equal monthly installments thereafter. Subject to Mr. Pace's continuous service to us through a change in control, 50% of the shares shall vest immediately prior to such change in control.
- (6) These shares shall vest on March 31, 2020 subject to the achievement of certain company performance metrics related to an adjusted EBITDA metric determined by our board of directors. Subject to Mr. Pace's continuous service to us through a change in control, 50% of the shares shall vest immediately prior to such change in control.

Additional Narrative Disclosure

2019 Equity Incentive Plan

In July 2019, our board of directors, upon the recommendation of the compensation committee of the board of directors, adopted our 2019 Equity Incentive Plan, or the 2019 Plan, which was subsequently approved by our stockholders. The 2019 Plan will become effective the day before the date that the registration statement of which this prospectus is a part is declared effective. The 2019 Plan will replace our Management Incentive Unit program, or the MIU Plan. In connection with the Spin-Off Transactions, outstanding awards granted under our MIU Plan will be converted into shares of common stock, restricted stock, and restricted stock units, which will be granted under our 2019 Plan. Our 2019 Plan provides flexibility to our compensation committee to use various equity-based incentive awards as compensation tools to motivate our workforce.

We have initially reserved 52,000,000 shares of our common stock, or the Initial Limit, for the issuance of awards under the 2019 Plan. The 2019 Plan provides that the number of shares reserved and available for issuance under the plan will automatically increase each April 1, beginning on April 1, 2020, by 4% of the outstanding number of shares of our common stock on the immediately preceding March 31 or such lesser number determined by our compensation committee, or the Annual Increase. This number is subject to adjustment in the event of a stock split, stock dividend or other change in our capitalization.

The shares we issue under the 2019 Plan will be authorized but unissued shares or shares that we reacquire. The shares of common stock underlying any awards that are forfeited, cancelled, held

Table of Contents

back upon exercise or settlement of an award to satisfy the exercise price or tax withholding, reacquired by us prior to vesting, satisfied without any issuance of stock, expire or are otherwise terminated (other than by exercise) under the 2019 Plan will be added back to the shares of common stock available for issuance under the 2019 Plan.

The maximum aggregate number of shares that may be issued in the form of incentive stock options shall not exceed the Initial Limit cumulatively increased on April 1, 2020 and on each April 1 thereafter by the lesser of (i) the Annual Increase for such year, (ii) 14,000,000 shares of common stock or (iii) such lesser number of shares as determined by our compensation committee. The maximum value of all awards that may be granted under the 2019 Plan to any non-employee director in any calendar year shall not exceed \$750,000.

The 2019 Plan will be administered by our compensation committee. Our compensation committee has full power to select, from among the individuals eligible for awards, the individuals to whom awards will be granted, to make any combination of awards to participants, and to determine the specific terms and conditions of each award, subject to the provisions of the 2019 Plan. Persons eligible to participate in the 2019 Plan will be those full or part-time officers, employees, non-employee directors and other key persons (including consultants) as selected from time to time by our compensation committee in its discretion.

The 2019 Plan permits the granting of both options to purchase common stock intended to qualify as incentive stock options under Section 422 of the Internal Revenue Code, or the Code, and options that do not so qualify. The option exercise price of each option will be determined by our compensation committee but may not be less than 100% of the fair market value of our common stock on the date of grant. The term of each option will be fixed by our compensation committee and may not exceed ten years from the date of grant. Our compensation committee will determine at what time or times each option may be exercised.

Our compensation committee may award stock appreciation rights subject to such conditions and restrictions as it may determine. Stock appreciation rights entitle the recipient to shares of common stock, or cash, equal to the value of the appreciation in our stock price over the exercise price. The exercise price of each stock appreciation right may not be less than 100% of the fair market value of the common stock on the date of grant.

Our compensation committee may award restricted shares of common stock and restricted stock units to participants subject to such conditions and restrictions as it may determine. These conditions and restrictions may include the achievement of certain performance goals and/or continued employment with us through a specified vesting period. Our compensation committee may also grant shares of common stock that are free from any restrictions under the 2019 Plan. Unrestricted stock may be granted to participants in recognition of past services or other valid consideration and may be issued in lieu of cash compensation due to such participant.

Our compensation committee may grant cash bonuses under the 2019 Plan to participants, subject to the achievement of certain performance goals.

The 2019 Plan provides that in the case of, and subject to, the consummation of a "change in control" as defined in the 2019 Plan, all outstanding awards may be assumed, substituted or otherwise continued by the successor entity. To the extent that the successor entity does not assume, substitute or otherwise continue such awards, then upon the effectiveness of the change in control, the 2019 Plan and all awards will automatically terminate. In the event of such termination, (i) individuals holding options and stock appreciation rights will be permitted to exercise such options and stock appreciation rights (to the extent exercisable) prior to the change in control, or (ii) we may make or provide for a

cash payment to participants holding options and stock appreciation rights equal to the difference between the per share cash consideration payable to stockholders in the change in control and the exercise price of the options or stock appreciation rights (to the extent then exercisable).

Our board of directors may amend or discontinue the 2019 Plan and our compensation committee may amend the exercise price of options and amend or cancel outstanding awards for purposes of satisfying changes in law or any other lawful purpose but no such action may adversely affect rights under an award without the holder's consent. Certain amendments to the 2019 Plan require the approval of our stockholders. No awards may be granted under the 2019 Plan after the date that is ten years from the date of stockholder approval.

2019 Employee Stock Purchase Plan

We have not decided whether or when to offer our employees the opportunity to participate in an employee stock purchase plan, in the U.S. or other countries. In July 2019, our board of directors adopted and our stockholders approved our 2019 Employee Stock Purchase Plan, or the ESPP. If and when we decide to implement and roll-out this plan, the ESPP authorizes the issuance of up to a total of 6,250,000 shares of common stock to participating employees. The ESPP provides that the number of shares reserved and available for issuance under the ESPP shall be cumulatively increased each April 1, beginning on April 1, 2020, and ending on April 1, 2029, by the lesser of (i) one percent of the outstanding number of shares of our common stock on the immediately preceding March 31, (ii) 3,500,000 shares or (iii) such lesser number of shares as determined by our compensation committee. The number of shares reserved and available for issuance under the ESPP is subject to adjustment in the event of a stock split, stock dividend or other change in our capitalization.

All employees who are employed by us or any designated subsidiary are eligible to participate in the ESPP, unless otherwise determined by our compensation committee in advance of an offering and consistent with Section 123 of the Code. Any employee who owns five percent or more of the voting power or value of our shares of common stock is not eligible to purchase shares under the ESPP.

We may make one or more offerings each year to our employees to purchase shares under the ESPP. Each eligible employee may elect to participate in any offering by submitting an enrollment form at least 15 business days before the relevant offering date. Unless otherwise determined by our compensation committee, and to the extent we decide to implement and roll-out this plan, the initial offering under the ESPP will commence upon November 15, 2019 and will end on May 14, 2020, with subsequent offering periods to begin on the first business day occurring or following each May 15 and November 15 thereafter and end on the last business day occurring on or before the following November 14 and May 14, respectively.

Each employee who is a participant in the ESPP may purchase shares by authorizing payroll deductions at a minimum of 1 percent and up to 15 percent of his or her base compensation during an offering period. Unless the participating employee has previously withdrawn from the offering, his or her accumulated payroll deductions will be used to purchase shares of common stock on the last business day of the offering period at a price equal to 85 percent of the fair market value of the common stock on the first business day or the last business day of the offering period, whichever is lower, provided that no more than a number of shares of common stock determined by dividing \$25,000 by the fair market value of the common stock on the first day of the offering may be purchased by any one employee during each offering period. Under applicable tax rules, an employee may purchase no more than \$25,000 worth of shares, valued at the start of the purchase period, under the ESPP in any calendar year.

Table of Contents

The accumulated payroll deductions of any employee who is not a participant on the last day of an offering period will be refunded. An employee's rights under the ESPP terminate upon voluntary withdrawal from the plan or when the employee ceases employment with us for any reason.

The ESPP may be terminated or amended by our board of directors at any time. An amendment that increases the number of shares of common stock that are authorized under the ESPP and certain other amendments require the approval of our stockholders. The compensation committee may adopt subplans under the ESPP for employees of our non-U.S. subsidiaries who may participate in the ESPP and may permit such employees to participate in the ESPP on different terms, to the extent permitted by applicable law.

Annual Short-Term Incentive Plan

In July 2019, our board of directors adopted the Annual Short-Term Incentive Plan, or the Bonus Plan, which is administered by our compensation committee. The Bonus Plan provides for annual cash bonuses to selected employees of the Company and our subsidiaries, based upon achievement of certain performance measures, including, but not limited to, contribution targets and earnings before interest, taxes, depreciation and/or amortization ("EBITDA").

The amount of the bonus pool under the Bonus Plan in any fiscal year will be determined by the compensation committee, in its sole discretion, based on our achievement of EBITDA for such year as compared to certain EBITDA targets established by the compensation committee. For achievement of 90% of the EBITDA target, 50% of the target bonus pool will be funded, for achievement of 100% of the EBITDA target, 100% of the bonus pool will be funded, and for achievement of 120% or greater of EBITDA target, 150% of the target bonus pool will be funded, with straight-line interpolation between each point. No bonus pool will be created and no payments will be made to participants unless at least 90% of the EBITDA target for such fiscal year is met. In the event no bonus pool is created, our compensation committee, in its discretion, may establish an alternative bonus program.

Each employee who is selected to participate in the Bonus Plan will have a target bonus opportunity set for each fiscal year. A participant's target bonus may be based on achievement of one or more performance measures in any fiscal year, as determined in the compensation committee's discretion, based on each participant's performance and in consultation with our senior management. Achievement of any non-EBITDA performance measures for a fiscal year will be subject to 90% achievement of the EBITDA target for such year. Payment for any fiscal year shall be made within six calendar months following the fiscal year after audited financial statements are approved. To be eligible for a bonus, participants must be employed by us or our subsidiaries as of December 1 of a fiscal year and must remain continuously employed through the date of payment, with any bonus prorated to reflect any partial year of employment. The compensation committee may amend or terminate the Bonus Plan at any time.

Retirement Plans

We maintain a tax-qualified 401(k) retirement plan for eligible employees in the United States to save for retirement on a tax-advantaged basis. Under our 401(k) plan, employees may elect to defer up to 90% of their eligible compensation subject to applicable annual limits set pursuant to the Internal Revenue Code. Our 401(k) plan permits participants to make both pre-tax and certain after-tax (Roth) deferral contributions. The retirement plan is intended to qualify under Section 401(a) of the Internal Revenue Code. We match 50% of employees' contributions to the 401(k) Plan up to 3% of compensation. Employees are 100% vested in their contributions to the 401(k) plan.

Indemnification of Officers and Directors

We have agreed to indemnify our directors and executive officers in certain circumstances. See “Certain Relationships and Related Party Transactions—Limitation of Liability and Indemnification of Officers and Directors.”

Non-Employee Director Compensation

Other than as set forth in the table and described more fully below, we did not pay any compensation or make any equity awards or non-equity awards to any of our non-employee directors during fiscal year 2019. Directors may be reimbursed for travel and other expenses directly related to their activities as directors. Directors who also serve as employees receive no additional compensation for their service as directors. During fiscal year 2019, Mr. Van Siclen, our Chief Executive Officer, was a member of our board of directors, as well as an employee, and received no additional compensation for his services as a director. See the section titled “Executive Compensation” for more information about Mr. Van Siclen’s compensation for fiscal year 2019.

Historically our non-employee directors have been granted profits interests in connection with their appointment to the board (vesting in accordance with our standard vesting schedule of 25% on the first anniversary of grant and in substantially equal monthly increments thereafter through the fourth anniversary of grant). No equity was granted to any of our non-employee directors in fiscal year 2019.

In addition, our non-employee directors receive an annual cash retainer payable quarterly, reflected below. In fiscal year 2019, a majority of our non-employee directors represented Thoma Bravo. In certain cases, disclosed below, directors representing Thoma Bravo were not entitled to and did not receive compensation (either equity or cash).

Name(1)	Fees Earned or Paid in Cash (\$)	All Other Compensation (\$)	Total (\$)
Marcel Bernard(2)(3)(4)	83,333	0	83,333
Seth Boro	0	0	0
Orlando Bravo(4)	0	0	0
James K. Lines(2)(3)	83,333	15,428(5)	98,761
Kenneth “Chip” Virnig	0	0	0
Paul Zuber(2)(3)	25,000	0	25,000

- (1) Messrs. Boro, Bravo and Virnig are included in the table but receive no compensation for their services. All three are representatives of the Thoma Bravo Funds. Messrs. Bernard, Lines and Zuber are Thoma Bravo operating partners. Mr. Bernard, Mr. Lines, and Mr. Zuber are our independent directors.
- (2) In connection with the Spin-Off Transactions, outstanding equity awards will be converted into shares of common stock, restricted stock awards and/or restricted stock units, which will be granted under our 2019 Plan. Assuming the completion of the Spin-Off Transactions occurred on March 31, 2019, Messrs. Bernard, Lines and Zuber held 401,606, 318,335, and 100,402 shares of restricted stock, respectively, as of March 31, 2019.
- (3) Messrs. Bernard, Lines and Zuber are not employees of Thoma Bravo, its affiliates or the Thoma Bravo Funds. Messrs. Bernard, Lines and Zuber are considered independent contractors of Thoma Bravo and may have business or investment activities unrelated to Thoma Bravo.
- (4) Messrs. Bernard and Bravo resigned from our board in July 2019.
- (5) This amount includes \$15,428 for healthcare benefits.

Non-Employee Director Compensation Policy

In connection with this offering, our board of directors plans to adopt a Non-Employee Director Compensation Policy. The policy is designed to ensure that the compensation of non-employee directors aligns the directors' interests with the long-term interests of the stockholders, that the structure of the compensation is simple, transparent and easy for stockholders to understand and that our directors are fairly compensated. Employee directors will not receive additional compensation for their services as directors.

Our policy provides that each non-employee director as of and immediately prior to the effectiveness of the policy will be granted a restricted stock unit award having a value of \$200,000 (the "IPO Grant"). Such directors shall not be eligible to receive an Initial Grant as described further below. The IPO Grant will vest in full on the earlier of (i) the first anniversary of the grant date or (ii) our next annual meeting of stockholders, subject to continued service as a director through the applicable vesting date. Under the policy, upon initial election or appointment to the board of directors, including in connection with this offering, new non-employee directors shall receive a restricted stock unit award with a value of \$400,000 (which may be pro-rated at the discretion of the board of directors), 25% of which will vest upon the one year anniversary of the grant date and the balance will vest ratably over twelve equal quarterly installments (the "Initial Grant"). In each subsequent year of a non-employee director's tenure, the non-employee director will receive a restricted stock unit award with a value of \$200,000, which will vest in full upon the earlier to occur of the first anniversary of the grant date or the date of the next annual meeting of stockholders. Vesting of any equity award will cease if a director resigns from our board of directors or otherwise ceases to serve as a director, unless the board of directors determines that circumstances warrant continuation of vesting. In addition, all such awards are subject to full accelerated vesting upon the change in control of our Company (as defined in the policy).

In addition, each non-employee director is paid an annual retainer of \$35,000 for their services. Such cash retainers are paid quarterly, and may be pro-rated based on the number of actual days served by the director during such calendar quarter.

Committee members also receive additional annual retainers. These additional payments for service on a committee are due to the workload and broad-based responsibilities of the committees. These committee retainers are as follows:

Committee	Member Annual Fee	Chairman Additional Annual Fee
Audit Committee	\$10,000	\$ 20,000
Compensation Committee	\$ 7,500	\$ 15,000
Nominating and Corporate Governance Committee	\$ 5,000	\$ 10,000

Rule 10b5-1 Sales Plans

Our directors and executive officers may adopt written plans, known as Rule 10b5-1 plans, in which they will contract with a broker to buy or sell shares of our common stock on a periodic basis. Under a Rule 10b5-1 plan, a broker executes trades pursuant to parameters established by the director or executive officer when entering into the plan, without further direction from them. The director or executive officer may amend a Rule 10b5-1 plan in some circumstances and may terminate a plan at any time. Our directors and executive officers also may buy or sell additional shares outside of a Rule 10b5-1 plan when they are not in possession of material nonpublic information subject to compliance with the terms of our insider trading policy. Prior to 180 days after the date of this offering, subject to early termination, the sale of any shares under Rule 10b5-1 plan would be subject to the lock-up agreement that the director or executive officer has entered into with the underwriters.

Equity Grants in Connection with this Offering

We intend to grant equity awards to certain employees, including our Named Executive Officers and, as described above in “—Non-Employee Director Compensation Policy”, our non-employee directors immediately following the effectiveness of the registration statement of which this prospectus is a part. The equity awards to our Named Executive Officers will be comprised of restricted stock unit awards and/or stock options and will be granted under our 2019 Plan. The restricted stock units will vest and settle over four years, with 25% vesting on the one-year anniversary of the effectiveness of the registration statement of which this prospectus is a part and the remainder vesting in 12 equal quarterly installments thereafter. The stock options will have an exercise price equal to the initial public offering price set forth on the cover page of this prospectus and will vest and become exercisable as follows: 25% of each award will vest on the first anniversary of the date of grant and then 1/12th of the balance will vest on each quarterly anniversary of the date of grant thereafter, such that 100% of the award will be vested on the fourth anniversary of the date of grant. We expect to grant options to purchase an aggregate of 8,201,800 shares of common stock at exercise prices equal to the initial public offering price, with Messrs. Van Siclen, Burns and Pace being granted options to purchase 632,000, 339,000 and 289,000 shares of our common stock, respectively, assuming an initial public offering price of \$14.00 per share (the midpoint of the estimated price range set forth on the cover page of this prospectus). We expect to grant an aggregate of 2,703,486 restricted stock units (including awards granted to our non-employee directors), with Messrs. Van Siclen, Burns and Pace receiving 35,000, 51,000 and 43,000 restricted stock units, respectively, assuming an initial public offering price of \$14.00 per share (the midpoint of the estimated price range set forth on the cover page of this prospectus).

CERTAIN RELATIONSHIPS AND RELATED PARTY TRANSACTIONS

In addition to the director and executive compensation arrangements, including employment, termination of employment and change in control arrangements, discussed in the sections titled "Management" and "Executive Compensation," the following is a description of each transaction since April 1, 2016, and each currently proposed transaction, in which:

- we have been or are to be a participant;
- the amount involved exceeded or is expected to exceed \$120,000; and
- any of our directors, executive officers or holders of more than 5% of our outstanding capital stock, or any immediate family member of, or person sharing the household with, any of these individuals or entities, had or will have a direct or indirect material interest.

Prior to this offering, Dynatrace LLC operated as a wholly owned indirect subsidiary of Compuware Parent, LLC, or Parent. Prior to the completion of this offering and in connection with the Spin-Off Transactions, we plan to enter into an agreement with Compuware Software Group LLC, or Compuware, and certain of its subsidiaries, including Compuware Corporation, relating to our relationship with Compuware after this offering. Other than as described below, we do not currently expect to enter into any additional agreements or other transactions with Compuware, Dynatrace Holdings Corp., or DHC, SIGOS LLC, or SIGOS, or other related entities outside the ordinary course, or with any of our directors, officers or other affiliates.

Relationships with Compuware

Services Provided to Compuware and Related Entities

In the ordinary course of our business, we have provided services to Compuware, DHC and SIGOS, including tax, treasury, equity administration, accounting, finance, reporting, human resources and legal. The cost and fees associated with these services are allocated among the entities based on the co-invest on a basis that we consider to be a reasonable reflection of the use of services provided or the benefit received. Each entity is responsible for its portion of the fees and reimburses us accordingly. Our historical financial statements include reimbursements to us by Compuware, DHC and related entities related to these services. These reimbursements totaled \$1.2 million, \$0.8 million, and \$0.5 million for the years ended March 31, 2017, 2018, and 2019, respectively. We do not anticipate providing these services after the completion of this offering and the Spin-Off Transactions.

Office Leases

We sublease one office in the United Kingdom and one office in France pursuant to sublease agreements with Compuware. The sublease payments for the office in the United Kingdom were \$0.1 million for each of the years ended March 31, 2017, 2018 and 2019. The sublease payments for the office in France were \$0.3 million for each of the years ended March 31, 2017, 2018 and 2019. We do not intend to renew the sublease agreements with Compuware upon expiration of the sublease for the United Kingdom and France offices in March 2027 and May 2021, respectively.

Benefit Plans

Through December 31, 2017, we participated in Compuware's benefit plans. Our share of compensation and benefit liabilities were paid directly by us to the third-party provider. Through December 31, 2018, we participated in Compuware's 401(k) retirement plan. Employer matching contributions were paid directly by us to the third-party provider. These payments totaled \$1.5 million,

Table of Contents

\$1.4 million, and \$1.9 million for the years ended March 31, 2017, 2018 and 2019, respectively. Since December 31, 2018, our benefit plans have been independent of and separate from Compuware's benefit plans.

Compuware Debt

We were a guarantor of a \$1.8 billion debt facility, or the Debt Facility, entered into by Compuware on December 15, 2014, with Jefferies Finance, LLC, which was extinguished in August 2018. The Debt Facility was entered into to facilitate the purchase of Compuware Parent LLC by Thoma Bravo, LLC and was set to mature on December 15, 2021. If Compuware had defaulted on this obligation during the life of the loan, the maximum potential future payments by the guarantors would have been \$1.6 billion. For the years ended March 31, 2017, 2018 and 2019, we paid \$78.9 million, \$88.0 million and \$1.15 billion, respectively, to related parties to pay principal and interest amounts due under the Debt Facility.

Debt Restructuring

In the year ending March 31, 2019, Compuware entered into a series of transactions involving DHC, SIGOS and us, as well as other international subsidiaries within the group, to restructure its debt and to settle amounts outstanding between the international subsidiaries of Compuware and us. The restructuring was completed in November 2018.

Spin-Off Transactions

Prior to the effectiveness of the registration statement of which this prospectus is a part, we and certain of our subsidiaries, Compuware and certain of its subsidiaries, Thoma Bravo, the Thoma Bravo Funds and certain other affiliated entities will enter into a Master Structuring Agreement, a Tax Matters Agreement and other ancillary agreements to give effect to the Spin-Off Transactions and other related restructuring transactions. See "Spin-Off Transactions."

Other

We transferred \$13.5 million, \$3.9 million, and \$0.8 million for the years ended March 31, 2017, 2018, and 2019, respectively, to settle obligations with affiliated companies. We also had receivables from Thoma Bravo affiliates of \$0.6 million for the year ended March 31, 2019. In addition, we transferred assets to another company under common control for \$2.3 million in the year ended March 31, 2017.

Advisory Services Agreements

In December 2014, Compuware entered into two separate advisory services agreements, or the advisory services agreements, with Thoma Bravo and an affiliated entity. We paid Thoma Bravo and the affiliated entity consulting fees under the Consulting Agreements totaling \$2.8 million, \$4.9 million, and \$4.9 million for the years ended March 31, 2017, 2018 and 2019, respectively. We are also obligated to reimburse Thoma Bravo and the affiliated entity for reasonable legal, accounting, travel expenses, healthcare, and other fees and expenses incurred by Thoma Bravo and the affiliated entity in rendering the services under the advisory services agreements, including without limitation fees paid to certain of our directors. We paid Thoma Bravo and the affiliated entity \$0.2 million, \$0.1 million, and \$0.1 million for the years ended March 31, 2017, 2018 and 2019, respectively. We paid such directors \$0.3 million for each of the years ended March 31, 2017, 2018 and 2019. The advisory services agreements will terminate upon the completion of this offering.

Employment Agreements

We have entered into employment agreements with our executive officers. For more information regarding the agreements with our Named Executive Officers, see the section of the prospectus captioned "Executive Compensation."

Registration Rights

Prior to the completion of this offering, we will enter into a registration rights agreement, or the Registration Rights Agreement, with the Thoma Bravo Funds and certain other holders of our capital stock. Pursuant to the Registration Rights Agreement, we will agree to pay all registration expenses (other than underwriting discounts and commissions and subject to certain limitations set forth therein) of the holders of the shares registered pursuant to the registrations described below. The registration rights will be subject to certain conditions and limitations, including the right of the underwriters to limit the number of shares to be included in an underwritten offering and our right to delay or withdraw a registration statement under certain circumstances.

Pursuant to the Registration Rights Agreement, we will agree to not publicly sell or distribute any securities during the seven days prior to and the 180 days after the effective date of any underwritten registration effected pursuant to the registrations described below (except as part of such underwritten registration or pursuant to registrations on Form S-4, Form S-8 or any successor form). In addition, in connection with this offering, we expect that each party to the Registration Rights Agreement will agree not to sell or otherwise dispose of any securities without the prior written consent of the underwriters for a period of 180 days after the date of this prospectus or 90 days following the date of the final prospectus for such underwritten public offering other than our initial public offering pursuant to this prospectus, subject to certain terms and conditions and early release of certain holders in specified circumstances. See the section titled "Underwriting" for additional information regarding such restrictions.

Demand Registration Rights

Pursuant to the Registration Rights Agreement, the holders of a majority of the outstanding Investor Registrable Securities (as defined therein) (the "Majority Holders") will be entitled to request an unlimited number of Long-Form Registrations (as defined therein) and an unlimited number of Short-Form Registrations (as defined therein). Additionally, for so long as a Shelf Registration Statement (as defined therein) is and remains effective, the Majority Holders will have the right at any or from time to time to elect to sell their respective Shelf Registrable Securities (as defined therein) pursuant to a Shelf Offering (as defined therein), and the Majority Holders may request to engage in an Underwritten Block Trade (as defined therein) off of a Shelf Registration Statement. The other parties to the Registration Rights Agreement may include their Registrable Securities in a Long-Form Registration, Short-Form Registration or Shelf Offering. With the consent of the Majority Holders, the other parties to the Registration Rights Agreement may include their Registrable Securities in an Underwritten Block Trade.

Piggyback Registration Rights

If at any time we propose to register the offer and sale of shares of our common stock under the Securities Act (other than in this offering, or a registration on Form S-4, Form S-8 or any successor form, or a registration of securities solely relating to an offering and sale to our employees, directors or consultants pursuant to any employee equity plan or other employee benefit plan arrangement, or a registration of non-convertible debt securities) then we must notify the holders of Registrable Securities of such proposal to allow them to include a specified number of their shares of our common stock in such registration, subject to certain marketing and other limitations.

Limitation of Liability and Indemnification of Officers and Directors

Our charter will contain provisions that limit the liability of our directors for monetary damages to the fullest extent permitted by Delaware law. Consequently, our directors will not be personally liable to us or our stockholders for monetary damages for any breach of fiduciary duties as directors, except liability for the following:

- any breach of their duty of loyalty to our company or our stockholders;
- any act or omission not in good faith or that involves intentional misconduct or a knowing violation of law;
- unlawful payments of dividends or unlawful stock repurchases or redemptions as provided in Section 174 of the Delaware General Corporation Law, or DGCL; or
- any transaction from which they derived an improper personal benefit.

Any amendment to, or repeal of, these provisions will not eliminate or reduce the effect of these provisions in respect of any act, omission or claim that occurred or arose prior to that amendment or repeal. If the DGCL is amended to provide for further limitations on the personal liability of directors of corporations, then the personal liability of our directors will be further limited to the greatest extent permitted by the DGCL.

In addition, our bylaws will provide that we will indemnify, to the fullest extent permitted by law, any person who is or was a party or is threatened to be made a party to any action, suit or proceeding by reason of the fact that he or she is or was one of our directors or officers or is or was serving at our request as a director or officer of another corporation, partnership, joint venture, trust or other enterprise. Our bylaws will provide that we may indemnify to the fullest extent permitted by law any person who is or was a party or is threatened to be made a party to any action, suit or proceeding by reason of the fact that he or she is or was one of our employees or agents or is or was serving at our request as an employee or agent of another corporation, partnership, joint venture, trust or other enterprise. Our bylaws will also provide that we must advance expenses incurred by or on behalf of a director or executive officer in advance of the final disposition of any action or proceeding, subject to limited exceptions.

Further, we have entered into or will enter into indemnification agreements with each of our directors and executive officers that may be broader than the specific indemnification provisions contained in the DGCL. These indemnification agreements require us, among other things, to indemnify our directors and executive officers against liabilities that may arise by reason of their status or service. These indemnification agreements also require us to advance all expenses incurred by the directors and executive officers in investigating or defending any such action, suit or proceeding. We believe that these agreements are necessary to attract and retain qualified individuals to serve as directors and executive officers.

The limitation of liability and indemnification provisions that will be included in our charter and bylaws and in indemnification agreements that we have entered into or will enter into with our directors and executive officers may discourage stockholders from bringing a lawsuit against our directors and executive officers for breach of their fiduciary duties. They may also reduce the likelihood of derivative litigation against our directors and executive officers, even though an action, if successful, might benefit us and other stockholders. Further, a stockholder's investment may be adversely affected to the extent that we pay the costs of settlement and damage awards against directors and executive officers as required by these indemnification provisions. At present, we are not aware of any pending litigation or proceeding involving any person who is or was one of our directors, officers, employees or other

Table of Contents

agents or is or was serving at our request as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, for which indemnification is sought, and we are not aware of any threatened litigation that may result in claims for indemnification.

We have obtained or will obtain insurance policies under which, subject to the limitations of the policies, coverage is provided to our directors and executive officers against loss arising from claims made by reason of breach of fiduciary duty or other wrongful acts as a director or executive officer, including claims relating to public securities matters, and to us with respect to payments that may be made by us to these directors and executive officers pursuant to our indemnification obligations or otherwise as a matter of law.

Certain of our non-employee directors may, through their relationships with their employers, be insured and/or indemnified against certain liabilities incurred in their capacity as members of our board of directors.

The underwriting agreement provides for indemnification by the underwriters of us and our officers and directors for certain liabilities arising under the Securities Act or otherwise.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, executive officers or persons controlling our company pursuant to the foregoing provisions, we have been informed that, in the opinion of the SEC, such indemnification is against public policy as expressed in the Securities Act and is therefore unenforceable.

Policies and Procedures for Related Party Transactions

Our board of directors will adopt a formal written policy providing that our audit committee will be responsible for reviewing "related party transactions," which are transactions, arrangements or relationships (or any series of similar transactions, arrangements or relationships), to which we are a party, in which the aggregate amount involved exceeds or may be expected to exceed \$120,000 and in which a related person has, had or will have a direct or indirect material interest. For purposes of this policy, a related person is defined as a director, executive officer, nominee for director or greater than 5% beneficial owner of our capital stock, in each case since the beginning of the most recently completed year, and any of their immediate family members. In determining whether to approve or ratify any such transaction, our audit committee will take into account, among other factors it deems appropriate, (i) whether the transaction is on terms no less favorable than terms generally available to unaffiliated third parties under the same or similar circumstances and (ii) the extent of the related party's interest in the transaction.

SPIN-OFF TRANSACTIONS

Prior to this offering, Compuware Parent, LLC, or Parent, through its wholly owned indirect subsidiary Dynatrace Holding Corp., or DHC, owned and operated three separate and distinct businesses through three indirect subsidiaries: (i) Dynatrace LLC, the principal operating company of our business, (ii) Compuware Software Group LLC, or Compuware, and (iii) SIGOS LLC, or SIGOS. Dynatrace Holdings LLC is a direct and indirect equityholder of Parent that elected to be treated as a corporation for U.S. federal income tax purposes and will, after the completion of the transactions described below, convert into a Delaware corporation with the name Dynatrace, Inc. and be the issuer of the shares offered pursuant to this prospectus.

In June 2019, DHC, through a series of transactions, distributed to Parent, and Parent spun-off and distributed to certain of its equityholders (including the Thoma Bravo Funds), all of the equity interests of SIGOS (this transaction is referred to as the "SIGOS Spin-Off"). In connection with the SIGOS Spin-Off, all outstanding intercompany receivables and payables between SIGOS or its subsidiaries, on the one hand, and Dynatrace, Compuware or their respective subsidiaries, on the other hand, were extinguished.

Prior to the effectiveness of the registration statement of which this prospectus is a part, Parent, DHC, Compuware, we, and the other direct and indirect equityholders of Parent will effect the following transactions which will result in (i) the spin-off of Compuware as a separate company to the equityholders of Parent and (ii) Dynatrace, Inc. becoming the ultimate parent company of Dynatrace LLC.

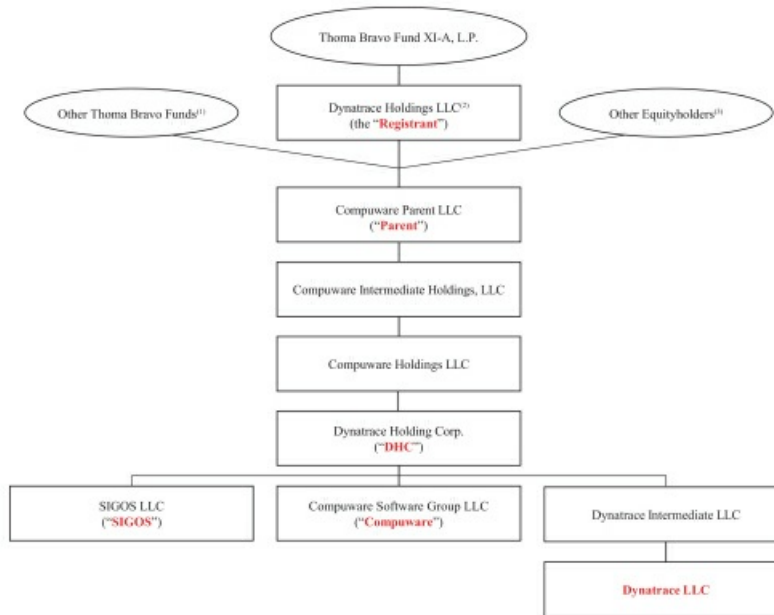

- All of the equityholders of Parent (including the Thoma Bravo Funds) will, through a series of transactions, receive shares of capital stock of Dynatrace Holdings LLC (or, in the case of Dynatrace employees, directors and other service providers who hold equity awards in Parent, the right to receive a new equity award under our 2019 Equity Incentive Plan that is equivalent in value to such award in Parent) in exchange for their equity interests and/or incentive equity awards of Parent, after which Parent will merge with and into DHC, with DHC surviving the merger;
- DHC will, through a series of transactions, distribute to Dynatrace Holdings LLC, and Dynatrace Holdings LLC will spin-off and distribute to its equityholders (including the Thoma Bravo Funds), all of the equity interests of Compuware (this transaction is referred to as the "Compuware Spin-Off");
- Compuware will distribute to us an amount equal to \$265.0 million, which represents \$265.0 million of the estimated \$275.0 million tax payable by us in connection with the Compuware Spin-Off, and all outstanding intercompany receivables and payables between Dynatrace or its subsidiaries, on the one hand, or Compuware and its subsidiaries, on the other hand, will be extinguished; and
- Dynatrace Holdings LLC will convert into a Delaware corporation with the name of Dynatrace, Inc., and the unit holders of Dynatrace Holdings LLC will become holders of shares of common stock of Dynatrace, Inc.

Estimated corporate-level U.S. federal, state and local taxes of approximately \$275.0 million (based on valuation estimates as of March 31, 2019) will be payable by us in connection with the Compuware Spin-Off. Compuware has agreed to distribute \$265.0 million to us concurrently with the Compuware Spin-Off and prior to the closing of this offering, and we have agreed to promptly remit such amount to the applicable taxing authorities. However, our actual tax liability relating to the Compuware Spin-Off will not be determined until we complete our applicable tax returns with respect to the taxable period that includes the Compuware Spin-Off in connection with the estimated tax liability.

[Table of Contents](#)

We will be solely responsible for any amount of taxes owed in excess of the amount we receive from Compuware prior to this offering. We do not expect to incur any material tax liabilities in connection with the SIGOS Spin-Off because we estimate that the fair market value of the SIGOS assets as of the date of the SIGOS Spin-Off was materially similar to the adjusted tax basis in such assets. See “Risk Factors—Risks Related to Our Business—The Compuware Spin-Off and the SIGOS Spin-Off are taxable transactions for us, and we will be subject to tax liabilities in connection with such transactions.”

The following diagram shows our organizational structure immediately prior to giving effect to the Spin-Off Transactions.

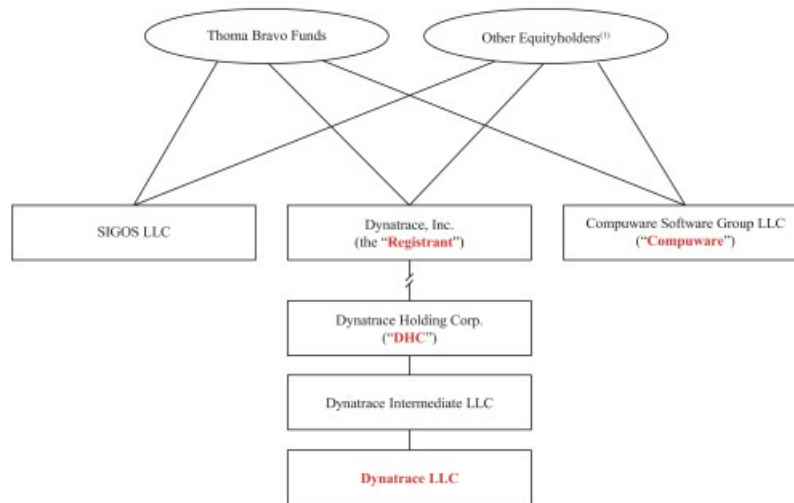

- (1) Includes special purpose investment entities wholly-owned by certain Thoma Bravo Funds.
- (2) Dynatrace Holdings LLC will convert to a corporation and be renamed “Dynatrace, Inc.” immediately prior to the completion of this offering.
- (3) Includes employee equityholders and other equityholders who invested alongside the Thoma Bravo Funds.

Following the completion of the Spin-Off Transactions and prior to the closing of this offering, (i) the Thoma Bravo Funds will own approximately 80.8% of Dynatrace, Inc.’s issued and outstanding shares of common stock, (ii) DHC will be a wholly owned indirect subsidiary of Dynatrace, Inc. and (iii) Dynatrace LLC will be a wholly owned indirect subsidiary of DHC. Dynatrace, Inc. will be the ultimate parent company of Dynatrace LLC and will have no material assets or operations other than its direct and indirect ownership interests of its subsidiaries, including Dynatrace LLC. Additionally, Dynatrace, Inc. will have several wholly owned direct subsidiaries that are legacies from the corporate structure that existed prior to this offering. Those entities will have no material assets or operations other than their ownership of a portion of the outstanding shares of DHC. See “Description of Capital Stock” for additional information regarding the terms of our amended and restated certificate of incorporation and amended and restated bylaws that will be in effect upon the completion of this offering.

Table of Contents

The following diagram shows our organizational structure, and the ownership of Compuware and SIGOS, after giving effect to the Spin-Off Transactions.

(1) Includes employee equityholders and other equityholders who invested alongside the Thoma Bravo Funds.

Master Structuring Agreement

Prior to the effectiveness of the registration statement of which this prospectus is a part, we and certain of our subsidiaries, Compuware and certain of its subsidiaries, Thoma Bravo, the Thoma Bravo Funds and certain other affiliated entities will enter into a Master Structuring Agreement, or the Structuring Agreement, and other ancillary agreements to give effect to the Spin-Off Transactions and other related transactions. In addition, the Structuring Agreement will provide that, substantially concurrently with the Compuware Spin-Off, Compuware will pay \$265.0 million to us, which amount represents \$265.0 million of the approximately \$275.0 million tax liability expected to be incurred as a result of the Compuware Spin-Off, or the Estimated Spin Tax Liability. Of this estimated tax liability, we expect to pay \$265.0 million to the applicable taxing authorities during the three months ending September 30, 2019, and the balance will be due by no later than March 2020. We will be solely responsible for any amount of taxes owed in excess of the amount we receive from Compuware prior to this offering. See "Risk Factors—Risks Related to Our Common Stock and This Offering—The Compuware Spin-Off and the SIGOS Spin-Off are taxable transactions for DHC, and DHC could be responsible for a material amount of taxes."

A copy of the Structuring Agreement is included as an exhibit to the registration statement of which this prospectus is a part and is incorporated in this prospectus by reference.

Tax Matters Agreement

In connection with the Compuware Spin-Off, we and Compuware will enter into a Tax Matters Agreement, or the Tax Matters Agreement, which governs the respective rights, responsibilities and obligations of us and Compuware with respect to handling and allocating taxes, tax attributes, tax returns, tax contests and certain other related tax matters.

Table of Contents

The Tax Matters Agreement will allocate responsibility for the preparation and filing of certain tax returns (and the payment of taxes reflected thereon). We will be responsible for preparing and filing all tax returns that include (i) only us (or our consolidated subsidiaries) or (ii) both us (or our consolidated subsidiaries) and Compuware (or its consolidated subsidiaries), and for controlling any relevant audits with respect to such tax returns. Compuware will be responsible for preparing and filing all tax returns that include only Compuware (or its consolidated subsidiaries) and for controlling any relevant audits of such tax returns. Where we or Compuware has an interest in a tax return or audit for which we or Compuware, as applicable, is not primarily responsible, the interested party is generally entitled to review the relevant tax return and/or participate in the relevant audit.

Each of us and Compuware will be responsible for the payment of taxes shown on the tax returns prepared by such party, and there will be generally no reimbursement from any party to another party. However, the Tax Matters Agreement does require Compuware to reimburse us for any fiscal year 2020 taxes (other than any taxes attributable to the Compuware Spin-Off) paid by us that are attributable to Compuware (or its consolidated subsidiaries) to the extent that Compuware did not already reimburse us for such taxes prior to the Compuware Spin-Off. However, in the event that Compuware has made payments to us with respect to fiscal year 2020 taxes in excess of the actual taxes attributable to Compuware (or its consolidated subsidiaries) (other than any taxes attributable to the Compuware Spin-Off), we will be required under the Tax Matters Agreement to remit any excess payments to Compuware. Any tax refunds received by any party that relate to taxes for a tax period ending on or prior to the date of the Compuware Spin-Off will generally be allocated in the same manner as the underlying tax in accordance with the first sentence of this paragraph. We will be responsible for any corporate income tax arising as a result of any gain recognized from the Compuware Spin-Off that are in excess of amounts paid to us by Compuware prior to the Compuware Spin-Off.

The party responsible for preparing any tax return will be generally responsible for all of the costs and expenses associated with preparing such tax return. Each party will agree to cooperate with the other party in connection with preparing and filing tax returns covered by the Tax Matters Agreement. In particular, this includes, among other things, our cooperation with respect to the preparation and filing of tax returns that include only Compuware (or its consolidated subsidiaries) for a specified period following the Compuware Spin-Off.

Each of us and Compuware will agree to indemnify the other party for any taxes or other amounts for which that indemnifying party is responsible under the agreement, as well as for any taxes or other losses attributable to a breach of any representation, covenant or obligation of the indemnifying party under the Tax Matters Agreement.

A copy of the Tax Matters Agreement is included as an exhibit to the registration statement of which this prospectus is a part and is incorporated in this prospectus by reference.

PRINCIPAL AND SELLING STOCKHOLDERS

The following table sets forth certain information with respect to the beneficial ownership of our common stock as of June 30, 2019 that, after giving effect to the completion of the Spin-Off Transactions and assuming an initial public offering price of \$14.00 per share (the midpoint of the estimated price range set forth on the cover of this prospectus), will be owned by:

- each of our Named Executive Officers;
- each of our directors;
- all of our current directors and executive officers as a group;
- each of the selling stockholders; and
- each person known by us to be the beneficial owner of more than 5% of our common stock.

We have determined beneficial ownership in accordance with the rules of the SEC, and thus it represents sole or shared voting or investment power with respect to our securities. Unless otherwise indicated below, to our knowledge, the persons and entities named in the table have sole voting and sole investment power with respect to all shares that they beneficially own, subject to community property laws where applicable. The information does not necessarily indicate beneficial ownership for any other purpose, including for purposes of Sections 13(d) and 13(g) of the Securities Act.

We have based percentage ownership of our common stock before this offering on 247,463,124 shares of our common stock outstanding as of June 30, 2019, after giving effect to the completion of the Spin-Off Transactions and assuming an initial public offering price of \$14.00 per share (the midpoint of the estimated price range set forth on the cover page of this prospectus). We have based our calculation of the percentage of beneficial ownership after this offering on 281,463,124 shares of our common stock outstanding immediately after the completion of this offering, assuming that the underwriters do not exercise their option to purchase up to an additional 4,871,138 shares of our common stock from us and the selling stockholders. We have deemed shares of our common stock subject to stock options that are currently exercisable or exercisable within 60 days of June 30, 2019 and our restricted stock units that have vested or will vest within 60 days of June 30, 2019 to be outstanding and to be beneficially owned by the person holding the stock option or the restricted stock unit for the purpose of computing the percentage ownership of that person.

[Table of Contents](#)

For information regarding material transactions between us and certain of the selling stockholders, see the section titled “Certain Relationships and Related Party Transactions.”

Unless otherwise indicated, the address of each beneficial owner listed in the table below is c/o Dynatrace LLC, 1601 Trapelo Road, Suite 116, Waltham, MA 02451.

("TB Partners XI") is the general partner of each of TB Fund XI, TB Fund XI-A and TB Exec Fund. Thoma Bravo, LLC is the general partner of each of TB Partners X and TB Partners XI. By virtue of the relationships described in this footnote, Thoma Bravo, LLC may be deemed to exercise voting and dispositive power with respect to the shares held directly by TB Fund X, TB Fund X-A, TB Fund XI, TB Fund XI-A, TB Exec Fund, TB SOF and TB SOF AIV. The principal business address of the entities identified herein is c/o Thoma Bravo, LLC, 150 North Riverside Plaza, Suite 2800, Chicago, Illinois 60606.
- (5) Consists of selling stockholders not otherwise listed in this table who within the groups indicated collectively own less than 1% of our common stock. Includes the number of shares that such selling stockholders have the right to acquire pursuant to equity awards that may be exercised within 60 days of June 30, 2019.

DESCRIPTION OF INDEBTEDNESS

The following is a summary of certain of our indebtedness that is currently outstanding. This summary does not purport to be complete and is qualified by reference to the agreements and related documents referred to herein, copies of which have been filed as exhibits to the registration statement of which this prospectus is a part.

First Lien Credit Facilities

General

On August 23, 2018, or the Closing Date, we entered into a Senior Secured First Lien Credit Agreement with a syndicate of lenders and Jefferies Finance LLC, as administrative agent, collateral agent and letter of credit issuer, and Goldman Sachs Bank USA and JPMorgan Chase Bank, N.A., as joint bookrunners and joint lead arrangers, which we refer to as the First Lien Credit Agreement.

The First Lien Credit Agreement provides for a term loan facility, or the First Lien Term Loan, in an original aggregate principal amount of \$950.0 million and a senior secured revolving credit facility in an aggregate principal amount of \$60.0 million, or the Revolving Credit Facility, which together with First Lien Term Loan, we refer to as the First Lien Credit Facilities. The Revolving Credit Facility includes a \$15.0 million sublimit for the issuance of letters of credit. As of March 31, 2019, we had outstanding borrowings of \$947.6 million and \$0.5 million of First Lien Term Loan and letter of credit, respectively, and no outstanding borrowings under our Revolving Credit Facility. The First Lien Term Loan matures on August 23, 2025. Borrowings under the Revolving Credit Facility mature on August 23, 2023.

Amortization, Interest Rates and Fees

The First Lien Credit Agreement requires us to repay the principal of the First Lien Term Loan in equal quarterly repayments equal to 0.25% of the original principal amount of First Lien Term Loan.

The First Lien Term Loan bears interest at a floating rate which can be, at our option, either (1) a Eurodollar rate for a specified interest period plus an applicable margin of up to 3.25% or (2) a base rate plus an applicable margin of up to 2.25%. The applicable margins for Eurodollar rate and base rate borrowings are each subject to a reduction to 3.00% and 2.00%, respectively, based on our first lien net leverage ratio. The applicable margins for Eurodollar rate and base rate borrowings are each subject to an additional reduction of 0.25% upon the completion of an initial public offering based on our first lien net leverage ratio.

The borrowings under the Revolving Credit Facility bear interest at a floating rate which can be, at our option, either (1) a Eurodollar rate for a specified interest period plus an applicable margin of up to 3.25% or (2) a base rate plus an applicable margin of up to 2.25%. The applicable margins for Eurodollar rate and base rate borrowings are subject to reductions to 3.00% and 2.75% and 2.00% and 1.75%, respectively, based on our first lien net leverage ratio. The applicable margins for Eurodollar rate and base rate borrowings are each subject to an additional reduction of 0.25% upon the completion of an initial public offering. The Eurodollar rate applicable to the Revolving Credit Facility is subject to a "floor" of 0.0%.

The base rate for any day is a fluctuating rate per annum equal to the highest of (a) the "prime rate" as last quoted by *The Wall Street Journal*, (b) the federal funds effective rate in effect on such day, plus 0.50% per annum and (c) the Eurodollar rate for a one-month interest period plus 1.00%. The base rate applicable to the Revolving Credit Facility and the First Lien Term Loan is subject to a "floor" of 0.0%.

Table of Contents

In addition to paying interest on loans outstanding under the First Lien Term Loan and the Revolving Credit Facility, we are required to pay a commitment fee of up to 0.50% per annum of unused commitments under the Revolving Credit Facility, subject to reductions to 0.375% and 0.25% per annum based on our first lien net leverage ratio. We are also required to pay letter of credit fees on a per annum basis equal to the daily maximum amount available to be drawn under each letter of credit multiplied by the applicable margin for Eurodollar loans under the Revolving Credit Facility. We are required to pay customary fronting, issuance, and administrative fees for the issuance of letters of credit.

Voluntary Prepayments

We are permitted to voluntarily prepay or repay outstanding loans under the Revolving Credit Facility or First Lien Term Loan at any time, in whole or in part, subject to minimum amounts, and, with respect to the Revolving Credit Facility only, to subsequently reborrow amounts prepaid. Prior to the six month anniversary of the Closing Date, we are required to pay a 1.00% prepayment fee in connection with any voluntary prepayments of the First Lien Term Loan that constitute a Repricing Transaction (as defined in the First Lien Credit Agreement). With respect to the Revolving Credit Facility, prepayments are without premium or penalty.

We are permitted to reduce commitments under the Revolving Credit Facility at any time, in whole or in part, subject to minimum amounts.

Mandatory Prepayments

The First Lien Credit Agreement requires us to prepay, subject to certain exceptions, the First Lien Term Loan with a portion of our excess cash flow in an amount ranging from 0% to 50% of excess cash flow depending on our first lien net leverage ratio, with the net cash proceeds of certain asset sales and dispositions in an amount ranging from 0% to 100% of such net cash proceeds depending on our first lien net leverage ratio, and with 100% of the proceeds from certain debt issuances, in each case, subject to certain exceptions.

Guarantees

Subject to certain exceptions, all obligations under the First Lien Credit Facilities, as well as certain hedging and cash management arrangements, are jointly and severally, fully and unconditionally, guaranteed on a senior secured basis by current and future direct and indirect domestic subsidiaries of Dynatrace LLC (other than unrestricted subsidiaries, joint ventures, subsidiaries prohibited by applicable law from becoming guarantors and certain other exempted subsidiaries).

Security

Our obligations and the obligations of the guarantors under the First Lien Credit Facilities are secured by first priority pledges of and security interests in (i) substantially all of the existing and future equity interests of Dynatrace LLC and each subsidiary guarantor, as well as 65% of the equity interests of certain first-tier foreign subsidiaries held by the borrower or the guarantors under the First Lien Credit Agreement and (ii) substantially all of the Dynatrace LLC's and each guarantor's tangible and intangible assets, in each case subject to other exceptions.

Certain Covenants

The First Lien Credit Agreement contains a number of covenants that, among other things, restrict, subject to certain exceptions, our ability to:

- incur additional indebtedness;

Table of Contents

- incur liens;
- engage in mergers, consolidations, liquidations or dissolutions;
- pay dividends and distributions on, or redeem, repurchase or retire our capital stock;
- make investments, acquisitions, loans, or advances;
- create negative pledge or restrictions on the payment of dividends or payment of other amounts owed from subsidiaries;
- sell, transfer or otherwise dispose of assets, including capital stock of subsidiaries;
- make prepayments of material debt that is subordinated with respect to right of payment;
- engage in certain transactions with affiliates;
- modify certain documents governing material debt that is subordinated with respect to right of payment;
- change our fiscal year; and
- change our lines of business.

In addition, the terms of the First Lien Credit Agreement include a financial covenant which requires that, at the end of each fiscal quarter, for so long as the aggregate principal amount of borrowings under the Revolving Credit Facility (excluding undrawn letters of credit of up to \$5 million) exceeds 35% of the aggregate commitments under the Revolving Credit Facility, our first lien net leverage ratio cannot exceed 7.50 to 1.00. A breach of this financial covenant will not result in a default or event of default under the First Lien Term Loan unless and until a majority of the lenders under the Revolving Credit Facility have terminated the commitments under the Revolving Credit Facility and declared the borrowings under the Revolving Credit Facility due and payable.

Events of Default

The First Lien Credit Agreement contains certain customary events of default, including, among others, failure to pay principal, interest or other amounts; material inaccuracy of representations and warranties; violation of covenants; specified cross-default and cross-acceleration to other material indebtedness; certain bankruptcy and insolvency events; certain ERISA events; certain undischarged judgments; material invalidity of guarantees or grant of security interest; and change of control.

Second Lien Credit Facility

General

On the Closing Date, we entered into a Senior Secured Second Lien Credit Agreement with a syndicate of lenders and Jefferies Finance LLC, as administrative agent and collateral agent, and Goldman Sachs Bank USA and JPMorgan Chase Bank, N.A., as joint bookrunners and joint lead arrangers, which we refer to as the Second Lien Credit Agreement. The Second Lien Credit Agreement provides for a term loan facility, or the Second Lien Credit Facility, in an original aggregate principal amount of \$170.0 million. As of March 31, 2019, we had outstanding borrowings of \$88.7 million under the Second Lien Credit Facility. Borrowings under the Second Lien Credit Facility will mature on August 23, 2026.

Interest Rates and Fees

The borrowings under the Second Lien Credit Facility bear interest at a floating rate which can be, at our option, either (1) on a Eurodollar rate for a specified interest period plus 7.00% or (2) a base rate plus 6.00%.

[Table of Contents](#)

The base rate for any day is a fluctuating rate per annum equal to the highest of (a) the “prime rate” as last quoted by *The Wall Street Journal*, (b) the federal funds effective rate in effect on such day, plus 0.50% per annum and (c) the Eurodollar rate for a one-month interest period plus 1.00%. The base rate applicable to the Second Lien Term Loan is subject to a “floor” of 0.0%.

Voluntary Prepayments

We are permitted to voluntarily prepay or repay outstanding loans under the Second Lien Credit Facility at any time, in whole or in part, subject to minimum amounts. We are required to pay a make-whole premium on prepayments in an amount (a) for the period from the Closing Date to the first anniversary of the Closing Date, equal to 2.00% of the principal amount of the Second Lien Credit Facility being prepaid or, if the prepayment or repayment is in connection with a public offering or change of control, 1.00%, and (b) from the period from the first anniversary of the Closing Date to the second anniversary of the Closing Date, equal to 1.00% of the principal amount of the Second Lien Credit Facility being prepaid.

Mandatory Prepayments

The Second Lien Credit Agreement requires us to prepay, subject to certain exceptions, the Second Lien Term Loan with the net cash proceeds of certain asset sales and dispositions in an amount ranging from 0% to 100% of such net cash proceeds depending on our first lien net leverage ratio, and with 100% of the proceeds from certain debt issuances, in each case, subject to certain exceptions.

Such mandatory prepayments of the Second Lien Credit Facility are required only (i) if the First Lien Term Loan (and any refinancing thereof) has been paid in full or (ii) to the extent that the net cash proceeds of asset sales or dispositions or certain debt issuances, as applicable, have been declined by any lender under the First Lien Credit Agreement.

Guarantees

Subject to certain exceptions, all obligations under the Second Lien Credit Facility, as well as certain hedging and cash management arrangements, are jointly and severally, fully and unconditionally, guaranteed on a senior secured basis by current and future direct and indirect domestic subsidiaries of Dynatrace LLC (other than unrestricted subsidiaries, our joint ventures, subsidiaries prohibited by applicable law from becoming guarantors and certain other exempted subsidiaries).

Security

Our obligations and the obligations of the guarantors under the Second Lien Credit Facility are secured by second priority pledges of and security interests in (i) substantially all of the existing and future equity interests of Dynatrace LLC and each subsidiary guarantor, as well as 65% of the equity interests of certain first-tier foreign subsidiaries held by the borrower or the guarantors under the Second Lien Credit Agreement and (ii) substantially all of Dynatrace LLC’s and each guarantor’s tangible and intangible assets, in each case subject to other exceptions.

Certain Covenants

The Second Lien Credit Agreement contains a number of covenants that, among other things, restrict, subject to certain exceptions, our ability to:

- incur additional indebtedness;

Table of Contents

- incur liens;
- engage in mergers, consolidations, liquidations or dissolutions;
- pay dividends and distributions on, or redeem, repurchase or retire our capital stock;
- make investments, acquisitions, loans, or advances;
- create negative pledge or restrictions on the payment of dividends or payment of other amounts owed from subsidiaries;
- sell, transfer or otherwise dispose of assets, including capital stock of subsidiaries;
- make prepayments of material debt that is subordinated with respect to right of payment;
- engage in certain transactions with affiliates;
- modify certain documents governing material debt that is subordinated with respect to right of payment;
- change our fiscal year; and
- change our lines of business.

Events of Default

The Second Lien Credit Agreement contains certain customary events of default, including, among others, failure to pay principal, interest or other amounts; material inaccuracy of representations and warranties; violation of covenants; specified cross-default and cross-acceleration to other material indebtedness; certain bankruptcy and insolvency events; certain ERISA events; certain undischarged judgments; material invalidity of guarantees or grant of security interest; and change of control.

DESCRIPTION OF CAPITAL STOCK

General

The following is a summary of the rights of our common stock and preferred stock and certain provisions of our charter and bylaws. This summary does not purport to be complete and is qualified in its entirety by the provisions of our charter and bylaws and Registration Rights Agreement, copies of which will be filed as exhibits to the registration statement of which this prospectus is a part, and to the applicable provisions of Delaware law.

Immediately following the completion of this offering, our authorized capital stock will consist of 650,000,000 shares of capital stock, \$0.001 par value per share, of which:

- 600,000,000 shares are designated as common stock; and
- 50,000,000 shares are designated as preferred stock.

As of June 30, 2019, there were 247,463,124 shares of our common stock outstanding (assuming an initial public offering price of \$14.00 per share (the midpoint of the estimated offering price range set forth on the cover page of this prospectus)), held by 455 stockholders of record, and no shares of our preferred stock outstanding, assuming the completion of the Spin-Off Transactions as of June 30, 2019, and the effectiveness of our charter upon the completion of this offering.

Common Stock

Dividend Rights

Subject to preferences that may apply to any shares of preferred stock outstanding at the time, and any contractual limitations, such as our credit agreements, the holders of our common stock are entitled to receive dividends out of funds then legally available, if any, if our board of directors, in its discretion, determines to issue dividends and then only at the times and in the amounts that our board of directors may determine.

Voting Rights

The holders of our common stock are entitled to one vote per share. Our common stock will vote as a single class on all matters relating to the election and removal of directors on our board of directors and as provided by law. Our stockholders do not have the ability to cumulate votes for the election of directors. Except in respect of matters relating to the election of directors, or as otherwise provided in our charter or required by law, all matters to be voted on by our stockholders must be approved by a majority of the shares present in person or by proxy at the meeting and entitled to vote on the subject matter. In the case of the election of directors, director candidates must be approved by a plurality of the shares present in person or by proxy at the meeting and entitled to vote on the election of directors.

No Preemptive or Similar Rights

Our common stock is not entitled to preemptive rights and is not subject to conversion, redemption or sinking fund provisions.

Right to Receive Liquidation Distributions

If we become subject to a liquidation, dissolution or winding-up, the assets legally available for distribution to our stockholders would be distributable ratably among the holders of our common stock.

and any participating preferred stock outstanding at that time, subject to prior satisfaction of all outstanding debt and liabilities and the preferential rights and payment of liquidation preferences, if any, on any outstanding shares of preferred stock.

Fully Paid and Non-Assessable

All of the outstanding shares of our common stock are, and the shares of our common stock to be issued pursuant to this offering will be, fully paid and non-assessable.

Preferred Stock

After the completion of this offering, no shares of our preferred stock will be outstanding. Pursuant to our charter, our board of directors will have the authority, without further action by the stockholders, to issue from time to time shares of preferred stock in one or more series. Our board of directors may designate the rights, preferences, privileges and restrictions of the preferred stock, including dividend rights, conversion rights, voting rights, redemption rights, liquidation preference, sinking fund terms, and the number of shares constituting any series or the designation of any series. The issuance of preferred stock could have the effect of restricting dividends on our common stock, diluting the voting power of our common stock, impairing the liquidation rights of our common stock, or delaying, deterring or preventing a change in control. Such issuance could have the effect of decreasing the market price of our common stock. Any preferred stock so issued may rank senior to our common stock with respect to the payment of dividends or amounts upon liquidation, dissolution or winding up, or both. We currently have no plans to issue any shares of preferred stock.

Anti-Takeover Provisions in Our Charter and Bylaws

Certain provisions of our charter and bylaws that will be effective as of the completion of this offering may have the effect of delaying, deferring or discouraging another person from attempting to acquire control of us. These provisions, which are summarized below, may discourage takeovers, coercive or otherwise. These provisions are also geared, in part, towards encouraging persons seeking to acquire control of us to negotiate first with our board of directors. We believe that the benefits of increased protection of our potential ability to negotiate with an unfriendly or unsolicited acquirer outweigh the disadvantages of discouraging a proposal to acquire us because negotiation of these proposals could result in an improvement of their terms.

Board Size; Board of Directors Vacancies; Directors Removed Only for Cause . Our charter and bylaws allow Thoma Bravo to set the size of our board of directors and fill any vacancy on our board of directors, including newly created seats, for so long as Thoma Bravo beneficially owns at least 30% of the outstanding shares of our common stock. Upon Thoma Bravo ceasing to own at least 30% of the outstanding shares of our common stock, only our board of directors will be allowed to fill vacant directorships. In addition, (i) prior to the first date on which Thoma Bravo ceases to beneficially own at least 30% of the voting power of our then outstanding capital stock entitled to vote generally in the election of directors, our directors may be removed with or without cause upon the affirmative vote of Thoma Bravo and (ii) on and after such date on which Thoma Bravo ceases to beneficially own at least 30% of the voting power of our then outstanding capital stock entitled to vote generally in the election of directors, directors may only be removed for cause and only upon the affirmative vote of the holders of 66 2/3% or more of our outstanding shares of capital stock then entitled to vote at a meeting of our stockholders called for that purpose. In the event Thoma Bravo ceases to beneficially own at least 30% of the voting power of our then outstanding capital stock entitled to vote generally in the election of directors, directors previously nominated by Thoma Bravo would be entitled to serve the remainder of their respective terms, unless they are otherwise removed for cause in accordance with the terms of

Table of Contents

our charter. These provisions may have the effect of deferring, delaying or discouraging hostile takeovers, or changes in control or management of our company. In addition, following the date on which Thoma Bravo ceases to beneficially own at least 30% of the outstanding shares of our common stock, the number of directors constituting our board of directors will be permitted to be set only by a resolution adopted by a majority vote of our entire board of directors. These provisions would prevent a stockholder from increasing the size of our board of directors and then gaining control of our board of directors by filling the resulting vacancies with its own nominees. This will make it more difficult to change the composition of our board of directors and will promote continuity of management.

Classified Board. Our charter and bylaws provide that our board of directors is classified into three classes of directors, with each class serving three-year staggered terms. A third party may be discouraged from making a tender offer or otherwise attempting to obtain control of us as it is more difficult and time-consuming for stockholders to replace a majority of the directors on a classified board of directors.

Stockholder Action; Special Meeting of Stockholders. Pursuant to Section 228 of the DGCL, any action required to be taken at any annual or special meeting of the stockholders may be taken without a meeting, without prior notice and without a vote if a consent or consents in writing, setting forth the action so taken, is signed by the holders of outstanding stock having not less than the minimum number of votes that would be necessary to authorize or take such action at a meeting at which all shares of our stock entitled to vote thereon were present and voted, unless our certificate of incorporation provides otherwise. Our charter provides that so long as Thoma Bravo beneficially owns at least a majority of the outstanding shares of our common stock, any action required or permitted to be taken by our stockholders may be effected by written consent. Our charter provides that, after Thoma Bravo ceases to beneficially own at least a majority of the outstanding shares of our common stock, our stockholders may not take action by written consent but may only take action at annual or special meetings of our stockholders. As a result, a holder controlling a majority of our capital stock after Thoma Bravo no longer owns at least a majority of the outstanding shares of our common stock would not be able to amend our bylaws or remove directors without holding a meeting of our stockholders called in accordance with our bylaws. Our charter provides that special meetings of the stockholders may be called only upon a resolution approved by a majority of the total number of directors that we would have if there were no vacancies, the chairman of our board of directors, the Chief Executive Officer or the President, or, prior to the date that Thoma Bravo ceases to beneficially own at least a majority of the voting power of our then outstanding capital stock entitled to vote generally in the election of directors, at the request of the holders of a majority of the voting power of our then outstanding shares of voting capital stock. These provisions might delay the ability of our stockholders to force consideration of a proposal or for stockholders controlling a majority of our capital stock to take any action, including the removal of directors.

Advance Notice Requirements for Stockholder Proposals and Director Nominations. Our bylaws provide advance notice procedures for stockholders seeking to bring business before our annual meeting of stockholders or to nominate candidates for election as directors at our annual meeting of stockholders. Our bylaws specify certain requirements regarding the form and content of a stockholder's notice. Our bylaws prohibit the conduct of any business at a special meeting other than as specified in the notice for such meeting. Our bylaws also provide that nominations of persons for election to our board of directors may be made at a special meeting of stockholders at which directors are to be elected pursuant to the notice of meeting (i) by or at the direction of our board of directors or (ii) provided that our board of directors has determined that directors shall be elected at such meeting, by any stockholder who (a) is a stockholder of record both at the time the notice is delivered and on the record date for the determination of stockholders entitled to vote at the special meeting, (b) is entitled to vote at the meeting and upon such election and (c) complies with the notice procedures set forth in our bylaws. These provisions might preclude our stockholders from bringing matters before our annual

[Table of Contents](#)

meeting of stockholders or from making nominations for directors at our annual meeting of stockholders if the proper procedures are not followed. We expect that these provisions may also discourage or deter a potential acquirer from conducting a solicitation of proxies to elect the acquirer's own slate of directors or otherwise attempting to obtain control of our company. These provisions will not apply to nominations of candidates for elections as directors by Thoma Bravo.

No Cumulative Voting. The DGCL provides that stockholders are not entitled to cumulate votes in the election of directors unless a corporation's certificate of incorporation provides otherwise. Our charter does not provide for cumulative voting.

Amendment of Charter Provisions and Bylaws. Our charter provides that prior to the date that Thoma Bravo ceases to beneficially own a majority of the voting power of our then outstanding capital stock entitled to vote generally in the election of directors (the "Trigger Date"), our bylaws may be adopted, amended, altered or repealed by the vote of a majority of the voting power of our then outstanding voting capital stock, voting together as a single class. After the Trigger Date, our charter and bylaws may be adopted, amended, altered or repealed by either (i) a vote of a majority of the total number of directors that the company would have if there were no vacancies or (ii) in addition to any other vote otherwise required by law, the affirmative vote of the holders of at least 66 2/3% of the voting power of our then outstanding capital stock entitled to vote generally in the election of directors, voting together as a single class.

Our charter also provides that following the Trigger Date, the provisions of our charter relating to the size and composition of our board of directors, limitation on liabilities of directors, stockholder action by written consent, the ability of stockholders to call special meetings, business combinations with interested persons, amendment of our bylaws or charter and the Court of Chancery of the State of Delaware as the exclusive forum for certain disputes, may only be amended, altered, changed or repealed by the affirmative vote of the holders of at least 66 2/3% of the voting power of all of our outstanding shares of capital stock entitled to vote generally in the election of directors, voting together as a single class. Prior to the Trigger Date, such provisions may be amended, altered, changed or repealed by the affirmative vote of the holders of a majority of the voting power of our then outstanding capital stock entitled to vote generally in the election of directors, voting together as a single class. Our charter also provides that the provision of our charter that deals with corporate opportunity may only be amended, altered or repealed by a vote of 80.0% of the voting power of our then outstanding capital stock entitled to vote generally in the election of directors, voting together as a single class. See "—Corporate Opportunity."

Issuance of Undesignated Preferred Stock. Our board of directors has the authority, without further action by our stockholders, to designate and issue shares of preferred stock with rights and preferences, including super voting, special approval, dividend or other rights or preferences on a discriminatory basis. The existence of authorized but unissued shares of undesignated preferred stock would enable our board of directors to render more difficult or to discourage an attempt to obtain control of us by means of a merger, tender offer, proxy contest or other means.

Business Combinations with Interested Stockholders. We have elected in our charter not to be subject to Section 203 of the DGCL, an anti-takeover law. In general, Section 203 prohibits a publicly held Delaware corporation from engaging in a business combination, such as a merger, with an interested stockholder (i.e., a person or group owning 15% or more of the corporation's voting capital stock) for a period of three years following the date the person became an interested stockholder, unless (with certain exceptions) the business combination or the transaction in which the person became an interested stockholder is approved in a prescribed manner. Accordingly, we are not subject to any anti-takeover effects of Section 203 of the DGCL. However, our charter contains provisions that have the same effect as Section 203, except that they provide that sales of common stock to or by Thoma Bravo will be deemed to have been approved by our board of directors, and thereby not subject to the restrictions set forth in our charter that have the same effect as Section 203 of the DGCL.

Table of Contents

Corporate Opportunity. Messrs. Boro and Virnig, managing partners of Thoma Bravo, and Messrs. Lines and Zuber, operating partners of Thoma Bravo, currently serve on our board of directors and will continue to serve as directors following completion of this offering. Thoma Bravo, as the ultimate general partner of the Thoma Bravo Funds, will continue to beneficially own a majority of our outstanding common stock upon the completion of this offering. Thoma Bravo may beneficially hold equity interests in entities that directly or indirectly compete with us, and companies in which it currently invests may begin competing with us. As a result of these relationships, when conflicts between the interests of Thoma Bravo, on the one hand, and of other stockholders, on the other hand, arise, these directors may not be disinterested. Although our directors and officers have a duty of loyalty to us under the DGCL and our charter, transactions that we enter into in which a director or officer has a conflict of interest are generally permissible so long as (i) the material facts relating to the director's or officer's relationship or interest as to the transaction are disclosed to our board of directors and a majority of our disinterested directors approved the transactions, (ii) the material facts relating to the director's or officer's relationship or interest are disclosed to our stockholders and a majority of our disinterested stockholders approve the transaction or (iii) the transaction is otherwise fair to us.

Our charter provides that no officer or director of our company who is also a principal, officer, director, member, manager, partner, employee and/or independent contractor of Thoma Bravo will be liable to us or our stockholders for breach of any fiduciary duty by reason of the fact that any such individual pursues or acquires a corporate opportunity for its own account or the account of an affiliate, as applicable, instead of us, directs a corporate opportunity to Thoma Bravo instead of us or does not communicate information regarding a corporate opportunity to us. Our charter also provides that any principal, officer, director, member, manager, partner, employee and/or independent contractor of Thoma Bravo or any entity that controls, is controlled by or under common control with Thoma Bravo or any investment funds advised by Thoma Bravo will not be required to offer any transaction opportunity of which they become aware to us and could take any such opportunity for themselves or offer it to other companies in which they have an investment.

This provision may not be modified without the affirmative vote of the holders of at least 80.0% of the voting power of all of our outstanding shares of common stock.

Choice of Forum

Our bylaws that will become effective upon the completion of this offering will provide that the Court of Chancery of the State of Delaware will be the sole and exclusive forum for state law claims for (i) any derivative action or proceeding brought on our behalf, (ii) any action asserting a breach of fiduciary duty by one or more of our directors, officers or employees, (iii) any action asserting a claim against us arising pursuant to the Delaware General Corporation Law or (iv) any action asserting a claim against us that is governed by the internal affairs doctrine. This provision will not apply to actions arising under the Securities Act or the Exchange Act. Additionally, the forum selection clause in our bylaws may limit our stockholders' ability to obtain a favorable judicial forum for disputes with us. The Court of Chancery of the State of Delaware may also reach different judgments or results than would other courts, including courts where a stockholder considering an action may be located or would otherwise choose to bring the action, and such judgments may be more or less favorable to us than our stockholders. Any person or entity purchasing or otherwise acquiring any interest in shares of our capital stock shall be deemed to have notice of and consented to the forum provisions in our bylaws. The enforceability of similar choice of forum provisions in other companies' certificates of incorporation and bylaws has been challenged in legal proceedings, and it is possible that a court could find these types of provisions to be inapplicable or unenforceable.

Transfer Agent and Registrar

Upon the completion of this offering, the transfer agent and registrar for our common stock will be Computershare Trust Company, N.A.

Limitations of Liability and Indemnification

See the section titled “Certain Relationships and Related Party Transactions—Limitation of Liability and Indemnification of Officers and Directors.”

Listing

We have been approved to list our common stock on the New York Stock Exchange under the symbol “DT.”

SHARES ELIGIBLE FOR FUTURE SALE

Prior to the completion of this offering, there has been no public market for shares of our common stock. Future sales of shares of our common stock in the public market after this offering, or the perception that these sales may occur, could adversely affect the prevailing market price at such time and our ability to raise equity capital in the future.

Following the completion of this offering, based on the number of shares of our common stock outstanding as of June 30, 2019, as if the Spin-Off Transactions occurred on June 30, 2019, a total of 281,463,124 shares of our common stock will be outstanding. Of these shares, all 35,609,754 shares of our common stock sold in this offering by us and the selling stockholders will be eligible for sale in the public market without restriction under the Securities Act, except that any shares of our common stock purchased in this offering by our "affiliates," as that term is defined in Rule 144 under the Securities Act, would only be able to be sold in compliance with the conditions of Rule 144 described below.

The remaining shares of our common stock will be deemed "restricted securities," as that term is defined in Rule 144 under the Securities Act. These restricted securities will be eligible for sale in the public market only if they are registered or if they qualify for an exemption from registration under Rule 144 or Rule 701 under the Securities Act, which rules are summarized below. Subject to the lock-up agreements described below, the provisions of our Registration Rights Agreement described under the section titled "Certain Relationships and Related Party Transactions—Registration Rights," the applicable conditions of Rule 144 or Rule 701, and our insider trading policy, these restricted securities will be eligible for sale in the public market from time to time beginning 181 days after the date of this prospectus.

Lock-Up Agreements

We, our executive officers and directors, the Thoma Bravo Funds, the selling stockholders, substantially all of the other holders of our common stock, restricted stock units or stock options outstanding immediately prior to this offering and funds affiliated with Dragoneer Investment Group, LLC that have indicated an interest in purchasing shares in this offering have entered into lock-up agreements with the underwriters of this offering under which we and they have agreed that, subject to certain exceptions, without the prior written consent of Goldman Sachs & Co. LLC and J.P. Morgan Securities LLC, we and they will not dispose of or hedge any shares or any securities convertible into or exchangeable for shares of our common stock for a period of 180 days after the date of this prospectus. The consent of Goldman Sachs & Co. LLC and J.P. Morgan Securities LLC is required to release any of the securities subject to these lock-up agreements. See the section titled "Underwriting."

Rule 144

Rule 144 generally provides that, once we have been subject to the public company reporting requirements of Section 13 or Section 15(d) of the Exchange Act for at least 90 days, a stockholder who is not deemed to have been one of our affiliates at any time during the preceding 90 days and who has beneficially owned the shares of our common stock proposed to be sold for at least six months is entitled to sell such shares in reliance upon Rule 144 without complying with the volume limitation, manner of sale or notice conditions of Rule 144. If such stockholder has beneficially owned the shares of our common stock proposed to be sold for at least one year, then such person is entitled to sell such shares in reliance upon Rule 144 without complying with any of the conditions of Rule 144.

Rule 144 also provides that a stockholder who is deemed to have been one of our affiliates at any time during the preceding 90 days and who has beneficially owned the shares of our common stock

Table of Contents

proposed to be sold for at least six months is entitled to sell such shares in reliance upon Rule 144 within any three-month period beginning 90 days after the date of this prospectus a number of shares that does not exceed the greater of:

- 1% of the number of shares of our capital stock then outstanding, which will equal 2,814,631 shares immediately after the completion of this offering; or
- the average weekly trading volume of our common stock during the four calendar weeks preceding the filing of a notice on Form 144 with respect to such sale.

Sales of our common stock made in reliance upon Rule 144 by a stockholder who is deemed to have been one of our affiliates at any time during the preceding 90 days are also subject to the current public information, manner of sale and notice conditions of Rule 144.

Rule 701

Rule 701 generally provides that, once we have been subject to the public company reporting requirements of Section 13 or Section 15(d) of the Exchange Act for at least 90 days, a stockholder who purchased shares of our common stock pursuant to a written compensatory benefit plan or contract and who is not deemed to have been one of our affiliates at any time during the preceding 90 days may sell such shares in reliance upon Rule 144 without complying with the current public information or holding period conditions of Rule 144. Rule 701 also provides that a stockholder who purchased shares of our common stock pursuant to a written compensatory benefit plan or contract and who is deemed to have been one of our affiliates during the preceding 90 days may sell such shares under Rule 144 without complying with the holding period condition of Rule 144. However, all stockholders who purchased shares of our common stock pursuant to a written compensatory benefit plan or contract are required to wait until 90 days after the date of this prospectus before selling such shares pursuant to Rule 701.

Registration Rights

After the completion of this offering, the holders of 226,517,912 shares of our common stock will be entitled to certain rights with respect to the registration of such shares (and any additional shares acquired by such holders in the future) under the Securities Act. The registration of these shares of our common stock under the Securities Act would result in these shares becoming eligible for sale in the public market without restriction under the Securities Act immediately upon the effectiveness of such registration, subject to the Rule 144 limitations applicable to affiliates. See the section titled "Certain Relationships and Related Party Transactions—Registration Rights" for a description of these registration rights.

Registration Statement

Upon the completion of this offering, we intend to file a registration statement on Form S-8 under the Securities Act to register all of the shares of our common stock subject to equity awards outstanding or reserved for issuance under our equity compensation plans. The shares of our common stock covered by this registration statement will be eligible for sale in the public market without restriction under the Securities Act immediately upon the effectiveness of such registration statement, subject to vesting restrictions, the conditions of Rule 144 applicable to affiliates and any lock-up agreements. See the section titled "Executive Compensation" for a description of our equity compensation plans.

**MATERIAL U.S. FEDERAL INCOME TAX CONSIDERATIONS FOR
NON-U.S. HOLDERS OF OUR COMMON STOCK**

The following is a summary of the material U.S. federal income tax considerations related to the purchase, ownership and disposition of our common stock by a non-U.S. holder (as defined below), that holds our common stock as a "capital asset" (generally property held for investment). This summary is based on the provisions of the Internal Revenue Code, U.S. Treasury regulations, administrative rulings and judicial decisions, all as in effect on the date hereof, and all of which are subject to change, possibly with retroactive effect. We have not sought any ruling from the Internal Revenue Service, or the IRS, with respect to the statements made and the conclusions reached in the following summary, and there can be no assurance that the IRS or a court will agree with such statements and conclusions.

This summary does not address all aspects of U.S. federal income taxation that may be relevant to non-U.S. holders in light of their personal circumstances. In addition, this summary does not address the Medicare tax on certain investment income, the alternative minimum tax, the rules regarding qualified small business stock under Section 1202 of the Code, U.S. federal estate or gift tax laws, any state, local or non-U.S. tax laws or any tax treaties. This summary also does not address tax considerations applicable to investors that may be subject to special treatment under the U.S. federal income tax laws, such as:

- banks, insurance companies or other financial institutions;
- tax-exempt or governmental organizations;
- dealers in securities or foreign currencies;
- traders in securities that use the mark-to-market method of accounting for U.S. federal income tax purposes;
- partnerships or other pass-through entities for U.S. federal income tax purposes or holders of interests therein;
- persons deemed to sell our common stock under the constructive sale provisions of the Internal Revenue Code;
- persons that acquired our common stock through the exercise of employee stock options or otherwise as compensation or through a tax-qualified retirement plan;
- certain former citizens or long-term residents of the U.S.;
- persons that hold our common stock as part of a straddle, appreciated financial position, synthetic security, hedge, conversion transaction or other integrated investment or risk reduction transaction; and
- persons that own, or have owned, actually or constructively, more than 5% of our common stock.

PROSPECTIVE INVESTORS ARE ENCOURAGED TO CONSULT THEIR TAX ADVISORS WITH RESPECT TO THE APPLICATION OF THE U.S. FEDERAL INCOME TAX LAWS TO THEIR PARTICULAR SITUATION, AS WELL AS ANY TAX CONSEQUENCES OF THE PURCHASE, OWNERSHIP AND DISPOSITION OF OUR COMMON STOCK ARISING UNDER THE U.S. FEDERAL ESTATE OR GIFT TAX LAWS OR UNDER THE LAWS OF ANY STATE, LOCAL, NON-U.S. OR OTHER TAXING JURISDICTION OR UNDER ANY APPLICABLE INCOME TAX TREATY.

Non-U.S. Holder Defined

For purposes of this discussion, a “non-U.S. holder” is a beneficial owner of our common stock that is not for U.S. federal income tax purposes a partnership or any of the following:

- an individual who is a citizen or resident of the U.S.;
- a corporation (or other entity treated as a corporation for U.S. federal income tax purposes) created or organized in or under the laws of the U.S., any state thereof or the District of Columbia;
- an estate the income of which is subject to U.S. federal income tax regardless of its source; or
- a trust (i) the administration of which is subject to the primary supervision of a U.S. court and which has one or more U.S. persons who have the authority to control all substantial decisions of the trust or (ii) which has made a valid election under applicable U.S. Treasury regulations to be treated as a U.S. person.

If a partnership (including an entity or arrangement treated as a partnership for U.S. federal income tax purposes) holds our common stock, the tax treatment of a partner in the partnership generally will depend upon the status of the partner, upon the activities of the partnership and upon certain determinations made at the partner level. Accordingly, we urge partners in partnerships (including entities or arrangements treated as partnerships for U.S. federal income tax purposes) considering the purchase of our common stock to consult their tax advisors regarding the U.S. federal income tax considerations of the purchase, ownership and disposition of our common stock by such partnership.

Distributions

We do not expect to pay any distributions on our common stock in the foreseeable future. However, in the event we do make distributions of cash or other property on our common stock, such distributions will constitute dividends for U.S. federal income tax purposes to the extent paid from our current or accumulated earnings and profits, as determined under U.S. federal income tax principles. To the extent those distributions exceed our current and accumulated earnings and profits, the distributions will be treated as a non-taxable return of capital to the extent of the non-U.S. holder’s tax basis in our common stock and thereafter as capital gain from the sale or exchange of such common stock. See “—Gain on Disposition of Our Common Stock.” Subject to backup withholding requirements, the withholding requirements under FATCA (as defined below) and with respect to effectively connected dividends, each of which is discussed below, any distribution made to a non-U.S. holder on our common stock generally will be subject to U.S. withholding tax at a rate of 30% of the gross amount of the distribution unless an applicable income tax treaty provides for a lower rate. To receive the benefit of a reduced treaty rate, a non-U.S. holder must provide the applicable withholding agent with an IRS Form W-8BEN or IRS Form W-8BEN-E (or other applicable or successor form) certifying qualification for the reduced rate. This certification must be provided to us or our paying agent prior to the payment of dividends and must be updated periodically. If the non-U.S. holder holds the stock through a financial institution or other agent acting on the non-U.S. holder’s behalf, the non-U.S. holder will be required to provide appropriate documentation to the agent, which then will be required to provide certification to us or our paying agent, either directly or through other intermediaries. Non-U.S. holders that do not timely provide the required certification, but that qualify for a reduced treaty rate, may obtain a refund of any excess amounts withheld by timely filing an appropriate claim for refund with the IRS. Non-U.S. holders are urged to consult their tax advisors regarding their entitlement to benefits under a relevant income tax treaty.

Dividends paid to a non-U.S. holder that are effectively connected with a trade or business conducted by the non-U.S. holder in the U.S. (and, if required by an applicable income tax treaty, are

treated as attributable to a permanent establishment maintained by the non-U.S. holder in the U.S.) generally will be taxed on a net income basis at the rates and in the manner generally applicable to United States persons (as defined under the Internal Revenue Code). Such effectively connected dividends will not be subject to U.S. withholding tax if the non-U.S. holder satisfies certain certification requirements by providing the applicable withholding agent with a properly executed IRS Form W-8ECI (or other applicable or successor form) certifying eligibility for exemption. If the non-U.S. holder is a corporation for U.S. federal income tax purposes, it may also be subject to a branch profits tax (at a 30% rate or such lower rate as specified by an applicable income tax treaty) on its effectively connected earnings and profits (as adjusted for certain items), which will include effectively connected dividends.

Gain on Disposition of Our Common Stock

Subject to the discussions below under “—Backup Withholding and Information Reporting” and “—Additional Withholding Requirements under FATCA,” a non-U.S. holder generally will not be subject to U.S. federal income or withholding tax on any gain realized upon the sale or other disposition of our common stock unless:

- the non-U.S. holder is an individual who is present in the U.S. for a period or periods aggregating 183 days or more during the calendar year in which the sale or disposition occurs and certain other conditions are met;
- the gain is effectively connected with a trade or business conducted by the non-U.S. holder in the U.S. (and, if required by an applicable income tax treaty, is attributable to a permanent establishment maintained by the non-U.S. holder in the U.S.); or
- our common stock constitutes a United States real property interest by reason of our status as a United States real property holding corporation, or USRPHC, for U.S. federal income tax purposes.

A non-U.S. holder described in the first bullet point above will generally be subject to U.S. federal income tax at a rate of 30% (or such lower rate as specified by an applicable income tax treaty) on the amount of such gain, which generally may be offset by U.S. source capital losses; provided the non-U.S. holder has timely filed U.S. federal income tax returns with respect to such losses.

A non-U.S. holder whose gain is described in the second bullet point above or, subject to the exceptions described in the next paragraph, the third bullet point above, generally will be taxed on a net income basis at the rates and in the manner generally applicable to United States persons (as defined under the Internal Revenue Code) unless an applicable income tax treaty provides otherwise. If the non-U.S. holder is a corporation for U.S. federal income tax purposes whose gain is described in the second bullet point above, then such gain would also be included in its effectively connected earnings and profits (as adjusted for certain items), which may be subject to a branch profits tax (at a 30% rate or such lower rate as specified by an applicable income tax treaty).

Generally, a corporation is a USRPHC if the fair market value of its United States real property interests equals or exceeds 50% of the sum of the fair market value of its worldwide real property interests and its other assets used or held for use in a trade or business. We believe that we currently are not a USRPHC for U.S. federal income tax purposes, and we do not expect to become a USRPHC for the foreseeable future. However, in the event that we become a USRPHC, as long as our common stock is and continues to be “regularly traded on an established securities market” (within the meaning of the U.S. Treasury Regulations), only a non-U.S. holder that actually or constructively owns, or owned at any time during the shorter of the five-year period ending on the date of the disposition or the non-U.S. holder’s holding period for the common stock, more than 5% of our common stock will be

Table of Contents

taxable on gain realized on the disposition of our common stock as a result of our status as a USRPHC. If we were to become a USRPHC and our common stock were not considered to be regularly traded on an established securities market, such holder (regardless of the percentage of stock owned) would be subject to U.S. federal income tax on a taxable disposition of our common stock (as described in the preceding paragraph), and a 15% withholding tax would apply to the gross proceeds from such disposition.

Non-U.S. holders should consult their tax advisors with respect to the application of the foregoing rules to their ownership and disposition of our common stock.

Backup Withholding and Information Reporting

Any distributions paid to a non-U.S. holder must be reported annually to the IRS and to the non-U.S. holder. Copies of these information returns may be made available to the tax authorities in the country in which the non-U.S. holder resides or is established. Payments of dividends to a non-U.S. holder generally will not be subject to backup withholding if the non-U.S. holder establishes an exemption by properly certifying its non-U.S. status on an IRS Form W-8BEN or IRS Form W-8BEN-E (or other applicable or successor form).

Payments of the proceeds from a sale or other disposition by a non-U.S. holder of our common stock effected by or through a U.S. office of a broker generally will be subject to information reporting and backup withholding (at the applicable rate) unless the non-U.S. holder establishes an exemption by properly certifying its non-U.S. status on an IRS Form W-8BEN or IRS Form W-8BEN-E (or other applicable or successor form) and certain other conditions are met. Information reporting and backup withholding generally will not apply to any payment of the proceeds from a sale or other disposition of our common stock effected outside the U.S. by a non-U.S. office of a broker. However, sales or other dispositions of our common stock effected outside the U.S. by such a broker if it has certain relationships within the U.S. will result in information reporting and backup withholding unless such broker has documentary evidence in its records that the non-U.S. holder is not a United States person and certain other conditions are met, or the non-U.S. holder otherwise establishes an exemption.

Backup withholding is not an additional tax. Rather, the U.S. federal income tax liability (if any) of persons subject to backup withholding will be reduced by the amount of tax withheld. If backup withholding results in an overpayment of taxes, a refund may be obtained, provided that the required information is timely furnished to the IRS.

Additional Withholding Requirements under FATCA

Sections 1471 through 1474 of the Internal Revenue Code, and the U.S. Treasury regulations and administrative guidance issued thereunder, or FATCA, generally impose a 30% withholding tax on any dividends paid on common stock and subject to the discussion of certain proposed Treasury Regulations below, on the gross proceeds from a disposition of common stock (if such disposition occurs after December 31, 2018), in each case if paid to a "foreign financial institution" or a "non-financial foreign entity" (each as defined in the Internal Revenue Code) (including, in some cases, when such foreign financial institution or non-financial foreign entity is acting as an intermediary), unless (i) in the case of a foreign financial institution, such institution enters into an agreement with the U.S. government to withhold on certain payments, and to collect and provide to the U.S. tax authorities substantial information regarding U.S. account holders of such institution (which includes certain equity and debt holders of such institution, as well as certain account holders that are non-U.S. entities with U.S. owners), (ii) in the case of a non-financial foreign entity, such entity certifies that it does not have any "substantial United States owners" (as defined in the Internal Revenue Code) or provides the

[Table of Contents](#)

applicable withholding agent with a certification identifying the direct and indirect substantial United States owners of the entity (in either case, generally on an IRS Form W-8BEN-E), or (iii) the foreign financial institution or non-financial foreign entity otherwise qualifies for an exemption from these rules and provides appropriate documentation (such as an IRS Form W-8BEN-E). Withholding under FATCA generally applies to payments of dividends on our common stock. While withholding under FATCA may apply to payments of gross proceeds from a sale or other disposition of our common stock, under recently proposed U.S. Treasury Regulations, withholding on payments of gross proceeds is not required. Although such regulations are not final, applicable withholding agents may rely on the proposed regulations until final regulations are issued. Foreign financial institutions located in jurisdictions that have an intergovernmental agreement with the U.S. governing these rules may be subject to different rules. Under certain circumstances, a holder might be eligible for refunds or credits of such taxes. Non-U.S. holders are encouraged to consult their own tax advisors regarding the effects of FATCA on an investment in our common stock.

INVESTORS CONSIDERING THE PURCHASE OF OUR COMMON STOCK ARE URGED TO CONSULT THEIR OWN TAX ADVISORS REGARDING THE APPLICATION OF THE U.S. FEDERAL INCOME TAX LAWS TO THEIR PARTICULAR SITUATIONS AND THE APPLICABILITY AND EFFECT OF U.S. FEDERAL ESTATE AND GIFT TAX LAWS AND ANY STATE, LOCAL OR NON-U.S. TAX LAWS AND TAX TREATIES.

UNDERWRITING

We, the selling stockholders and the underwriters named below have entered into an underwriting agreement with respect to the shares being offered. Subject to certain conditions, each underwriter has severally agreed to purchase the number of shares indicated in the following table. Goldman Sachs & Co. LLC, J.P. Morgan Securities LLC and Citigroup Global Markets Inc. are the representatives of the underwriters.

<u>Underwriters</u>	<u>Number of Shares</u>
Goldman Sachs & Co. LLC	
J.P. Morgan Securities LLC	
Citigroup Global Markets Inc.	
Barclays Capital Inc.	
Jefferies LLC	
RBC Capital Markets, LLC	
UBS Securities LLC	
KeyBanc Capital Markets Inc.	
William Blair & Company, L.L.C.	
Canaccord Genuity LLC	
JMP Securities LLC	
Macquarie Capital (USA) Inc.	
Total	<u><u>35,609,754</u></u>

The underwriters are committed to take and pay for all of the shares being offered, if any are taken, other than the shares covered by the option described below unless and until this option is exercised.

The underwriters have an option to buy up to an additional 4,871,138 shares from us and 470,325 shares from certain of the selling stockholders to cover sales by the underwriters of a greater number of shares than the total number set forth in the table above. They may exercise that option for 30 days. If any shares are purchased pursuant to this option, the underwriters will severally purchase shares in approximately the same proportion as set forth in the table above.

The following table shows the per share and total underwriting discounts and commissions to be paid to the underwriters by us and the selling stockholders. Such amounts are shown assuming both no exercise and full exercise of the underwriters' option to purchase 5,341,463 additional shares.

<u>Paid by the Company</u>		
	<u>No Exercise</u>	<u>Full Exercise</u>
Per Share	\$	\$
Total	\$	\$
<u>Paid by the Selling Stockholders</u>		
	<u>No Exercise</u>	<u>Full Exercise</u>
Per Share	\$	\$
Total	\$	\$

Shares sold by the underwriters to the public will initially be offered at the initial public offering price set forth on the cover of this prospectus. Any shares sold by the underwriters to securities dealers may be sold at a discount of up to \$ _____ per share from the initial public offering price. After the initial offering of the shares, the representatives may change the offering price and the other selling terms. The offering of the shares by the underwriters is subject to receipt and acceptance and subject to the underwriters' right to reject any order in whole or in part.

Table of Contents

We, our officers, directors, the selling stockholders, holders of substantially all of our common stock, restricted stock units or stock options outstanding immediately prior to this offering and funds affiliated with Dragoneer Investment Group, LLC that have indicated an interest in purchasing shares in this offering have agreed or will agree with the underwriters, subject to certain exceptions, not to dispose of or hedge any of their common stock or securities convertible into or exchangeable for shares of common stock during the period from the date of this prospectus continuing through the date 180 days after the date of this prospectus, except with the prior written consent of Goldman Sachs & Co. LLC and J.P. Morgan Securities LLC. This agreement does not apply to any existing employee benefit plans. See "Shares Eligible for Future Sale" for a discussion of certain transfer restrictions.

One or more funds affiliated with Dragoneer Investment Group, LLC have indicated an interest in purchasing an aggregate of up to \$75.0 million in shares of our common stock in this offering at the initial public offering price. Because this indication of interest is not a binding agreement or commitment to purchase, one or more funds affiliated with Dragoneer Investment Group, LLC could determine to purchase more, less or no shares in this offering or the underwriters could determine to sell more, less or no shares to one or more funds affiliated with Dragoneer Investment Group, LLC. The underwriters will receive the same discount on any of our shares of common stock purchased by one or more funds affiliated with Dragoneer Investment Group, LLC as they will from any other shares of common stock sold to the public in this offering. Any funds affiliated with Dragoneer Investment Group, LLC that purchase shares in this offering will agree with the underwriters, subject to certain exceptions, not to dispose of or hedge any of their common stock or securities convertible into or exchangeable for shares of common stock during the period from the date of this prospectus continuing through the date 180 days after the date of this prospectus, except with the prior written consent of Goldman Sachs & Co. LLC and J.P. Morgan Securities LLC.

Prior to this offering, there has been no public market for the shares. The initial public offering price has been negotiated among us and the representatives. Among the factors to be considered in determining the initial public offering price of the shares, in addition to prevailing market conditions, will be our historical performance, estimates of our business potential and earnings prospects, an assessment of our management and the consideration of the above factors in relation to market valuation of companies in related businesses.

We have been approved to list our common stock on the New York Stock Exchange under the symbol "DT".

In connection with the offering, the underwriters may purchase and sell shares of common stock in the open market. These transactions may include short sales, stabilizing transactions and purchases to cover positions created by short sales. Short sales involve the sale by the underwriters of a greater number of shares than they are required to purchase in the offering, and a short position represents the amount of such sales that have not been covered by subsequent purchases. A "covered short position" is a short position that is not greater than the amount of additional shares for which the underwriters' option described above may be exercised. The underwriters may cover any covered short position by either exercising their option to purchase additional shares or purchasing shares in the open market. In determining the source of shares to cover the covered short position, the underwriters will consider, among other things, the price of shares available for purchase in the open market as compared to the price at which they may purchase additional shares pursuant to the option described above. "Naked" short sales are any short sales that create a short position greater than the amount of additional shares for which the option described above may be exercised. The underwriters must cover any such naked short position by purchasing shares in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the common stock in the open market after pricing that could adversely affect investors who purchase in the offering. Stabilizing transactions consist of various bids for or purchases of common stock made by the underwriters in the open market prior to the completion of the offering.

Table of Contents

The underwriters may also impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because the representatives have repurchased shares sold by or for the account of such underwriter in stabilizing or short covering transactions.

Purchases to cover a short position and stabilizing transactions, as well as other purchases by the underwriters for their own accounts, may have the effect of preventing or retarding a decline in the market price of our common stock, and together with the imposition of the penalty bid, may stabilize, maintain or otherwise affect the market price of the common stock. As a result, the price of the common stock may be higher than the price that otherwise might exist in the open market. The underwriters are not required to engage in these activities and may end any of these activities at any time. These transactions may be effected on the New York Stock Exchange, in the over-the-counter market or otherwise.

We estimate that our share of the total expenses of the offering, excluding underwriting discounts and commissions, will be approximately \$5.0 million. We have agreed to reimburse the underwriters for certain of their expenses in an amount not to exceed \$30,000.

We and the selling stockholders have agreed to indemnify the several underwriters against certain liabilities, including liabilities under the Securities Act of 1933.

The underwriters and their respective affiliates are full service financial institutions engaged in various activities, which may include sales and trading, commercial and investment banking, advisory, investment management, investment research, principal investment, hedging, market making, brokerage and other financial and non-financial activities and services. Certain of the underwriters and their respective affiliates have provided, and may in the future provide, a variety of these services to us and to persons and entities with relationships with us, for which they received or will receive customary fees and expenses. In August 2018, we entered into a credit facility with affiliates of Goldman Sachs & Co. LLC, J.P. Morgan Securities LLC and Jefferies LLC, under which these underwriters and their respective affiliates have been, and may be in the future, paid customary fees. For additional information on our credit facility, see the sections titled "Management's Discussion and Analysis of Financial Condition and Results of Operations—Liquidity and Capital Resources" and "Description of Indebtedness."

In the ordinary course of their various business activities, the underwriters and their respective affiliates, officers, directors and employees may purchase, sell or hold a broad array of investments and actively trade securities, derivatives, loans, commodities, currencies, credit default swaps and other financial instruments for their own account and for the accounts of their customers, and such investment and trading activities may involve or relate to assets, securities and/or instruments of the issuer (directly, as collateral securing other obligations or otherwise) and/or persons and entities with relationships with the issuer. The underwriters and their respective affiliates may also communicate independent investment recommendations, market color or trading ideas and/or publish or express independent research views in respect of such assets, securities or instruments and may at any time hold, or recommend to clients that they should acquire, long and/or short positions in such assets, securities and instruments.

European Economic Area

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a "Relevant Member State") an offer to the public of our common stock may not be made in that Relevant Member State, except that an offer to the public in that Relevant

Table of Contents

Member State of our common stock may be made at any time under the following exemptions under the Prospectus Directive:

- To any legal entity which is a qualified investor as defined in the Prospectus Directive;
- To fewer than 150 natural or legal persons (other than qualified investors as defined in the Prospectus Directive), subject to obtaining the prior consent of the representatives for any such offer; or
- In any other circumstances falling within Article 3(2) of the Prospectus Directive;

provided that no such offer or shares of our common stock shall require us or any underwriter to publish a prospectus pursuant to Article 3 of the Prospectus Directive.

For the purposes of this provision, the expression an “offer to the public” in relation to any shares of our common stock in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and our common stock to be offered so as to enable an investor to decide to purchase shares of our common stock, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Relevant Member State. The expression “Prospectus Directive” means Directive 2003/71/EC (as amended, including by Directive 2010/73/EU and Regulation (EU) 2017/1129), and includes any relevant implementing measure in the Relevant Member State.

United Kingdom

In the United Kingdom, this prospectus is being directed only at persons who are qualified investors who are (i) investment professionals falling within Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005 (the Order); or (ii) high net worth entities and other persons to whom it may lawfully be communicated, falling within Article 49(2)(a) to (d) of the Order (all such persons together being referred to as “relevant persons”). Any investment or investment activity to which this prospectus relates is available only to relevant persons and will only be engaged with relevant persons. Any person in the United Kingdom who is not a relevant person should not act or rely on this prospectus or any of its contents.

Canada

The shares of common stock may be sold in Canada only to purchasers purchasing, or deemed to be purchasing, as principal that are accredited investors, as defined in National Instrument 45-106 Prospectus Exemptions or subsection 73.3(1) of the Securities Act (Ontario), and are permitted clients, as defined in National Instrument 31-103 Registration Requirements, Exemptions, and Ongoing Registrant Obligations. Any resale of the shares of common stock must be made in accordance with an exemption form, or in a transaction not subject to, the prospectus requirements of applicable securities laws.

Securities legislation in certain provinces or territories of Canada may provide a purchaser with remedies for rescission or damages if this prospectus (including any amendment thereto) contains a misrepresentation, provided that the remedies for rescission or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser’s province or territory. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser’s province or territory of these rights or consult with a legal advisor.

Pursuant to section 3A.3 of National Instrument 33-105 Underwriting Conflicts (NI 33-105), the underwriters are not required to comply with the disclosure requirements of NI 33-105 regarding underwriter conflicts of interest in connection with this offering.

Hong Kong

The shares of common stock may not be offered or sold in Hong Kong by means of any document other than (i) in circumstances which do not constitute an offer to the public within the meaning of the Companies (Winding Up and Miscellaneous Provisions) Ordinance (Cap. 32 of the Laws of Hong Kong) ("Companies (Winding Up and Miscellaneous Provisions) Ordinance") or which do not constitute an invitation to the public within the meaning of the Securities and Futures Ordinance (Cap. 571 of the Laws of Hong Kong) ("Securities and Futures Ordinance"), or (ii) to "professional investors" as defined in the Securities and Futures Ordinance and any rules made thereunder, or (iii) in other circumstances which do not result in the document being a "prospectus" as defined in the Companies (Winding Up and Miscellaneous Provisions) Ordinance, and no advertisement, invitation or document relating to the shares of common stock may be issued or may be in the possession of any person for the purpose of issue (in each case whether in Hong Kong or elsewhere), which is directed at, or the contents of which are likely to be accessed or read by, the public in Hong Kong (except if permitted to do so under the securities laws of Hong Kong) other than with respect to shares of common stock which are or are intended to be disposed of only to persons outside Hong Kong or only to "professional investors" in Hong Kong as defined in the Securities and Futures Ordinance and any rules made thereunder.

Singapore

This prospectus has not been registered as a prospectus with the Monetary Authority of Singapore. Accordingly, this prospectus and any other document or material in connection with the offer or sale, or invitation for subscription or purchase, of the shares may not be circulated or distributed, nor may the shares be offered or sold, or be made the subject of an invitation for subscription or purchase, whether directly or indirectly, to persons in Singapore other than (i) to an institutional investor (as defined under Section 4A of the Securities and Futures Act, Chapter 289 of Singapore (the "SFA")) under Section 274 of the SFA, (ii) to a relevant person (as defined in Section 275(2) of the SFA) pursuant to Section 275(1) of the SFA, or any person pursuant to Section 275(1A) of the SFA, and in accordance with the conditions specified in Section 275 of the SFA or (iii) otherwise pursuant to, and in accordance with the conditions of, any other applicable provision of the SFA, in each case subject to conditions set forth in the SFA.

Where the shares of common stock are subscribed or purchased under Section 275 of the SFA by a relevant person that is a corporation (which is not an accredited investor (as defined in Section 4A of the SFA)) the sole business of which is to hold investments and the entire share capital of which is owned by one or more individuals, each of whom is an accredited investor, the securities (as defined in Section 239(1) of the SFA) of that corporation shall not be transferable for 6 months after that corporation has acquired the shares under Section 275 of the SFA except: (1) to an institutional investor under Section 274 of the SFA or to a relevant person (as defined in Section 275(2) of the SFA), (2) where such transfer arises from an offer in that corporation's securities pursuant to Section 275(1A) of the SFA, (3) where no consideration is or will be given for the transfer, (4) where the transfer is by operation of law, (5) as specified in Section 276(7) of the SFA, or (6) as specified in Regulation 32 of the Securities and Futures (Offers of Investments) (Shares and Debentures) Regulations 2005 of Singapore ("Regulation 32")

Where the shares of common stock are subscribed or purchased under Section 275 of the SFA by a relevant person that is a trust (where the trustee is not an accredited investor (as defined in Section 4A of the SFA)) whose sole purpose is to hold investments and each beneficiary of the trust is an accredited investor, the beneficiaries' rights and interest (howsoever described) in that trust shall not be transferable for 6 months after that trust has acquired the shares under Section 275 of the SFA except: (1) to an institutional investor under Section 274 of the SFA or to a relevant person (as defined

Table of Contents

in Section 275(2) of the SFA), (2) where such transfer arises from an offer that is made on terms that such rights or interest are acquired at a consideration of not less than \$200,000 (or its equivalent in a foreign currency) for each transaction (whether such amount is to be paid for in cash or by exchange of securities or other assets), (3) where no consideration is or will be given for the transfer, (4) where the transfer is by operation of law, (5) as specified in Section 276(7) of the SFA, or (6) as specified in Regulation 32.

Singapore Securities and Futures Act Product Classification – Solely for the purposes of its obligations pursuant to Sections 309B(1) (a) and 309B(1)(c) of the SFA, the Company has determined, and hereby notifies all relevant persons (as defined in Section 309A of the SFA) that the common shares are “prescribed capital markets products” (as defined in the Securities and Futures (Capital Markets Products) Regulations 2018) and Excluded Investment Products (as defined in MAS Notice SFA 04-N12: Notice of the Sale of Investment products and MAS Notice FAA-N16: Notice on Recommendations on Investment Products).

Japan

The securities have not been and will not be registered under the Financial Instruments and Exchange Act of Japan (Act No. 25 of 1948, as amended), or the FIEA. The securities may not be offered or sold, directly or indirectly, in Japan or to or for the benefit of any resident of Japan (including any person resident in Japan or any corporation or other entity organized under the laws of Japan) or to others for reoffering or resale, directly or indirectly, in Japan or to or for the benefit of any resident of Japan, except pursuant to an exemption from the registration requirements of the FIEA and otherwise in compliance with any relevant laws and regulations of Japan.

LEGAL MATTERS

The validity of our common stock offered by this prospectus will be passed upon for us by Goodwin Procter LLP, Boston, Massachusetts. Certain legal matters in connection with this offering will be passed upon for the underwriters by Wilmer Cutler Pickering Hale and Dorr LLP, Boston, Massachusetts.

EXPERTS

The consolidated financial statements as of March 31, 2018 and 2019 and for each of the three years in the period ended March 31, 2019 included in this Prospectus and in the Registration Statement have been so included in reliance on the report of BDO USA LLP, an independent registered public accounting firm, appearing elsewhere herein and in the Registration Statement, given on the authority of said firm as experts in auditing and accounting.

WHERE YOU CAN FIND ADDITIONAL INFORMATION

We have filed with the SEC a registration statement on Form S-1 under the Securities Act with respect to the shares of our common stock offered by this prospectus. This prospectus, which constitutes a part of the registration statement, does not contain all of the information set forth in the registration statement, some of which is contained in exhibits to the registration statement as permitted by the rules and regulations of the SEC. For further information with respect to us and our common stock, we refer you to the registration statement, including the exhibits filed as a part of the registration statement. Statements contained in this prospectus concerning the contents of any contract or any other document is not necessarily complete. If a contract or document has been filed as an exhibit to the registration statement, please see the copy of the contract or document that has been filed. Each statement in this prospectus relating to a contract or document filed as an exhibit is qualified in all respects by the filed exhibit. The SEC maintains an Internet website that contains reports, proxy statements and other information about issuers, like us, that file electronically with the SEC. The address of that website is www.sec.gov.

As a result of this offering, we will become subject to the information and reporting requirements of the Exchange Act and, in accordance with this law, will file periodic reports, proxy statements and other information with the SEC. These periodic reports, proxy statements and other information will be available for inspection and copying at the SEC's public reference facilities and the website of the SEC referred to above. We also maintain a website at www.dynatrace.com. Upon the completion of this offering, you may access these materials free of charge as soon as reasonably practicable after they are electronically filed with, or furnished to, the SEC. Information contained on our website is not a part of this prospectus, and the inclusion of our website address in this prospectus is an inactive textual reference only.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS	F-9

Table of Contents

After the reorganization transactions discussed in Note 2 to the Company's consolidated financial statements are effected, we expect to be in a position to render the following audit report.

/s/ BDO USA, LLP
Troy, Michigan
July 24, 2019

"Report of Independent Registered Public Accounting Firm

Shareholders and Board of Directors
Dynatrace, Inc.
Waltham, Massachusetts

Opinion on the Financial Statements

We have audited the accompanying consolidated balance sheets of Dynatrace, Inc. (the Company) and subsidiaries as of March 31, 2018 and 2019, the related consolidated statements of operations, comprehensive income (loss), member's deficit and cash flows for each of the three years in the period ended March 31, 2019, and the related notes (collectively referred to as the "consolidated financial statements"). In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Company and subsidiaries at March 31, 2018 and 2019, and the results of their operations and their cash flows for each of the three years in the period ended March 31, 2019, in conformity with accounting principles generally accepted in the United States of America.

Change in Accounting Principle

As discussed in Note 2 to the consolidated financial statements, the Company has changed its method of accounting for revenue from contracts with customers in fiscal year 2019 due to the adoption of the new revenue standard. The Company adopted the standard using the full retrospective approach.

Basis for Opinion

These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's consolidated financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audits we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion.

[Table of Contents](#)

Our audits included performing procedures to assess the risks of material misstatement of the consolidated financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. We believe that our audits provide a reasonable basis for our opinion.

We have served as the Company's auditor since 2015.

**DYNATRACE INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

1. Description of the Business

Business

Dynatrace (“Dynatrace”, or the “Company”) offers a software intelligence platform, purpose-built for the enterprise cloud. As enterprises embrace the cloud as the means for digital transformation, the Company’s all-in-one intelligence platform addresses the growing complexity that technology and digital business teams face. The Company’s platform does so by utilizing artificial intelligence and advanced automation to provide answers, not just data, about the performance of applications, the underlying hybrid cloud infrastructure, and the experience of our customers’ users. The Company designed our software intelligence platform to allow our customers to modernize and automate IT operations, develop and release higher quality software faster, and deliver superior user experiences.

Thoma Bravo, a private equity investment firm, completed its acquisition of Compuware Corporation on December 15, 2014. Following the acquisition, Compuware Corporation was restructured following which Compuware Parent, LLC became the owner of Dynatrace Holding Corporation (“DHC”), under which the Compuware and Dynatrace businesses were separated, establishing Dynatrace as a standalone business. Following the corporate reorganization described below, Dynatrace became wholly owned by Dynatrace, Inc. (formerly Dynatrace Holdings LLC).

Fiscal year

The Company’s fiscal year ends on March 31. References to Fiscal 2019, for example, refer to the fiscal year ended March 31, 2019.

2. Significant Accounting Policies

Basis of presentation and consolidation

Prior to _____, 2019, Dynatrace Holdings LLC, a Delaware limited liability company, was an indirect equity holder of DHC that indirectly and wholly owned Dynatrace, LLC. On _____, 2019, Dynatrace Holdings LLC (i) converted into a Delaware corporation with the name Dynatrace, Inc. and (ii) through a series of corporate reorganization steps, became the parent company of DHC. Additionally, as part of the reorganization, two wholly owned subsidiaries of DHC, Compuware Corporation and SIGOS LLC, were spun-out from the corporate structure to the DHC shareholders. As a result of these transactions, DHC is a wholly owned indirect subsidiary of Dynatrace, Inc. These reorganization steps are collectively referred to as the “reorganization.”

The reorganization was completed between entities that have been under common control since December 15, 2014. Therefore, these financial statements retroactively reflect DHC and Dynatrace Holdings LLC on a consolidated basis for the periods presented. The spin-offs of Compuware Corporation and SIGOS LLC from DHC have been accounted for retroactively as a change in reporting entity and accordingly, these financial statements exclude their accounts and results.

The consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”). All intercompany balances and transactions have been eliminated in the accompanying financial statements. The income tax amounts in the accompanying consolidated financial statements have been calculated based on a separate return methodology and presented as if the Company’s operations were separate taxpayers in the respective jurisdictions.

[Table of Contents](#)

As described in Note 16, the consolidated financial statements reflect the debt and debt service associated with subordinated demand promissory notes payable of DHC to a related party. The financial statements also reflect certain expenses incurred by DHC related to Dynatrace for certain functions including shared services, which are immaterial to these financial statements. These attributed expenses were allocated to Dynatrace on the basis of direct usage when identifiable, and for resources indirectly used by Dynatrace, allocations were based on a proportional cost allocation methodology, to reflect estimated usage by Dynatrace. Management considers the allocation methodology and results to be reasonable for all periods presented. However, the financial information presented in these financial statements may not reflect the consolidated financial position, operating results and cash flows of Dynatrace had the Dynatrace business been a separate stand-alone entity during the periods presented. Actual costs that would have been incurred if Dynatrace had been a stand-alone company would depend on multiple factors, including organizational structure and strategic decisions made in various areas.

Foreign currency translation

The reporting currency of the Company is the U.S. dollar ("USD"). The functional currency of the Company's principal foreign subsidiaries is the currency of the country in which each entity operates. Accordingly, assets and liabilities in the consolidated balance sheet have been translated at the rate of exchange at the balance sheet date, and revenues and expenses have been translated at average exchange rates prevailing during the period the transactions occurred. Translation adjustments have been excluded from the results of operations and are reported as accumulated other comprehensive loss within the consolidated statements of member's deficit.

Transaction gains and losses generated by the effect of changes in foreign currency exchange rates on recorded assets and liabilities denominated in a currency different than the functional currency of the applicable entity are recorded in Other, net in the consolidated statements of operations.

Use of estimates

The preparation of consolidated financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, the disclosure of contingent assets and liabilities as of the date of the consolidated financial statements, and the reported amounts of revenue and expenses during the reporting period. Management periodically evaluates such estimates and assumptions for continued reasonableness. In particular, the Company makes estimates with respect to the stand-alone selling price for each distinct performance obligation in customer contracts with multiple performance obligations, the uncollectible accounts receivable, the fair value of tangible and intangible assets acquired, and liabilities assumed in a business combination, valuation of long-lived assets, equity-based compensation expense and income taxes, among other things. Appropriate adjustments, if any, to the estimates used are made prospectively based upon such periodic evaluation. Actual results could differ from those estimates.

Segment information

The Company operates as one operating segment. The Company's chief operating decision maker is its chief executive officer, who reviews financial information presented on a consolidated basis, for purposes of making operating decisions, assessing financial performance and allocating resources.

Business combinations

When the Company acquires a business, management allocates the purchase price to the net tangible and identifiable intangible assets acquired. Any residual purchase price is recorded as

Table of Contents

goodwill. The allocation of the purchase price requires management to make significant estimates in determining the fair values of assets acquired and liabilities assumed, especially with respect to intangible assets. These estimates can include but are not limited to, the cash flows that an asset is expected to generate in the future, the appropriate weighted average cost of capital and the cost savings expected to be derived from acquiring an asset.

Deferred offering costs

Deferred offering costs, primarily consisting of legal, accounting, printer, and other direct fees and costs related to the Company's proposed initial public offering, are capitalized. The deferred offering costs will be offset against proceeds from the proposed initial public offering upon the closing of the offering. In the event the anticipated offering is not completed, all of the deferred offering costs will be expensed. As of March 31, 2018, the Company had not yet capitalized any offering costs in the consolidated balance sheets. As of March 31, 2019, the Company has capitalized \$1.6 million of offering costs which are included in prepaid expenses and other current assets in the consolidated balance sheets.

Revenue recognition

The Company elected to early adopt Accounting Standards Codification Topic 606 ("ASC 606"), Revenue from Contracts with Customers, effective April 1, 2018, using the full retrospective transition method. Under this method, the Company is presenting the consolidated financial statements for the years ended March 31, 2017 and 2018 as if ASC 606 had been effective for those periods. The Company applied a practical expedient not to disclose the amount of the transaction price allocated to the remaining performance obligations for contracts with an original expected duration of one year or less.

The Company sells software licenses, subscriptions, maintenance and support, and professional services together in contracts with its customers, which include end-customers and channel partners. Certain of the Company's software license agreements provide customers with a right to use software perpetually or for a defined term. As required under applicable accounting principles, the goods and services that the Company promises to transfer to a customer are accounted for separately if they are distinct from one another. Promised items that are not distinct are bundled with other promised items until the bundle is distinct from other promised items in the contract. The transaction price is allocated to the separate performance obligations based on the relative estimated standalone selling prices of those performance obligations.

In accordance with ASC 606, revenue is recognized when a customer obtains control of promised services. The amount of revenue recognized reflects the consideration the Company expects to be entitled to receive in exchange for these services.

The Company determines revenue recognition through the following steps:

1. Identification of the contract, or contracts, with a customer

The Company considers the terms and conditions of the contract in identifying the contracts. The Company determines a contract with a customer to exist when the contract is approved, each party's rights regarding the services to be transferred can be identified, the payment terms for the services can be identified, it has been determined the customer has the ability and intent to pay, and the contract has commercial substance. At contract inception, the Company will evaluate whether two or more contracts should be combined and accounted for as a single contract and whether the combined or single contract includes more than one performance obligation. The Company applies judgment in determining the customer's ability and intent to pay, which is based on a variety of factors, including the customer's historical payment experience or, in the case of a new customer, credit, and financial information pertaining to the customer.

Table of Contents

2. Identification of the performance obligations in the contract
Performance obligations promised in a contract are identified based on the services and the products that will be transferred to the customer that are both capable of being distinct, whereby the customer can benefit from the service either on its own or together with other resources that are readily available from third parties or from the Company, and are distinct in the context of the contract, whereby the transfer of the services and the products is separately identifiable from other promises in the contract. The Company's performance obligations consist of (i) software licenses, (ii) subscription services, (ii) maintenance and support for software licenses, and (iv) professional services.
3. Determination of the transaction price
The transaction price is determined based on the consideration to which the Company expects to be entitled in exchange for transferring services to the customer. Variable consideration is included in the transaction price if, in the Company's judgment, it is probable that a significant future reversal of cumulative revenue under the contract will not occur. The Company's contracts do not contain a significant financing component.
4. Allocation of the transaction price to the performance obligations in the contract
If the contract contains a single performance obligation, the entire transaction price is allocated to the single performance obligation. Contracts that contain multiple performance obligations require an allocation of the transaction price to each performance obligation based on a relative standalone selling price ("SSP") for arrangements not including software licenses or subscription services. The Company has determined that its pricing for software licenses and subscription services is highly variable and therefore allocates the transaction price to those performance obligations using the residual approach.
5. Recognition of revenue when, or as a performance obligation is satisfied
Revenue is recognized at the time the related performance obligation is satisfied by transferring the control of the promised service to a customer. Revenue is recognized when control of the service is transferred to the customer, in an amount that reflects the consideration that the Company expects to receive in exchange for those services.

Subscriptions

Subscription revenue relates to performance obligations for which the Company recognizes revenue over time as control of the product or service is transferred to the customer. Subscription revenue includes arrangements that permit customers to access and utilize the Company's hosted software delivered on a software-as-a-service ("SaaS") basis, term-based and perpetual licenses of the Company's Dynatrace Software, as well as maintenance. Fees associated with subscriptions are generally invoiced and deferred upon contract execution and are recognized as revenue ratably over the term. The when-and-if available updates of the Dynatrace Software, which are part of the maintenance agreement, are critical to the continued utility of the Dynatrace Software; therefore, the Company has determined the Dynatrace Software and the related when-and-if available updates to be a combined performance obligation. Accordingly, when Dynatrace Software is sold under a term-based license, the revenue associated with this combined performance obligation is recognized ratably over the license term as maintenance is included for the duration of the license term. The Company has determined that perpetual licenses of Dynatrace Software provide customers with a material right to acquire additional goods or services that they would not receive without entering into the initial contract as the renewal option for maintenance services allows the customer to extend the utility of the Dynatrace Software without having to again make the initial payment of the perpetual software license fee. The associated material right is deferred and recognized ratably over the term of the expected optional maintenance renewals.

[Table of Contents](#)

Subscription revenue also includes maintenance services relating to the Company's Classic offerings as that revenue is recognized over time given that our obligation is a stand-ready obligation to provide customer support and when-and-if available updates to the Classic software as well as certain other stand-ready obligations.

Licenses

Licenses revenue relates to performance obligations for which the Company recognizes revenue at the point that the license is transferred to the customer. License revenue includes these perpetual and term-based licenses that relate to the Company's Classic offerings ("Classic Software Licenses"), which are focused on traditional customer approaches to building, operating and monitoring software in more stable and less dynamic and complex environments. The Company requires customers purchasing perpetual licenses of Classic Software and Dynatrace Software, as defined below, to also purchase maintenance services covering at least one year from the beginning of the perpetual license. The Company has determined that the Classic Software Licenses and the related maintenance services are separate performance obligations with different patterns of recognition. Revenue from Classic Software Licenses is recognized upon delivery of the license. Revenue from maintenance is recognized over the period of time of the maintenance agreement and is included in "Subscriptions".

Services

The Company offers implementation, consulting and training services for the Company's software solutions and SaaS offerings. Services fees are generally based on hourly rates. Revenues from services are recognized in the period the services are performed, provided that collection of the related receivable is reasonably assured.

Disaggregation of Revenue

The following table is a summary of the Company's total revenues by geographic region:

	March 31, 2017		Year Ended March 31, 2018		March 31, 2019	
	Amount	%	Amount	%	Amount	%
	(in thousands, except percentages)					
North America	\$250,292	62%	\$232,521	58%	\$248,012	57%
Europe, Middle East and Africa	99,725	25%	111,295	28%	125,615	29%
Asia Pacific	44,829	11%	39,275	10%	45,563	11%
Latin America	11,531	3%	14,956	4%	11,776	3%
Total revenue	<u>\$406,377</u>		<u>\$398,047</u>		<u>\$430,966</u>	

For the years ended March 31, 2017, 2018, and 2019, the United States was the only country that represented more than 10% of the Company's revenues in any period, constituting \$237.2 million and 58%, \$216.6 million and 54%, and \$233.3 million and 54%, respectively, of total revenue.

Deferred commissions

Deferred sales commissions earned by the Company's sales force are considered incremental and recoverable costs of obtaining a contract with a customer. Sales commissions for new contracts are deferred and then amortized on a straight-line basis over a period of benefit which the Company has estimated to be three years. The period of benefit has been determined by taking into consideration the duration of customer contracts, the life of the technology, renewals of maintenance

Table of Contents

and other factors. Sales commissions for renewal contracts are deferred and then amortized on a straight-line basis over the related contractual renewal period. Amortization expense is included in sales and marketing expenses on the consolidated statements of operations.

The Company periodically reviews these deferred costs to determine whether events or changes in circumstances have occurred that could impact the period of benefit of these deferred commissions. There were no impairment losses recorded during the periods presented.

The following table represents a rollforward of the Company's deferred commissions:

	Fiscal Year Ended March 31,		
	2017	2018	2019
Beginning balance	\$ 19,398	\$ 25,219	\$ 39,282
Additions to deferred commissions	16,431	30,835	43,212
Amortization of deferred commissions	(10,610)	(16,772)	(23,244)
Ending Balance	\$ 25,219	\$ 39,282	\$ 59,250
Deferred commissions, current	13,643	18,763	27,705
Deferred commissions, non-current	11,576	20,519	31,545
Total deferred commissions	\$ 25,219	\$ 39,282	\$ 59,250

Deferred revenue

Deferred revenue consists primarily of billed subscription and maintenance fees related to the future service period of subscription and maintenance agreements in effect at the reporting date. Deferred licenses are also included in deferred revenue for those billed arrangements that are being recognized over time. Short-term deferred revenue represents the unearned revenue that will be earned within twelve months of the balance sheet date; whereas, long-term deferred revenue represents the unearned revenue that will be earned after twelve months from the balance sheet date.

As of March 31, 2019, the aggregate amount of the transaction price allocated to remaining performance obligations was \$552.3 million, which consists of both billed consideration in the amount of \$365.7 million and unbilled consideration in the amount of \$186.6 million that the Company expects to recognize as subscription revenue. The Company expects to recognize 59% of this amount as revenue in the fiscal year ending March 31, 2020 and 100% over the three years ending March 31, 2022.

As of March 31, 2019, approximately \$365.7 million of billed revenue is expected to be recognized from remaining performance obligations for subscription arrangements. The Company expects to recognize revenue on 75% of those remaining performance obligations over the next 12 months, with the balance recognized thereafter.

The Company applied a practical expedient allowing it not to disclose the amount of the transaction price allocated to the remaining performance obligations for contracts with an original expected duration of one year or less.

Payment terms

Payment terms and conditions vary by contract type, although the Company's terms generally include a requirement of payment within 30 days. In instances where the timing of revenue recognition differs from the timing of payment, the Company has determined that its contracts do not include a significant financing component. The primary purpose of invoicing terms is to provide customers with simplified and predictable ways of purchasing products and services, not to receive financing from customers or to provide customers with financing.

Cost of revenues

Cost of subscriptions

Cost of subscription revenue includes all direct costs to deliver the Company's subscription products including salaries, benefits, share-based compensation and related expenses such as employer taxes, allocated overhead for facilities, IT, third-party hosting fees related to the Company's cloud services, and amortization of internally developed capitalized software technology. The Company recognizes these expenses as they are incurred.

Cost of services

Cost of services revenue includes salaries, benefits, share-based compensation and related expenses such as employer taxes for our services organization, allocated overhead for depreciation of equipment, facilities and IT, and amortization of acquired intangible assets. The Company recognizes expense related to its services organization as they are incurred.

Amortization of acquired technology

Amortization of acquired technology includes amortization expense for technology acquired in business combinations.

Research and development

Research and development ("R&D") costs, which primarily include the cost of programming personnel, including share-based compensation, amounted to \$52.9 million, \$58.3 million, and \$76.8 million during the years ended March 31, 2017, 2018 and 2019, respectively. R&D costs related to the Company's software solutions are reported as "Research and development" in the consolidated statements of operations.

Leases

The Company primarily leases facilities under operating leases. For leases that contain rent escalation or rent concession provisions, rent expense is recorded on a straight-line basis over the term of the lease. The difference between the rent paid and the straight-line rent expense is recorded as current and non-current deferred rent liability, as appropriate on the consolidated balance sheets. Rent expense for operating leases was \$8.7 million, \$8.7 million, and \$11.3 million for the years ended March 31, 2017, 2018 and 2019, respectively.

Restructuring expense

The Company defines restructuring expense as costs directly associated with exit or disposal activities. Such costs include employee severance and termination benefits, contract termination fees and penalties, and other exit or disposal costs. In general, the Company records involuntary employee-related exit and disposal costs when there is a substantive plan for employee severance and related costs are probable and estimable. For one-time termination benefits (i.e., no substantive plan) and employee retention costs, expense is recorded when the employees are entitled to receive such benefits and the amount can be reasonably estimated. Contract termination fees and penalties and other exit and disposal costs are generally recorded when incurred.

Concentration of credit risk

Financial instruments that potentially subject the Company to concentrations of credit risk consist of cash and cash equivalents and accounts receivable. The Company maintains its cash in bank deposit accounts that, at times, may exceed federally insured limits. There is presently no

[Table of Contents](#)

concentration of credit risk for customers as no individual entity represented more than 10% of the balance in accounts receivable as of March 31, 2017, 2018, and 2019 or 10% of revenue for the years ended March 31, 2017, 2018, and 2019.

Cash and cash equivalents

All highly-liquid investments with a maturity of three months or less when purchased are considered cash and cash equivalents.

Accounts receivable and allowance for doubtful accounts

The Company continuously assesses the collectability of outstanding customer invoices and in doing so, assesses the need to maintain an allowance for estimated losses resulting from the non-collection of customer receivables. In estimating this allowance, the Company considers factors such as: historical collection experience, a customer's current creditworthiness, customer concentrations, age of outstanding balances, both individually and in the aggregate, and existing economic conditions. Actual customer collections could differ from the Company's estimates. Allowance for doubtful accounts totaled \$3.9 million and \$3.4 million, and is classified as "Accounts receivable, net" in the consolidated balance sheets as of March 31, 2018 and 2019, respectively.

Property and equipment, net

The Company states property and equipment, net, at the acquisition cost less accumulated depreciation. Depreciation is recorded using the straight-line method over the estimated useful lives of the related assets. Leasehold improvements are depreciated over the shorter of the useful lives of the assets or the related lease. The following table presents the estimated useful lives of the Company's property and equipment:

Computer equipment and software	3 - 5 years
Furniture and fixtures	5 - 10 years
Leasehold improvements	Shorter of the useful life of the asset or the lease term

Property and equipment are reviewed for impairment whenever events or circumstances indicate their carrying value may not be recoverable. When such events or circumstances arise, an estimate of future undiscounted cash flows produced by the asset, or the appropriate grouping of assets, is compared to the asset's carrying value to determine if an impairment exists. If the asset is determined to be impaired, the impairment loss is measured based on the excess of its carrying value over its fair value. Assets to be disposed of are reported at the lower of carrying value or net realizable value. There was no impairment of property and equipment during the years ended March 31, 2017, 2018, and 2019.

Goodwill and other intangible assets

The Company's goodwill and intangible assets primarily relate to the push-down of such assets relating to Thoma Bravo's December 15, 2014 acquisition of Compuware Corporation based on their relative fair values at the date of acquisition.

Goodwill represents the excess of the purchase price of an acquired business over the fair value of the underlying net tangible and intangible assets. Goodwill is evaluated for impairment annually in the fourth quarter of the Company's fiscal year, and whenever events or changes in circumstances indicate the carrying value of goodwill may not be recoverable. Triggering events that may indicate impairment include, but are not limited to, a significant adverse change in customer demand or business climate that could affect the value of goodwill or a significant decrease in expected cash flows. Since the Company's acquisition by Thoma Bravo through March 31, 2019, the Company did not have any goodwill impairment.

[Table of Contents](#)

Intangible assets consist primarily of customer relationships, developed technology, trade names and trademarks, all of which have a finite useful life, as well as goodwill. Intangible assets are amortized based on either the pattern in which the economic benefits of the intangible assets are estimated to be realized or on a straight-line basis, which approximates the manner in which the economic benefits of the intangible asset will be consumed.

Capitalized software

The Company's capitalized software includes the costs of internally developed software technology and software technology purchased through acquisition. Internally developed software technology consists of development costs associated with software products to be sold ("software products") and internal use software associated with hosted software.

Costs associated with the development of software technology are expensed prior to the establishment of technological feasibility and capitalized thereafter until the related software technology is available for general release to customers. Technological feasibility is established when management has authorized and committed to funding a project and it is probable that the project will be completed, and the software will be used to perform the function intended. For internal use software, capitalization begins during the application development stage. The Company capitalized \$5.2 million, \$3.6 million, and \$1.9 million for internally developed software technology during the years ended March 31, 2017, 2018, and 2019, respectively, and is recorded within "Other intangible assets, net" in the consolidated balance sheets.

The amortization of capitalized software technology is computed on a project-by-project basis. The annual amortization is the greater of the amount computed using (a) the ratio of current gross revenues compared with the total of current and anticipated future revenues for the software technology or (b) the straight-line method over the remaining estimated economic life of the software technology, including the period being reported on. Amortization begins when the software technology is available for general release to customers. The amortization period for capitalized software is generally three to five years. Amortization of internally developed capitalized software technology is \$2.6 million, \$5.0 million, and \$6.8 million during the years ended March 31, 2017, 2018, and 2019, respectively, and is recorded within "Cost of subscriptions" in the consolidated statements of operations.

Impairment of long-lived assets

Long-lived assets, including amortized intangibles, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. If circumstances require a long-lived asset be tested for possible impairment, the Company first compares undiscounted cash flows expected to be generated by an asset to the carrying value of the asset. If the carrying value of the long-lived asset is not recoverable on an undiscounted cash flow basis, impairment is recognized to the extent that the carrying value exceeds its fair value. Fair value is estimated by the Company using discounted cash flows and other market-related valuation models, including earnings multiples and comparable asset market values. If circumstances change or events occur to indicate that the Company's fair market value has fallen below book value, the Company will compare the estimated fair value of long-lived assets (including goodwill) to its book value. If the book value exceeds the estimated fair value, the Company will recognize the difference as an impairment loss in the consolidated statements of operations. The Company did not incur any impairment losses during the years ended March 31, 2017, 2018, and 2019.

Income taxes

The Company accounts for income taxes under the asset and liability method, which requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of events

Table of Contents

that have been included in the financial statements. Under this method, deferred tax assets and liabilities are determined based on the differences between the financial statements and tax bases of assets and liabilities and net operating loss and credit carryforwards using enacted tax rates in effect for the year in which the differences are expected to reverse. The effect of a change in tax rates on deferred tax assets and liabilities is recognized in the period that includes the enactment date. The Company does not permanently reinvest any earnings in its foreign subsidiaries and recognizes all deferred tax liabilities that arise from outside basis differences in its investment in subsidiaries.

The Company records net deferred tax assets to the extent it believes these assets will more likely than not be realized. These deferred tax assets are subject to periodic assessments as to recoverability and if it is determined that it is more likely than not that the benefits will not be realized, valuation allowances are recorded which would reduce deferred tax assets. In making such determination, the Company considers all available positive and negative evidence, including future reversals of existing taxable temporary differences, projected future taxable income, tax planning strategies and recent financial operations.

Interest and penalties related to uncertain income tax positions are included in the income tax provision.

Fair value of assets and liabilities

Assets and liabilities recorded at fair value in the financial statements are categorized based upon the level of judgment associated with the inputs used to measure their fair value. Hierarchical levels which are directly related to the amount of subjectivity associated with the inputs to the valuation of these assets or liabilities are as follows:

- Level 1: Observable inputs that reflect quoted prices for identical assets or liabilities in active markets;
- Level 2: Observable inputs, other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; and
- Level 3: Unobservable inputs reflecting the Company's own assumptions incorporated in valuation techniques used to determine fair value. These assumptions are required to be consistent with market participant assumptions that are reasonably available.

The Company's carrying amounts of financial instruments, including cash and cash equivalents, accounts receivable, accounts payable, and other current liabilities approximate their fair values due to their short maturities.

Share-based compensation

Certain employees were granted management incentive units ("MIUs") which make a holder eligible to participate in distributions of cash, property, or securities of Compuware Parent LLC made in respect of the Company (whether by way of dividend, repurchase, recapitalization, or otherwise). In the event the employee is no longer employed by the Company, including due to a change in control, as defined, all the management incentive units will be subject to a repurchase arrangement, at the discretion of the Company, Compuware Parent LLC, or Thoma Bravo and certain Thoma Bravo affiliated funds that hold equity in Compuware Parent LLC (collectively, "TB"). There have been no distributions during the years ended March 31, 2017, 2018, and 2019.

[Table of Contents](#)

On January 1, 2018, certain MIU participants exchanged their MIUs for appreciation units (“AUs”) which entitle a holder to receive the same cash payments as the holder would have received if the holder had continued to own the MIUs that had been exchanged. In the event the employee is no longer employed by the Company, including due to a change in control, as defined, all the AUs will be subject to a repurchase arrangement at the discretion of the Company, Compuware Parent LLC, or TB. There have been no distributions during the years ended March 31, 2017, 2018, and 2019.

The Company recognizes compensation expense for a share-based award on a straight-line basis over an employee’s requisite service period based on the award’s fair value. Share-based awards are settled in cash and are accounted for as liability-based awards. As such, liabilities for awards under these plans are required to be measured at fair value at each reporting date until the date of settlement.

Excess tax benefits of awards related to awards exercises are recognized as an income tax benefit in the income statement and reflected in operating activities in the statement of cash flows. Share-based compensation cost that has been included in income from continuing operations amounted to \$0.3 million, \$22.3 million, and \$71.2 million for the years ended March 31, 2017, 2018, and 2019. The total income tax benefit recognized in the consolidated statements of operations for share-based compensation arrangements was zero, \$0.7 million, and \$4.8 million for the years ended March 31, 2017, 2018, and 2019, respectively. The liability for these share-based awards is recorded in accrued expenses, non-current on the balance sheet.

Earnings per share

Basic earnings per share attributable to common shareholders is calculated by dividing the net income attributable to common shareholders for the period by the weighted-average number of common shares outstanding during the period, without consideration of potentially dilutive securities. Diluted earnings per share includes the dilutive effect of common share equivalents and is calculated using the weighted-average number of common shares and the common share equivalents outstanding during the reporting period. An antidilutive impact is an increase in earnings per share or a reduction in net loss per share resulting from the conversion, exercise, or contingent issuance of certain securities. For the years ended March 31, 2017, 2018, and 2019, basic and diluted earnings per share have been retroactively adjusted to reflect the reorganization transactions described in Note 2.

Recently adopted accounting pronouncements

In May 2014, the FASB issued Accounting Standards Update (“ASU”) 2014-09, Revenue from Contracts with Customers (Topic 606), which supersedes the revenue recognition requirements in Accounting Standards Codification 605, Revenue Recognition and establishes a new revenue standard. This new standard is based on the principle that revenue is recognized to depict the transfer of control of goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled to in exchange for those goods or services. The standard also requires additional disclosures about the nature, amount, timing and uncertainty of revenues and cash flows arising from customer contracts, including significant judgments and changes in judgments, and assets recognized from costs incurred to obtain or fulfill a contract. The FASB has also issued several amendments to the new standard which were designed to clarify and simplify the adoption process.

In preparation for adoption of the new standard, the Company updated its accounting policies, systems, internal controls and processes. The Company adopted Topic 606 as of April 1, 2018 using the full retrospective method, which required adjustments to the historical financial information for fiscal years 2017 and 2018 to be consistent with the new standard. The Company recorded a net decrease

[Table of Contents](#)

to member's accumulated deficit of \$25.9 million as of April 1, 2016 as a result of the transition. The most significant impacts of the standard relate to the timing of revenue recognition for arrangements involving licenses and sales commissions. Under the new revenue standard, term licenses of the Company's Classic products and the associated maintenance are considered separate performance obligations. This results in revenue associated with these term licenses being recognized upon delivery of the license rather than over the contractual term. Perpetual licenses and term license related to Dynatrace Software and the associated maintenance which includes when-and-if-available updates have been determined to be combined performance obligations and are recognized ratably over the longer of the term or useful life of the license. Additionally, some deferred revenue, primarily from arrangements involving term licenses, was never recognized as revenue and instead is now a part of the cumulative effect adjustment within accumulated deficit. Finally, the Company is required to capitalize and amortize incremental costs of obtaining a contract, such as certain sales commission costs, over the remaining contractual term or over an expected period of benefit, which the Company has determined to be approximately three years.

The Company applied the following practical expedients permitted under Topic 606; for all reporting periods presented before the date of initial adoption, the Company has elected not to disclose the amount of the transaction price allocated to the remaining performance obligations or provide an explanation of when the Company expects to recognize that amount as revenue. Additionally, the Company has also elected not to separately evaluate each contract modification that occurred before the initial adoption date. The Company has elected not to assess whether a contract has a significant financing component if it expects at contract inception that the period between payment and the transfer of products or services will be one year or less.

In August 2016, the FASB issued ASU 2016-15, Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments. The ASU addresses eight specific cash flow issues with the objective of reducing the existing diversity in practice in how certain transactions are classified in the statement of cash flows. The ASU will be applied using a retrospective transition method to each period presented. This new guidance is effective for annual reporting periods beginning after December 15, 2017, and interim periods within those periods, with early adoption permitted. The Company adopted the guidance as of April 1, 2018, noting no material impact on the consolidated financial statements.

In January 2017, the FASB issued ASU 2017-04, Intangibles—Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment, which removes step 2 from the goodwill impairment test. Under the new guidance, if a reporting unit's carrying amount exceeds its fair value, an entity will record an impairment charge based on that difference. The impairment charge will be limited to the amount of goodwill allocated to that reporting unit. This new guidance is effective for annual and interim reporting periods beginning after December 15, 2019, with early adoption permitted. The Company adopted the guidance as of March 31, 2018, noting no material impact on the consolidated financial statements.

In January 2017, the FASB issued ASU 2017-01, Business Combinations (Topic 805): Clarifying the Definition of a Business, which clarifies when transactions should be accounted for as acquisitions (or disposals) of assets or business. This new guidance is effective for annual reporting periods beginning after December 15, 2017, including interim periods within those periods, with early adoption permitted. The Company adopted the guidance as of April 1, 2018, noting no material impact on the consolidated financial statements.

In May 2017, the FASB issued ASU 2017-09, Compensation—Stock Compensation (Topic 718): Scope of Modification Accounting. The update provides guidance about which changes to the terms or conditions of a share-based payment award require an entity to apply modification accounting under

Topic 718. This new guidance is effective for annual and interim reporting periods beginning after December 15, 2017 with early adoption permitted. The Company adopted the guidance as of March 31, 2018, noting no material impact on the consolidated financial statements.

Recently issued accounting pronouncements

In February 2016, the FASB issued ASU 2016-02, Leases (Topic 842). The amendments supersede current lease requirements in Topic 840 which require lessees to recognize most leases on their balance sheets as lease liabilities with corresponding right-of-use assets. The objective of Topic 842 is to establish the principles that lessees and lessors shall apply to report useful information to users of financial statements about the amount, timing, and uncertainty of cash flows arising from a lease. This new guidance is effective for public companies for annual reporting periods beginning after December 15, 2018, and interim periods within those periods, except for emerging growth companies who may elect to adopt the standard for annual reporting periods beginning after December 15, 2019. In July 2018, the FASB issued ASU 2018-11, Leases (Topic 842): Targeted Improvements that allows entities to recognize a cumulative-effect adjustment to the opening balance of retained earnings in the period of adoption. The Company plans to elect this new transition guidance upon adoption of the standard on April 1, 2020. The Company will use the package of practical expedients which allows Dynatrace to not (1) reassess whether any expired or existing contracts are considered or contain leases; (2) reassess the lease classification for any expired or existing leases; and (3) reassess the initial direct costs for any existing leases. Adoption of the standard is expected to result in the recognition of the right-of-use assets and lease liabilities for operating leases. The Company is currently evaluating the effects the standard will have on its consolidated financial statements.

In August 2018, the FASB issued ASU 2018-15, Customer's Accounting for Implementation Costs Incurred in a Cloud Computing Arrangement That Is a Service Contract; Disclosures for Implementation Costs Incurred for Internal-Use Software and Cloud Computing Arrangements, which aligns the accounting for implementation costs incurred in a hosting arrangement that is a service contract with the accounting for implementation costs incurred to develop or obtain internal-use software under ASC 350-40, in order to determine which costs to capitalize and recognize as an asset. ASU 2018-15 is effective for annual periods, and interim periods within those years, beginning after December 15, 2020, and can be applied either prospectively to implementation costs incurred after the date of adoption or retrospectively to all arrangements. The Company is currently evaluating the effects the standard will have on its consolidated financial statements.

3. Business Combinations

In November 2017, the Company completed the acquisition of Qumram AG (Qumram), a Swiss company whose technology allows organizations to gain insight into user behavior and enhance customer experience by recording, analyzing and visually replaying user sessions, for an aggregate purchase price of \$20.8 million. Total cash consideration net of cash acquired was \$11.3 million. The Company has recorded a payment obligation of \$8.5 million, of which \$3.6 million classified as "Accrued expenses, current" and \$4.9 million classified as "Accrued expenses, non-current" in its consolidated balance sheet for the year ended March 31, 2018. Of the total purchase price, \$1.7 million was allocated to acquired technology and an immaterial amount to net tangible assets acquired, with the excess \$18.7 million of the purchase price over the fair value of net tangible and intangible assets acquired recorded as goodwill. The Company also recognized transaction costs of approximately \$0.2 million, which are included in general and administrative expense in its consolidated statement of operations for the year ended March 31, 2018. The acquired technology has an estimated useful life of 6 years and is recorded within "Other intangible assets, net" in the consolidated balance sheets for the year ended March 31, 2018. The acquisition has been accounted for as a business combination under the acquisition method. Goodwill generated from the acquisition is

Table of Contents

attributable to expected synergies from future growth and potential future monetization opportunities, and is not deductible for tax purposes. Pro forma revenue and results of operations have not been presented because the historical results of Qumram were not material to the Company's consolidated financial statements in any period presented.

4. Prepaid Expenses and Other Current Assets

Prepaid expenses and other current assets consisted of the following (in thousands):

	March 31,	
	2018	2019
Prepaid expenses	\$ 9,546	\$ 13,334
Income taxes refundable	1,825	4,078
Other	232	1,356
Prepaid expenses and other current assets	<u>\$ 11,603</u>	<u>\$ 18,768</u>

5. Property and Equipment, Net

The following table summarizes, by major classification, the components of property and equipment (in thousands):

	March 31,	
	2018	2019
Computer equipment and software	\$ 38,340	\$ 37,745
Furniture and fixtures	7,108	6,701
Leasehold improvements	10,586	11,741
Other	874	1,260
Total property and equipment	56,908	57,447
Less: accumulated depreciation and amortization	(38,430)	(39,522)
Property and equipment, net	<u>\$ 18,478</u>	<u>\$ 17,925</u>

Depreciation and amortization of property and equipment totaled \$11.1 million, \$8.8 million, and \$7.3 million for the years ended March 31, 2017, 2018, and 2019, respectively.

6. Goodwill and Intangible Assets, net

Changes in the carrying amount of goodwill, including from the Company's formation and acquisitions occurring prior to fiscal 2017, on a consolidated basis for fiscal 2017, fiscal 2018, and fiscal 2019 consist of the following (in thousands):

	March 31,	
	2018	2019
Balance, beginning of year	\$ 1,251,155	\$ 1,270,937
Goodwill from acquisitions	18,741	—
Foreign currency impact	1,041	(817)
Balance, end of year	<u>\$ 1,270,937</u>	<u>\$ 1,270,120</u>

[Table of Contents](#)

Intangible assets, net excluding goodwill consist of (in thousands):

	Weighted Average Useful Life (in months)	March 31,	
		2018	2019
Capitalized software	109	\$ 186,808	\$ 188,608
Customer relationships	120	351,555	351,555
Trademarks and tradenames	120	55,003	55,003
Total intangible assets		593,366	595,166
Less: accumulated amortization		(263,251)	(336,043)
Total intangible assets, net		\$ 330,115	\$ 259,123

Amortization of other intangible assets totaled \$73.9 million, \$73.5 million, and \$72.8 million for the years ended March 31, 2017, 2018 and 2019, respectively.

As of March 31, 2019, the estimated future amortization expense of the Company's other intangible assets in the table above is as follows (in thousands):

	Fiscal Year Ended March 31,					
	2020	2021	2022	2023	2024	Thereafter
Capitalized software	\$ 17,845	\$ 16,430	\$ 15,867	\$ 15,673	\$ 15,421	\$ 10,629
Customer relationships	34,780	29,243	24,660	20,794	17,534	10,473
Trademarks and tradenames	5,501	5,501	5,501	5,501	4,753	3,017
Total amortization	\$ 58,126	\$ 51,174	\$ 46,028	\$ 41,968	\$ 37,708	\$ 24,119

7. Income Taxes

Income tax provision

Income/(loss) before income taxes and the income tax provision/(benefit) include the following (in thousands):

	Fiscal Year Ended March 31,		
	2017	2018	2019
Domestic	\$ (58,188)	\$ (64,391)	\$ (163,385)
Foreign	41,795	12,616	23,474
Total	\$ (16,393)	\$ (51,775)	\$ (139,911)

The income tax provision includes the following (in thousands):

	Fiscal Year Ended March 31,		
	2017	2018	2019
Income tax (benefit) expense			
Federal	\$ 2,048	\$ (393)	\$ 3,213
State	605	1,198	575
Foreign	8,585	11,638	5,920
Total current tax position	11,238	12,443	9,708
Federal	(23,781)	(72,336)	(29,021)
State	(4,404)	(990)	(5,464)
Foreign	(242)	(114)	1,060
Total deferred tax provision	(28,427)	(73,440)	(33,425)
Total income tax (benefit) expense	\$ (17,189)	\$ (60,997)	\$ (23,717)

Table of Contents

The Company's income tax benefit of \$17.2 million for the year ended March 31, 2017 differed from the amount computed on pre-tax loss at the U.S. federal income tax rate of 35%, because tax attributes at the Company are shared with other members of its consolidated tax group, some of whom are not included in this filing.

The Company's income tax benefit of \$61.0 million for the year ended March 31, 2018 differed from the amount computed on pretax income at the U.S. federal blended rate of 31.5% primarily due to the Tax Cuts and Jobs Act (the "Tax Act"). The Tax Act was signed into law on December 22, 2017 and includes, among other items, a permanent reduction to the U.S. corporate income tax rate from 35% to 21% effective January 1, 2018 and requires immediate taxation of accumulated, unremitted non-U.S. earnings (the "Transition Tax"). As a result, at March 31, 2018, the Company recognized a tax benefit of \$50.0 million from revaluing U.S. net deferred tax liabilities. The Transition Tax had no impact on the Company's income tax provision.

The Company's income tax benefit of \$23.7 million for the year ended March 31, 2019 differed from the amount computed on pre-tax loss at the U.S. federal income tax rate of 21% primarily because of non-deductible share-based compensation. The Tax Act includes two new U.S. corporate tax provisions effective for the year ended March 31, 2019, the global intangible low-taxed income ("GILTI") and the base-erosion and anti-abuse tax ("BEAT"). The GILTI provision requires the Company to include in its U.S. income tax return non-U.S. subsidiary earnings in excess of an allowable return on the non-U.S. subsidiary's tangible assets. The BEAT provision in the Tax Act eliminates the deduction of certain base-erosion payments made to related non-U.S. corporations, and imposes a minimum tax if the amount is greater than the regular tax. The Company evaluated the GILTI and BEAT provisions resulting in an immaterial impact to the financial statements for the year ended March 31, 2019.

The tax rate reconciliation is as follows (in thousands):

	Fiscal Year Ended March 31,		
	2017	2018	2019
Income tax (benefit) at U.S. federal statutory income tax rate	\$ (5,738)	\$ (16,309)	\$ (29,381)
State and local tax expense	(3,799)	208	(4,890)
Foreign tax rate differential	(2,920)	3,619	2,051
Non-deductible expenses	1,215	8,645	11,807
Tax credits	(7,482)	(6,173)	(13,233)
Sharing of consolidated tax attributes	(6,417)	(8,890)	—
Changes in tax law	—	(50,033)	—
Changes in valuation allowance	6,633	5,133	6,087
Foreign withholding tax	1,544	2,701	3,086
Other adjustments	(225)	102	756
Total income tax (benefit)	<u>\$ (17,189)</u>	<u>\$ (60,997)</u>	<u>\$ (23,717)</u>

Deferred tax assets and liabilities

Based on the Company's review of both positive and negative evidence regarding the realizability of deferred tax assets at March 31, 2019, a valuation allowance continues to be recorded against certain deferred tax assets based upon the conclusion that it was more likely than not they would not be realized. The valuation allowance at March 31, 2018 and 2019 relates primarily to foreign tax credits and net operating losses.

[Table of Contents](#)

Temporary differences and carryforwards that give rise to a significant portion of deferred tax assets and liabilities are as follows (in thousands):

	March 31,	
	2018	2019
Deferred revenue	\$ —	\$ 4,752
Intangible assets	1,621	1,247
Accrued expenses	4,891	5,983
Share-based compensation	714	4,776
Net operating loss carryforwards	5,743	4,470
Other tax carryforwards, primarily foreign tax credits	25,811	32,630
Other	5,165	1,183
Total deferred tax assets before valuation allowance	43,945	55,041
Less: valuation allowance	(25,591)	(31,678)
Net deferred tax assets	18,354	23,363
Intangible assets	66,253	52,778
Capitalized research and development costs	1,792	822
Fixed assets	16	(447)
Deferred revenue	2,246	—
State taxes	10,406	6,090
Other	7,986	1,040
Total deferred tax liabilities	88,699	60,283
Net deferred tax liabilities	\$ (70,345)	\$ (36,920)
Long-term deferred tax assets	9,850	10,678
Long-term deferred tax liabilities	(80,195)	(47,598)
Net deferred tax liabilities	\$ (70,345)	\$ (36,920)

At March 31, 2018 and 2019, the Company had net operating losses (tax-effected) and tax credit carryforwards for income tax purposes before valuation allowance of \$31.6 million, and \$37.1 million, respectively, that expire in the tax years as follows (in thousands):

	Fiscal Year Ended March 31,		Expiration
	2018	2019	
Non-U.S. net operating losses	\$ 4,756	\$ 4,301	Indefinite
Non-U.S. net operating losses	988	169	2020-2026
U.S. federal and state tax carryforwards	—	2,657	Indefinite
U.S. federal and state tax carryforwards, primarily foreign tax credits	25,811	29,973	2026-2037
Total Carryforwards	\$ 31,555	\$ 37,100	

Uncertain tax positions

The amount of gross unrecognized tax benefits was \$9.1 million and \$9.7 million as of March 31, 2018 and 2019, respectively, all of which would favorably affect the Company's effective tax rate if recognized in future periods.

Table of Contents

The following is a tabular reconciliation of the total amounts of unrecognized tax benefits for the years ended March 31, 2017, 2018, and 2019 (in thousands):

	Fiscal Year Ended March 31,		
	2017	2018	2019
Gross unrecognized tax benefit, beginning of year	\$ 8,332	\$ 8,770	\$ 9,143
Gross increases to tax positions for prior periods	461	257	20
Gross decreases to tax positions for prior periods	(23)	(482)	(70)
Gross increases to tax positions for current period	—	598	560
Gross unrecognized tax benefit, end of year	<u>\$ 8,770</u>	<u>\$ 9,143</u>	<u>\$ 9,653</u>

As of March 31, 2018 and 2019, the net interest and penalties payable associated with its uncertain tax positions are immaterial. During the years ended March 31, 2017, 2018, and 2019, respectively, the Company recognized an immaterial amount of net interest expense.

The Company has open years from tax periods 2009 and forward, primarily in China. These open years contain matters that could be subject to differing interpretations of applicable tax laws and regulations due to the amount, timing or inclusion of revenue and expenses.

8. Accrued Expenses

Accrued expenses, current consisted of the following (in thousands):

	March 31,	
	2018	2019
Accrued employee - related expenses	\$ 32,398	\$ 35,192
Accrued tax liabilities	6,929	6,274
Accrued restructuring	1,953	1,488
Accrued professional fees	2,219	3,440
Accrued installments for acquisition	3,616	4,832
Income taxes payable	870	3,811
Other	10,447	9,883
Total accrued expenses, current	<u>\$ 58,432</u>	<u>\$ 64,920</u>

Accrued expenses, non-current consisted of the following (in thousands):

	March 31,	
	2018	2019
Share-based compensation	\$ 22,565	\$ 92,047
Other	9,345	6,312
Total accrued expenses, non-current	<u>\$ 31,910</u>	<u>\$ 98,359</u>

9. Long-term Debt

On August 23, 2018, the Company entered into the First Lien Credit Agreement to provide for a term loan commitment (the "First Lien Term Loan") in which the Company borrowed an aggregate principal amount of \$950.0 million, which matures on August 23, 2025. Borrowings under the First Lien Term Loan bear interest, at the Company's election, at either (i) the Alternative Base Rate, as defined per the credit agreement, plus 2.25% per annum, or (ii) LIBOR plus 3.25% per annum, if the net

Table of Contents

leverage ratio exceeds 4.35 to 1.00 and is subject to a reduction if the net leverage ratio is lower than 4.35 to 1.00 or if there is an initial public offering. Interest payments are due quarterly, or more frequently, based on the terms of the credit agreement. Principal payments required under the First Lien Term Loan are approximately \$2.4 million per quarter, commencing on March 31, 2019, with the remainder due at maturity.

On August 23, 2018, the Company entered into the Second Lien Credit Agreement to provide for a second term loan commitment (the "Second Lien Term Loan") in which the Company borrowed an aggregate principal amount of \$170.0 million. Borrowings under the Second Lien Term Loan bear interest, at the Company's election, at either (i) the Alternative Base Rate, as defined per the credit agreement, plus 6.00% per annum, or (ii) LIBOR plus 7.00% per annum. The maturity date on the Second Lien Term Loan is August 23, 2026, with principal payment due in full on the maturity date. Interest payments are due quarterly, or more frequently, based on the terms of the credit agreement. The First Lien Term Loan and Second Lien Term Loan are collectively referred to as the "Term Loans".

The Term Loans require prepayments in the case of certain events including: property or asset sale in excess of \$5.0 million, proceeds in excess of \$5.0 million from an insurance settlement, or proceeds from a new debt agreement. An additional prepayment may be required under the First Lien Term Loan related to excess cash flow for the respective measurement periods.

All of the indebtedness under the Term Loans is and will be guaranteed by the Company's existing and future material domestic subsidiaries and is and will be secured by substantially all of the assets of the Company and such guarantors. The Term Loans contain customary negative covenants. At March 31, 2019, the Company was in compliance with all applicable covenants pertaining to the Term Loans.

Debt issuance costs and original issuance discount of \$15.5 million were incurred in connection with the entry into the Term Loans. These debt issuance costs and original issuance discount will be amortized into interest expense over the contractual term of the Term Loans. The Company recognized \$1.2 million of amortization of debt issuance costs and original issuance discount for the year ended March 31, 2019 which is included in the accompanying consolidated statements of operations. At March 31, 2019, the Company had an aggregate principal amount outstanding of \$947.6 million and \$88.7 million for the First Lien Term Loan and Second Lien Term Loan, respectively, bearing interest at 5.7% and 9.5%, respectively. The Company had \$14.3 million of unamortized debt issuance costs and original issuance discount which is recorded as a reduction of the debt balance on the Company's consolidated balance sheets.

During the year ended March 31, 2019, the Company exchanged \$57.1 million in satisfaction of \$56.9 million of its outstanding principal on its Second Lien Term Loan. As a result, the Company recognized a loss on extinguishment of \$0.2 million included in interest income (expense), net in the consolidated statement of operations.

Revolving Facility

The First Lien Credit Agreement further provided for a revolving credit facility (the "Revolving Facility") in an aggregate amount of \$60.0 million, which matures on August 23, 2023. Borrowings under the Revolving Facility bear interest, at the Company's election, at either (i) the Alternative Base Rate, as defined per the credit agreement, plus 2.25% per annum, or (ii) LIBOR plus 3.25% per annum, if the net leverage ratio exceeds 4.35 to 1.00 and is subject to a reduction if the net leverage ratio is lower than 4.35 to 1.00 or if there is an initial public offering. The Revolving Facility includes a \$15.0 million letter of credit sub-facility.

Table of Contents

The Company incurs fees with respect to the Revolving Facility, including (i) a commitment fee of 0.50% per annum of unused commitments under the Revolving Facility, subject to a reduction based on the First Lien Term Loan net leverage, (ii) facility fees equal to the applicable margin in effect for Eurodollar Rate Loans, as defined per the credit agreement, times the average daily stated amount of letters of credit, (iii) a fronting fee equal to either (a) 0.125% per annum on the stated amount of each letter of credit or (b) such other rate per annum as agreed to by the parties subject to the letters of credit, and (iv) customary administrative fees.

All of the indebtedness under the Revolving Facility is and will be guaranteed by the Company's existing and future material domestic subsidiaries and is and will be secured by substantially all of the assets of the Company and such guarantors.

Debt issuance costs of \$0.8 million were incurred in connection with the entry into the Revolving Facility. These debt issuance costs are amortized into interest expense over the contractual term of the loan. The Company recognized \$0.1 million of amortization of debt issuance costs for the year ended March 31, 2019 which is included in the accompanying consolidated statements of operations. There were \$0.7 million of unamortized debt issuance costs included as a reduction of the debt balance on the accompanying consolidated balance sheets as of March 31, 2019.

The Revolving Facility contains customary negative covenants and does not include any financial maintenance covenants other than a springing minimum net leverage ratio not exceeding 7.50 to 1.00 on the last day of any fiscal quarter, which will be tested only upon the occurrence of an event of default or certain other conditions as specified in the agreement. At March 31, 2019, the Company was in compliance with all applicable covenants pertaining to the Revolving Facility.

As of March 31, 2019, there were no amounts outstanding under the Revolving Facility and there were \$0.5 million of letters of credit issued. The Company had \$59.5 million of availability under the Revolving Facility as of March 31, 2019.

Debt maturities

The maturities of outstanding debt are as follows (in thousands):

<u>Fiscal year</u>	<u>Amount</u>
2020	\$ 9,500
2021	9,500
2022	9,500
2023	9,500
2024	9,500
Thereafter	988,814
Total future payments	<u>\$ 1,036,314</u>

10. Restructuring Activities

The Company has undertaken various restructuring activities to achieve its strategic and financial objectives. Restructuring activities include, but are not limited to product offering cancellation and termination of related employees, office relocation, administrative cost structure realignment and consolidation of resources. The Company expects to finance restructuring programs through cash on hand and cash generated from operations. Restructuring costs are estimated based on information available at the time such charges are recorded. In general, management anticipates that restructuring activities will be completed within a time frame such that significant changes to the plan are not likely. Due to the inherent uncertainty involved in estimating restructuring expenses, actual amounts paid for

[Table of Contents](#)

such activities may differ from amounts initially estimated. The Company recorded restructuring expenses of \$5.8 million, \$4.6 million, and \$1.7 million during the years ended March 31, 2017, 2018, and 2019, respectively.

Facility exit costs

Starting in October 2016, the Company began undertaking plans to optimize its U.S. offices, and as result, exited certain leased office spaces. Accordingly, the Company calculated and recorded a liability at the "cease-use" date related to those operating leases based on the difference between the present value of the estimated future sublease rental income and the present value of remaining lease obligations, adjusted for the effects of any prepaid or deferred items. The Company recorded facility exit charges of \$2.0 million, \$0.8 million, and zero to "Restructuring expenses" during the years ended March 31, 2017, 2018, and 2019, respectively. The related liability is recorded in "Accrued expenses, current" on the consolidated balance sheets.

Transformation activities

During the year ended March 31, 2018, the Company announced a restructuring program designed to better align employee resources with its' product offering and future plans, resulting in a reduction in force. Accordingly, the Company calculated and recorded a liability of the estimated termination benefits of \$3.8 million.

During the year ended March 31, 2019, the Company announced a restructuring program designed to better align employee resources with its product offerings and future plans. Accordingly, the Company calculated and recorded a liability of the estimated termination benefits of \$1.7 million.

Restructuring reserves

Restructuring reserve balances of \$2.0 million and \$1.5 million as of March 31, 2018 and 2019, respectively, are classified as "Accrued expenses, current" on the consolidated balance sheets. The Company anticipates that the activities associated with the restructuring reserve balance as of March 31, 2019 will be substantially complete by the end of fiscal 2020.

The Company's consolidated restructuring reserves and related activity are summarized below.

	Employee Termination Benefits	Lease Abandonment Costs	Total
Balance, March 31, 2017	\$ 592	\$ 601	\$ 1,193
Expense	3,840	750	4,590
Utilization	<u>(3,714)</u>	<u>(116)</u>	<u>(3,830)</u>
Balance, March 31, 2018	718	1,235	1,953
Expense	1,715	—	1,715
Utilization	<u>(1,557)</u>	<u>(623)</u>	<u>(2,180)</u>
Balance, March 31, 2019	<u>\$ 876</u>	<u>\$ 612</u>	<u>\$ 1,488</u>

11. Commitments and Contingencies

Tax liability

In connection with the initial public offering, the Company will undertake a series of transactions to spin out two wholly owned businesses from the corporate structure. These transactions will generate a taxable gain upon their occurrence which will be payable by the Company or its affiliates. On _____, 2019 the Company entered into an agreement in which Compuware will distribute \$ _____ million to the Company to fund the majority of the estimated tax liability.

Commitment for operating leases

The Company's commitments for various operating lease agreements relate to office space for various periods that extend through as late as fiscal 2030. Total rent payments under these agreements were approximately \$8.7 million, \$8.7 million, and \$11.3 million for the years ended March 31, 2017, 2018, and 2019, respectively. Certain of these lease agreements contain provisions for renewal options and escalation clauses.

The following table summarizes payments under the Company's operating lease commitments as of March 31, 2019 (in thousands):

<u>Fiscal year</u>	<u>Amount</u>
2020	\$ 13,464
2021	12,872
2022	9,453
2023	9,099
2024	8,570
Thereafter	21,634
Total future contractual payments	<u>\$ 75,092</u>

Legal matters

From time to time, the Company may be a party to lawsuits and legal proceedings arising in the ordinary course of business. In the opinion of the Company's management, these matters, individually and in the aggregate, will not have a material adverse effect on the financial condition and results of the future operations of the Company.

12. Member's Deficit

Dynatrace Holdings LLC was reorganized on April 1, 2015 and has 100 common units as of March 31, 2018 and 2019. In connection with the reorganization transactions described in Note 2, an additional common units of Dynatrace Holdings LLC were issued and subsequently exchanged for shares of common stock. This amount of additional common units includes common units issued upon the exchange of vested MIUs and AUs.

13. Share-based Compensation

Compuware Parent LLC's board of directors (the "Board") has authorized the issuance of 24.1 million Management Incentive Units ("MIUs") and 0.8 million Appreciation Units ("AUs") to certain executive officers and key employees of Dynatrace. The MIUs consist of two types of units which are classified as performance-vested units and time-vested units.

Performance-vested units include four performance targets which vest 25% after each fiscal year end, upon the Board's confirmation that the performance target was met for such fiscal year. These units have a requisite service period that varies based on the grant date, but the service period begins on the grant date and ends on achievement of the final fiscal year performance target. The performance criterion for vesting of performance units has been based on the Company's EBITDA compared to the target established and approved for each fiscal year. Units that are vested based upon performance for any given year for which the target was not met shall not vest, and are subject to repurchase by the Company, Compuware Parent LLC, or TB at any time; provided, that if the target is not met for a given year, but the target for the subsequent year is met, the unvested performance-based units for the previous year shall become vested when the target for the subsequent year was met.

[Table of Contents](#)

Time-vested units vest at 25% one year after grant date (or one year after the vesting start date, if different) and the remaining 75% vest ratably over a 36-month period. These units have a requisite service period of 48 months (or the period from the grant until three years from the date that the first 25% vested) and can be repurchased by the Company, Compuware Parent LLC, or TB at any time.

The Board began offering AUs to non-US employees beginning on January 1, 2018. At that time, participants who had been granted MIUs were offered the chance to exchange their MIUs for AUs. At the time of the exchange 356,792 MIUs were exchanged for AUs with participation thresholds ranging from \$0.00 - \$0.55.

Total compensation expense related to the MIUs and AUs for the respective periods is presented in the table below (in thousands).

	Fiscal Year Ended March 31,		
	2017	2018	2019
Cost of revenues	\$ 28	\$ 1,720	\$ 5,777
Research and development	71	3,858	12,566
Sales and marketing	122	7,536	24,673
General and administrative	128	9,180	28,135
Total compensation expense	<u>\$ 349</u>	<u>\$ 22,294</u>	<u>\$ 71,151</u>

The following table shows the MIU activity for the year ended March 31, 2019:

	Number of Units	Weighted Average Participation Threshold	Fair Value
MIUs outstanding as of March 31, 2018	24,106,646	\$ 0.10	\$ 1.64
Units granted during the year	1,780,900	3.62	
Units exchanged for AUs during the year	(108,406)	0.20	
Units forfeited/repurchased during the year	(1,666,970)	0.12	
MIUs outstanding as of March 31, 2019	<u>24,112,170</u>	<u>\$ 0.36</u>	<u>\$ 5.45</u>
MIUs vested as of March 31, 2019	19,956,710		

The following table shows the AU activity for the year ended March 31, 2019:

	Number of Units	Weighted Average Participation Threshold	Fair Value
AUs outstanding as of March 31, 2018	381,792	\$ 0.17	\$ 1.64
Units converted from MIUs	108,406	0.20	
Units granted during the year	349,000	2.55	
Units forfeited/repurchased during the year	(20,000)	0.41	
AUs outstanding as of March 31, 2019	<u>819,198</u>	<u>\$ 1.18</u>	<u>\$ 5.45</u>
AUs vested as of March 31, 2019	376,588		

The fair value of the equity units underlying the MIUs and AUs has historically been determined by the board of directors as there was no public market for the equity units. The board of directors determines the fair value of the Company's equity units by considering a number of objective and subjective factors including: the valuation of comparable companies, the Company's operating and financial performance, the lack of liquidity of common stock, and general and industry specific economic outlook, amongst other factors.

[Table of Contents](#)

The participation threshold is determined by the Board, based on the fair market value on the grant issuance date upon vesting or settlement, the value associated with the MIU is the difference between the fair value of the unit and the associated participation threshold. The awards are marked to market at the balance sheet date. The weighted average grant date fair value of units granted during the years ended March 31, 2017, 2018 and 2019 was \$0.01, \$0.82, and \$3.62, respectively.

The following key assumptions were used to determine the fair value of the MIUs and AUs for fiscal 2017, 2018, and 2019:

	2017	2018	2019
Expected dividend yield	—	—	—
Expected volatility	110%	50%	50% - 60%
Expected term (years)	3.75	2.5	1.0 - 1.5
Risk-free interest rate	1.67%	2.34%	2.33% - 2.40%

At March 31, 2019, there was \$18.5 million of total unrecognized compensation cost related to unvested units granted under the Plan. That cost is expected to be recognized over a weighted average period of 1.0 - 1.5 years. The total fair value of units vested during the years ended March 31, 2017, 2018 and 2019 was \$0.3 million, \$22.6 million, and \$92.0 million, respectively.

14. Earnings Per Share

For the years ended March 31, 2017, 2018, and 2019, basic and diluted earnings per share have been retroactively adjusted to reflect the reorganization transactions described in Note 2.

The following table sets forth the computation of basic net income (loss) per share (dollars in thousands, except per share data):

	Fiscal Years Ended March 31,		
	2017	2018	2019
Basic net earnings (loss) per share			
Numerator:			
Net income (loss)	\$ 796	\$ 9,222	\$(116,194)
Denominator:			
Weighted average shares outstanding, basic	_____	_____	_____
Net income (loss) per share, basic	=====	=====	=====

The following table sets forth the computation of diluted net income (loss) per share (dollars in thousands, except per share data):

	Fiscal Years Ended March 31,		
	2017	2018	2019
Diluted net earnings (loss) per share			
Numerator:			
Net income (loss)	\$ 796	\$ 9,222	\$(116,194)
Denominator:			
Weighted average shares used in computing basic net earnings (loss) per share	_____	_____	_____
Dilutive effect of equity shares	_____	_____	_____
Weighted average shares outstanding, diluted	_____	_____	_____
Net income (loss) per share, diluted	=====	=====	=====

For the years ended March 31, 2017, 2018 and 2019, _____, _____, and _____ potential shares were excluded from the calculation of diluted earnings per share due to their anti-dilutive effect.

15. Related Party Transactions

The Company has agreements with Thoma Bravo, LLC for financial and management advisory services. During the years ended March 31, 2017, 2018, and 2019, the Company incurred \$2.8 million, \$4.9 million, and \$4.9 million, respectively, related to these services. The related expense is reflected in "General and administrative" expense in the consolidated statements of operations.

The Company had payments to directors of \$0.3 million during the years ended March 31, 2017, 2018, and 2019. Additionally, directors had 2.3 million MIUs outstanding at March 31, 2018 and 2019.

During the years ended March 31, 2018 and 2019, the Company has transfers to related parties of \$3.9 million and \$0.8 million, respectively, which are included in "Additional paid-in capital" in the consolidated balance sheets.

During the years ended March 31, 2017, 2018, and 2019, the Company transferred cash to related parties of \$62.7 million, \$74.6 million, and \$1,177.0 million, respectively, related to debt service and shared costs. Other related party settlements resulted in an increase in payables to related parties of \$25.6 million, \$35.2 million, and \$14.3 million for the years ended March 31, 2017, 2018, and 2019, respectively.

In the year ended March 31, 2017, the Company transferred certain assets related to its Mobile Test offerings to another company under common control. As no consideration was exchanged, the Company recorded an equity transfer to a related party of \$2.3 million on a pre-tax basis.

16. Related Party Debt

On April 1, 2015, the Company entered into \$1.8 billion in subordinated demand promissory notes payable to Compuware Corporation ("Compuware"), a related party. The promissory notes were established in connection with Compuware's external debt financing. All payments of principal and interest are payable on the earliest to occur of (i) demand by the holder, (ii) June 1, 2023 and (iii) the date of acceleration of the promissory notes as a result of the occurrence of an event of default. The Company may prepay the promissory notes at any time without penalty. At March 31, 2018 and 2019, the Company had principal outstanding of \$1.7 billion and \$478.5 million, respectively, included in the consolidated balance sheet as payable to related party. At March 31, 2018 and 2019, the Company accrued interest on the promissory notes of \$91.3 million, at a rate of 2.12% per annum, and \$118.7 million at a rate of 2.72% per annum, respectively, included as a payable to related party in the consolidated balance sheet. For the years ended March 31, 2017, 2018 and 2019, interest expense on the promissory notes were \$25.6 million, \$35.2 million, and \$27.4 million, respectively, and is included in the consolidated statements of operations in interest expense, net. As a result of the August 23, 2018 financing transaction, as described in Note 9 - Long-term Debt, the amount was reduced by the net proceeds of the financing obtained by Dynatrace LLC, leaving \$597.2 million in principal and interest outstanding. In connection with the spin-off, the corresponding receivable at Compuware will be contributed to the Registrant and will eliminate this balance after consolidation.

17. Employee Benefit Plan

The Company has established a 401(k) tax-deferred savings plan (the "401(k) Plan"), which permits participants to make contributions by salary deduction pursuant to Section 401(k) of the Code. The Company is responsible for administrative costs of the 401(k) Plan and may, at its discretion, make matching contributions to the 401(k) Plan. For the years ended March 31, 2017, 2018 and 2019, the Company made contributions of \$1.5 million, \$1.4 million and \$1.9 million to the 401(k) Plan, respectively.

18. Geographic Information

Revenue

Revenues by geography are based on legal jurisdiction. Refer to Note 2 - Significant Accounting Policies for a disaggregation of revenue by geographic region.

Property and equipment, net

The following tables present property and equipment by geographic region for the periods presented (in thousands):

	March 31,	
	2018	2019
North America	\$ 13,311	\$ 10,036
Europe, Middle East and Africa	4,755	7,347
Asia Pacific	312	376
Latin America	100	166
Total property and equipment, net	<u>\$ 18,478</u>	<u>\$ 17,925</u>

19. Subsequent Events

The Company has evaluated subsequent events through the date and time the financial statements were available to be issued on and has nothing additional to report.

PART II

INFORMATION NOT REQUIRED IN PROSPECTUS

Item 13. Other Expenses of Issuance and Distribution.

The following table sets forth all expenses incurred by the registrant, other than underwriting discounts and commissions, in connection with this offering. All amounts shown are estimates except for the SEC registration fee, the FINRA filing fee and the New York Stock Exchange listing fee.

	Amount to be Paid
SEC registration fee	\$ 74,450
FINRA filing fee	92,641
New York Stock Exchange listing fee	295,000
Printing and engraving expenses	355,000
Legal fees and expenses	2,300,000
Accounting fees and expenses	1,800,000
Transfer agent and registrar fees	32,500
Miscellaneous expenses	50,409
Total	\$ 5,000,000

Item 14. Indemnification of Directors and Officers.

The registrant is incorporated under the laws of the State of Delaware. Section 145 of the DGCL provides that a Delaware corporation may indemnify any persons who were, are or are threatened to be made parties to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative (other than an action by or in the right of such corporation), by reason of the fact that such person is or was an officer, director, employee or agent of such corporation, or is or was serving at the request of such corporation as an officer, director, employee or agent of another corporation or enterprise. The indemnity may include expenses (including attorneys' fees), judgments, fines and amounts paid in settlement actually and reasonably incurred by such person in connection with such action, suit or proceeding, provided that such person acted in good faith and in a manner he or she reasonably believed to be in or not opposed to the corporation's best interests and, with respect to any criminal action or proceeding, had no reasonable cause to believe that his or her conduct was illegal. A Delaware corporation may indemnify any persons who were, are or are threatened to be made a party to any threatened, pending or completed action or suit by or in the right of the corporation by reason of the fact that such person is or was a director, officer, employee or agent of such corporation, or is or was serving at the request of such corporation as a director, officer, employee or agent of another corporation or enterprise. The indemnity may include expenses (including attorneys' fees) actually and reasonably incurred by such person in connection with the defense or settlement of such action or suit provided such person acted in good faith and in a manner he or she reasonably believed to be in or not opposed to the corporation's best interests except that no indemnification is permitted without judicial approval if the officer or director is adjudged to be liable to the corporation. Where an officer or director is successful on the merits or otherwise in the defense of any action referred to above, the corporation must indemnify him or her against the expenses (including attorneys' fees) actually and reasonably incurred.

The registrant's charter and bylaws, provide for the indemnification of its directors and officers to the fullest extent permitted under the DGCL.

Table of Contents

Section 102(b)(7) of the DGCL permits a corporation to provide in its certificate of incorporation that a director of the corporation shall not be personally liable to the corporation or its stockholders for monetary damages for breach of fiduciary duties as a director, except for liability for any:

- transaction from which the director derives an improper personal benefit;
- act or omission not in good faith or that involves intentional misconduct or a knowing violation of law;
- unlawful payment of dividends or redemption of shares; or
- breach of a director's duty of loyalty to the corporation or its stockholders.

The registrant's charter includes such a provision. Expenses incurred by any officer or director in defending any such action, suit or proceeding in advance of its final disposition shall be paid by the registrant upon delivery to it of an undertaking, by or on behalf of such director or officer, to repay all amounts so advanced if it shall ultimately be determined that such director or officer is not entitled to be indemnified by the registrant.

Section 174 of the DGCL provides, among other things, that a director who willfully or negligently approves of an unlawful payment of dividends or an unlawful stock purchase or redemption may be held liable for such actions. A director who was either absent when the unlawful actions were approved or dissented at the time may avoid liability by causing his or her dissent to such actions to be entered in the books containing minutes of the meetings of the board of directors at the time such action occurred or immediately after such absent director receives notice of the unlawful acts.

The registrant's policy is to enter into separate indemnification agreements with each of its directors and officers that provide the maximum indemnity allowed to directors and executive officers by Section 145 of the DGCL and also to provide for certain additional procedural protections. The registrant also maintains directors and officers insurance to insure such persons against certain liabilities.

These indemnification provisions and the indemnification agreements entered into between the registrant and its officers and directors may be sufficiently broad to permit indemnification of the registrant's officers and directors for liabilities (including reimbursement of expenses incurred) arising under the Securities Act of 1933, as amended.

The underwriting agreement to be filed as Exhibit 1.1 to this registration statement will provide for indemnification by the underwriters of the registrant and its officers and directors for certain liabilities arising under the Securities Act and otherwise.

Item 15. Recent Sales of Unregistered Securities.

In the three years preceding the filing of this registration statement, we have not issued any securities that were not registered under the Securities Act.

(b) Financial Statement Schedules.

All financial statement schedules are omitted because the information called for is not required or is shown either in the consolidated financial statements or in the notes thereto.

Item 17. Undertakings.

The undersigned registrant hereby undertakes to provide to the underwriters at the closing specified in the underwriting agreement certificates in such denominations and registered in such names as required by the underwriters to permit prompt delivery to each purchaser.

Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.

The undersigned registrant hereby undertakes that:

(1) For purposes of determining any liability under the Securities Act of 1933, the information omitted from the form of prospectus filed as part of this registration statement in reliance upon Rule 430A and contained in a form of prospectus filed by the registrant pursuant to Rule 424(b)(1) or (4) or 497(h) under the Securities Act shall be deemed to be part of this registration statement as of the time it was declared effective.

(2) For the purpose of determining any liability under the Securities Act of 1933, each post-effective amendment that contains a form of prospectus shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

SIGNATURES

Pursuant to the requirements of the Securities Act of 1933, the registrant has duly caused this registration statement on Form S-1 to be signed on its behalf by the undersigned, thereunto duly authorized, in Waltham, Massachusetts on July 30, 2019.

Re: Securities Registered under Registration Statement on Form S-1

Ladies and Gentlemen:

We have acted as counsel to you in connection with your filing of a Registration Statement on Form S-1 (File No. 333-232558) (as amended or supplemented, the "Registration Statement") pursuant to the Securities Act of 1933, as amended (the "Securities Act"), relating to the registration of the offering by Dynatrace, Inc., a Delaware corporation (the "Company"), of up to 40,951,217 shares, which includes up to 35,609,754 shares of Common Stock (the "Company Shares") to be newly issued and sold by the Company and up to 5,341,463 shares of Common Stock (the "Selling Stockholder Shares" and together with the Company Shares, the "Shares") to be sold by the selling stockholders listed in the Registration Statement under "Principal and Selling Stockholders" (the "Selling Stockholders"), including shares purchasable by the underwriters upon their exercise of an option to purchase additional shares granted to the underwriters by the Company and certain of the Selling Stockholders. The Shares are being sold to the several underwriters named in, and pursuant to, an underwriting agreement among the Company, the Selling Stockholder and such underwriters (the "Underwriting Agreement").

We have reviewed such documents and made such examination of law as we have deemed appropriate to give the opinions set forth below. We have relied, without independent verification, on certificates of public officials and, as to matters of fact material to the opinions set forth below, on certificates of officers of the Company.

The opinion set forth below is limited to the Delaware General Corporation Law.

Based on the foregoing, we are of the opinion that (i) the Company Shares have been duly authorized and, upon issuance and delivery against payment therefor in accordance with the terms of the Underwriting Agreement, the Company Shares will be validly issued, fully paid and non-assessable and (ii) the Selling Stockholder Shares have been duly authorized and validly issued and are fully paid and non-assessable.

We hereby consent to the inclusion of this opinion as Exhibit 5.1 to the Registration Statement and to the references to our firm under the caption "Legal Matters" in the Registration Statement. In giving our consent, we do not admit that we are in the category of persons whose consent is required under Section 7 of the Securities Act or the rules and regulations thereunder.

Very truly yours,

GOODWIN PROCTER LLP

DYNATRACE, INC.

2019 EQUITY INCENTIVE PLAN

SECTION 1. GENERAL PURPOSE OF THE PLAN; DEFINITIONS

The name of the plan is the Dynatrace, Inc. 2019 Equity Incentive Plan (the "Plan"). The purpose of the Plan is to encourage and enable the officers, employees, Non-Employee Directors and Consultants of Dynatrace, Inc. (the "Company") and its Affiliates upon whose judgment, initiative and efforts the Company largely depends for the successful conduct of its businesses to acquire a proprietary interest in the Company. It is anticipated that providing such persons with a direct stake in the Company's welfare will assure a closer identification of their interests with those of the Company and its stockholders, thereby stimulating their efforts on the Company's behalf and strengthening their desire to remain with the Company or one of its Affiliates.

The following terms shall be defined as set forth below:

"*Act*" means the U.S. Securities Act of 1933, as amended, and the rules and regulations thereunder.

"*Administrator*" means either the Board or the compensation committee of the Board or a similar committee performing the functions of the compensation committee and which is comprised of not less than two Non-Employee Directors who are independent.

"*Affiliate*" means, at the time of determination, any "parent" or "subsidiary" of the Company as such terms are defined in Rule 405 of the Act. The Board will have the authority to determine the time or times at which "parent" or "subsidiary" status is determined within the foregoing definition.

"*Award*" or "*Awards*," except where referring to a particular category of grant under the Plan, shall include Incentive Stock Options, Non-Qualified Stock Options, Stock Appreciation Rights, Restricted Stock Awards, Restricted Stock Units, Unrestricted Stock Awards, Cash-Based Awards, and Dividend Equivalent Rights.

"*Award Agreement*" means a written or electronic document setting forth the terms and provisions applicable to an Award granted under the Plan. Each Award Agreement is subject to the terms and conditions of the Plan.

"*Board*" means the Board of Directors of the Company.

"*Cash-Based Award*" means an Award entitling the recipient to receive a cash-denominated payment.

"*Change in Control*" means any of the following (i) the sale of all or substantially all of the assets of the Company on a consolidated basis to an unrelated person or entity (or group of persons or entities acting in concert), other than Thoma Bravo, LLC and its investment funds and affiliates (collectively, "*TB*"), (ii) a merger, reorganization or consolidation pursuant to which an

unrelated person or entity (or group of persons or entities acting in concert), other than TB, acquires shares of capital stock of the Company (y) possessing the voting power to elect a majority of the Company's board of directors or (z) representing more than fifty percent (50%) of the issued and outstanding shares of capital stock of the Company, (iii) the sale of more than fifty percent (50%) of the issued and outstanding shares of capital stock of the Company to an unrelated person or entity (or group of persons or entities acting in concert), other than TB, or (iv) any other transaction other than a Public Sale (as hereinafter defined) in which the owners of the Company's outstanding voting power immediately prior to such transaction do not, directly or indirectly, own at least a majority of the outstanding voting power of the Company or any successor entity (or its ultimate parent, if applicable) immediately following completion of the transaction other than as a result of the acquisition of securities directly from the Company, excluding, in the case of each of clauses (ii), (iii) and (iv), the issuance of securities by the Company in a financing transaction approved by the Administrator. "Public Sale" means any sale pursuant to a registered public offering under the Securities Act or any sale to the public pursuant to Rule 144 promulgated under the Securities Act effected through a broker, dealer or market maker.

"Code" means the U.S. Internal Revenue Code of 1986, as amended, and any successor Code, and related rules, regulations and interpretations.

"Consultant" means a consultant or adviser who provides *bona fide* services to the Company or an Affiliate as an independent contractor and who qualifies as a consultant or advisor under Instruction A.1.(a)(1) of Form S-8 under the Act.

"Dividend Equivalent Right" means an Award entitling the grantee to receive credits based on cash dividends that would have been paid on the shares of Stock specified in the Dividend Equivalent Right (or other award to which it relates) if such shares had been issued to and held by the grantee.

"Effective Date" means the date on which the Plan becomes effective as set forth in Section 19.

"Exchange Act" means the U.S. Securities Exchange Act of 1934, as amended, and the rules and regulations thereunder.

"Fair Market Value" of the Stock on any given date means the fair market value of the Stock determined in good faith by the Administrator; provided, however, that if the Stock is listed on the National Association of Securities Dealers Automated Quotation System ("NASDAQ"), NASDAQ Global Market, The New York Stock Exchange or another national securities exchange or traded on any established market, the determination shall be made by reference to market quotations. If there are no market quotations for such date, the determination shall be made by reference to the last date preceding such date for which there are market quotations; provided further, however, that if the date for which Fair Market Value is determined is the Registration Date, the Fair Market Value shall be the "Price to the Public" (or equivalent) set forth on the cover page for the final prospectus relating to the Company's initial public offering.

“*Incentive Stock Option*” means any Stock Option designated and qualified as an “incentive stock option” as defined in Section 422 of the Code.

“*Non-Employee Director*” means a member of the Board who is not also an employee of the Company or any Affiliate.

“*Non-Qualified Stock Option*” means any Stock Option that is not an Incentive Stock Option.

“*Option*” or “*Stock Option*” means any option to purchase shares of Stock granted pursuant to Section 5.

“*Registration Date*” means the date upon which the registration statement on Form S-1 that is filed by the Company with respect to its initial public offering is declared effective by the U.S. Securities and Exchange Commission.

“*Restricted Shares*” means the shares of Stock underlying a Restricted Stock Award that remain subject to a risk of forfeiture or the Company’s right of repurchase.

“*Restricted Stock Award*” means an Award of Restricted Shares subject to such restrictions and conditions as the Administrator may determine at the time of grant.

“*Restricted Stock Units*” means an Award of stock units subject to such restrictions and conditions as the Administrator may determine at the time of grant.

“*Sale Price*” means the value as determined by the Administrator of the consideration payable, or otherwise to be received by stockholders, per share of Stock pursuant to a Change in Control.

“*Section 409A*” means Section 409A of the Code and the regulations and other guidance promulgated thereunder.

“*Service Relationship*” means any relationship as an employee, director or Consultant of the Company or any Affiliate (e.g., a Service Relationship shall be deemed to continue without interruption in the event a grantee’s status changes without break in service from full-time employee to part-time employee or Consultant or Non-Employee Director or vice versa).

“*Stock*” means the Common Stock, par value \$0.001 per share, of the Company, subject to adjustments pursuant to Section 3.

“*Stock Appreciation Right*” means an Award entitling the recipient to receive shares of Stock (or cash, to the extent explicitly provided for in the applicable Award Agreement) having a value equal to the excess of the Fair Market Value of the Stock on the date of exercise over the exercise price of the Stock Appreciation Right multiplied by the number of shares of Stock with respect to which the Stock Appreciation Right shall have been exercised.

“*Subsidiary*” means any corporation or other entity (other than the Company) in which the Company has at least a 50 percent interest, either directly or indirectly.

“*Ten Percent Owner*” means an employee who owns or is deemed to own (by reason of the attribution rules of Section 424(d) of the Code) more than 10 percent of the combined voting power of all classes of stock of the Company or any parent or subsidiary corporation.

“*Unrestricted Stock Award*” means an Award of shares of Stock free of any restrictions.

SECTION 2. ADMINISTRATION OF PLAN; ADMINISTRATOR AUTHORITY TO SELECT GRANTEES AND DETERMINE AWARDS

(a) Administration of Plan. The Plan shall be administered by the Administrator.

(b) Powers of Administrator. The Administrator shall have the power and authority to grant Awards consistent with the terms of the Plan, including the power and authority:

(i) to select the individuals to whom Awards may from time to time be granted;

(ii) to determine the time or times of grant, and the extent, if any, of Incentive Stock Options, Non-Qualified Stock Options, Stock Appreciation Rights, Restricted Stock Awards, Restricted Stock Units, Unrestricted Stock Awards, Cash-Based Awards, and Dividend Equivalent Rights, or any combination of the foregoing, granted to any one or more grantees;

(iii) to determine the number of shares of Stock or the cash value to be covered by any Award;

(iv) to determine and modify from time to time the terms and conditions, including restrictions, not inconsistent with the terms of the Plan, of any Award, which terms and conditions may differ among individual Awards and grantees, and to approve the forms of Award Agreements;

(v) to accelerate at any time the exercisability or vesting of all or any portion of any Award;

(vi) subject to the provisions of Section 5(c) and Section 6(d), to extend at any time the period in which Stock Options or Stock Appreciation Rights may be exercised; and

(vii) at any time to adopt, alter and repeal such rules, guidelines and practices for administration of the Plan and for its own acts and proceedings as it shall deem advisable; to interpret the terms and provisions of the Plan and any Award (including related written instruments); to make all determinations it deems advisable for the administration of the Plan; to decide all disputes arising in connection with the Plan; and to otherwise supervise the administration of the Plan.

All decisions and interpretations of the Administrator shall be binding on all persons, including the Company and Plan grantees.

(c) Delegation of Authority to Grant Awards. Subject to applicable law, the Administrator, in its discretion, may delegate to a committee consisting of one or more officers

of the Company including the Chief Executive Officer of the Company all or part of the Administrator's authority and duties with respect to the granting of Awards to individuals who are (i) not subject to the reporting and other provisions of Section 16 of the Exchange Act and (ii) not members of the delegated committee. Any such delegation by the Administrator shall include a limitation as to the amount of Stock underlying Awards that may be granted during the period of the delegation and shall contain guidelines as to the determination of the exercise price and the vesting criteria. The Administrator may revoke or amend the terms of a delegation at any time but such action shall not invalidate any prior actions of the Administrator's delegate or delegates that were consistent with the terms of the Plan.

(d) Award Agreement. Awards under the Plan shall be evidenced by Award Agreements that set forth the terms, conditions and limitations for each Award which may include, without limitation, the term of an Award and the provisions applicable in the event the Service Relationship terminates.

(e) Indemnification. Neither the Board nor the Administrator, nor any member of either or any delegate thereof, shall be liable for any act, omission, interpretation, construction or determination made in good faith in connection with the Plan, and the members of the Board and the Administrator (and any delegate thereof) shall be entitled in all cases to indemnification and reimbursement by the Company in respect of any claim, loss, damage or expense (including, without limitation, reasonable attorneys' fees) arising or resulting therefrom to the fullest extent permitted by law and/or under the Company's articles or bylaws or any directors' and officers' liability insurance coverage which may be in effect from time to time and/or any indemnification agreement between such individual and the Company.

(f) Non-U.S. Award Recipients. Notwithstanding any provision of the Plan to the contrary, in order to comply with the laws in other countries in which the Company and its Affiliates operate or have employees or other individuals eligible for Awards, the Administrator, in its sole discretion, shall have the power and authority to: (i) determine which Affiliates shall be covered by the Plan; (ii) determine which individuals outside the United States are eligible to participate in the Plan; (iii) modify the terms and conditions of any Award granted to individuals outside the United States to comply with applicable laws; (iv) establish subplans and modify exercise procedures and other terms and procedures, to the extent the Administrator determines such actions to be necessary or advisable (and such subplans and/or modifications shall be attached to this Plan as appendices, and incorporated into and made part of this Plan); provided, however, that no such subplans and/or modifications shall increase the share limitations contained in Section 3(a) hereof; and (v) take any action, before or after an Award is made, that the Administrator determines to be necessary or advisable to obtain approval or comply with any local governmental regulatory exemptions or approvals. Notwithstanding the foregoing, the Administrator may not take any actions hereunder, and no Awards shall be granted, that would violate the Exchange Act or any other applicable United States securities law, the Code, or any other applicable United States governing statute or law.

SECTION 3. STOCK ISSUABLE UNDER THE PLAN; MERGERS; SUBSTITUTION

(a) Stock Issuable. The maximum number of shares of Stock reserved and available for issuance under the Plan shall be 52,000,000 shares (the "Initial Limit"), subject to adjustment

as provided in Section 3(c), plus on April 1, 2020 and each April 1 thereafter, the number of shares of Stock reserved and available for issuance under the Plan shall be cumulatively increased by 4% of the number of shares of Stock issued and outstanding on the immediately preceding March 31 or such lesser number of shares of Stock as determined by the Administrator (the "Annual Increase"). Subject to such overall limitation, the maximum aggregate number of shares of Stock that may be issued in the form of Incentive Stock Options shall not exceed the Initial Limit cumulatively increased on April 1, 2020 and on each April 1 thereafter by the lesser of the Annual Increase for such year or 14,000,000 shares of Stock, subject in all cases to adjustment as provided in Section 3(b). Shares of Stock underlying any awards under the Plan that are forfeited, canceled, held back upon exercise of an Option or settlement of an Award to cover the exercise price or tax withholding, reacquired by the Company prior to vesting, satisfied without the issuance of Stock or otherwise terminated (other than by exercise) shall be added back to the shares of Stock available for issuance under the Plan and, to the extent permitted under Section 422 of the Code and the regulations promulgated thereunder, the shares of Stock that may be issued as Incentive Stock Options. In the event the Company repurchases shares of Stock on the open market, such shares shall not be added to the shares of Stock available for issuance under the Plan. Subject to such overall limitations, shares of Stock may be issued up to such maximum number pursuant to any type or types of Award. The shares available for issuance under the Plan may be authorized but unissued shares of Stock or shares of Stock reacquired by the Company.

(b) Changes in Stock. Subject to Section 3(c) hereof, if, as a result of any reorganization, recapitalization, reclassification, stock dividend, stock split, reverse stock split or other similar change in the Company's capital stock, the outstanding shares of Stock are increased or decreased or are exchanged for a different number or kind of shares or other securities of the Company, or additional shares or new or different shares or other securities of the Company or other non-cash assets are distributed with respect to such shares of Stock or other securities, or, if, as a result of any merger or consolidation, sale of all or substantially all of the assets of the Company, the outstanding shares of Stock are converted into or exchanged for securities of the Company or any successor entity (or a parent or subsidiary thereof), the Administrator shall make an appropriate or proportionate adjustment in (i) the maximum number of shares reserved for issuance under the Plan, including the maximum number of shares that may be issued in the form of Incentive Stock Options, (ii) the number and kind of shares or other securities subject to any then outstanding Awards under the Plan, (iii) the repurchase price, if any, per share subject to each outstanding Restricted Stock Award, and (iv) the exercise price for each share subject to any then outstanding Stock Options and Stock Appreciation Rights under the Plan, without changing the aggregate exercise price (i.e., the exercise price multiplied by the number of shares subject to Stock Options and Stock Appreciation Rights) as to which such Stock Options and Stock Appreciation Rights remain exercisable. The Administrator shall also make equitable or proportionate adjustments in the number of shares subject to outstanding Awards and the exercise price and the terms of outstanding Awards to take into consideration cash dividends paid other than in the ordinary course or any other extraordinary corporate event. The adjustment by the Administrator shall be final, binding and conclusive. No fractional shares of Stock shall be issued under the Plan resulting from any such adjustment, but the Administrator in its discretion may make a cash payment in lieu of fractional shares.

(c) Mergers and Other Transactions. In the case of and subject to the consummation of a Change in Control, the parties thereto may cause the assumption or continuation of Awards theretofore granted by the successor entity, or the substitution of such Awards with new Awards of the successor entity or parent thereof, with appropriate adjustment as to the number and kind of shares and, if appropriate, the per share exercise prices, as such parties shall agree. To the extent the parties to such Change in Control do not provide for the assumption, continuation or substitution of Awards, upon the effective time of the Change in Control, the Plan and all outstanding Awards granted hereunder shall terminate. In the event of such termination, (i) the Company shall have the option (in its sole discretion) to make or provide for a payment, in cash or in kind, to the grantees holding Options and Stock Appreciation Rights, in exchange for the cancellation thereof, in an amount equal to the difference between (A) the Sale Price multiplied by the number of shares of Stock subject to outstanding Options and Stock Appreciation Rights (to the extent then exercisable at prices not in excess of the Sale Price) and (B) the aggregate exercise price of all such outstanding Options and Stock Appreciation Rights (provided that, in the case of an Option or Stock Appreciation Right with an exercise price equal to or less than the Sale Price, such Option or Stock Appreciation Right shall be cancelled for no consideration); or (ii) each grantee shall be permitted, within a specified period of time prior to the consummation of the Change in Control as determined by the Administrator, to exercise all outstanding Options and Stock Appreciation Rights (to the extent then exercisable) held by such grantee. The Company shall also have the option (in its sole discretion) to make or provide for a payment, in cash or in kind, to the grantees holding other Awards in an amount equal to the Sale Price multiplied by the number of vested shares of Stock under such Awards.

(d) Maximum Awards to Non-Employee Directors. Notwithstanding anything to the contrary in this Plan, the value of all Awards awarded under this Plan and all other cash compensation paid by the Company to any Non-Employee Director in any calendar year shall not exceed \$750,000. For the purpose of these limitations, the value of any Award shall be its grant date fair value, as determined in accordance with ASC 718 or successor provision but excluding the impact of estimated forfeitures related to service-based vesting provisions.

SECTION 4. ELIGIBILITY

Grantees under the Plan will be such employees, Non-Employee Directors and Consultants of the Company and its Affiliates as are selected from time to time by the Administrator in its sole discretion; provided that Awards may not be granted to employees, Non-Employee Directors or Consultants who are providing services only to any "parent" of the Company, as such term is defined in Rule 405 of the Act, unless (i) the stock underlying the Awards is treated as "service recipient stock" under Section 409A or (ii) the Company, in consultation with its legal counsel, has determined that such Awards are exempt from or otherwise comply with Section 409A.

SECTION 5. STOCK OPTIONS

(a) Award of Stock Options. The Administrator may grant Stock Options under the Plan. Any Stock Option granted under the Plan shall be in such form as the Administrator may from time to time approve.

Stock Options granted under the Plan may be either Incentive Stock Options or Non-Qualified Stock Options. Incentive Stock Options may be granted only to employees of the Company or any Subsidiary that is a "subsidiary corporation" within the meaning of Section 424(f) of the Code. To the extent that any Option does not qualify as an Incentive Stock Option, it shall be deemed a Non-Qualified Stock Option.

Stock Options granted pursuant to this Section 5 shall be subject to the following terms and conditions and shall contain such additional terms and conditions, not inconsistent with the terms of the Plan, as the Administrator shall deem desirable. If the Administrator so determines, Stock Options may be granted in lieu of cash compensation at the optionee's election, subject to such terms and conditions as the Administrator may establish.

(b) Exercise Price. The exercise price per share for the Stock covered by a Stock Option granted pursuant to this Section 5 shall be determined by the Administrator at the time of grant but shall not be less than 100 percent of the Fair Market Value on the date of grant. In the case of an Incentive Stock Option that is granted to a Ten Percent Owner, the exercise price of such Incentive Stock Option shall be not less than 110 percent of the Fair Market Value on the grant date. Notwithstanding the foregoing, Stock Options may be granted with an exercise price per share that is less than 100 percent of the Fair Market Value on the date of grant (i) pursuant to a transaction described in, and in a manner consistent with, Section 424(a) of the Code, (ii) to individuals who are not subject to U.S. income tax on the date of grant, or (iii) if the Stock Option is otherwise compliant with Section 409A.

(c) Option Term. The term of each Stock Option shall be fixed by the Administrator, but no Stock Option shall be exercisable more than ten years after the date the Stock Option is granted. In the case of an Incentive Stock Option that is granted to a Ten Percent Owner, the term of such Stock Option shall be no more than five years from the date of grant.

(d) Exercisability; Rights of a Stockholder. Stock Options shall become exercisable at such time or times, whether or not in installments, as shall be determined by the Administrator at or after the grant date. The Administrator may at any time accelerate the exercisability of all or any portion of any Stock Option. An optionee shall have the rights of a stockholder only as to shares acquired upon the exercise of a Stock Option and not as to unexercised Stock Options.

(e) Method of Exercise. Stock Options may be exercised in whole or in part, by giving written or electronic notice of exercise to the Company or an agent of the Company, specifying the number of shares to be purchased. Payment of the purchase price may be made by one or more of the following methods except to the extent otherwise provided in the Option Award Agreement:

(i) In cash, by certified or bank check or other instrument acceptable to the Administrator;

(ii) Through the delivery (or attestation to the ownership following such procedures as the Company may prescribe) of shares of Stock that are not then subject to restrictions under any Company plan. Such surrendered shares shall be valued at Fair Market Value on the exercise date;

(iii) By the optionee delivering to the Company or an agent of the Company a properly executed exercise notice together with irrevocable instructions to a broker to promptly deliver to the Company cash or a check payable and acceptable to the Company for the purchase price; provided that in the event the optionee chooses to pay the purchase price as so provided, the optionee and the broker shall comply with such procedures and enter into such agreements of indemnity and other agreements as the Company shall prescribe as a condition of such payment procedure; or

(iv) With respect to Stock Options that are not Incentive Stock Options, by a “net exercise” arrangement pursuant to which the Company will reduce the number of shares of Stock issuable upon exercise by the largest whole number of shares with a Fair Market Value that does not exceed the aggregate exercise price.

Payment instruments will be received subject to collection. The transfer to the optionee on the records of the Company or of the transfer agent of the shares of Stock to be purchased pursuant to the exercise of a Stock Option will be contingent upon receipt from the optionee (or a purchaser acting in his stead in accordance with the provisions of the Stock Option) by the Company of the full purchase price for such shares and the fulfillment of any other requirements contained in the Option Award Agreement or applicable provisions of laws (including the satisfaction of any taxes that the Company or an Affiliate is obligated to withhold with respect to the optionee). In the event an optionee chooses to pay the purchase price by previously-owned shares of Stock through the attestation method, the number of shares of Stock transferred to the optionee upon the exercise of the Stock Option shall be net of the number of attested shares. In the event that the Company establishes, for itself or using the services of a third party, an automated system for the exercise of Stock Options, such as a system using an internet website or interactive voice response, then the paperless exercise of Stock Options may be permitted through the use of such an automated system.

(f) Annual Limit on Incentive Stock Options. To the extent required for “incentive stock option” treatment under Section 422 of the Code, the aggregate Fair Market Value (determined as of the time of grant) of the shares of Stock with respect to which Incentive Stock Options granted under this Plan and any other plan of the Company or its parent and subsidiary corporations become exercisable for the first time by an optionee during any calendar year shall not exceed \$100,000. To the extent that any Stock Option exceeds this limit, it shall constitute a Non-Qualified Stock Option.

SECTION 6. STOCK APPRECIATION RIGHTS

(a) Award of Stock Appreciation Rights. The Administrator may grant Stock Appreciation Rights under the Plan. A Stock Appreciation Right is an Award entitling the recipient to receive shares of Stock (or cash, to the extent explicitly provided for in the applicable Award Agreement) having a value equal to the excess of the Fair Market Value of a share of Stock on the date of exercise over the exercise price of the Stock Appreciation Right multiplied by the number of shares of Stock with respect to which the Stock Appreciation Right shall have been exercised.

(b) Exercise Price of Stock Appreciation Rights. The exercise price of a Stock Appreciation Right shall not be less than 100 percent of the Fair Market Value of the Stock on the date of grant.

(c) Grant and Exercise of Stock Appreciation Rights. Stock Appreciation Rights may be granted by the Administrator independently of any Stock Option granted pursuant to Section 5 of the Plan.

(d) Terms and Conditions of Stock Appreciation Rights. Stock Appreciation Rights shall be subject to such terms and conditions as shall be determined on the date of grant by the Administrator. The term of a Stock Appreciation Right may not exceed ten years. The terms and conditions of each such Award shall be determined by the Administrator, and such terms and conditions may differ among individual Awards and grantees.

SECTION 7. RESTRICTED STOCK AWARDS

(a) Nature of Restricted Stock Awards. The Administrator may grant Restricted Stock Awards under the Plan. A Restricted Stock Award is any Award of Restricted Shares subject to such restrictions and conditions as the Administrator may determine at the time of grant. Conditions may be based on continuing employment (or other Service Relationship) and/or achievement of pre-established performance goals and objectives.

(b) Rights as a Stockholder. Upon the grant of the Restricted Stock Award and payment of any applicable purchase price, a grantee shall have the rights of a stockholder with respect to the voting of the Restricted Shares and receipt of dividends; provided that if the lapse of restrictions with respect to the Restricted Stock Award is tied to the attainment of performance goals, any dividends paid by the Company during the performance period shall accrue and shall not be paid to the grantee until and to the extent the performance goals are met with respect to the Restricted Stock Award. Unless the Administrator shall otherwise determine, (i) uncertificated Restricted Shares shall be accompanied by a notation on the records of the Company or the transfer agent to the effect that they are subject to forfeiture until such Restricted Shares are vested as provided in Section 7(d) below, and (ii) certificated Restricted Shares shall remain in the possession of the Company until such Restricted Shares are vested as provided in Section 7(d) below, and the grantee shall be required, as a condition of the grant, to deliver to the Company such instruments of transfer as the Administrator may prescribe.

(c) Restrictions. Restricted Shares may not be sold, assigned, transferred, pledged or otherwise encumbered or disposed of except as specifically provided herein or in the Restricted Stock Award Agreement. Except as may otherwise be provided by the Administrator either in the Award Agreement or, subject to Section 16 below, in writing after the Award is issued, if a grantee's employment (or other Service Relationship) with the Company and its Affiliates terminates for any reason, any Restricted Shares that have not vested at the time of termination shall automatically and without any requirement of notice to such grantee from or other action by or on behalf of, the Company be deemed to have been reacquired by the Company at its original purchase price (if any) from such grantee or such grantee's legal representative simultaneously with such termination of employment (or other Service Relationship), and thereafter shall cease to represent any ownership of the Company by the grantee or rights of the grantee as a

stockholder. Following such deemed reacquisition of Restricted Shares that are represented by physical certificates, a grantee shall surrender such certificates to the Company upon request without consideration.

(d) Vesting of Restricted Shares. The Administrator at the time of grant shall specify the date or dates and/or the attainment of pre-established performance goals, objectives and other conditions on which the non-transferability of the Restricted Shares and the Company's right of repurchase or forfeiture shall lapse. Subsequent to such date or dates and/or the attainment of such pre-established performance goals, objectives and other conditions, the shares on which all restrictions have lapsed shall no longer be Restricted Shares and shall be deemed "vested."

SECTION 8. RESTRICTED STOCK UNITS

(a) Nature of Restricted Stock Units. The Administrator may grant Restricted Stock Units under the Plan. A Restricted Stock Unit is an Award of stock units that may be settled in shares of Stock (or cash, to the extent explicitly provided for in the Award Agreement) upon the satisfaction of such restrictions and conditions at the time of grant. Conditions may be based on continuing employment (or other Service Relationship) and/or achievement of pre-established performance goals and objectives. The terms and conditions of each such Award shall be determined by the Administrator, and such terms and conditions may differ among individual Awards and grantees. Except in the case of Restricted Stock Units with a deferred settlement date that complies with Section 409A, at the end of the vesting period, the Restricted Stock Units, to the extent vested, shall be settled in the form of shares of Stock. Restricted Stock Units with deferred settlement dates are subject to Section 409A and shall contain such additional terms and conditions as the Administrator shall determine in its sole discretion in order to comply with the requirements of Section 409A.

(b) Election to Receive Restricted Stock Units in Lieu of Compensation. The Administrator may, in its sole discretion, permit a grantee to elect to receive a portion of future cash compensation otherwise due to such grantee in the form of an award of Restricted Stock Units. Any such election shall be made in writing and shall be delivered to the Company no later than the date specified by the Administrator and in accordance with Section 409A and such other rules and procedures established by the Administrator. Any such future cash compensation that the grantee elects to defer shall be converted to a fixed number of Restricted Stock Units based on the Fair Market Value of Stock on the date the compensation would otherwise have been paid to the grantee if such payment had not been deferred as provided herein. The Administrator shall have the sole right to determine whether and under what circumstances to permit such elections and to impose such limitations and other terms and conditions thereon as the Administrator deems appropriate. Any Restricted Stock Units that are elected to be received in lieu of cash compensation shall be fully vested, unless otherwise provided in the Award Agreement.

(c) Rights as a Stockholder. A grantee shall have the rights as a stockholder only as to shares of Stock acquired by the grantee upon settlement of Restricted Stock Units; provided, however, that the grantee may be credited with Dividend Equivalent Rights with respect to the stock units underlying his Restricted Stock Units, subject to the provisions of Section 11 and such terms and conditions as the Administrator may determine.

(d) Termination. Except as may otherwise be provided by the Administrator either in the Award Agreement or, subject to Section 16 below, in writing after the Award is issued, a grantee's right in all Restricted Stock Units that have not vested shall automatically terminate upon the grantee's termination of employment (or cessation of Service Relationship) with the Company and its Affiliates for any reason.

SECTION 9. UNRESTRICTED STOCK AWARDS

Grant or Sale of Unrestricted Stock. The Administrator may grant (or sell at par value or such higher purchase price determined by the Administrator) an Unrestricted Stock Award under the Plan. An Unrestricted Stock Award is an Award pursuant to which the grantee may receive shares of Stock free of any restrictions under the Plan. Unrestricted Stock Awards may be granted in respect of past services or other valid consideration, or in lieu of cash compensation due to such grantee.

SECTION 10. CASH-BASED AWARDS

Grant of Cash-Based Awards. The Administrator may grant Cash-Based Awards under the Plan. A Cash-Based Award is an Award that entitles the grantee to a payment in cash upon the attainment of specified performance goals, including continued employment (or other Service Relationship). The Administrator shall determine the maximum duration of the Cash-Based Award, the amount of cash to which the Cash-Based Award pertains, the conditions upon which the Cash-Based Award shall become vested or payable, and such other provisions as the Administrator shall determine. Each Cash-Based Award shall specify a cash-denominated payment amount, formula or payment ranges as determined by the Administrator. Payment, if any, with respect to a Cash-Based Award shall be made in accordance with the terms of the Award and may be made in cash.

SECTION 11. DIVIDEND EQUIVALENT RIGHTS

(a) Dividend Equivalent Rights. The Administrator may grant Dividend Equivalent Rights under the Plan. A Dividend Equivalent Right is an Award entitling the grantee to receive credits based on cash dividends that would have been paid on the shares of Stock specified in the Dividend Equivalent Right (or other Award to which it relates) if such shares had been issued to the grantee. A Dividend Equivalent Right may be granted hereunder to any grantee as a component of an award of Restricted Stock Units or as a freestanding award. The terms and conditions of Dividend Equivalent Rights shall be specified in the Award Agreement. Dividend equivalents credited to the holder of a Dividend Equivalent Right may be paid currently or may be deemed to be reinvested in additional shares of Stock, which may thereafter accrue additional equivalents. Any such reinvestment shall be at Fair Market Value on the date of reinvestment or such other price as may then apply under a dividend reinvestment plan sponsored by the Company, if any. Dividend Equivalent Rights may be settled in cash or shares of Stock or a combination thereof, in a single installment or installments. A Dividend Equivalent Right granted as a component of an Award of Restricted Stock Units shall provide that such Dividend Equivalent Right shall be settled only upon settlement or payment of, or lapse of restrictions on, such other Award, and that such Dividend Equivalent Right shall expire or be forfeited or annulled under the same conditions as such other Award.

(b) Termination. Except as may otherwise be provided by the Administrator either in the Award Agreement or, subject to Section 16 below, in writing after the Award is issued, a grantee's rights in all Dividend Equivalent Rights shall automatically terminate upon the grantee's termination of employment (or cessation of Service Relationship) with the Company and its Affiliates for any reason.

SECTION 12. TRANSFERABILITY OF AWARDS

(a) Transferability. Except as provided in Section 12(b) below, during a grantee's lifetime, his or her Awards shall be exercisable only by the grantee, or by the grantee's legal representative or guardian in the event of the grantee's incapacity. No Awards shall be sold, assigned, transferred or otherwise encumbered or disposed of by a grantee other than by will or by the laws of descent and distribution or pursuant to a domestic relations order. No Awards shall be subject, in whole or in part, to attachment, execution, or levy of any kind, and any purported transfer in violation hereof shall be null and void.

(b) Administrator Action. Notwithstanding Section 12(a), the Administrator, in its discretion, may provide either in the Award Agreement regarding a given Award or by subsequent written approval that the grantee (who is an employee or director) may transfer his or her Non-Qualified Stock Options to his or her immediate family members, to trusts for the benefit of such family members, or to partnerships in which such family members are the only partners, provided that the transferee agrees in writing with the Company to be bound by all of the terms and conditions of this Plan and the applicable Award. In no event may an Award be transferred by a grantee for value.

(c) Family Member. For purposes of Section 12(b), "family member" shall mean a grantee's child, stepchild, grandchild, parent, stepparent, grandparent, spouse, former spouse, sibling, niece, nephew, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law, including adoptive relationships, any person sharing the grantee's household (other than a tenant of the grantee), a trust in which these persons (or the grantee) have more than 50 percent of the beneficial interest, a foundation in which these persons (or the grantee) control the management of assets, and any other entity in which these persons (or the grantee) own more than 50 percent of the voting interests.

(d) Designation of Beneficiary. To the extent permitted by the Company and valid under applicable law, each grantee to whom an Award has been made under the Plan may designate a beneficiary or beneficiaries to exercise any Award or receive any payment under any Award payable on or after the grantee's death. Any such designation shall be on a form provided for that purpose by the Administrator and shall not be effective until received by the Administrator. If no beneficiary has been designated by a deceased grantee, if the beneficiary designation is not valid or if the designated beneficiaries have predeceased the grantee, the beneficiary shall be the grantee's estate.

SECTION 13. TAX WITHHOLDING

(a) Payment by Grantee. Each grantee shall, no later than the date as of which the value of an Award or of any Stock or other amounts received thereunder first becomes

includable in the gross income of the grantee for any tax purposes, pay to the Company or any applicable Affiliate, or make arrangements satisfactory to the Administrator regarding payment of, any U.S. and non-U.S. federal, state, or local taxes of any kind required by law to be withheld by the Company or any Affiliate with respect to such income. The Company and its Affiliates shall, to the extent permitted by law, have the right to deduct any such taxes from any payment of any kind otherwise due to the grantee or to satisfy any applicable withholding obligations by any other method of withholding that the Company and its Affiliates deem appropriate. The Company's obligation to deliver evidence of book entry (or stock certificates) to any grantee is subject to and conditioned on tax withholding obligations being satisfied by the grantee.

(b) Payment in Stock. If permitted under applicable law, any required tax withholding obligation of the Company or any Affiliate may be satisfied, in whole or in part, by withhold from shares of Stock to be issued pursuant to any Award a number of shares with an aggregate fair market value that would satisfy the withholding amount due; provided, however, that the amount withheld does not exceed the maximum statutory tax rate in the applicable jurisdiction or such lesser amount as is necessary to avoid liability accounting treatment. The tax withholding obligation may also be satisfied, in whole or in part, by an arrangement whereby a certain number of shares of Stock issued pursuant to any Award are immediately sold and proceeds from such sale are remitted to the Company or any applicable Affiliate in an amount that would satisfy the withholding amount due.

SECTION 14. SECTION 409A AWARDS

Awards are intended to be exempt from Section 409A to the greatest extent possible and to otherwise comply with Section 409A. The Plan and all Awards shall be interpreted in accordance with such intent. To the extent that any Award is determined to constitute "nonqualified deferred compensation" within the meaning of Section 409A (a "409A Award"), the Award shall be subject to such additional rules and requirements as specified by the Administrator from time to time in order to comply with Section 409A. In this regard, if any amount under a 409A Award is payable upon a "separation from service" (within the meaning of Section 409A) to a grantee who is then considered a "specified employee" (within the meaning of Section 409A), then no such payment shall be made prior to the date that is the earlier of (i) six months and one day after the grantee's separation from service, or (ii) the grantee's death, but only to the extent such delay is necessary to prevent such payment from being subject to interest, penalties and/or additional tax imposed pursuant to Section 409A. Further, the settlement of any 409A Award may not be accelerated except to the extent permitted by Section 409A.

SECTION 15. TERMINATION OF SERVICE RELATIONSHIP, TRANSFER, LEAVE OF ABSENCE, ETC.

(a) Termination of Service Relationship. If the grantee's Service Relationship is with an Affiliate and such Affiliate ceases to be an Affiliate, the grantee shall be deemed to have terminated his or her Service Relationship for purposes of the Plan.

(b) For purposes of the Plan, the following events shall not be deemed a termination of the grantee's Service Relationship:

(i) a transfer to the employment of the Company from an Affiliate or from the Company to an Affiliate, or from one Affiliate to another; or

(ii) an approved leave of absence for military service or sickness, or for any other purpose approved by the Company, if the employee's right to re-employment is guaranteed either by a statute or by contract or under the policy pursuant to which the leave of absence was granted or if the Administrator otherwise provides in writing.

SECTION 16. AMENDMENTS AND TERMINATION

The Board may, at any time, amend or discontinue the Plan and the Administrator may, at any time, amend or cancel any outstanding Award for the purpose of satisfying changes in law or for any other lawful purpose, but no such action shall adversely affect rights under any outstanding Award without the holder's consent. Except as provided in Section 3(b) or 3(c), without prior stockholder approval, in no event may the Administrator exercise its discretion to reduce the exercise price of outstanding Stock Options or Stock Appreciation Rights or effect repricing through cancellation and re-grants or cancellation of Stock Options or Stock Appreciation Rights in exchange for cash or other Awards. To the extent required under the rules of any securities exchange or market system on which the Stock is listed, or to the extent determined by the Administrator to be required by the Code to ensure that Incentive Stock Options granted under the Plan are qualified under Section 422 of the Code, Plan amendments shall be subject to approval by the Company stockholders entitled to vote at a meeting of stockholders. Nothing in this Section 16 shall limit the Administrator's authority to take any action permitted pursuant to Section 3(b) or 3(c).

SECTION 17. STATUS OF PLAN

With respect to the portion of any Award that has not been exercised and any payments in cash, Stock or other consideration not received by a grantee, a grantee shall have no rights greater than those of a general creditor of the Company unless the Administrator shall otherwise expressly determine in connection with any Award or Awards. In its sole discretion, the Administrator may authorize the creation of trusts or other arrangements to meet the Company's obligations to deliver Stock or make payments with respect to Awards hereunder, provided that the existence of such trusts or other arrangements is consistent with the foregoing sentence.

SECTION 18. GENERAL PROVISIONS

(a) No Distribution. The Administrator may require each person acquiring Stock pursuant to an Award to represent to and agree with the Company in writing that such person is acquiring the shares without a view to distribution thereof.

(b) Issuance of Stock. To the extent certificated, stock certificates to grantees under this Plan shall be deemed delivered for all purposes when the Company or a stock transfer agent of the Company shall have mailed such certificates in the United States mail, addressed to the grantee, at the grantee's last known address on file with the Company. Uncertificated Stock shall be deemed delivered for all purposes when the Company or a Stock transfer agent of the Company shall have given to the grantee by electronic mail (with proof of receipt) or by United States mail, addressed to the grantee, at the grantee's last known address on file with the

Company, notice of issuance and recorded the issuance in its records (which may include electronic “book entry” records). Notwithstanding anything herein to the contrary, the Company shall not be required to issue or deliver any evidence of book entry or certificates evidencing shares of Stock pursuant to the exercise or settlement of any Award, unless and until the Administrator has determined, with advice of counsel (to the extent the Administrator deems such advice necessary or advisable), that the issuance and delivery is in compliance with all applicable laws, regulations of governmental authorities and, if applicable, the requirements of any exchange on which the shares of Stock are listed, quoted or traded. Any Stock issued pursuant to the Plan shall be subject to any stop-transfer orders and other restrictions as the Administrator deems necessary or advisable to comply with federal, state or foreign jurisdiction, securities or other laws, rules and quotation system on which the Stock is listed, quoted or traded. The Administrator may place legends on any Stock certificate or notations on any book entry to reference restrictions applicable to the Stock. In addition to the terms and conditions provided herein, the Administrator may require that an individual make such reasonable covenants, agreements, and representations as the Administrator, in its discretion, deems necessary or advisable in order to comply with any such laws, regulations, or requirements. The Administrator shall have the right to require any individual to comply with any timing or other restrictions with respect to the settlement or exercise of any Award, including a window-period limitation, as may be imposed in the discretion of the Administrator.

(c) Stockholder Rights. Until Stock is deemed delivered in accordance with Section 18(b), no right to vote or receive dividends or any other rights of a stockholder will exist with respect to shares of Stock to be issued in connection with an Award, notwithstanding the exercise of a Stock Option or any other action by the grantee with respect to an Award.

(d) Other Incentive Arrangements; No Rights to Continued Service Relationship. Nothing contained in this Plan shall prevent the Board from adopting other or additional incentive arrangements, including trusts, and such arrangements may be either generally applicable or applicable only in specific cases. The adoption of this Plan and the grant of Awards do not confer upon any grantee any right to continued employment or other Service Relationship with the Company or any Affiliate.

(e) Trading Policy Restrictions. Option exercises and other Awards under the Plan shall be subject to the Company’s insider trading policies and procedures, as in effect from time to time.

(f) Clawback Policy. Awards under the Plan shall be subject to the Company’s clawback policy, as in effect from time to time.

SECTION 19. EFFECTIVE DATE OF PLAN

This Plan shall become effective upon the date immediately preceding the Registration Date subject to prior stockholder approval in accordance with applicable state law, the Company’s bylaws and articles of incorporation, and applicable stock exchange rules. No grants of Stock Options and other Awards may be made hereunder after the tenth anniversary of the Effective Date and no grants of Incentive Stock Options may be made hereunder after the tenth anniversary of the date the Plan is approved by the Board.

SECTION 20. GOVERNING LAW

This Plan and all Awards and actions taken thereunder shall be governed by, and construed in accordance with the laws of the State of Delaware, applied without regard to conflict of law rules or principles (whether of the State of Delaware or any other jurisdiction) that would cause the application of the laws of any jurisdiction other than Delaware.

DATE APPROVED BY BOARD OF DIRECTORS: July 19, 2019

DATE APPROVED BY STOCKHOLDERS:

Payment of the Option Exercise Price may be made by one or more of the following methods: (i) in cash, by certified or bank check or other instrument acceptable to the Administrator; (ii) if permitted by the Administrator, through the delivery (or attestation to the ownership) of shares of Stock that have been purchased by the Optionee on the open market or that are beneficially owned by the Optionee and are not then subject to any restrictions under any Company plan and that otherwise satisfy any holding periods as may be required by the Administrator; (iii) by the Optionee delivering to the Company (or such person or entity as the Company may designate) a properly executed exercise notice together with irrevocable instructions to a broker to promptly deliver to the Company cash or a check payable and acceptable to the Company to pay the Option Exercise Price, provided that in the event the Optionee chooses to pay the Option Exercise Price as so provided, the Optionee and the broker shall comply with such procedures and enter into such agreements of indemnity and other agreements as the Administrator shall prescribe as a condition of such payment procedure; (iv) if permitted by the Administrator, by a "net exercise" arrangement pursuant to which the Company will reduce the number of shares of Stock issuable upon exercise by the largest whole number of shares with a Fair Market Value that does not exceed the Option Exercise Price; or (v) a combination of (i), (ii), (iii) and (iv) above. Payment instruments will be received subject to collection.

The transfer to the Optionee on the records of the Company or of the transfer agent of the Option Shares will be contingent upon (x) the Company's receipt from the Optionee of the full Option Exercise Price, as set forth above, (y) the fulfillment of any other requirements contained herein or in the Plan or in any other agreement or provision of laws, and (z) the receipt by the Company of any agreement, statement or other evidence that the Company may require to satisfy itself that the issuance of Stock to be purchased pursuant to the exercise of Stock Options under the Plan and any subsequent resale of the shares of Stock will be in compliance with applicable laws and regulations. In the event the Optionee chooses to pay the purchase price by previously-owned shares of Stock through the attestation method, the number of shares of Stock transferred to the Optionee upon the exercise of the Stock Option shall be net of the Shares attested to.

(b) The shares of Stock purchased upon exercise of this Stock Option shall be transferred to the Optionee on the records of the Company or of the transfer agent upon compliance to the satisfaction of the Administrator with all requirements under applicable laws or regulations in connection with such transfer and with the requirements hereof and of the Plan. The determination of the Administrator as to such compliance shall be final and binding on the Optionee. The Optionee shall not be deemed to be the holder of, or to have any of the rights of a holder with respect to, any shares of Stock subject to this Stock Option unless and until this Stock Option shall have been exercised pursuant to the terms hereof, the Company or the transfer agent shall have transferred the shares of Stock to the Optionee, and the Optionee's name shall have been entered as the stockholder of record on the books of the Company. Thereupon, the Optionee shall have full voting, dividend and other ownership rights with respect to such shares of Stock.

(c) Notwithstanding any other provision hereof or of the Plan, no portion of this Stock Option shall be exercisable after the Expiration Date hereof.

3. Termination of Service Relationship. If the Optionee's Service Relationship is terminated, the period within which to exercise the Stock Option may be subject to earlier termination as set forth below.

(a) Termination Due to Death. If the Optionee's Service Relationship terminates by reason of the Optionee's death, any portion of this Stock Option outstanding on such date, to the extent exercisable on the date of death, may thereafter be exercised by the Optionee's legal representative or legatee for a period of 12 months from the date of death or until the Expiration Date, if earlier. Any portion of this Stock Option that is not exercisable on the date of death shall terminate immediately and be of no further force or effect.

(b) Termination Due to Disability. If the Optionee's Service Relationship terminates by reason of the Optionee's disability (as determined by the Administrator), any portion of this Stock Option outstanding on such date, to the extent exercisable on the date of such termination of Service Relationship, may thereafter be exercised by the Optionee for a period of 12 months from the date of termination due to disability or until the Expiration Date, if earlier. Any portion of this Stock Option that is not exercisable on the date of termination due to disability shall terminate immediately and be of no further force or effect.

(c) Termination for Cause. If the Optionee's Service Relationship terminates for Cause, any portion of this Stock Option outstanding on such date shall terminate immediately and be of no further force and effect. For purposes hereof, "Cause" shall mean, unless provided otherwise in any applicable agreement between the Company and the Optionee, a determination by the Administrator that the Optionee shall be dismissed as a result of (i) any material breach by the Optionee of any agreement between the Optionee and the Company or any Affiliate; (ii) the conviction of, indictment for or plea of nolo contendere by the Optionee to a felony or a crime involving moral turpitude; or (iii) any material misconduct or willful and deliberate non-performance (other than by reason of disability) by the Optionee of the Optionee's duties to the Company or any Affiliate.

(d) Other Termination. If the Optionee's Service Relationship terminates for any reason other than the Optionee's death, the Optionee's disability or Cause, and unless otherwise determined by the Administrator, any portion of this Stock Option outstanding on such date may be exercised, to the extent exercisable on the date of termination, for a period of three months from the date of termination or until the Expiration Date, if earlier. Any portion of this Stock Option that is not exercisable on the date of termination shall terminate immediately and be of no further force or effect.

The Administrator's determination of the reason for termination of the Optionee's Service Relationship shall be conclusive and binding on the Optionee and his or her representatives or legatees.

4. Incorporation of Plan. Notwithstanding anything herein to the contrary, this Stock Option shall be subject to and governed by all the terms and conditions of the Plan, including the powers of the Administrator set forth in Section 2(b) of the Plan. However, this Agreement sets out specific terms for this Stock Option, and those terms will prevail over more general terms in the Plan on the same issue, if any, or in the event of a conflict between such terms.

5. Transferability. This Agreement is personal to the Optionee, is non-assignable and is not transferable in any manner, by operation of law or otherwise, other than by will or the laws of descent and distribution or as set forth in Section 12(b) of the Plan. This Stock Option is exercisable, during the Optionee's lifetime, only by the Optionee, and thereafter, only by the Optionee's legal representative or legatee.

6. Responsibility for Taxes.

(a) The Optionee acknowledges and agrees that, regardless of any action taken by the Company or, if different, the Affiliate employing or otherwise retaining the service of the Optionee (the "Service Recipient"), the ultimate liability for all income tax, social insurance, payroll tax, fringe benefits tax, payment on account or other tax-related items related to the Optionee's participation in the Plan and legally applicable to the Optionee ("Tax-Related Items") is and remains the Optionee's responsibility and may exceed the amount, if any, actually withheld by the Company or the Service Recipient. The Optionee further acknowledges that the Company and/or the Service Recipient (i) make no representations or undertakings regarding the treatment of any Tax-Related Items in connection with any aspect of this Stock Option, including, but not limited to, the grant, vesting or exercise of this Stock Option, the subsequent sale of shares of Stock acquired upon the exercise of this Stock Option and the receipt of any dividends; and (ii) do not commit to and are under no obligation to structure or administer the terms of the grant or any aspect of this Stock Option to reduce or eliminate the Optionee's liability for Tax-Related Items or achieve any particular tax result. Further, if the Optionee is subject to Tax-Related Items in more than one jurisdiction, the Optionee acknowledges that the Company and/or the Service Recipient (or former Service Recipient, as applicable) may be required to withhold or account for Tax-Related Items in more than one jurisdiction.

(b) Prior to the relevant taxable or tax withholding event, as applicable, the Optionee agrees to make adequate arrangements satisfactory to the Company and/or the Service Recipient to satisfy all Tax-Related Items. In this regard, the Optionee authorizes the Company and/or the Service Recipient, or their respective agents, at their discretion, to satisfy any applicable withholding obligations with regard to all Tax-Related Items by one or a combination of the following: (i) withholding from the Optionee's wages or other compensation paid to the Optionee by the Company or the Service Recipient, (ii) withholding from proceeds of the sale of the shares of Stock acquired upon the exercise of this Stock Option either through a voluntary sale or through a mandatory sale arranged by the Company (on the Optionee's behalf pursuant to this authorization without further consent), (iii) withholding from the shares of Stock otherwise issuable at exercise of this Stock Option, or (iv) any method determined by the Administrator to be in compliance with applicable laws.

(c) The Company and/or the Service Recipient may withhold or account for Tax-Related Items by considering statutory withholding rates or other withholding rates, including maximum rates applicable in the Optionee's jurisdiction(s), in which case the Optionee

may receive a refund of any over-withheld amount in cash and will have no entitlement to the equivalent in Stock. If the obligation for Tax-Related Items is satisfied by withholding in shares of Stock, for tax purposes, the Optionee shall be deemed to have been issued the full number of Option Shares subject to the exercised Stock Option, notwithstanding that a number of the Option Shares is held back solely for the purpose of paying the Tax-Related Items.

(d) The Optionee agrees to pay to the Company or the Service Recipient any amount of Tax-Related Items that the Company or the Service Recipient may be required to withhold or account for as a result of the Optionee's participation in the Plan that cannot be satisfied by the means previously described. The Company may refuse to issue or deliver the Option Shares or the proceeds of the sale of the Option Shares acquired upon the exercise of this Stock Option, if the Optionee fails to comply with his or her obligations in connection with the Tax-Related Items.

7. No Creation of Service Relationship; No Obligation to Continue Service Relationship. The grant of the Stock Option shall not be interpreted as forming an employment or service agreement with the Company or any Affiliate and shall not be construed as giving the Optionee any right to be retained in the employ of, or otherwise provide services to, the Service Recipient or any other Affiliate. Neither the Plan nor this Agreement shall interfere in any way with the right of the Company or the Service Recipient, as applicable, to terminate the Service Relationship of the Optionee at any time.

8. Nature of Grant. In accepting this Stock Option, the Optionee acknowledges, understands, and agrees that:

(a) the Plan is established voluntarily by the Company, it is discretionary in nature and may be amended, suspended or terminated by the Company at any time, to the extent permitted by the Plan;

(b) the grant of this Stock Option is exceptional, voluntary and occasional and does not create any contractual or other right to receive future grants of stock options, or benefits in lieu of stock options, even if stock options have been granted in the past;

(c) all decisions with respect to future stock option or other grants, if any, will be at the sole discretion of the Company;

(d) the Optionee is voluntarily participating in the Plan;

(e) this Stock Option and any shares of Stock subject to this Stock Option, and the income from and value of same, are not intended to replace any pension rights or compensation;

(f) unless otherwise agreed with the Company, this Stock Option and the shares of Stock subject to this Stock Option, and the income from and value of same, are not granted as consideration for, or in connection with, the service the Optionee may provide as a director of an Affiliate;

(g) this Stock Option and any shares of Stock subject to this Stock Option, and the income from and value of same, are not part of normal or expected compensation for the purposes of, including, without limitation, calculating any severance, resignation, termination, redundancy, dismissal, end-of-service payments, bonuses, long-service awards, holiday pay, pension or retirement or welfare benefits or similar mandatory payments;

(h) the future value of the shares of Stock underlying this Stock Option is unknown, indeterminable, and cannot be predicted with certainty;

(i) if the underlying shares of Stock subject to this Stock Option do not increase in value, this Stock Option will have no value;

(j) if the Optionee exercises this Stock Option and acquires shares of Stock, the value of such shares of Stock may increase or decrease, even below the Option Exercise Price per Share;

(k) for purposes of this Stock Option, the Optionee's Service Relationship will be considered terminated as of the date the Optionee is no longer actively providing services to the Company or any Affiliate (regardless of the reason for such termination and whether or not later found to be invalid or in breach of labor laws in the jurisdiction where the Optionee provides services or the terms of the Optionee's employment or other service agreement, if any), and unless otherwise determined by the Company, the Optionee's right to vest in this Stock Option, if any, will terminate and the Optionee's right to exercise any vested Stock Option will be measured as of such date and, in either case, will not be extended by any notice period (*e.g.*, the Optionee's period of service would not include any contractual notice period or any period of "garden leave" or similar period mandated under labor laws in the jurisdiction where the Optionee provides service or the terms of the Optionee's employment or other service agreement, if any); the Administrator shall have the exclusive discretion to determine when the Optionee is no longer actively providing services for purposes of this Stock Option (including whether the Optionee may still be considered to be providing services while on a leave of absence);

(l) no claim or entitlement to compensation or damages shall arise from forfeiture of this Stock Option resulting from the termination of the Optionee's Service Relationship (for any reason whatsoever, whether or not later found to be invalid or in breach of labor laws in the jurisdiction where the Optionee provides services or the terms of the Optionee's employment or other service agreement, if any); and

(m) unless otherwise provided in the Plan or by the Company in its discretion, this Stock Option and the benefits evidenced by this Agreement do not create any entitlement to have this Stock Option or any such benefits transferred to, or assumed by, another company nor to be exchanged, cashed out or substituted for, in connection with any corporate transaction affecting the shares of Stock.

9. Integration. This Agreement constitutes the entire agreement between the parties with respect to this Stock Option and supersedes all prior agreements and discussions between the parties concerning such subject matter.

10. Data Privacy. In order to administer the Plan and this Agreement and to implement or structure future equity grants, the Company, its Affiliates and certain agents thereof (together, the "Relevant Companies") may process any and all personal or professional data, including but not limited to Social Security or other identification number, home address and telephone number, date of birth and other information that is necessary or desirable for the administration of the Plan and/or this Agreement (the "Relevant Information"). The Company will process the Relevant Information as needed to administer the Plan and this Agreement. Please refer to the Company's Global Staff Privacy Notice for additional information.

11. Compliance with Law. Notwithstanding any other provision of the Plan or this Agreement, unless there is an available exemption from any registration, qualification or other legal requirement applicable to the shares of Stock, the Company shall not be required to deliver any shares of Stock issuable upon exercise of this Stock Option prior to the completion of any registration or qualification of the Stock under any U.S. or non-U.S. local, state or federal securities or other applicable law or under rulings or regulations of the U.S. Securities and Exchange Commission ("SEC") or of any other U.S. or non-U.S. governmental regulatory body, or prior to obtaining any approval or other clearance from any U.S. or non-U.S. local, state or federal governmental agency, which registration, qualification or approval the Company shall, in its absolute discretion, deem necessary or advisable. The Optionee understands that the Company is under no obligation to register or qualify the shares of Stock subject to this Stock Option with the SEC or any U.S. state or non-U.S. securities commission or to seek approval or clearance from any governmental authority for the issuance or sale of the Stock. Further, the Optionee agrees that the Company shall have unilateral authority to amend the Plan and this Agreement without the Optionee's consent to the extent necessary to comply with securities or other laws applicable to the issuance of the shares of Stock.

12. Appendix. Notwithstanding any provision in this Global Stock Option Agreement, this Stock Option shall be subject to the additional general terms and conditions for Optionees in countries outside the United States as well as any special terms and conditions for the Optionee's country, all as set forth in the Appendix attached hereto. If the Optionee transfers from the United States to a country outside the United States, or if the Optionee relocates between countries included in the Appendix during the life of this Stock Option, the applicable terms and conditions in the Appendix shall apply to the Optionee, to the extent the Company determines that the application of such terms and conditions is necessary or advisable for legal or administrative reasons. The Appendix constitutes part of this Agreement.

13. Notices. Notices hereunder shall be mailed or delivered to the Company at its principal place of business, with a copy to legalnotices@dynatrace.com, and shall be mailed or delivered to the Optionee at the address on file with the Company or, in either case, at such other address as one party may subsequently furnish to the other party in writing.

14. Waivers. The Optionee acknowledges that a waiver by the Company of breach of any provision of this Agreement shall not operate or be construed as a waiver of any other provision of this Agreement, or of any subsequent breach by the Optionee or any other optionees.

15. Governing Law. This Agreement shall be governed by, and construed in accordance with, the laws of the State of Delaware, without giving effect to any choice of law or conflict of law rules or provisions (whether of the State of Delaware or any other jurisdiction) that would cause the application of the laws of any jurisdiction other than the State of Delaware.

16. Consent to Jurisdiction. EACH OF THE PARTIES IRREVOCABLY SUBMITS TO THE EXCLUSIVE JURISDICTION OF THE COURT OF CHANCERY OF THE STATE OF DELAWARE, OR, TO THE EXTENT THE COURT OF CHANCERY DOES NOT HAVE SUBJECT MATTER JURISDICTION, THE UNITED STATES DISTRICT COURT FOR THE DISTRICT OF DELAWARE, AND THE APPELLATE COURTS HAVING JURISDICTION OF APPEALS IN SUCH COURTS FOR THE PURPOSES OF ANY SUIT, ACTION OR OTHER PROCEEDING ARISING OUT OF THIS AGREEMENT. EACH OF THE PARTIES HERETO FURTHER AGREES THAT SERVICE OF ANY PROCESS, SUMMONS, NOTICE OR DOCUMENT BY U.S. REGISTERED MAIL OR ITS FOREIGN EQUIVALENT TO SUCH PARTY'S RESPECTIVE ADDRESS SHALL BE EFFECTIVE SERVICE OF PROCESS FOR ANY ACTION, SUIT OR PROCEEDING WITH RESPECT TO ANY MATTERS TO WHICH IT HAS SUBMITTED TO JURISDICTION IN THIS SECTION. EACH OF THE PARTIES HERETO IRREVOCABLY AND UNCONDITIONALLY WAIVES ANY OBJECTION TO THE LAYING OF VENUE OF ANY ACTION, SUIT OR PROCEEDING ARISING OUT OF THIS AGREEMENT IN DELAWARE, AND FURTHER IRREVOCABLY AND UNCONDITIONALLY WAIVES AND AGREES NOT TO PLEAD OR CLAIM IN ANY SUCH COURT THAT ANY SUCH ACTION, SUIT OR PROCEEDING BROUGHT IN ANY SUCH COURT HAS BEEN BROUGHT IN AN INCONVENIENT FORUM.

17. Severability. The provisions of this Agreement are severable and if any one or more provisions are determined to be illegal or otherwise unenforceable, in whole or in part, the remaining provisions shall nevertheless be binding and enforceable.

18. Imposition of Other Requirements. The Company reserves the right to impose other requirements on this Stock Option and the Option Shares acquired upon exercise of this Stock Option, to the extent the Company determines it is necessary or advisable for legal or administrative reasons, and to require the Optionee to enter into any additional agreements or undertakings that may be necessary to accomplish the foregoing.

19. Electronic Delivery and Acceptance. The Company may, in its sole discretion, decide to deliver any documents related to current or future participation in the Plan by electronic means. The Optionee hereby consents to receive such documents by electronic delivery and agrees to accept this Agreement or otherwise participate in the Plan in the future through an on-line or electronic system established and maintained by the Company or a third party designated by the Company.

By: _____

**GLOBAL RESTRICTED STOCK AWARD AGREEMENT
UNDER THE DYNATRACE, INC.
2019 EQUITY INCENTIVE PLAN**

Name of Grantee: _____

No. of Shares: _____

Grant Date: _____

Compuware Parent, LLC ("Parent") has previously granted to the Grantee named above certain management incentive units ("MIUs"). In connection with Parent's spin-off transactions, certain outstanding MIUs, including MIUs granted to the Grantee, are exchanged for restricted stock awards for shares of Common Stock, par value \$0.001 (the "Stock") of Dynatrace, Inc. (the "Company").

Accordingly, to effect the exchange, the Company hereby grants a Restricted Stock Award (an "Award") to the Grantee. Upon acceptance of this Award, the Grantee shall receive the number of shares of Stock specified above, subject to the restrictions and conditions set forth in the Dynatrace, Inc. 2019 Equity Incentive Plan, as amended through the date hereof (the "Plan"), and in this Global Restricted Stock Award Agreement, including the additional general terms and conditions for Grantees in countries outside the United States and any applicable terms and conditions for the Grantee's country set forth in the Appendix attached hereto (the "Appendix" and, together, the "Agreement"). By accepting this Award, the Grantee acknowledges that the MIUs are terminated and that the Grantee shall have no further right to the MIUs or any other award from Parent. Capitalized terms in this Agreement shall have the meaning specified in the Plan, unless a different meaning is specified herein.

1. Award. The shares of Restricted Stock awarded hereunder shall be issued and held by the Company's transfer agent in book entry form, and the Grantee's name shall be entered as the stockholder of record on the books of the Company. Thereupon, the Grantee shall have all the rights of a stockholder with respect to such shares, including voting and dividend rights, subject, however, to the restrictions and conditions specified in Paragraph 2 below. The Grantee shall (i) accept this Agreement pursuant to the Company's instructions, which may include an online acceptance process and (ii) deliver to the Company a stock power endorsed in blank.

2. Restrictions and Conditions.

(a) Any book entries for the shares of Restricted Stock granted herein shall bear an appropriate legend, as determined by the Administrator in its sole discretion, to the effect that such shares are subject to restrictions as set forth herein and in the Plan.

(b) Shares of Restricted Stock granted herein may not be sold, assigned, transferred, pledged or otherwise encumbered or disposed of by the Grantee prior to vesting.

(c) If the Grantee's Service Relationship is voluntarily or involuntarily terminated for any reason (including death) prior to vesting of shares of Restricted Stock granted herein, all shares of Restricted Stock, to the extent not yet vested as of the date of termination, shall immediately and automatically be forfeited and returned to the Company.

3. Vesting of Restricted Stock. The restrictions and conditions in Paragraph 2 of this Agreement shall lapse on the Vesting Date or Dates specified in Schedule 1 attached hereto so long as the Grantee remains in a Service Relationship with the Company or a Subsidiary on such Dates. If a series of Vesting Dates is specified, then the restrictions and conditions in Paragraph 2 shall lapse only with respect to the number of shares of Restricted Stock specified as vested on such date.

Subsequent to such Vesting Date or Dates, the shares of Stock on which all restrictions and conditions have lapsed shall no longer be deemed Restricted Stock. The Administrator may at any time accelerate the vesting schedule specified in this Paragraph 3.

4. Dividends. Dividends on shares of Restricted Stock shall be paid currently to the Grantee.

5. Incorporation of Plan. Notwithstanding anything herein to the contrary, this Award shall be subject to and governed by all the terms and conditions of the Plan, including the powers of the Administrator set forth in Section 2(b) of the Plan. In the event of a conflict between the general terms and conditions of the Plan and this Agreement, the terms and conditions of the Plan shall prevail. However, this Agreement sets out specific terms for this Award, and those terms will prevail over more general terms in the Plan on the same issue, if any, or in the event of a conflict between such terms.

6. Transferability. This Agreement is personal to the Grantee, is non-assignable and is not transferable in any manner, by operation of law or otherwise, other than by will or the laws of descent and distribution.

7. Responsibility for Taxes.

(a) The Grantee acknowledges that, regardless of any action taken by the Company and/or, if different, the Affiliate which employs the Grantee or for which the Grantee otherwise provides services (the "Service Recipient"), the ultimate liability for all income tax, social insurance, payroll tax, fringe benefits tax, payment on account or other tax related items related to the Grantee's participation in the Plan and legally applicable to the Grantee ("Tax-Related Items") is and remains the Grantee's responsibility and may exceed the amount, if any, actually withheld by the Company or the Service Recipient. The Grantee further acknowledges that the Company and/or the Service Recipient (i) make no representations or undertakings regarding the treatment of any Tax-Related Items in connection with any aspect of the Award, including, but not limited to, the grant or vesting of the Award, the subsequent sale of shares of Stock and the receipt of any dividends; and (ii) do not commit to and are under no obligation to structure or administer the terms of the grant or any aspect of the Award to reduce or eliminate the Grantee's liability for Tax-Related Items or achieve any particular tax result. Further, if the Grantee is subject to Tax-Related Items in more than one jurisdiction, the Grantee acknowledges that the Company and/or the Service Recipient (or former Service Recipient, as applicable) may be required to withhold or account for Tax-Related Items in more than one jurisdiction.

(b) Prior to any relevant taxable or tax withholding event, as applicable, the Grantee agrees to make adequate arrangements satisfactory to the Company and/or the Service Recipient to satisfy all Tax-Related Items. In this regard, the Grantee authorizes the Company and/or the Service Recipient, or their respective agents, at their discretion, to satisfy any applicable withholding obligations with regard to all Tax-Related Items by one or a combination of the following: (i) withholding from the Grantee's wages or other cash compensation paid to the Grantee by the Company and/or the Service Recipient; (ii) withholding from proceeds of the sale of shares of Stock either through a voluntary sale or through a mandatory sale arranged by the Company (on the Grantee's behalf pursuant to this authorization without further consent); (iii) withholding from shares of Stock; or (iv) any other method of withholding determined by the Company and permitted by applicable laws.

(c) The Company and/or the Service Recipient may withhold or account for Tax-Related Items by considering statutory withholding rates or other withholding rates, including maximum rates applicable in the Grantee's jurisdiction(s), in which case the Grantee may receive a refund of any over-withheld amount in cash and will have no entitlement to the equivalent amount in Stock. If the obligation for Tax-Related Items is satisfied by withholding in shares of Stock, for tax purposes, the Grantee shall be deemed to have been issued the full number of shares of Stock, notwithstanding that a number of the shares of Stock are held back solely for the purpose of paying the Tax-Related Items.

(d) The Grantee agrees to pay to the Company or the Service Recipient any amount of Tax-Related Items that the Company or the Service Recipient may be required to withhold or account for as a result of the Grantee's participation in the Plan that cannot be satisfied by the means previously described. The Company may refuse to issue or deliver the shares of Stock, or the proceeds of the sale of shares of Stock, if the Grantee fails to comply with his or her obligations in connection with the Tax-Related Items.

8. Election Under Section 83(b). To the extent the Grantee is a U.S. taxpayer, the Grantee and the Company hereby agree that the Grantee may, within 30 days following the Grant Date of this Award, file with the U.S. Internal Revenue Service and the Company an election under Section 83(b) of the Code. In the event the Grantee makes such an election, he or she agrees to provide a copy of the election to the Company. The Grantee acknowledges that he or she is responsible for obtaining the advice of his or her tax advisors with regard to the Section 83(b) election and that he or she is relying solely on such advisors and not on any statements or representations of the Company or any of its agents with regard to such election.

9. No Creation of Service Relationship; No Obligation to Continue Service Relationship. The grant of this Award shall not be interpreted as forming an employment or service agreement with the Company or any Affiliate and shall not be construed as giving the Grantee the right to remain in a Service Relationship. Neither the Plan nor this Agreement shall interfere in any way with the right of the Company or the Service Recipient, as applicable, to terminate the Service Relationship of the Grantee at any time.

10. Nature of Grant. In accepting the Award, the Grantee acknowledges, understands and agrees that:

(a) the Plan is established voluntarily by the Company, it is discretionary in nature and may be amended, suspended or terminated by the Company at any time, to the extent permitted by the Plan;

(b) the Award is exceptional and occasional and does not create any contractual or other right to receive future grants of Restricted Stock Awards, or benefits in lieu of Restricted Stock Awards, even if Restricted Stock Awards have been granted in the past;

(c) all decisions with respect to future Restricted Stock Awards or other grants, if any, will be at the sole discretion of the Company;

(d) the Restricted Stock Awards, and the income from and value of same, are not intended to replace any pension rights or compensation;

(e) unless otherwise agreed with the Company, the Restricted Stock Awards, and the income from and value of same, are not granted as consideration for, or in connection with, the service the Grantee may provide as a director of an Affiliate;

(f) the Restricted Stock Awards, and the income from and value of same, are not part of normal or expected compensation for the purposes of, including, without limitation, calculating any severance, resignation, termination, redundancy, dismissal, end-of-service payments, bonuses, long-service awards, holiday pay, pension or retirement or welfare benefits or similar mandatory payments;

(g) the future value of the shares of Stock is unknown, indeterminable, and cannot be predicted with certainty;

(h) for purposes of the Award, the Grantee's Service Relationship will be considered terminated as of the date the Grantee is no longer actively providing services to the Company or any Affiliate (regardless of the reason for such termination and whether or not later found to be invalid or in breach of labor laws in the jurisdiction where the Grantee provides services or the terms of the Grantee's employment or other service agreement, if any), and unless otherwise determined by the Company, the Grantee's right to vest in the Award, if any, will terminate as of such date and will not be extended by any notice period (e.g., the Grantee's period of service would not include any contractual notice period or any period of "garden leave" or similar period mandated under labor laws in the jurisdiction where the Grantee provides services or the terms of the Grantee's employment or other service agreement, if any). The Administrator shall have the exclusive discretion to determine when the Grantee is no longer actively providing services for purposes of the Award (including whether the Grantee may still be considered to be providing services while on a leave of absence);

(i) no claim or entitlement to compensation or damages shall arise from forfeiture of the Restricted Stock Awards resulting from the termination of the Grantee's Service Relationship (for any reason whatsoever, whether or not later found to be invalid or in breach of labor laws in the jurisdiction where the Grantee provides services or the terms of the Grantee's employment or other service agreement, if any); and

(j) unless otherwise provided in the Plan or by the Company in its discretion, the Restricted Stock Awards and the benefits evidenced by this Agreement do not create any entitlement to have the Restricted Stock Awards or any such benefits transferred to, or assumed by, another company nor to be exchanged, cashed out or substituted for, in connection with any corporate transaction affecting the shares of Stock of the Company.

11. Integration. This Agreement constitutes the entire agreement between the parties with respect to this Award and supersedes all prior agreements and discussions between the parties concerning such subject matter.

12. Data Privacy. In order to administer the Plan and this Agreement and to implement or structure future equity grants, the Company, its Affiliates and certain agents thereof (together, the "Relevant Companies") may process any and all personal or professional data, including but not limited to Social Security or other identification number, home address and telephone number, date of birth and other information that is necessary or desirable for the administration of the Plan and/or this Agreement (the "Relevant Information"). The Company will process the Relevant Information as needed to administer the Plan and this Agreement. Please refer to the Company's Global Staff Privacy Notice for additional information.

13. Compliance with Law. Notwithstanding any other provision of the Plan or this Agreement, unless there is an available exemption from any registration, qualification or other legal requirement applicable to the shares of Stock, the Company shall not be required to deliver any shares of Stock in connection with the Award prior to the completion of any registration or qualification of the Stock under any local, state, federal or foreign securities or exchange control law or under rulings or regulations of the U.S. Securities and Exchange Commission ("SEC") or of any other governmental regulatory body, or prior to obtaining any approval or other clearance from any local, state, federal or foreign governmental agency, which registration, qualification or approval the Company shall, in its absolute discretion, deem necessary or advisable. The Grantee understands that the Company is under no obligation to register or qualify the shares of Stock subject to the Award with the SEC or any state or foreign securities commission or to seek approval or clearance from any governmental authority for the issuance or sale of the Stock. Further, the Grantee agrees that the Company shall have unilateral authority to amend the Plan and this Agreement without the Grantee's consent to the extent necessary to comply with securities or other laws applicable to the Award.

14. Appendix. Notwithstanding any provision in this Global Restricted Stock Award Agreement, the Restricted Stock shall be subject to the additional general terms and conditions for Grantees in countries outside the United States as well as any special terms and conditions for the Grantee's country, all as set forth in the Appendix attached hereto. If the Grantee transfers from the United States to a country outside the United States, or if the Grantee relocates between countries included in the Appendix during the life of the Restricted Stock, the applicable terms and conditions in the Appendix shall apply to the Grantee, to the extent the Company determines that the application of such terms and conditions is necessary or advisable for legal or administrative reasons.

15. Notices. Notices hereunder shall be mailed or delivered to the Company at its principal place of business, with a copy to legalnotices@dynatrace.com, and shall be mailed or delivered to the Grantee at the address on file with the Company or, in either case, at such other address as one party may subsequently furnish to the other party in writing.

16. Waivers. The Grantee acknowledges that a waiver by the Company of breach of any provision of this Agreement shall not operate or be construed as a waiver of any other provision of this Agreement, or of any subsequent breach by the Grantee or any other grantees.

17. Governing Law. This Agreement shall be governed by, and construed in accordance with, the laws of the State of Delaware, without giving effect to any choice of law or conflict of law rules or provisions (whether of the State of Delaware or any other jurisdiction) that would cause the application of the laws of any jurisdiction other than the State of Delaware.

18. Consent to Jurisdiction. EACH OF THE PARTIES IRREVOCABLY SUBMITS TO THE EXCLUSIVE JURISDICTION OF THE COURT OF CHANCERY OF THE STATE OF DELAWARE, OR, TO THE EXTENT THE COURT OF CHANCERY DOES NOT HAVE SUBJECT MATTER JURISDICTION, THE UNITED STATES DISTRICT COURT FOR THE DISTRICT OF DELAWARE, AND THE APPELLATE COURTS HAVING JURISDICTION OF APPEALS IN SUCH COURTS FOR THE PURPOSES OF ANY SUIT, ACTION OR OTHER PROCEEDING ARISING OUT OF ANY EXCHANGE NOTICE, THIS AGREEMENT OR ANY OTHER RELATED AGREEMENT. EACH OF THE PARTIES HERETO FURTHER AGREES THAT SERVICE OF ANY PROCESS, SUMMONS, NOTICE OR DOCUMENT BY U.S. REGISTERED MAIL OR ITS FOREIGN EQUIVALENT TO SUCH PARTY'S RESPECTIVE ADDRESS SHALL BE EFFECTIVE SERVICE OF PROCESS FOR ANY ACTION, SUIT OR PROCEEDING WITH RESPECT TO ANY MATTERS TO WHICH IT HAS SUBMITTED TO JURISDICTION IN THIS PARAGRAPH. EACH OF THE PARTIES HERETO IRREVOCABLY AND UNCONDITIONALLY WAIVES ANY OBJECTION TO THE LAYING OF VENUE OF ANY ACTION, SUIT OR PROCEEDING ARISING OUT OF ANY EXCHANGE NOTICE, THIS AGREEMENT OR ANY OTHER RELATED DOCUMENT IN DELAWARE, AND FURTHER IRREVOCABLY AND UNCONDITIONALLY WAIVES AND AGREES NOT TO PLEAD OR CLAIM IN ANY SUCH COURT THAT ANY SUCH ACTION, SUIT OR PROCEEDING BROUGHT IN ANY SUCH COURT HAS BEEN BROUGHT IN AN INCONVENIENT FORUM.

19. Severability. The provisions of this Agreement are severable and if any one or more provisions are determined to be illegal or otherwise unenforceable, in whole or in part, the remaining provisions shall nevertheless be binding and enforceable.

20. Imposition of Other Requirements. The Company reserves the right to impose other requirements on this Award, to the extent the Company determines it is necessary or advisable for legal or administrative reasons, and to require the Grantee to enter into any additional agreements or undertakings that may be necessary to accomplish the foregoing.

21. Electronic Delivery and Acceptance. The Company may, in its sole discretion, decide to deliver any documents related to current or future participation in the Plan by electronic means. The Grantee hereby consents to receive such documents by electronic delivery

and agrees to accept this Agreement or otherwise participate in the Plan in the future through an on-line or electronic system established and maintained by the Company or a third party designated by the Company.

DYNATRACE, INC.

By: _____

**GLOBAL RESTRICTED STOCK UNIT AWARD AGREEMENT
UNDER THE DYNATRACE, INC.
2019 EQUITY INCENTIVE PLAN**

Name of Grantee: _____

No. of Restricted Stock Units: _____

Grant Date: _____

Pursuant to the Dynatrace, Inc. 2019 Equity Incentive Plan as amended through the date hereof (the "Plan"), Dynatrace, Inc. (the "Company") hereby grants an award of the number of Restricted Stock Units listed above (an "Award") to the Grantee named above, subject to the restrictions and conditions set forth herein, including the additional general terms and conditions for Grantees in countries outside the United States and any special terms and conditions for the Grantee's country, all as set forth in the Appendix attached hereto (the "Appendix" and, together, the "Agreement"), and in the Plan. Each Restricted Stock Unit shall relate to one share of Common Stock, par value \$0.001 per share (the "Stock") of the Company. Capitalized terms in this Agreement shall have the meaning specified in the Plan, unless a different meaning is specified herein.

1. Restrictions on Transfer of Award. This Award may not be sold, transferred, pledged, assigned or otherwise encumbered or disposed of by the Grantee, and any shares of Stock issuable with respect to the Award may not be sold, transferred, pledged, assigned or otherwise encumbered or disposed of until (i) the Restricted Stock Units have vested as provided in Paragraph 2 of this Agreement and (ii) shares of Stock have been issued to the Grantee in accordance with the terms of the Plan and this Agreement.

2. Vesting of Restricted Stock Units. The restrictions and conditions of Paragraph 1 of this Agreement shall lapse on the Vesting Date or Dates specified in Schedule 1 attached hereto, so long as the Grantee remains in a Service Relationship on such Dates. If a series of Vesting Dates is specified, then the restrictions and conditions in Paragraph 1 shall lapse only with respect to the number of Restricted Stock Units specified as vested on such date.

The Administrator may at any time accelerate the vesting schedule specified in this Paragraph 2.

3. Termination of Service Relationship. If the Grantee's Service Relationship terminates for any reason (including death or disability) prior to the satisfaction of the vesting conditions set forth in Paragraph 2 above, any Restricted Stock Units that have not vested as of such date shall automatically and without notice terminate and be forfeited, and neither the Grantee nor any of his or her successors, heirs, assigns, or personal representatives will thereafter have any further rights or interests in such unvested Restricted Stock Units.

4. Issuance of Shares of Stock. As soon as practicable following each Vesting Date (but in no event later than two and one-half months after the end of the calendar year in which the Vesting Date occurs), the Company shall issue to the Grantee the number of shares of Stock equal to the aggregate number of Restricted Stock Units that have vested pursuant to Paragraph 2 of this Agreement on such date and the Grantee shall thereafter have all the rights of a stockholder of the Company with respect to such shares.

5. Incorporation of Plan. Notwithstanding anything herein to the contrary, this Agreement shall be subject to and governed by all the terms and conditions of the Plan, including the powers of the Administrator set forth in Section 2(b) of the Plan. In the event of a conflict between the general terms and conditions of the Plan and this Agreement, the terms and conditions of the Plan shall prevail. However, this Agreement sets out specific terms for the Award, and those terms will prevail over more general terms in the Plan on the same issue, if any, or in the event of a conflict between such terms.

6. Responsibility for Taxes.

(a) The Grantee acknowledges that, regardless of any action taken by the Company and/or, if different, the Affiliate which employs the Grantee or for which the Grantee otherwise provides services (the "Service Recipient"), the ultimate liability for all income tax, social insurance, payroll tax, fringe benefits tax, payment on account or other tax related items related to the Grantee's participation in the Plan and legally applicable to the Grantee ("Tax-Related Items") is and remains the Grantee's responsibility and may exceed the amount, if any, actually withheld by the Company or the Service Recipient. The Grantee further acknowledges that the Company and/or the Service Recipient (i) make no representations or undertakings regarding the treatment of any Tax-Related Items in connection with any aspect of the Award, including, but not limited to, the grant, vesting or settlement of the Restricted Stock Units, the subsequent sale of shares of Stock acquired pursuant to such settlement and the receipt of any dividends; and (ii) do not commit to and are under no obligation to structure or administer the terms of the grant or any aspect of the Restricted Stock Units to reduce or eliminate the Grantee's liability for Tax-Related Items or achieve any particular tax result. Further, if the Grantee is subject to Tax-Related Items in more than one jurisdiction, the Grantee acknowledges that the Company and/or the Service Recipient (or former Service Recipient, as applicable) may be required to withhold or account for Tax-Related Items in more than one jurisdiction.

(b) Prior to any relevant taxable or tax withholding event, as applicable, the Grantee agrees to make adequate arrangements satisfactory to the Company and/or the Service Recipient to satisfy all Tax-Related Items. In this regard, the Grantee authorizes the Company and/or the Service Recipient, or their respective agents, at their discretion, to satisfy any applicable withholding obligations with regard to all Tax-Related Items by one or a combination of the following: (i) withholding from the Grantee's wages or other cash compensation paid to the Grantee by the Company and/or the Service Recipient; (ii) withholding from proceeds of the sale of shares of Stock acquired upon settlement of the Restricted Stock Units either through a voluntary sale or through a mandatory sale arranged by the Company (on the Grantee's behalf pursuant to this authorization without further consent); (iii) withholding from shares of Stock to be issued to the Grantee upon settlement of the Restricted Stock Units; or (iv) any other method of withholding determined by the Company and permitted by applicable laws.

(c) The Company and/or the Service Recipient may withhold or account for Tax-Related Items by considering statutory withholding rates or other withholding rates, including maximum rates applicable in the Grantee's jurisdiction(s), in which case the Grantee may receive a refund of any over-withheld amount in cash and will have no entitlement to the equivalent amount in Stock. If the obligation for Tax-Related Items is satisfied by withholding in shares of Stock, for tax purposes, the Grantee shall be deemed to have been issued the full number of shares of Stock subject to the vested Restricted Stock Units, notwithstanding that a number of the shares of Stock are held back solely for the purpose of paying the Tax-Related Items.

(d) The Grantee agrees to pay to the Company or the Service Recipient any amount of Tax-Related Items that the Company or the Service Recipient may be required to withhold or account for as a result of the Grantee's participation in the Plan that cannot be satisfied by the means previously described. The Company may refuse to issue or deliver the shares of Stock, or the proceeds of the sale of shares of Stock, if the Grantee fails to comply with his or her obligations in connection with the Tax-Related Items.

7. Section 409A of the Code. To the extent the Grantee is a U.S. taxpayer, this Agreement shall be interpreted in such a manner that all provisions relating to the settlement of the Award are exempt from the requirements of Section 409A of the Code as "short-term deferrals" as described in Section 409A of the Code.

8. No Creation of Service Relationship; No Obligation to Continue Service Relationship. The grant of the Award shall not be interpreted as forming an employment or service agreement with the Company or any Affiliate and shall not be construed as giving the Grantee the right to remain in a Service Relationship. Neither the Plan nor this Agreement shall interfere in any way with the right of the Company or the Service Recipient, as applicable, to terminate the Service Relationship of the Grantee at any time.

9. Nature of Grant. In accepting the Award, the Grantee acknowledges, understands and agrees that:

(a) the Plan is established voluntarily by the Company, it is discretionary in nature and may be amended, suspended or terminated by the Company at any time, to the extent permitted by the Plan;

(b) the Award is exceptional, voluntary and occasional and does not create any contractual or other right to receive future grants of Restricted Stock Units, or benefits in lieu of Restricted Stock Units, even if Restricted Stock Units have been granted in the past;

(c) all decisions with respect to future Restricted Stock Units or other grants, if any, will be at the sole discretion of the Company;

(d) the Grantee is voluntarily participating in the Plan;

(e) the Restricted Stock Units and any shares of Stock subject to the Restricted Stock Units, and the income from and value of same, are not intended to replace any pension rights or compensation;

(f) unless otherwise agreed with the Company, the Restricted Stock Units and the shares of Stock subject to the Restricted Stock Units, and the income from and value of same, are not granted as consideration for, or in connection with, the service the Grantee may provide as a director of an Affiliate;

(g) the Restricted Stock Units and any shares of Stock subject to the Restricted Stock Units, and the income from and value of same, are not part of normal or expected compensation for the purposes of, including, without limitation, calculating any severance, resignation, termination, redundancy, dismissal, end-of-service payments, bonuses, long-service awards, holiday pay, pension or retirement or welfare benefits or similar mandatory payments;

(h) the future value of the shares of Stock underlying the Restricted Stock Units is unknown, indeterminable, and cannot be predicted with certainty;

(i) for purposes of the Award, the Grantee's Service Relationship will be considered terminated as of the date the Grantee is no longer actively providing services to the Company or any Affiliate (regardless of the reason for such termination and whether or not later found to be invalid or in breach of labor laws in the jurisdiction where the Grantee provides services or the terms of the Grantee's employment or other service agreement, if any), and unless otherwise determined by the Company, the Grantee's right to vest in the Award, if any, will terminate as of such date and will not be extended by any notice period (e.g., the Grantee's period of service would not include any contractual notice period or any period of "garden leave" or similar period mandated under labor laws in the jurisdiction where the Grantee provides services or the terms of the Grantee's employment or other service agreement, if any). The Administrator shall have the exclusive discretion to determine when the Grantee is no longer actively providing services for purposes of the Award (including whether the Grantee may still be considered to be providing services while on a leave of absence);

(j) no claim or entitlement to compensation or damages shall arise from forfeiture of the Restricted Stock Units resulting from the termination of the Grantee's Service Relationship (for any reason whatsoever, whether or not later found to be invalid or in breach of labor laws in the jurisdiction where the Grantee provides services or the terms of the Grantee's employment or other service agreement, if any); and

(k) unless otherwise provided in the Plan or by the Company in its discretion, the Restricted Stock Units and the benefits evidenced by this Agreement do not create any entitlement to have the Restricted Stock Units or any such benefits transferred to, or assumed by, another company nor to be exchanged, cashed out or substituted for, in connection with any corporate transaction affecting the shares of Stock of the Company.

10. Integration. This Agreement constitutes the entire agreement between the parties with respect to this Award and supersedes all prior agreements and discussions between the parties concerning such subject matter.

11. Data Privacy. In order to administer the Plan and this Agreement and to implement or structure future equity grants, the Company, its Affiliates and certain agents thereof (together, the "Relevant Companies") may process any and all personal or professional data, including but not limited to Social Security or other identification number, home address and telephone number, date of birth and other information that is necessary or desirable for the

administration of the Plan and/or this Agreement (the "Relevant Information"). The Company will process the Relevant Information as needed to administer the Plan and this Agreement. Please refer to the Company's Global Staff Privacy Notice for additional information.

12. Compliance with Law. Notwithstanding any other provision of the Plan or this Agreement, unless there is an available exemption from any registration, qualification or other legal requirement applicable to the shares of Stock, the Company shall not be required to deliver any shares of Stock issuable upon settlement of the Award prior to the completion of any registration or qualification of the Stock under any local, state, federal or foreign securities or exchange control law or under rulings or regulations of the U.S. Securities and Exchange Commission ("SEC") or of any other governmental regulatory body, or prior to obtaining any approval or other clearance from any local, state, federal or foreign governmental agency, which registration, qualification or approval the Company shall, in its absolute discretion, deem necessary or advisable. The Grantee understands that the Company is under no obligation to register or qualify the shares of Stock subject to the Award with the SEC or any state or foreign securities commission or to seek approval or clearance from any governmental authority for the issuance or sale of the Stock. Further, the Grantee agrees that the Company shall have unilateral authority to amend the Plan and this Agreement without the Grantee's consent to the extent necessary to comply with securities or other laws applicable to the issuance of the Stock.

13. Appendix. Notwithstanding any provision in this Global Restricted Stock Unit Award Agreement, the Restricted Stock Units shall be subject to the additional general terms and conditions for Grantees in countries outside the United States as well as any special terms and conditions for the Grantee's country, all as set forth in the Appendix attached hereto. If the Grantee transfers from the United States to a country outside the United States, or if the Grantee relocates between countries included in the Appendix during the life of the Restricted Stock Units, the applicable terms and conditions in the Appendix shall apply to the Grantee, to the extent the Company determines that the application of such terms and conditions is necessary or advisable for legal or administrative reasons.

14. Notices. Notices hereunder shall be mailed or delivered to the Company at its principal place of business, with a copy to legalnotices@dynatrace.com, and shall be mailed or delivered to the Grantee at the address on file with the Company or, in either case, at such other address as one party may subsequently furnish to the other party in writing.

15. Waivers. The Grantee acknowledges that a waiver by the Company of breach of any provision of this Agreement shall not operate or be construed as a waiver of any other provision of this Agreement, or of any subsequent breach by the Grantee or any other grantees.

16. Governing Law. This Agreement shall be governed by, and construed in accordance with, the laws of the State of Delaware, without giving effect to any choice of law or conflict of law rules or provisions (whether of the State of Delaware or any other jurisdiction) that would cause the application of the laws of any jurisdiction other than the State of Delaware.

17. Consent to Jurisdiction. EACH OF THE PARTIES IRREVOCABLY SUBMITS TO THE EXCLUSIVE JURISDICTION OF THE COURT OF CHANCERY OF THE STATE OF DELAWARE, OR, TO THE EXTENT THE COURT OF CHANCERY DOES NOT HAVE SUBJECT MATTER JURISDICTION, THE UNITED STATES DISTRICT COURT FOR THE

DISTRICT OF DELAWARE, AND THE APPELLATE COURTS HAVING JURISDICTION OF APPEALS IN SUCH COURTS FOR THE PURPOSES OF ANY SUIT, ACTION OR OTHER PROCEEDING ARISING OUT OF THIS AGREEMENT. EACH OF THE PARTIES HERETO FURTHER AGREES THAT SERVICE OF ANY PROCESS, SUMMONS, NOTICE OR DOCUMENT BY U.S. REGISTERED MAIL OR ITS FOREIGN EQUIVALENT TO SUCH PARTY'S RESPECTIVE ADDRESS SHALL BE EFFECTIVE SERVICE OF PROCESS FOR ANY ACTION, SUIT OR PROCEEDING WITH RESPECT TO ANY MATTERS TO WHICH IT HAS SUBMITTED TO JURISDICTION IN THIS PARAGRAPH. EACH OF THE PARTIES HERETO IRREVOCABLY AND UNCONDITIONALLY WAIVES ANY OBJECTION TO THE LAYING OF VENUE OF ANY ACTION, SUIT OR PROCEEDING ARISING OUT OF THIS AGREEMENT IN DELAWARE, AND FURTHER IRREVOCABLY AND UNCONDITIONALLY WAIVES AND AGREES NOT TO PLEAD OR CLAIM IN ANY SUCH COURT THAT ANY SUCH ACTION, SUIT OR PROCEEDING BROUGHT IN ANY SUCH COURT HAS BEEN BROUGHT IN AN INCONVENIENT FORUM.

18. Severability. The provisions of this Agreement are severable and if any one or more provisions are determined to be illegal or otherwise unenforceable, in whole or in part, the remaining provisions shall nevertheless be binding and enforceable.

19. Imposition of Other Requirements. The Company reserves the right to impose other requirements on the Award and the shares of Stock acquired upon settlement of the Restricted Stock Units, to the extent the Company determines it is necessary or advisable for legal or administrative reasons, and to require the Grantee to enter into any additional agreements or undertakings that may be necessary to accomplish the foregoing.

20. Electronic Delivery and Acceptance. The Company may, in its sole discretion, decide to deliver any documents related to current or future participation in the Plan by electronic means. The Grantee hereby consents to receive such documents by electronic delivery and agrees to accept this Agreement or otherwise participate in the Plan in the future through an on-line or electronic system established and maintained by the Company or a third party designated by the Company.
